Research Advisory Board — W. J. Langmaid.
National Dental Examining Board — R. J. Godfrey.

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:—

1. May not display any sign containing anything other than his name, degrees and profession and in which any letters larger than four inches are used.

2. May not display more than two signs in addition to one at or on his entrance door.

(a) Not more than one of these may be a suspended sign.

(b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.

3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only un-illuminated letters or figures not larger than two inches).

(a) Add to his entrance sign, his office hours.

(b) Add to any sign the words "Open Evenings" and (when an entrance is difficult to find) the words "Entrance on . . ."

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:—

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice. The announcement shall not contain any reference to qualifications, procedure or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be the nature of a display.

2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:

(a) Use private professional cards.

(b) Issue accounts and receipts.

(c) Issue appointment cards.

(d) Mail to his patients recall notices.

(e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice.

SOLICITING ADVERTISING

For the protection of the Profession from solicited advertising, this Board prohibits any Member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

RE LISTING OF DENTISTS IN TELEPHONE DIRECTORIES FOR PROVINCE OF ONTARIO

- (1) No display advertising of any kind.
- (2) No black face listings in the yellow pages.
- (3) No specialists listed under separate group headings.
- (4) Mention of office hours is of no particular value, and is usually used only to increase space, therefore, to be excluded.
- (5) Mention of particular facilities or equipment, such as X-ray, gas extractions etc., not acceptable in either section.
- (6) Black face listings acceptable in white pages.
- (7) Residence listing on yellow pages, as well as on white pages, is acceptable.
- (8) Designation as specialists, i.e., Periodontist, Dental Oral Surgeon, Orthodontist, etc., is acceptable in both yellow and white pages, provided that the dentist is a certified specialist.

Annual Report
of the
Board of Directors

*The Following Is a Condensed Report
of the Business Transacted by the
Board During the Year:*

ROYAL COLLEGE OF DENTAL
SURGEONS OF ONTARIO
1952-1953

**SECRETARY'S REPORT RE. ELECTION
BOARD OF DIRECTORS**

To the Board of Directors.

Gentlemen:

In accordance with the provisions of the Dentistry Act and the By-Laws of this College an election of the Board of Directors for the Royal College of Dental Surgeons of Ontario was held from October to December 1952.

On the twentieth day of October, nominations were called for by circular letter addressed to each member of the College resident in Ontario as of October first.

Valid nominations were received as follows:

- District No. 1 — C. M. Purcell, Pembroke
- 2 — F. H. Dunnett, Brighton
- W. J. Langmaid, Oshawa
- 3 — M. V. J. Keenan, Sudbury
- 4 — R. R. Butler, Toronto
- R. P. Lowery, Toronto
- 5 — M. C. G. Bebee, Owen Sound
- 6 — F. J. Furlong, Windsor
- 7 — R. O. Winn, Kitchener
- 8 — H. M. Morrow, Hamilton

No valid nominations having been received for opposing candidates in Districts Nos. 1, 3, 5, 6, 7 and 8 the nominated candidates were declared elected by acclamation. Elections were necessary in Districts Nos. 2 and 4. On December first ballots were mailed to all qualified electors in Districts Nos. 2 and 4 together with necessary instructions.

The officially appointed scrutineers counted the ballots received on December tenth and made report herewith submitted, indicating that W. J. Langmaid was elected as representative for District No. 2 and R. P. Lowery as representative for District No. 4.

A communication received from the Secretary of the Faculty of Dentistry, states that at a regularly held meeting of the Faculty Council, R. J. Godfrey was elected as representative to the Board by the said Faculty.

Therefore, the duly elected members of the Board of Directors for the ensuing biennial term are:

- District No. 1 — C. M. Purcell, Pembroke
- 2 — W. J. Langmaid, Oshawa
- 3 — M. V. J. Keenan, Sudbury
- 4 — R. P. Lowery, Toronto
- 5 — M. C. G. Bebee, Owen Sound
- 6 — F. J. Furlong, Windsor
- 7 — R. O. Winn, Kitchener
- 8 — H. M. Morrow, Hamilton

Faculty Representative — R. J. Godfrey, Toronto.

The ballots as sealed by the Scrutineers, are herewith presented and should be disposed of by direction of the Board.

DON W. GULLETT, D.D.S.

Secretary.

12 December 1952

District No. 2

Number of ballots received	92
Number of valid ballots	92
Number of invalid ballots	4 Late

The 92 valid ballots were marked as follows:

Dr. Dunnett	42
Dr. Langmaid	50
Showing a majority of 8 for Dr. Langmaid	
Scrutineers:	{ (Sgd.) A. D. A. Mason, D.D.S.
	{ (Sgd.) A. T. Laidlaw

District No. 4

Number of ballots received	304
Number of valid ballots	303
Number of invalid ballots	1 Wrongly marked.

The valid ballots were marked as follows:

Dr. Butler	126
Dr. Lowery	177
Showing a majority of 51 for Dr. Lowery	
Scrutineers:	{ (Sgd.) A. D. A. Mason, D.D.S.
	{ (Sgd.) A. T. Laidlaw

10 December, 1952

REPORT OF PRESIDENT

To the Board of Directors, R.C.D.S.

Gentlemen:

It is the prerogative of the President at the end of each year to comment briefly on the highlights of the past year and this, at the end of my term of office, I am very happy to do.

I would first acknowledge the retirement of two members of this Board who for many years served so well and contributed so much in time, ability, experience and foresight to our deliberations. Their guidance and direction during our meetings will be sorely missed around this table and I cannot resist in paying a sincere tribute in expressed thanks for the service they have so ably rendered and I hope will long be spared to continue, not only to Ontario but throughout Canada. Thank you Stan. Phillips and Harvey Reid and in the same breath, welcome Perc. Lowery and Wes. Langmaid — 'Lang may your lum reek' — and on behalf of every member here may your associations with this Board be pleasant and your expressed thoughts be written in capital letters in the pages of Dental History.

We look forward again to the report of the Dean with more than casual interest particularly because for the first time in Canadian Dental History, this report will announce the completion of the first course for Dental Hygienists and it is not hard to imagine that their services will be eagerly sought after.

The precipitous drop in attendance figures for last year's Extramural clinics was rather surprising in view of the fact that all the Clinicians are outstanding men in their own right and we note with considerable pride, as announced in the monthly staff letter from the Faculty, where these same men have been asked to put on clinics in many of the Provinces across Canada as well as in many of the larger centres in the United States. It is sincerely hoped that the report for this past year will show a marked increase in attendance although I am quite prepared to admit that this drop may not be as serious a criterion as it would appear to be on the surface.

The reports from the Seminars held so far are indeed encouraging and should financial aid be forthcoming, as I believe it may, the continuation of these meetings may prove to be a milestone in the campaign for better dental health being carried on by the energetic and untiring efforts of the Dental Public Health Committee.

While all Committee Chairman have had a successful term of

office I would like to draw to your particular attention the work of the Committee which met with the Workmen's Compensation Board as I have good reason to believe that this report will receive hearty commendation from every dentist in the Province and I recommend, if the Committee has not already done so, that this Board acknowledge with sincere thanks the splendid cooperation shown by the Compensation Board.

Still uppermost in our minds is the apparent lack of progress in providing further facilities for the increase in Dental Personnel and I suggest that this Board continue to exert every effort to alleviate this desperate situation. In this regard I can do no better than quote from the Report of the Ontario Health Survey Committee, Volume 1, Chapter V, last paragraph — "When the output of dentists is considered beside the graph of the increasing population of Ontario, it is evident that many more dentists must be trained each year to meet existing needs for dental care. Loss of Ontario-trained dental personnel to other provinces and to other countries further aggravates an already serious situation."

Our genial and efficient Secretary, Dr. Gullett, continues to be a tower of strength, a pillar of wisdom and an encyclopedia of knowledge and information and I would be remiss indeed if I did not so acknowledge his untiring efforts on behalf of this Board.

Thank you for the honor of being afforded the privilege of serving as your President for the past two years and I bespeak for the newly-elected incumbent to this Chair your continuing loyal support.

All of which is respectfully submitted.

ROY WINN,
President.

Motion: That the Report of the President be received and adopted.
Carried.

REPORT OF REGISTRAR-SECRETARY

Mr. President and Members of the Board:

This is the 196th Meeting of the Board. The first Meeting was held in the year 1868. There are listed 31 Past Presidents of which 13 are living. The present year is the 85th anniversary of the enactment of The Dentistry Act of Ontario and the initial meeting of the Board.

Immediately upon the formation of the Board in 1868 the first question taken up was the establishment of a dental school which was actually brought into operation in the year 1875. At the present time the question of supplying adequate personnel is undoubtedly the most important problem facing the Board. In order to discuss this subject the Minister of Education has agreed to attend this Meeting.

Requests are received from time to time for the assessment of dental accounts, which is a difficult matter to handle satisfactorily. The only comparative schedule existing at the present time is the schedule of fees agreed upon between this Board and the Workmen's Compensation Board which schedule is used.

The number of inquiries and applications received from graduates of foreign schools still remains high. Replies are made in accordance with the regulations. Through interviews and discussions, the various authorities appear to have a better understanding than formerly of the problem in assessing such applicants.

During the year several incidents have occurred respecting the use of prescriptions. Particular care is necessary in issuing prescriptions for narcotics. Those seeking to procure narcotics illegally resort

to all sorts of stratagems. The prescription may be written by the dentist for the patient being treated by the said dentist and must be for the treatment of the condition being treated by the dentist for the said patient. A telephone order is not a prescription. Strict adherence to rule is strongly advised in order to avoid serious difficulties under the Narcotics Act.

CHANGES IN REGISTER

As of April 30th, 1953, the number on the Active List of the register was as follows:

Annual fee paid	2171	
Less deceased since paying fee	4 —	2167
Honorary licences issued	92	
Less deceased since January 1st	0 —	92
Fees unpaid on April 30th	2 —	2
Total		2261

The following changes in the list have occurred between April 30th, 1952, and April 30th, 1953:

Additions

New Graduates	78	
D.C.C. Certificates registered	9	
Board Examinations	2	
Transferred from Inactive	18 —	107

Deletions

Deceased	23	
Retired	24 —	47

Gain during year		60
-------------------------------	--	-----------

In the report of last year it was shown that the actual number listed does not represent accurately the number engaged in practising dentistry for the public. It is estimated that there are approximately 150 dentists on the active list who are not actually engaged in rendering dental services for the Ontario public. When this number is subtracted from the above total it is found that the actual ratio of practising dentists to the population in Ontario is approximately one dentist to 2270 based on the 1952 estimated population figures for Ontario. As stated last year, the ratio in 1931 was one dentist to 1906 of the population.

Extramural and Extension Lecture Services

At the last Meeting of the Board request was made that a comparative table be prepared respecting the extramural service during the last few years. The following table sets forth the cost and attendance figures for the next preceding eleven years.

	Number of Clinics	Attend- ance	Grant to University for Honoraria	Expenses paid by Board	Total
1942	30(2)	694	500.	686.37	1,186.37
1943	22(3)	603	300.	550.31	850.31
1944	30(10)	821	400.	978.36	1,378.36
1945	25(6)	630	500.	754.59	1,254.59

1946	36(1)	696	500.	563.14	1,063.14
1947	36(2)	1,010	1,000.	776.45	1,776.45
1948	34(7)	870	500.	990.77	1,490.77
1949	34(2)	764	600.	906.13	1,506.13
1950	37	801	750.	1,030.53	1,780.53
1951	37	789	500.	1,246.54	1,746.54
1952	33	769	705.	1,100.08	1,805.08

To arrive at the actual cost the sum of \$300.00 granted by the University of Toronto should be added to the total figure for each year. It will be noted that the number of clinics held has not varied greatly with the exception of the year 1943, 1945 and 1946, during which years no clinics were held in Northern Ontario. The variation in attendance is chiefly accounted for by the number of clinics held in larger centres during any one year.

The proportion of clinics, under the Extension Lecture Service, is given in the figures in brackets. It will be noted that there have been no Extension Lecture Clinics for the last three years.

Following is a detailed report of the Extramural Service during the past year. Forty clinics were given in twenty-six centres.

Again I desire to thank the members of the Board for their faithful cooperation in the work of this office.

Yours faithfully,

DON W. GULLETT, D.D.S.,

Registrar-Secretary.

Motion: That the members whose names are listed in the Registrar-Secretary's Report be granted Honorary Renewal Certificates. When Dr. J. M. Sharpe pays the 1953 fees his name be included with the above. . . . Carried.

Motion: That the Report of the Registrar-Secretary be received and adopted. . . . Carried.

REPORT OF TREASURER

Mr. President and Members of the Board:

Your attention is directed to the following matters:

Licentiates Fees

In accordance with the regulations, first fee notices were sent out on December 1st last, second fee notices were mailed to those who had not paid on January 15th and drafts drawn on those unpaid members on February 1st. As a result, three member remained unpaid on April 1st and these accounts were entered into Division Court for collection. We then learned that one of these members was not practising owing to illness and had not practised during 1953 so this account was withdrawn from Court. As a consequence, the fees of two members, namely Dr. J. M. Sharpe, Toronto, and Dr. H. L. Burrell of Sarnia are not settled as of April 30th.

Auditors' Statement

The Auditors' Statement for the year ending April 30th, 1953, is herewith submitted for your consideration. You will notice that the balance sheet shows a net surplus for the year of \$137.74. The appointment of auditors for the ensuing year is necessary.

Securities

No change was made during the year in the securities held by the Board.

Respectfully submitted,
DON W. GULLETT, D.D.S.,
Treasurer.

Motion: That Thorne, Mulholland, Howson and McPherson be appointed Auditors of the R. C. D. S. for the ensuing year. . . .
Carried.

Motion: That the Secretary be instructed to issue a Renewal of Licence to Dr. H. L. Burrell, and let the outstanding court costs adjust themselves. . . . Carried.

Motion: That the Report of the Treasurer be received and adopted as read . . . Carried.

Motion: That the report of the Auditors be received adopted . . .
Carried.

AUDITORS' REPORT

We have examined the books and accounts of the Royal College of Dental Surgeons of Ontario for the year ended April 30, 1953. All our requirements as auditors have been complied with and we report that the above balance sheet is in accordance with the books and, in our opinion, fairly presents the financial position of the College as at April 30, 1953.

REPORT OF EXECUTIVE COMMITTEE

To the Board of Directors, R.C.D.S.
Gentlemen:

A meeting of the Executive Committee was held in the Board Room, 234 St. George St., Toronto, on Wednesday, March 11th, 1953.

All members of the Committee were present together with the President, Dr. Winn, and Dr. Gullett, Secretary.

The Secretary read a letter from Dr. S. J. Phillips in which he said that while he is a member of the Executive Committee of the Canadian Dental Association and a Representative to the Canadian Dental Association from the Board of the Royal College of Dental Surgeons he is not aspiring to the Presidency of the Canadian Dental Association. He wanted to make this clear so that future action of the Board could be made with this understanding.

CERTIFICATION — Dr. E. J. SIEGEL

The Committee dealt with an application for certification of Dr. Elliott Joseph Siegel in Dental Oral Surgery. It was agreed that if Dr. Siegel provided a satisfactory transcript from Bellevue Hospital, N.Y., that his academic requirements would be satisfactory.

CONSIDERATION OF PRESIDENT'S REPORT, NOVEMBER, 1952.

(a) Electoral Districts:

The boundaries of districts were considered. Suggestion was made that if the Dentistry Act was opened in future, consideration be given to changing District No. 4 from the City of Toronto to the County of York.

(b) Necessity for Increased Financial Return to this Board.

Dr. Phillips, who is Chairman of the Finance Committee of the Canadian Dental Association as well as a Member of the Executive stated the C.D.A. problems respecting increased costs of administration. The fees in other provinces were quoted. It was stated that the Board was in the position of having a fixed income in an inflationary period. It was agreed that the fee would have to be increased but in order to do so the act will have to be amended.

(c) Staggered Elections

It was pointed out that no difficulty had ever arisen in this respect in that a sufficient number of former members has always been elected to insure continuity of the work. No recommendations were made.

(d) Seminars versus Extramurals and Clinics

Dr. Godfrey reported that the Department of Dental Public Health Committee of the Faculty of Dentistry, University of Toronto, strongly felt that the seminars filled an important function. He also stated that the Dental Public Health of the Ontario Dental Association, with the support of the Faculty of Dentistry, was applying for a grant under the Federal Health grants for the paying of necessary honoraria for the seminars which, if secured, would be administered by the Faculty with the assistance of the Dental Public Health Committee in respect to arranging meetings.

INSURANCE ON BOARD PROPERTY

Dr. Gullett reported on his investigation of the insurance on R.C.D.S. property housed in the Dental Building and entrusted to the care of the Faculty of Dentistry. A letter from the Comptroller, University of Toronto, as of March 10th, 1953, stated that the University, in agreement with their solicitors, were insuring the property of the R.C.D.S. in the Dental Building.

A motion was passed that the property of the Royal College of Dental Surgeons of Ontario housed at 234 St. George St. be insured for \$5000.00.

BOARD EXAMINERS

Dr. Phillips reported on arrangements with Examiners for the Board Examinations to be held in May. The schedule as presented was approved by the Executive.

PHARMACY ACT

The attention of the Board was drawn to the new proposed Pharmacy Act in that it referred to Dentists and the Royal College of Dental Surgeons of Ontario. Following discussion direction was given that the Board Solicitor, Mr. Watson, be requested to examine the proposed Act insofar as it might affect the profession adversely.

Respectfully submitted,

H. W. REID

S. J. PHILLIPS

R. J. GODFREY

M. C. G. BEBEE

R. O. WINN

C. M. PURCELL, Chairman.

Motion: That the report of the Executive Committee be approved . . .
Carried.

REPORT OF THE DISCIPLINE COMMITTEE

To the President and Members of the Board, R.C.D.S.:

Gentlemen:

Your committee wishes to report as follows:

During the year about the usual number of complaints have been received concerning fees, unsatisfactory service and unprofessional conduct. Many of these complaints, the complainants refuse to put in writing feeling that they have achieved the desired effect by registering with the Board their particular disagreement with the member of the College. Most of the other complaints, when the member of the College is notified of the complaint against him and asked for an explanation, are settled amicably between the patient and dentist concerned. There have been some where more direct pressure has been necessary.

There are an increasing number of complaints concerning members of the College sending patients to laboratories for services that are not legal for the laboratory to render and should be rendered by the profession. The laboratory technicians are complaining and so are the patients. The information re this practice that has been sent out from this Board has apparently fallen on barren ground. The action that has been taken in two provinces re technicians dealing directly with and giving service to the public, is either unknown to the rank and file of the members of the College or else the end result of such a practice does not concern them until it is too late. A definite relationship between dentist and technician has been established by law in the province. The Board should give serious consideration to methods of enforcing this relationship.

There has been a noticeable decrease in complaints of patients that they have been treated in a manner not becoming a professional office. The increase in dental personnel may have been a leavening influence. It is extremely gratifying to report this improvement.

May I express my gratitude to the other members of the committee, the members of the Board, the Secretary and the members of the College for the excellent co-operation that has been afforded me. It has been a great privilege to serve as Chairman of this Committee and I ask for my successor the same confidence and co-operation.

Respectfully submitted,

H. W. REID,

Chairman.

Motion: That the report of the Discipline Committee be received and adopted . . . Carried.

REPORT OF THE DEAN OF THE FACULTY OF DENTISTRY UNIVERSITY OF TORONTO

AT FALL MEETING, NOVEMBER 1952

To the Board of Directors of the R.C.D.S.

Gentlemen:

Registration

Registration for the 1952-53 session is given in detail as follows:

Year	Ex-service	Civilian	Total
Predental	0	74	74
First Dental	0	76	76
Second Dental	4	77	81
Third Dental	13	49	62
Fourth Dental	10	65	75
Dental Nursing	1	27	28
Dental Hygiene (First Year)	0	7	7
Dental Hygiene (Second Year)	0	5	5
Diploma Courses			
Dental Oral Surgery and Anaesthesia	1	0	1
Dental Public Health	0	2	2
B.Sc. (Dent.)	0	1	1
M.Sc. (Dent.) Orthodontics	5	6	11
M.Sc. (Dent.) General	1	0	1
Occasional students	0	2	2
	35	391	426

It is interesting to note that the total overall registration for the present session is one below the figure of 427 for last session. It is also interesting to note that ex-service personnel comprise 8.2% of the total. Applications for admission to the Predental Year were down from 150 one year ago to approximately 130.

Dental Hygiene

The new course for Dental Hygienists entered the phase where we have students registered in the first and second years. All who applied and presented the minimum requirements for admission were accepted in the first year, but with a capacity of 10 for the class, only 7 candidates registered. The 7 students registered in the first year represent the following provinces:

Ontario	— 3
Saskatchewan	— 3
Alberta	— 1

The need for trained dental hygienists is still much in evidence. The failure to enroll a maximum class in the first year is attributed to the fact that this is a new field in Canada. The excellent article entitled, "The Feminine Touch in Dentistry" published in the University of Toronto Alumni Bulletin, October 1952, was reprinted and distributed to all Vocational Guidance Directors in the Provincial High Schools. This article gives prominence to the course in Dental Hygiene.

Staff

We are pleased to report the following promotions: Dr. R. S. Woollatt from Associate Professor to Professor of Dentistry; Drs. E. P. Downton and K. J. Paynter from Assistant Professors to Associate Professors in their respective departments; Drs. F. Martin and M. N. Rockman from Associates to Assistant Professors in their respec-

tive departments; Drs. E. E. Johns and A. C. Robinson from Demonstrators to Associates in their respective departments. In addition to these changes in status, Dr. W. J. Ross, Professor of Dentistry, becomes Director of the Clinic; and Dr. J. B. Macdonald Assistant Professor (Bacteriology) becomes Chairman of the Division of Dental Research.

New appointments as demonstrators have been accepted by the following: Dr. D. L. Anderson — Periodontology; Dr. K. F. Box — Periodontology; Dr. M. Carefoot — Dental Anatomy; Dr. D. O. McIntyre — Dental Anatomy; Dr. J. E. Speck — Periodontology; Dr. W. G. Woods — Prosthodontics; and Dr. M. Jackson — Pedodontics.

Dr. Harrison J. Mullett has been appointed as Supervisor of Clinic Admissions for the 1952-53 session.

Several resignations from the staff of dental nurses have resulted in the following new appointments: Miss Barbara Code, Miss Margaret Hoggan, Miss June Lewis, Miss Margaret MacCosham, Mrs. Shirley Mitchell and Mrs. C. J. Morse.

It was with regret that we received the resignation of Dr. A. J. Blanchard, who found it necessary to relinquish his post in the Department of Dental Pathology and Bacteriology because of the pressure of his important duties at Sunnybrook Hospital.

Research

The O'Keefe Foundation has continued to evince interest in the development of research by providing further financial assistance. During the past summer building alterations on the fourth floor provided laboratories for bacteriology and biochemistry research.

For the 1952-53 session grants-in-aid of research totalling over \$50,000 have been received by members of the Division of Dental Research. The grants cover investigations in the fields of dental caries, periodontal disease and malocclusion. A total of fifteen grants have been received.

While this constitutes a very considerable improvement in the research picture it falls short of an adequate programme. In Ontario there is approximately one dental research worker to every 150 practising dentists. In medicine the proportion is about one to twelve. It is important that the Faculty continue to strive for a more comprehensive programme of research. Funds will be required especially to provide salaries for senior research workers who cannot be supported by grants-in-aid.

Continuation Courses

A series of twelve continuation courses for graduates in Dentistry has been prepared and announced in the various dental journals. The courses to be given before the end of 1952 are as follows: Dental Oral Surgery and Anaesthesia, November 17-21; and Pedodontics, November 24-26. There are still places available in all of these courses.

Miscellaneous Items

Dr. Walter Pressey, a member of the graduating class of 1952, was awarded the second prize in the Canadian Dental Association War Memorial Scholarship competition for his essay entitled "Psychology in Dental Practice".

The students of the Faculty were awarded first place in the Homecoming Weekend Float Parade for their entry. It is gratifying to see our students holding their own in these campus-wide student competitions.

The Open House function held in the Dental Building on Sunday, October 19th, was eminently successful with over 500 in attendance. There was a marked increase over former years in the attendance of

graduates and their wives. The program for the afternoon included the unveiling of a portrait in oils of the late Dr. Thomas Cowling, presented to the Faculty by his brother-in-law and sister, Dr. and Mrs. Walter Bonney. We also featured the new headquarters of the Division of Dental Research. The deep appreciation of the Faculty and the students is expressed to the Dental Alumni Association and this Board for their generous financial assistance on this occasion.

All of which is respectfully submitted.

ROY G. ELLIS,
Dean.

Motion: That the report of Dean Ellis, Faculty of Dentistry, University of Toronto, be received and adopted . . . Carried.

AT THE ANNUAL MEETING

May, 1953.

To the Board of Directors, R. C. D. S.,
Gentlemen:

There appears to be little need to comment further on the enrolment figures for session 1952-53 which were submitted in the November report to this Board. Looking ahead to registration in September, 1953, we would comment that the present Third Dental Year class of 62 will be augmented by the addition of six to eight British Commonwealth graduates who hold the B.D.S. degree. The Committee on Admissions has been very careful to select from a relatively long list of applicants only those candidates who appear to have above-average qualifications. A number of European dental graduates have already applied to write the Qualifying Basic Science Examinations in July.

Recently we have had the opportunity of meeting several groups of prospective dental students and young women interested in Dental Hygiene and Dental Nursing. Through the 'Career Days' arranged in the collegiates it would appear that there is considerable interest in dentistry as a career.

Curriculum

Very few major changes have been made in the curriculum during the present academic year. Consolidation of the changes made in recent years and an attempt to evaluate the effect of these adjustments have been our chief aim. To illustrate, a recent comment has been received from the Department of Chemistry respecting the poor showing of the pre-dental students in Organic Chemistry. The staff member reporting on behalf of the Department of Chemistry goes on to observe, 'I consider this an indication that this course should be restored to the First Dental Year!'

An examination of the effect of the new First Dental Year basic dental materials and technology course was undertaken in recent weeks. We believe that this course provides an important foundation which is fundamental to the teaching in several departments in dentistry. A few minor changes will be made to strengthen the course.

We regretted very much that Dr. R. P. Lowery found it necessary to give up his lectures in Practice Management to the Fourth Dental Year. Instead of inviting one speaker to give the whole series of lectures we tried an experiment which we believe worked well. A group of dentists from rural and urban communities presented their experiences in developing and maintaining a dental practice.

Scholarships and Awards

The Scholarships and Awards Committee of the Faculty Council recently made a recommendation to the University Senate that all awards in this Faculty be tenable with other awards. It was felt that the original purpose of ensuring a wide distribution of the limited

number of awards available by the use of the non-tenability clause, was no longer necessary.

Several new awards were established during the present academic session.

Through the generosity of a member of the dental profession who wishes to remain as an anonymous donor, the Dental Public Health essay prize of the value of \$50 was established for award to the Fourth Dental Year student who submits the best essay on a topic in the field of dental public health.

A prize of \$50 was established by the West Toronto Dental Society for competition in the Third Dental Year. It will be awarded to the student of that year who ranks highest in Pathology (including Oral Pathology).

The first fellowship in the Faculty of Dentistry was made possible by the munificent action of the Ontario Dental Association. This fellowship of the value of \$500, will be known as the Ontario Dental Association Graduate Fellowship, and will be awarded annually to a graduate of this Faculty resident in the province of Ontario, and who enrolls in the University of Toronto and proceeds toward a post-graduate diploma or a graduate degree in dentistry, on the basis of scholarship and financial need.

On behalf of the students who will benefit from these awards, we express sincere appreciation to the donors.

Research

Alterations to existing research facilities in the dental building and training of staff have been referred to repeatedly in these reports. Furthermore, in the report made last November (1952) that is, approximately six months ago, it was indicated that financial assistance would be required to expand the programme of dental research.

The initial approach to financial and business men with respect to raising funds for the support of dental research was greeted with such inquiries as "what do the members of the dental profession think of this need?", and "are they prepared to do something about it?" Hence our decision to make an appeal to the dental profession for assistance. To Dr. C. H. M. Williams great credit is due for the enthusiasm, energy and leadership which he has given as Chairman of the Research Campaign Committee. The amount contributed and pledged by members of the dental profession up to the time of the preparation of this report (12 May, 1953) is well over \$100,000 — a truly significant achievement. Such a response provides a resounding affirmative answer to the questions referred to above. We are confident that the overall objective of \$300,000 set for this campaign will be reached.

In an endeavour to provide liaison between the Division of Dental Research and the profession, the Faculty Council will establish a Research Advisory Committee. The proposed composition of and terms of reference for the Research Advisory Committee are contained in Appendix I to this report.

"Grants-in-aid" in support of current projects total approximately \$50,000. The chief sources of these grants are: (1) Associate Committee on Dental Research (NRC); (2) Public Health Grants; (3) Sugar Research Foundation; and (4) University of Toronto.

Programmes for Graduates

One year ago I reported that during 1951-52 the attendance at the thirty-one Extramural meetings arranged by the Faculty in co-operation with this Board was the lowest (646) that it had been for ten years. However, during the 1952-53 session thirty-eight meetings have been provided in twenty-six centres with an all-time record attendance of 1,363 dentists. We were at a loss to explain the low figure

last year, but this year we attribute the record attendance to the interest in the research campaign, which has been discussed at many of these meetings.

The original schedule of twelve Continuation Courses for 1952-53 was reduced to ten. Approximately 100 graduate dentists registered for these courses.

In cooperation with the Ontario Dental Association through its Dental Public Health Committee, the Faculty has made application for a Public Health Grant to expand the Seminar programme initiated by the Ontario Dental Association Committee one year ago. The final decision respecting this application is not known at this time.

Staff Notes

Dr. Harold K. Box, Research Professor of Periodontology, has been awarded the 1952 Fones Medal by the Connecticut State Dental Association. We extend sincere congratulations to Dr. Box for this further recognition of his significant contributions in dental research.

Dr. H. M. Worth journeyed from Vancouver in February to give his course of lectures and seminars on interpretation of dental radiograms. Next session his course will be scheduled for the month of November.

Drs. J. B. Macdonald and K. J. Paynter completed their final Ph.D. examinations at Columbia University in March and will be present at the Columbia commencement exercises in June to receive their degrees.

With the reorganization of the University Senate and its reduction in overall numbers from 222 to 165, the number of representatives from this Faculty was reduced from four to two. Similarly, the graduate representation was reduced from five to three.

APPENDIX I

RESEARCH ADVISORY COMMITTEE

Name

1. That a committee to be known as the Research Advisory Committee be established by and report to the Council of the Faculty of Dentistry.

Composition

2. That the Committee consist of:

The Dean

The Chairman of the
Division of Dental Research

An executive secretary

} Ex-officio

A representative of the Ontario Dental Association

A representative of the Royal College of Dental Surgeons of Ontario.

A member who is not a dentist

A representative of the Faculty Council who shall act as Chairman.

Elections

3. That the Faculty Council representative be elected by the Faculty Council; that the representatives of the Ontario Dental Association and of the Royal College of Dental Surgeons of Ontario be appointed by their respective organizations; that the non-dental member be appointed by the Committee itself.

Tenure of Office

4. That the term of office of all except ex-officio members be two years, except that for 1953-54 only; the Ontario Dental Association representative and the non-dental member to be appointed for one year. Members elected or appointed shall not serve

for more than two consecutive terms of two years each.
Terms of Reference

5. (a) The Committee shall consider and, where deemed advisable, make recommendations concerning a report from the Dean to be received no later than May 31st of each year, stating the gross amount of the proposed budget for the following fiscal year; and concerning an annual report from the Chairman of the Division of Dental Research, to be received not later than May 31st of each year.
- (b) The Committee shall be responsible for informing the profession concerning the Division on Dental Research in respect to objectives, progress and results of investigations, and such other matters as may be in the best interests of the promotion of research.
- (c) The Committee shall be responsible for informing the public concerning such aspects of dental research as may be in the best interests of the promotion of research.
- (d) The Committee shall be responsible for obtaining contributions to the Dental Research Fund.

Five members of the staff attended the Annual Meeting of the American Association of Dental Schools in Philadelphia in March. A larger group, eight or nine, attended the International Association for Dental Research sessions, with three of our number presenting reports on projects.

The usual impressive list of staff members presenting papers and clinics at meetings all over this continent has been recorded in the monthly staff letter during present session.

We regret to record that Dr. Robert E. Moyers, Professor of Orthodontics, will be leaving shortly to assume the chair in Orthodontics at the University of Michigan. We extend to him our best wishes for good health and happiness in his new post.

Acknowledgments

The Ladies' Auxiliary to the Academy of Dentistry has contributed an additional amount of \$637 to the fund established by them in 1950, "for service for needy children with dental abnormalities." On behalf of the children who benefit from this fund, we extend grateful appreciation to the Ladies' Auxiliary.

To the members of the dental profession who accepted the challenge offered through dental research and have contributed so generously, we extend our thanks for the stimulus they have provided. We trust that the spirit of their example will kindle the flame in every member of the profession.

Finally, we would acknowledge the moral and financial support which we receive continuously from the individual members and from this Board as a whole.

All of which is respectfully submitted.

ROY G. ELLIS,
Dean.

Motion: That the report of the Dean of the Faculty of Dentistry, University of Toronto be adopted . . . Carried.

GRANTING OF LICENCES

The applications for licence of members of the Graduating Class of the Faculty of Dentistry, University of Toronto were considered.

Motion: That the following graduates having met the requirements of this Board be granted L.D.S. Certificates:

John Martin Armitage
Harold Wilson Bedell
Richard Roland Bird
Nicholas Frank Boljkovac

Gordon Russell Bowman
Emery Scott Branscombe
Charles Ferguson Cattran
David Lloyd Chappell

Frank Joseph Clumpus
 Edgar Newman Cole
 Patrick John Comrie
 Miss Irma Muriel Coyne
 John Ernest Cudmore
 Keith Walker Davey
 Delmar Goodwin Dawson
 Bruce Kenneth Deverill
 Nyle Lloyd Diefenbacher
 Harold Arnold Dodick
 William Ralph Dover
 Clarence John Duesling
 John Ernest Durran
 Bruce Oliver Eickmeier
 Ronald Charles Finlay
 Ross Ockley Fisk
 George Allen Freeze
 Richard Macfarlane Fulford
 Michael Francis Joseph Gallagher
 John Russell Glenly
 Peter Clarke Grummitt
 Graydon Laverne Hancock
 Howard Orval Hasenpflug
 Lorne Henry Hemmerich
 Frank Grant Humphrey
 Wilfrid George Jarjour
 Herbert Ray Kidd
 Edward Keith Kyle
 John Francis Letersky
 Hart Jacob Levin
 Gunnar Lie
 George Riddell Livingston

Robert Shirly Locke
 John Lewis Mabee
 Ernest Maarten Madlener
 Archie Gary Manoian
 Kenneth James Marland
 Francis Joseph McCurry
 Thomas Augustine McNally
 Robert James Miller
 John Thomas Mills
 Angus Clifford Murchison
 Charles Willis Murdock
 Robert McNeil Nelson
 Lawrence Opaski
 Miss Margaret Louise Parker
 Henry Robert Pelton
 Elio Luigi Politi
 Robert Rapp
 Harold Thomas Robbins
 Stanley Earl Sable
 Sidney Schatz
 Philip Arnold Scott
 Donald Arnold Stuart Shearer
 James Hilary Small
 Leslie Donald Spratt
 Donald Bingley Stephenson
 Charles Stickel
 Arthur Thomas Storey
 William Eric Thompson
 Alistair Herkes Thomas
 John Tatsumi Tokiwa
 Aldo John Vizzutti
 Harry Weisfeld

... Carried.

BOARD EXAMINATIONS

During the year, three applicants took the Board Examination and from the examination results the following motions were passed:

Pierre Chalifoux, D.D.S.

That Dr. Pierre Chalifoux, having met the requirements of this Board, be now granted his L.D.S. Certificate.

Joseph G. Zimbalatti, D.D.S.

That in the case of the candidate Joseph G. Zimbalatti, his average of 56.8 for all examinations be accepted as qualifying for the required 57% and that he be permitted to re-write the subject, Oral Medicine. On satisfactory completion of the examination, he be granted his L.D.S. Certificate.

Angus M. MacQueen, D.D.S.

That Dr. A. H. MacQueen's marks in Oral Surgery and Anaesthetics and Oral Medicine be raised three (3) marks each and that he be requested to repeat his Clinical Examination and on satisfactory completion of this examination, this Board grant him his L.D.S. Certificate.

APPLICATIONS FOR CERTIFICATION AS SPECIALISTS

Theodosy Wachna

Motion: That the application of Dr. Theodosy Wachna for certification in the Specialty of Orthodontics be granted ...
Carried.

Joseph Elliott Siegel

Motion: That Dr. Elliott Joseph Siegel be granted a Specialist's Certificate in Dental Oral Surgery on payment of necessary fee . . . Carried.

James Howard Young

Motion: That Dr. James Howard Young be granted a Specialist's Certificate in Orthodontics . . . Carried.

Jack Alan Langmaid

Motion: That Dr. Jack Alan Langmaid be granted a Specialist's Certificate in Orthodontics . . . Carried.

Gerald Palmer Copeland

Motion: That Gerald Palmer Copeland be granted his Specialist's Certificate in Orthodontics on October 1st next, provided he continues in practice until the said date . . . Carried.

Bernard Hemrend

Motion: That Dr. Bernard Hemrend be granted a Specialist's Certificate in Orthodontics . . . Carried.

FOR REGISTRATION

William George Cross

Motion: That Dr. William George Cross be informed that he must produce the necessary credentials. In lieu of By-law 8, sec. (1) (c), the Board agrees to accept the additional qualifications presented and permit him to sit for Board Examinations; also to waive By-law 8, sec. (1) (a) . . . Carried unanimously.

Frank Philip Alford

Motion: That Dr. Frank Philip Alford be informed that as soon as his application is complete he will be granted his L.D.S. Certificate . . . Carried.

Egil Peter Harvold

Motion: That in lieu of Egil Peter Harvold's high qualifications in a specialized field that By-law 8, sec. (1) (a) and (g) be waived and that he be permitted to sit for examination . . . Carried unanimously.

REPORT OF LIBRARIAN

To Board of Directors, R.C.D.S.

Gentlemen:

The Harry R. Abbott Memorial Library and the Library of the Faculty of Dentistry have continued their functional role as in previous years, and have been successful in supplying the reading requirements of undergraduates, graduates and Faculty.

During the year, 140 new books were received and six new journal subscriptions were added; 43 orders are outstanding as of this date and 6 orders were cancelled by virtue of the fact that the items were out of print or unobtainable. There has been a generalized improvement in our ordering routine, a fact that should be noted with satisfaction. Comparative circulation statistics for the past six years are appended herewith, which show slight change in the over-all picture.

Student borrowings have shown slight increase, while Faculty and graduate borrowings were slightly decreased. There were 118 requests for books from out of town as compared to 122 for the previous year. Six requests for material for inter-library loan were received and two requests for micro-film loans.

The financial status of the funds as of May 6th is as follows:

Harry R. Abbott Fund

Receipts

On hand July 1, 1952	\$ 119.67	
Deposited December, 1952	350.00	\$ 469.67

Expenditures

Binding	101.00	
Books	78.89	179.89
On hand May 6, 1953		\$ 289.78

University of Toronto Library Appropriation

Basic Appropriation	\$ 1,350.00
Special Federal Appropriation	125.00
Unspent balance from 1951-52	84.12

	\$ 1,559.12
Unexpended as of April 30, 1953	\$ 75.00

All practitioners of 50 years standing were written personally requesting items of historical interest or any memorabilia they might care to submit on the period of their early years in practice. Several responded and their submissions have been placed in the archives of the library. All submissions are herewith gratefully acknowledged with special notation of the submissions of Doctors J. C. Fitzgerald and F. C. Van Duzen. All donations to the Museum are hereby likewise gratefully acknowledged, with again notation to Dr. Fitzgerald for the generous donation of a Faculty Gold Medal awarded to his father-in-law, Dr. Fred Killmer, in 1884, along with a specimen casting design of his own creation of historical significance.

Acknowledgment is also gratefully made to Dr. C. M. Dent, Ottawa, through whose courtesy we obtained photographic reproductions of the announcements of pioneer dentists that are of historical significance. The museum specimens were reviewed and evaluated for insurance purposes. Many donations of books and journals have been received with grateful acknowledgment to the donors. Special mention of the donations of Dean Emeritus A.D.A. Mason, the late Dr. Margaret Currie and Dr. N. M. Layton of Truro, should be made.

The librarians have instituted the circulation of mimeographed copies of 'Current Journal Title Pages' which constitute the titles of a monthly list of articles selected from dental and medical literature, which should prove valuable both to the Faculty and research workers. Circulation is currently 30 copies per month.

The outline on library routine, thesis writing and bibliography, as supplied to undergraduate students, is under revision and will be available for the new term. During the year duplicate material was sent to 74 libraries in the United States, Canada, India, England and South America.

The available stock space is again almost exhausted and additional shelving on the west and north walls of the stock-room has been requested, some of which has been assigned for sealed cupboards as a repository for the items of the Abbott Collection, which now sit on open shelving.

Request has also been made for sound-proofing of the library, for modernization of the lighting system and for a micro-film viewer, all of which are costly items and may not be immediately available.

The library has recently been re-photographed so that a picture may be available for display purposes at the forthcoming special library association conference in June.

It is recommended that a lecture in library routine and bibliography be given to all European students at the time of registration and that bibliography lectures be given to the first dental year rather than the pre-dental year, as is presently done. It is further recommended that preliminary work on a slide collection for visual education should be instituted forthwith.

The assistance received from the Board at the Royal College of Dental Surgeons, from the Members of the Library Committee, and the Assistant Librarians, is gratefully acknowledged, and this report is respectfully submitted with the recommendation that the customary grant be continued for the ensuing year.

CIRCULATION STATISTICS

	Faculty	Students	Graduates	Period	Totals
1948-49	582	8498	630	3250	12,960
1949-50	494	8818	634	3114	13,060
1950-51	605	9286	885	3201	13,977
1951-52	812	7271	1403	3091	12,577
1952-53	638	7273	1268	2457	11,688

Respectfully submitted,

J. H. JOHNSON,

Librarian.

Motion: That the report of the Librarian be received and adopted . . . Carried .

Motion: That this Board re-Appoint our Librarian, Dr. J. H. Johnson, for the ensuing year . . . Carried.

REPORT OF INSPECTOR

To the President and Members of the Board, R.C.D.S.:

Gentlemen:

I have the honour to report, for your information, the following investigations and prosecutions from April 30th, 1952, to April 30th, 1953.

1. **Regan, John H.**, Corbeil, Ont. (A Dental Technician) practising illegally. He was charged in North Bay, Ont. and fined for his second offence . . . \$200.00 & Costs.

2. **Baum, Doyle**, MacArthur Mills, Ont. (An American Dental Technician) Practising dentistry illegally. I charged him with the practising of dentistry and he was fined . . . \$100.00

He was also charged with having equipment and fined \$200.00 & Costs.

3. **Gagon, Adelard**, 307 Cumberland St., Ottawa, Ont. (A Dental Technician) He was charged with having equipment to practise dentistry and fined . . . \$100.00

4. Dr. . . . of . . . had lettering eight inches in height. This sign has been removed.

5. Dr. . . . of . . . had his name in five places around the entrance to his building. His signs are now in order.

A considerable number of reported illegal practitioners are under surveillance. Many minor matters relating to inspection of dental offices have been attended to.

Respectfully submitted,

Inspector.

Motion: That the report of the Inspector be adopted . . . Carried.

REPORT OF REPRESENTATIVE TO DENTAL COUNCIL OF CANADA

To the Board of Directors, R.C.D.S.

Gentlemen:

The regular biennial meeting of the Dental Council of Canada

was held at the Hotel Vancouver, B.C., last June to coincide with the Golden Jubilee of the C.D.A. All members were present including Dr. H. L. Freeland, Calgary, President; Dr. A. J. Brett, Regina, Secretary; Dr. H. J. Merkeley, Winnipeg; Dr. H. H. Peters, St. John; Dr. H. S. Crosby, Halifax; Dr. Heath McIntyre, Charlottetown; Dr. R. O. Winn, Kitchener; Dr. W. Scott Hamilton, Regina, representing the C.D.E.

Due to the expected windup of the affairs of this Council in the very near future, the business of this meeting was mostly routine.

The most important part of this session was a joint meeting of the Reference Committee of the C.D.A. with a committee appointed by the Dental Council, and for the purpose of record I will briefly outline the outcome of this conference.

Those present at this meeting: Representing C.D.A., Dr. G. Ratte, Quebec City, P.Q.; Dr. R. R. McIntyre, Calgary, Alta; Dr. Harold Cline, Vancouver, B.C.; Dr. Emery Jones, New Westminster, B.C.; Dr. Don W. Gullett and, representing D.C.C., Dr. H. L. Freeland, Calgary, Alta; Dr. H. J. Merkeley, Man.; Dr. H. H. Peters, Saint John, N.B. Dr. Ratte acted as Chairman.

A statement from the Dental Council was read, discussed paragraph by paragraph and appears below as amended and approved by both the C.D.A. and the D.C.C.

Statement of Policy

As submitted by The Dental Council of Canada
to

The Board of Governors, Canadian Dental Association.

1. For almost 50 years the Executive of the Dental Council of Canada has faithfully served the Profession. It has blazed the way and helped to maintain high professional and ethical standards for all of us. During that period, 1799 Certificates of Qualification have been issued by the Council.

2. It has, however, looked forward to the day when the Canadian Dental Association could assume its proper role in all national dental fields and is very happy to know that soon, plans for a National Examining Board will be finalized.

3. It is recognized that some time will be needed to iron out all the necessary details and produce a smoothly-functioning organization; but it is the hope of the Dental Council of Canada that this can be accomplished within the next few years so that the Council may then wind up its affairs, transfer its funds and terminate its existence without a chance of our Profession being left without a proper Inter-Provincial Examining Board.

4. To ensure the continuity of an Examining Board, it is necessary that certain questions be settled promptly. These we have listed as follows:

We recommend:

(a) That the records of the Dental Council be turned over for the use of the new Organization and when this function has been completed, that these records be given in Trust to the Canadian Dental Association as an historical record.

(b) That a Slate of Officers of the Dental Council of Canada remain in existence for a short period to handle unfinished business.

(c) That the existing Certificates of the Dominion Dental Council and the Dental Council of Canada continue to be recognized by the agreeing Provinces as of this date, as valid.

5. In the meantime, as a significant gesture of goodwill and earnest cooperation, the Dental Council of Canada is happy to contribute the sum of \$6,000.00 to assist the National Examining Board in organizing its work and launching itself on what we sincerely hope

may be a very long and successful career that will be a great factor in maintaining the present high standard of professional examination and in furthering goodwill and understanding amongst the Members of our Profession from Coast to Coast.

: : : : : :

Later, the C.D.A., in general session, asked their executive to take immediate action for the functioning of the National Dental Examining Board of Canada and also request the Dental Council of Canada to continue for a period of one year.

The following resolution was presented to and adopted by the C.D.A.

WHEREAS The Dental Council of Canada for the past fifty years has served the dental profession of Canada by providing facilities for the examination and qualification of candidates to practise the profession on an almost complete national basis, and

WHEREAS a National Examining Board is soon to be realized as a corporate body sponsored by the Canadian Dental Association, and

WHEREAS the Dental Council of Canada has graciously consented to aid in the realization of the ultimate fulfilment of this national qualifying body by both their willingness to continue to function until such time as the National Examining Board is in operation as well as a financial supplement.

BE IT RESOLVED that appropriate recognition be tendered to the Dental Council of Canada by the Canadian Dental Association.

: : : : : :

In the expectation that the National Dental Examining Board will be in a position to function by the fall of this year, a representative of the Dental Council has been appointed to attend the October meeting of the C.D.A. in Montreal and report to the Council.

Should the new Examining Board be prepared to carry on a National Examination by that time, a full meeting of the Dental Council will be held in September, 1954, in New Brunswick to terminate for all time the existence of the D.C.C. — God rest its soul in peace.

Possibly here I could do no better than include in this report a letter received from Dr. Gullett which will speak for itself.
“Dear Dr. Winn:

I am pleased to inform you that the following resolution was unanimously approved at a meeting of the Council on Dental Education, Canadian Dental Association, held earlier this week:

“The Council on Dental Education of the C.D.A. hereby goes on record as appreciating the excellent contribution made by the Dental Council of Canada and its predecessor, the Dominion Dental Council, in conducting for so many years a national dental examination. This pioneer work has been of considerable assistance to many of our Canadian Provinces. The devotion shown by individual members, giving so much of their time and thought, is highly commendable. A deep debt of gratitude is hereby expressed for the magnanimous manner in which the Dental Council of Canada is cooperating with the Canadian Dental Association during this transitional period of transferring the administration of this all-important work to our National Body.”

Yours sincerely,

DON W. GULLETT.”

Summary of Examination taken 1952

14 Candidates wrote in Halifax

One of these was re-writing a supplemental and still did not make the required average. Another wrote for the Nova Scotia Board only and he did not make the required average.

14 Candidates wrote in Toronto.

One of these failed to make the required pass average but re-wrote in September and passed.

1 Candidate wrote in Regina.

A graduate of Toronto who passed.

23 Candidates wrote in Montreal.

Four failed to make the required average, three of them re-wrote in September and passed. One failed to make the required average and also failed two papers.

19 Candidates wrote in Alberta.

Three failed to make the required average. One re-wrote in September and passed. One failed in one paper and also low average — re-wrote in September and passed.

1 Candidate who had failed the Clinical Examination in 1945 took the Oral Examination and passed.

At the supplemental examination (written at five centers) six wrote and passed.

2 Candidates took a special examination in October and passed.

The total number of certificates issued in 1952 was 68.

::::::::::

Financially, the interim Cash Receipts and Payments Statement ending June 30th, 1952, showed a surplus of \$1,661.56. This, along with the income from the spring examinations, plus our bond holdings should show a very healthy surplus to dispose of after all expenses for concluding our existence are deducted, and it is the present intention of this Council to turn these assets over to the C.D.A.

To conclude this report I would like to quote from a statement submitted to the last meeting of the Council on Dental Education by the Chairman of that Council, Dr. Scott Hamilton.

Whether it be with respect to individuals or organizations it is a part of life that changes take place sooner or later to alter our position in relationship to one another and indeed, to the whole of society. For a time we see great men in important posts but all too soon we also see them replaced because they no longer fit into the scheme of things.

The Dental Council of Canada has filled an important need in Canadian Dentistry for a great many years. While it failed to bring all the provinces together it nevertheless did establish a standard of qualification, and who knows what kind of confusion might have existed without it. It is good for posterity that graduates from different schools should mix in the practice of any profession, and without some form of country-wide qualification there is a tendency for them to become crowded together in one locality. It matters not now, nor am I capable of determining the reason for an ununited front respecting a national qualifying examination but it is certain that the Dental Council of Canada did make an effort to bring all provinces together, so let us give them due credit for their efforts. Nor are they guilty as the swan of singing only during their dying hours. Their conduct at the Vancouver meeting clearly indicates that they are interested in furthering the standard of Dentistry in Canada as is shown by a vote of \$6,000.00 to help finance the organization of the new National Examining Board. What more practical evidence of co-operation could anyone expect?

Changes do not come about easily, but it must be said that the Dental Council of Canada has made a great contribution in the past and to the formation of the National Dental Examining Board of Canada which is now well on the way to what we all pray will be the success which we know its predecessor would wish it to be.

Respectfully submitted,

W. SCOTT HAMILTON,

Chairman."

The election of officers resulted as follows:

President — R. O. Winn

First Vice-President — H. H. Peters

Second Vice-President — H. S. Crosby

Secretary-Treasurer — A. J. Brett

The date set for the spring examinations is May 25th to May 30th.

All of which is respectfully submitted.

R. O. WINN,

Representative to the D.C.C.

Motion: That the Report of the Representative to the Dental Council of Canada be received and adopted . . . Carried.

REPORT OF REPRESENTATIVE TO WORKMEN'S COMPENSATION BOARD

At Fall Meeting

To Board of Directors, R.C.D.S.

Gentlemen:

Following your instructions at the May Meeting, our Representative on the Workmen's Compensation Board Committee met with the Referee for the Workmen's Compensation Board in the Alexandra Palace on August 30th, 1952.

Dr. Marshall's report to our Board was reviewed and discussed. The relations of the profession and the Workmen's Compensation Board continues to be most harmonious. In the main, the work done by the dentists and paid for by the Board is routinely satisfactory. However, the number of cases requiring the services of the Referee continues to grow. This is caused partly by a lack of knowledge of the procedure of the Workmen's Compensation Board and in some cases by a total lack of consideration for the Board by some members of the profession.

Since all of this is so well outlined in his report, I feel it must have been written with the hope that all dentists would read it. Our Board might well consider preparing a letter from the materials in this report to circulate to the dentists in Ontario.

Since the last review of fees by the two Boards there has been considerable change in dollar value and in techniques. Therefore, I have asked the secretary to arrange a meeting of our Board with Dr. Marshall and also a meeting of our committee and representatives of the Workmen's Compensation Board.

Respectfully,

(Sgd.) M. V. J. KEENAN.

Motion: That the report of the Representative to the Workmen's Compensation Board be received and adopted . . . Carried.

REPORT OF CONSULTANT TO WORKMEN'S COMPENSATION BOARD

To the Board of Directors, R.C.D.S.

Gentlemen:

As your appointed consultant to the Workmen's Compensation Board I am pleased to report as follows for the twelve-month period ending April 30th, 1953.

In the abovementioned period I have reviewed 54 claims which is a considerable increase over any other similar period. As far as I know, all settlements have been arranged reasonably and satisfactorily to all concerned.

During the year my previous contact with the Board — Mr. C. G. Cameron, retired and on this occasion I would like to record my appreciation of the cordiality that Mr. Cameron extended to your representative at all times and his fairness in consideration of all problems presenting.

My contacts with the Board now are Mr. G. A. Inglis and his assistant, Mr. Wm. R. Kerr — both genial and cooperative young men.

As members of your Board are aware a new schedule of fees was negotiated by your Committee. As a matter of fact, a new dental form known as 'Form 8b' has been printed. Perhaps a few points in connection with this form might be mentioned.

1. Emphasis is placed on the form that 'It is to be filled out completely and in detail' — a fee allowance of \$3.00 is made for the examination and report.
2. A new clause in the report form requests the examining dentist to 'Describe evidence of periodontal disease as to location and degree of severity' which existed prior to the accident.
3. The dentist is invited to x-ray the injured dental area and contiguous parts for every accident case and submit one copy of radiographs to the Board with the report of findings.
4. In **heavy type** — on bottom of the front page there is a paragraph as follows — **'Important — do not proceed with dental services before obtaining the Board's approval. You may, however, give emergency treatment and make necessary radiographs without permission, for which a reasonable fee will be allowed. Upon the return of this form you will be advised whether or not the Board approves of the services suggested and at the fee specified. If authorized by the Board, you may then proceed with these services and submit your account upon completion.'**

This paragraph sets out the dentists instructions in handling compensation claims and because it is so often ignored it is given special prominence on this new form.

5. The new schedule of dental fees negotiated by your Board became effective March 1, 1953, and represents an increase of about 20% over the old schedule in use since 1948. As a matter of record the amended schedule is appended.

There is a further provision of the schedule relating to fees and it is this — 'In exceptional cases where complications may arise, additional allowances may be made, dependent on details justifying them being submitted to the Board first for approval.'

In recent months there has been an increasing number of dentists taking advantage of this clause to obtain an increased fee after they have completed the service. The Board does not accede to this too kindly. The regulations specifically request that the Board's authority be obtained before proceeding with dental restorative service. If the dentist feels he should have higher fee because of complications, etc. he should negotiate his fee before commencing the case and not after. A warning has been given that where a dentist proceeds without the Board's approval of his treatment, by so doing he accepts the Board's usual fee for his service.

It will be noted in the schedule that a hospital fee of \$5.00 is allowed when a dentist is called to hospital to see a patient.

Again, in the matter of Root Canal Therapy cases, this problem

has been considered thoroughly. In the past this type of service has been discouraged by allowing a fee that was very inadequate. Because of new and much-improved methods of root canal therapy and canal obliteration and because a number of competent dentists are practising the new methods, the Board has agreed to allow \$25.00 for satisfactory therapy and root filling when radiographic evidence of completely filled canal or canals are submitted at the conclusion of treatment.

In commenting on the new dental form 8b and the new schedule of fees I feel the profession at large all across Ontario will be quite satisfied with the remuneration allowed. There will be some, of course, who feel these fees are still too low. In regard to those cases there is a tendency to use the Compensation Board's allowance as sort of 'Grant-in-Aid.' This cannot be done, of course, unless agreed to by the Board and the claimant concerned and only then, under exceptional circumstances.

Before closing this report, if there was one thing I would like to emphasize more than anything else, it would be — for the sake of continued good relations between the Board and the members of the profession — that a complete report should be made of every accident case setting forth conditions existing before the accident, then give the description of the injury, the treatment required as a result of the accident and the fee.

This information should be submitted to the Board, then await its approval of the recommendations and fee. In the meantime, any emergent treatment necessary may be rendered without authority.

Finally, may I express to your Board my appreciation of your continued confidence and my gratitude to individual members of your Board who have assisted me with problems during the year. I would especially like to mention Drs. Keenan, Reid and Gullett.

Respectfully submitted,

D.D.S.

Consultant.

Motion: That the report of the Workmen's Compensation Board be received and adopted. A letter of appreciation be sent to the Workmen's Compensation Board for their co-operation in the past . . . Carried.

Motion: That Dr. . . . be re-appointed as consultant to the Workmen's Compensation Board . . . Carried.

SCHEDULE OF DENTAL FEES

This Schedule has been authorized by the Workmen's Compensation Board, approved by the Royal College of Dental Surgeons of Ontario, and is effective for services rendered on and after March 1, 1953:

Dental care under the Act is limited to necessary treatment or replacement of teeth damaged or removed as a result of the injury.

General Provisions

1. The lump sum fees in this schedule cover supplies, appliances necessary treatment.
2. In exceptional cases where complications arise, additional allowances may be made, dependent upon details justifying them being submitted to the Board first for approval.
3. Workmen receiving dental treatment are not allowed to change to another dentist without good reason and permission or approval of the Board.
4. Reports should be mailed to the Workmen's Compensation Board.
5. Approval of accounts by the Board will be based solely and

finally on information given in the written reports and itemized estimates furnished to the Board.

6. Accounts are to be rendered promptly on close of treatment on Form No. 34 provided by the Board.
7. Initial Treatment (No authority required):
 - (a) Emergent Treatment (Except B and C hereunder) \$ 3.00
 - (b) Repair of fractured denture 6.00
(Plus \$1.00 for each tooth supplied.)
 - (c) Repair of broken facing according to type \$3.00 to 6.00
8. Examination, Diagnosis and Report 3.00
This fee will not be allowed in respect to the repair of dentures or broken facings.)
9. Extraction one tooth (local anaes. included if used) 3.00
Each additional tooth in same segment of mouth at same time 1.00
Post operative treatment where necessary see item 2 in General Provisions.
10. Root Canal Therapy and Canal Obliteration permitted under special circumstances.
11. Gold inlay where specially indicated 15.00
12. Silicate fillings with cement base 5.00
13. Amalgam fillings, simple or compound (specify) \$ 3.00 to 6.00
14. Crown restorations:
 - (a) Gold with cast occlusal biting surface 18.00
 - (b) Richmond type 18.00
 - (c) Cast three-quarter or full 18.00
 - (d) Cast with acrylic or silicate facing 24.00
15. Fixed bridge restorations:
 - Abutment as per No. 14 (a), (b), (c), (d), above.
 - Pontic 15.00

Dentures

16. Complete upper or lower acrylic 60.00
17. Partial denture service:

Designs for all partial cases must be submitted justifying estimated fee.

 - (a) Acrylic type with minimum of 2 gold clasps 30.00 to 60.00
 - (b) Upper or lower partials with cast gold bar and 2 clasps with acrylic saddles 75.00
 - (c) Partial lower with gold wrought bar and 2 clasps 65.00
18. Rebase denture:
 - (a) Complete upper or lower 20.00
 - (b) Partial denture 15.00
19. X-ray Service:

The following fees are for radiodontic examination made by a dentist.

No fee will be allowed for X-ray films submitted that are of unsatisfactory diagnostic value. X-ray to be taken on double film packet.

One copy to be retained in office and one to be submitted with written report to and retained by Board.

 - (a) Single tooth area 2.00
 - (b) One quadrant of mouth 4.00
 - (c) Complete upper or lower 6.00
 - (d) Complete survey (minimum of 14 films) 10.00
20. Hospital attendance if necessary and patient unable to attend office — an additional 5.00

REPORT OF REPRESENTATIVE TO AMERICAN ASSOCIATION OF DENTAL EXAMINERS

At Fall Meeting

Mr. President and Members of the Board:

In his opening remarks the President reviewed the history of the A.A.D.E. stating that the first meeting of the Association was held at Niagara Falls in 1883 when Johnathan Taft was elected President. In relating the progress made he stated that one regrettable fact still in existence was the appointment to some licensing boards of members on a political basis. He emphasized the human side in conducting licensing examination stating that frustration was not necessarily lack of knowledge and care should be exercised not to leave the stigma of failure upon a worthwhile man's life.

The Chairman of the Committee on Standardization of Dental Laws reported:

1. A succession of undesirable bills presented to state legislatures by representatives of technicians, all of which had failed to pass.
2. A general increase in amount of licence fees.
3. A number of boards actively preparing to licence specialists.
4. An increased number of boards holding open meetings during Association meetings which was highly recommended.

In the report on Foreign Colleges, statement was made that Canadian graduates should not be considered as foreign graduates and a rather complete summary to date of the C.D.A. Survey of Dental Schools was presented.

The solicitor for the Kansas State Board gave an excellent address emphasizing the following points:

1. That one billion dollars of dental services were rendered in the United States last year (The amount in money value has doubled in ten years.)
2. That the increased demand has been met without socialization.
3. That expansion of dental services is due partially to the use of ancillary personnel and improved dental education.
4. That dental laws have been improved to meet the needs of the public, pointing out that progress in dental legislation had been rapid until today it is equal to that for medicine and law.

A part of the meeting was conducted in the form of a workshop on methodology in conducting examinations. The seminar on examinations in the subject of Oral Diagnosis was attended and the following points noted:

1. Good examinations in Oral Diagnosis are expensive and difficult to conduct. Patients have to be secured and paid for attendance. Some boards have been able to make arrangements with institutions but such inmates do not always represent the best type of patient for the purpose.
2. New graduates with limited clinical experience cannot be expert in diagnosis which requires years to acquire but such applicants should show knowledge of possessing the tools.
3. The examination should include the diagnosis of the mouth as a whole in relation to the rest of the body.
4. Diagnosis should be considered as the basic sciences in reverse (e.g., Pathology is taught by naming and describing the disease giving the signs and symptoms last.)
5. Good advice for the value of examination is to test the test on the members of the board or some other group of good practitioners before using it.

Dentistry for children as a subject for licensing board examina-

tions was discussed at some length. As a result of a questionnaire circulated to boards it was stated that candidates were examined in this subject in some form by 35 states. For the most part the questions on this subject are contained on a paper of another subject. Eight states reported that a clinical examination on children is given.
(Sgd.) DON W. GULLETT.

Motion: That the report of the Representative to the American Association of Dental Examiners be received and adopted . . .
Carried.

REPORT OF REPRESENTATIVES TO CANADIAN DENTAL ASSOCIATION

To the Board of Directors of R.C.D.S.
Gentlemen:

A train load of dentists and their wives from Eastern Canada journeyed to Vancouver to attend the National Convention and celebrate the 50th Anniversary of the Association. The dentists of British Columbia had wonderfully arranged a programme and no effort was spared to make our stay a very pleasant one.

Golden Jubilee

The celebration of the Golden Jubilee ensured a very large attendance and many kind words of praise of the progress of our Association marked many sessions of the Association. President Gustave Ratte said 'Just at this moment when we still hold the last page on which is written the Canadian Dental History of the past fifty years, let us look forward to find our way. We have many serious problems but now that the working heart is well organized, let us join together in a union of thought and effort to solve the problems of our profession and of the public. These periods of progress over the past fifty years are finger-printed by those unselfish workers who have united their efforts to study, defend and promote the best interests of the profession in its relation to the public which they have chosen to serve.'

National Pension Trust Plan

This Plan will be administered entirely separate from the Association with head offices at Brockville, Ontario. 'Industrial Pensions Limited' is the Company formed to operate the Plan under a Board of Trustees of the Canadian Dental Association. Mr. Williamson of Industrial Pensions Limited speaking before the Dentists of Vancouver said in part:

"This is an economical security Plan which took nine years to produce. It is designed to give security to the dentist and his family. It is a comprehensive system to cover all losses and can be obtained in one transaction. No group insurance can provide its members with lower rates than this does. It is made possible because the C.D.A. gave definite conditions. It is planned with confidence by the profession for the profession but must have the support of the profession. No agents, no commissions, no overhead, it is left with you to make it a success."

Dental Personnel and Need of Dental Schools

Much was said in reference to the great need of more dentists all across Canada. The profession views with increasing concern the apparent lack of progress in providing further facilities for the increasing of Dental Personnel. It was brought out at this meeting in the report of the Council on Dental Education that since 1938 the Province of Ontario has had a net gain of exactly one dentist, whereas the population has increased from two and one half million to four and one half million. It is obvious that we must do something to

make Dental Services more readily available to the public. Besides, it was pointed out that about one half the dentists are fifty years or over.

National Examining Board

The Secretary, Dr. Don W. Gullett, presented a copy of the Canadian Gazette containing notice of the presentation and passing of a Bill of the National Examining Board. The Dominion Dental Council has accepted the request of the C.D.A. to remain and help to organize the new Board which will represent all the Provinces of Canada. The qualifications for this Board will represent the highest in Canada and any candidate passing the examinations will be acceptable to any Province in Canada.

Health Insurance Studies

A most comprehensive report in much detail was presented at the meeting and covered dental programmes, costs, fees, methods of payment, prepayment plans and many other aspects of these studies in reference to Health Insurance. May we recommend that you spend the time to read the report as presented in Transaction of the C.D.A. and wonder at the time and effort to produce such a fine report.

Research-Fluoridation of Water Supplies

This is a very controversial subject in many municipalities across Canada. The Research Committee is trying to keep up with developments on this subject of fluoridation of communal water supplies as a method of reducing the incidence of dental caries. At the meeting in Vancouver, the Research Committee presented a 'Statement' to the C.D.A. for their approval. The full statement is found on page 112 of Proceedings of C.D.A. Part of the statement reads: "As the earliest studies undertaken on artificial fluoridation are still in progress and reporting at intervals, the Research Committee of the Canadian Dental Association does not feel justified in completely endorsing, without some qualification, the fluoridation of communal water." The full text as found in the proceedings is the resulting statement from a Committee of C.D.A. with Research Committee.

Public Relations

The distribution of the excellent booklet prepared by the Committee on Ethics should impress upon the mind of each Canadian dentist not only the necessity for good professional conduct but also the advantages to himself and to his profession of good public relations. The profession is judged by the daily conduct of its individual members, each one of whom must strive to so conduct himself that he will enhance the dignity of his profession.

These may not represent the main reports — to us each report seemed very important — but we hope that enough has been said to cause sufficient interest in the C.D.A. that every Ontario Dentist will read all the Transactions of Canadian Dental Association.

All of which is respectfully submitted.

Drs. Percy Lowery
C. Murray Purcell
Harvey W. Reid
S. J. Phillips, Chairman.

Motion: That the report of the Representatives to the Canadian Dental Association be approved . . . Carried.

REPORT OF PUBLIC RELATIONS COMMITTEE

To the Board of Directors, R.C.D.S.

Gentlemen:

Your Public Relations Committee held no formal meetings this year but your provincial representative attended meetings of the Public Relations Committee of the Canadian Dental Association during the year.

One of the principal functions of this Committee is to maintain and build up good public relations through the Profession becoming more public relations conscious. In this connection the gift of a film entitled 'A Career in Dentistry' from the American College of Dentists was gratefully acknowledged. This film could be of use in Vocational Guidance work. Film strips on a dental career are available free to educational authorities across Canada. The use of T.V. Programs for dental health education to the public was discussed at several meetings and discussion took place with the Canadian Broadcasting Corporation.

The matter of the relations between dentists and patients came up for discussion and while public opinion was favorable to the dental profession there have been reports of individual cases where the dentist did not act toward his patient in an ethical manner.

Recordings and script of proposed radio programmes to be broadcast by an Ontario station were reviewed and approved for use in public dental health education.

A clipping service is maintained by the C.D.A. to determine the type and amount of publicity the dental profession is receiving in the Canadian Press.

C. M. Purcell, Chairman.

April, '53.

Motion: That the report of the Public Relations Committee be received and adopted . . . Carried.

REPORT OF THE DENTAL PUBLIC HEALTH COMMITTEE

Gentlemen:

The Dental Public Health Committee begs to report on its year's activities as follows:

Field Work Committee

Under the chairmanship of Dr. E. R. W. Bilkey, this committee has aided the Research Group at the University of Toronto in its drive for funds.

After several meetings with the Board of Public School Trustees and the Board of Health, a dental programme has been established in Swansea. The Board of Health for the Village of Swansea gave a grant to enable a dentist to make examinations of pre-school and of school children and to do some educational work.

A request was received for guidance in planning a dental programme from the Township School Area of Vaughan and Markham. As a result a dental programme has now been commenced in this area.

A similar request was received from the Kingston Dental Society. As a result, a Dental Public Health Committee has been set up in this area and a programme of activity is under way.

The Dental Public Health Committee of the City of Belleville is to be commended on the programme it has instituted.

The Academy of Dentistry for the City of Hamilton has organized a Dental Public Health Committee which plans to initiate a programme next fall. Our committee hopes to give every possible assistance to make this programme really effective.

In Toronto, the Academy of Dentistry has been most co-operative.

Over eighty lectures were given during the year, to Home and School Associations, Service Clubs, Conventions, etc.

This is the record to date and indicates how the public is becoming more dental health conscious.

Committee on Fluoridation of Communal Water

This committee was set up during the year. Its object was to give factual information, when requested, to local dental societies.

Dr. W. J. Dunn, Chairman of this committee, has made trips to Etobicoke Township, Galt, Tweed, and Belleville to give information to local groups interested in a fluoridation program.

Dental Seminars

Two seminars were conducted by the Dental Public Health Committee during the year, one in Brampton and one in Sudbury. These seminars consisted of two-day courses which included lectures and clinical instruction. The Brampton seminar was held in September and twenty-three dentists attended. The Sudbury seminar was held in October, and twenty-four dentists attended.

Apparently this type of programme was appreciated as more dentists wished to attend than could be accommodated. Similar seminars have been requested in other areas for the fall of 1953. A grant has been requested from the Provincial Government for the purpose of extending the dental seminar programme to other parts of Ontario. It is proposed that this grant be administered by the Department of Dental Public Health of the Faculty of Dentistry. *

Red Cross

Dr. S. A. MacGregor, Red Cross Representative on our Committee, reports that at the present time, we have three Red Cross Coaches operating; one at Massey, one at Whitney and one north of Parry Sound. The Junior Red Cross requested that our committee aid it in its follow-up programmes and in its educational work in these areas. Although Red Cross has done this in the past, it is the feeling of Mr. Stringer, the Commissioner, that our group is more capable of conducting such a programme. Drs. MacGregor and Mitton spent two days recently in the Madawaska, Combermere, and Barry's Bay districts, guiding the dentists in the Coaches in this type of work. It is our intention to have our Field Secretary visit the Coaches at least once a year and give every possible assistance. Junior Red Cross has contributed \$15,000.00 this year to the Hospital for Sick Children, Dental Division, to care for Cerebral Palsy and Cleft Palate cases in children.

Materials Committee

Dr. R. J. Vince and his committee prepared a new leaflet outlining the materials available for educational purposes. This committee has also completed twelve sets of 20 slides each, to be used by the Dental Officers in Health Units and by our committee for educational work. These slides are to be used in conjunction with our book "Your Child and Mine". Material for a film strip of the book, for use in schools, is being prepared.

Dr. H. A. Swales and his committee, who have been responsible for the promotion of our book "Your Child and Mine", have sold over 5,000 copies, necessitating the placing of a new printing order. Requests for this book have been received from other provinces and from the United States. Mr. G. A. Pearson, Superintendent of Elementary Education for Ontario, has forwarded a memorandum about this book to all the Elementary School Inspectors, Principals of Elementary Schools and Mr. F. S. Rivers has had it placed in all Normal Schools.

Convention Committee

Dr. W. J. Dunn has represented Dental Public Health on the Convention Committee this year.

An interesting and educational programme has been arranged with the Breakfast Meeting on the Monday morning, the Public Health Luncheon on Tuesday, group and table clinics and a message to the profession in the programme of the annual meeting. Realizing the importance of dental research to public health our committee offered the assigned group clinic time this year to the Dental Research Committee.

Promotion of the use of available materials is being stressed through our display of material in the foyer of the Banquet Hall. Our Book "Your Child and Mine" is being featured.

Diplomas in Public Health

Two civilian dentists are taking the course in Dental Public Health this year.

Dr. J. W. Lawrence has been appointed by the D.P.H. Officers to represent them, on our committee. This will aid in a closer liaison between the two committees.

Field Work Secretary

Dr. G. T. Mitton's annual report is presented as a brief summary.

Dr. Mitton has been most co-operative and it would have been impossible to accomplish what we have done this year without his assistance.

The establishing and guiding of dental public health programmes throughout the province is one of the major aspects of our work. However, the interest and co-operation of the dentists in local societies is imperative for the success of these programmes. It is folly for a central committee to try to maintain dental public health programmes throughout the province. It is better to decentralize our efforts by having the local society maintain a programme after it is initiated, with the central committee giving guidance when requested.

Respectfully submitted,

A. W. S. WOOD,
Chairman.

SUMMARY OF REPORTS OF FIELD SECRETARY

1. Meetings attended in association with the interests of D.P.H.
 - a Annual meeting Canadian Public Health Association in Winnipeg (in charge of dental section program).
 - b Annual meeting Dental Alumni Association.
 - c Annual meeting American Public Health Association in Cleveland (attended dental section).
 - d Two meetings of subcommittee on Dental Needs and Resources of Welfare Council of Greater Toronto.
 - e Annual meeting of Welfare Council.
 - f Ontario Public Health Association annual meeting—(programme chairman for dental section).
 - g Academy of Dentistry Winter Clinic — (assisted table clinic preparation of Dental Hygienists).
 - h Nutrition Division of Health League.
 - i Annual meeting of Health League of Canada.
 - j Executive meeting of O.P.H.A.
 - k Society meetings — West Toronto, North Toronto.
 - l Public Health Workshop in New York.
 - m Annual meeting of Canadian Red Cross.
 - n R.C.D.S. board in reporting D.P.H. activities.
 - o O.E.A. Separate School Trustees' Association — (presented paper).

2. Committee Work
 - a Materials — re visual aid preparation.
 - b Field work — re support of fluoridation — assistance to Research Division campaign.
 - c Nutrition Committee of Health League.
 - d Executive of D.P.H. committee on memorandum of Dr. Johnson.
 - e Dental Seminar Committee in planning for Brampton and Sudbury programme.
3. Dental Seminars

Brampton Seminar — Trips made to Brampton, Oakville, Burlington and Georgetown during the planning. Twenty-two dentists attended the two-day course.

Two clinicians — Dr. E. R. W. Bilkey on "Dentistry for Children" and Dr. G. Johnston on "Amalgam".

Dinner at Golf Club at close of course addressed by Dr. J. H. Johnson.

Sudbury Seminar — Details arranged by a conference with Dr. A. B. Sutherland and by correspondence.

Two clinicians, Dr. A. W. S. Wood on "Some Clinical Problems in Dentistry for Children" and Dr. W. G. McIntosh on "Periodontics". Those attending numbered 23.

A dinner meeting was held at the close of the course.

Extension of Programme of Dental Seminars

Conferences were held with Dean Ellis, Dr. F. A. Kohli, Dr. Gordon Brown, Dr. John Phair, Deputy Minister of Health, regarding plans to extend this postgraduate dental seminar instruction.

- 4. D.D.P.H. Bimonthly Meetings

Three bimonthly meetings of the D.D.P.H. men were attended at Welland, Grimsby and Brampton. An afternoon is used to discuss field work problems. Field projects are discussed and information is being secured for a study of caries immune cases. These men are now represented on the D.P.H. Committee by Dr. J. W. M. Lawrence, secretary for this group.
- 5. Conferences held respecting D.P.H.
 - a Nutrition Division of Red Cross on field trips to coaches.
 - b Mr. Ashdown — on many occasions, respecting printing and promotion of sales; on reprints of "toothbrushing" section of the book.
 - c Mr. Rivers and his associate on teaching of dental health in Normal Schools.
 - d Health League officials regarding Health Week; Health Magazine.
 - e Dr. F. H. Compton respecting visual aid material for Health Department use.
 - f Mr. H. Despard — shipment of display panel to Ottawa; preparation for convention display.
 - g Dr. S. Lee Honey on preparation of lecture outline for the Normal Schools.
- 6. Trips on Field Work

During the period agreed upon by the committee, of actively carrying out the Child Health Conference programme in Halton County Health Unit, sixty-one clinics were attended with a total mileage during this period of 3,900 miles. The expense in this connection was borne by the Halton County Health Unit through a public health grant. This assistance to the programme as arranged by Dr. Mathers has now been terminated as of April, 1953. Other field trips by the Field Secretary included the following: Barry's Bay, Madawaska and Combermere (Red Cross Coach); Vaughan and Markham Township school area; Newmarket; twice

to Swansea; Brantford; Woodbridge; Richmond Hill; Markham and two trips to Thornhill (visit to dentists in dental public health programme planning in this area); Peterborough.

Respectfully submitted,

GLENN T. MITTON.

Following the presentation of the above report the Chairman presented the following resolution as passed by the Board of Governors, Ontario Dental Association:

"That this Board recommend to the R. C. D. S. Board that they use their influence with government officials to extend their grants for dental education in properly organized areas where a D.D.P.H. dentist is not present and where grants are only available for treatment services."

Motion: That Drs. Lowery, Langmaid and Gullett be a Committee to meet with the Dental Public Health Committee of the Ontario Dental Association to discuss the resolution presented by the Ontario Dental Association and if considered feasible seek interview with the government . . . Carried.

Motion: That the report of the Dental Public Health Committee be adopted . . . Carried.

BY-LAW NO. 81

A BY-LAW TO AMEND BY-LAWS NOS. 8 & 11

By-law No. 8 to be amended by the addition of the following section:

SECTION III — NATIONAL DENTAL EXAMINING BOARD CERTIFICATES

(a) Holders of a certificate of qualification issued by The National Dental Examining Board of Canada, subject to subsection (b), may be admitted without further examination to membership in the Royal College of Dental Surgeons of Ontario upon payment of the registration fee of \$100.000.

(b) An application for the registration of a National Dental Examining Board Certificate must be accompanied by a certificate from the Secretary of the Licensing Board of the Province in which the applicant is licensed, stating that he has been and is in good standing.

By-law No. 11, Section 2, to be amended by the addition of the following new sub-section (j):

Notwithstanding any provision in the preceding sub-sections of this By-law with respect to dental hygienists, nothing in these by-laws shall prevent the employment in public health activities under the supervision and control of a legally qualified and licensed dentist or dentists, of a dental hygienist or dental hygienists registered as such with the College and holding a current unrevoked and unsuspended licence.

(The By-law (No. 81) was given three readings and approved.)

ADDITIONAL ITEMS

The Minister of Education, an Ex-officio member of this Board, paid a visit to the Annual Meeting in order to discuss the need for increased teaching facilities in dentistry. He agreed that need existed and promised immediate and serious consideration.

Dr. C. H. M. Williams, as Chairman of the Fund Raising Campaign for Dental Research, outlined the proposed plans before the Board at the Fall Meeting. The Board gave hearty approval.

Proposed changes in regulations under the Act Respecting Dental Technicians were submitted for approval and the Board granted approval.

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:—

1. May not display any sign containing anything other than his name, degrees and profession and in which any letters larger than four inches are used.

2. May not display more than two signs in addition to one at or on his entrance door.

(a) Not more than one of these may be a suspended sign.

(b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.

3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only un-illuminated letters or figures not larger than two inches).

(a) Add to his entrance sign, his office hours.

(b) Add to any sign the words "Open Evenings" and (when an entrance is difficult to find) the words "Entrance on"

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:—

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice. The announcement shall not contain any reference to qualifications, procedure or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be the nature of a display.

2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:

(a) Use private professional cards.

(b) Issue accounts and receipts.

(c) Issue appointment cards.

(d) Mail to his patients recall notices.

(e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice.

SOLICITING ADVERTISING

For the protection of the Profession from solicited advertising, this Board prohibits any Member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

RE LISTING OF DENTISTS IN TELEPHONE DIRECTORIES FOR PROVINCE OF ONTARIO

- (1) No display advertising of any kind.
- (2) No black face listings in the yellow pages.
- (3) No specialists listed under separate group headings.
- (4) Mention of office hours is of no particular value, and is usually used only to increase space, therefore, to be excluded.
- (5) Mention of particular facilities or equipment, such as X-ray, gas extractions etc., not acceptable in either section.
- (6) Black face listings acceptable in white pages.
- (7) Residence listing on yellow pages, as well as on white pages, is acceptable.
- (8) Designation as specialists, i.e., Periodontist, Dental Oral Surgeon, Orthodontist, etc., is acceptable in both yellow and white pages, provided that the dentist is a certified specialist.

Annual Report
of the
Board of Directors

*The Following Is a Condensed Report
of the Business Transacted by the
Board During the Year:*

ROYAL COLLEGE OF DENTAL
SURGEONS OF ONTARIO
1953-1954

REPORT OF THE PRESIDENT

Mr. Chairman and Members of the Board of Directors, R.C.D.S.

In accepting the honor which this Board gave to me, last year, in electing me as your President, I did so with the knowledge that I would have the fullest co-operation of the membership of the Board. I have not been disappointed and as we assemble here to-day for our annual meeting, I have every confidence that the reports of our committees will show evidence of progress. While we may not show any outstanding accomplishment, as most of our work has been of a routine nature, we have directed our energies to several projects which will, we hope, bring results in the not too distant future.

During the year, particular stress has been exercised in an endeavour to procure increased teaching and training facilities for Dental Personnel. This has entailed a number of special meetings and much correspondence between this Board, the Ontario Government and the University of Toronto. I would at this time express our appreciation to our efficient Secretary as his duties have been extremely heavy during the past year in connection with this project.

At the last session of the Ontario Legislature, \$1,000,000.00 was appropriated for the increased training and teaching facilities. Consideration was being given by the University to the remodelling of the present building housing the Faculty of Dentistry. On consultation with Dean Ellis, it was agreed that the proposed programme would not meet the requirements of a modern school. A meeting was called under the chairmanship of Dean Ellis, with representation from The Ontario Dental Association, the Dental Alumni, University of Toronto, and the Royal College of Dental Surgeons of Ontario. Your Board was represented by Dr. R. P. Lowery and your President. After consideration of the proposed plans and our requirements, it was agreed that the Dental Organizations represented should send letters to the Chairman of the Board of Governors outlining our requirements and giving reasons as to why it was thought necessary to carry out a more extensive building programme. As a result of this correspondence, the Chairman of the Board of Governors called a meeting at Simcoe Hall, Monday, April 19th. Present at that meeting were the Chairman of the Board of Governors; the President of the University of Toronto; Mr. Dalglish, member of the Board of Governors; the Comptroller, University of Toronto; Dr. S. G. Werry, President, Dental Alumni, University of Toronto; Dr. L. M. Grose, representing the Ontario Dental Association; Dean Ellis and your President.

Correspondence was read from the architect. Dean Ellis showed the architect's plans for proposed remodelling and a new building. It was unanimously agreed that the proposed remodelling plan would not meet the needs of a modern dental school nor would it be possible to train the required number of personnel. It was also agreed that a new building is the answer to our needs and that said structure should be attached to a hospital if possible. The comptroller was given instruction to investigate the possibilities of procurement of property suitable for a site. Moreover, it was agreed that little could be done with the amount of money available. The University authorities proposed that an effort should be put forth to procure greater assistance from the Federal Government. A letter is to be sent from the University Board of Governors to the Ontario Legislature stressing the needs of an entirely new building and asking for more financial assistance.

Increase in our Annual Registration Fee:

A study of our finances revealed the necessity of an increase in our revenue. As this can only be accomplished by increasing the annual

licentiate registration fee is was agreed at the Fall Meeting of the Board to take steps to facilitate the opening of the Dentistry Act for this purpose. The need for greater revenue has been brought on by the spiralling costs of administration and greater demands for financial assistance by organized dentistry. Accordingly the Board Members were asked to get the approval of the different dental societies in their respective districts. Resolutions supporting the Board in their proposal have come from many societies and will help materially in our approach to the Government.

The past year has seen the passing of the Dental Council of Canada and the birth of the National Dental Examining Board. This is a noteworthy advancement in the history of Canadian Dentistry. The magnanimous support given by the D.C.C. to the N.D.E.B. in funds and records will long be remembered. The congratulations of this Board go to the D.C.C. for their record of achievement over the years and our best wishes go to the success of the N.D.E.B.

A matter of more than considerable concern to this Board is the continuous flow of correspondence coming to our Secretary registering complaints as to overcharging, unprofessional conduct, use of abusive language, etc. Some of these complaints are of a very serious nature and have tested the ability of the Discipline Committee to deal with them. The Chairman has called a meeting of the Board, previous to this meeting, to deal with some of our problems. The numbers who in one way or another are contravening the Dentistry Act are creating an alarming situation. Moreover, there are others, who show no apparent concern as to matters vital to the welfare of the profession. From my observations in attendance at meetings of organized dentistry, Public Relations has become a vital issue for discussion. It is obvious that it is the duty of all concerned to make our membership more Public Relations conscious.

We are deeply grateful to Dean Ellis and the members of the Faculty of Dentistry, University of Toronto, for the close co-operation which we have enjoyed in the past year and which has been characteristic of the harmonious relations of the years gone by. Dean Ellis has put much time and effort into the problem of increased teaching and training facilities. We hope that his efforts will be rewarded soon. Members of the Faculty are in great demand for extramural services in Ontario and the demand from outside Ontario grows yearly. This together with the honours that have come to some of the members during the year is of more than passing significance.

The success of the Dental Research Campaign, to which the profession contributed approximately \$140,000.00, is an achievement in which we are extremely proud. We wish to congratulate the committee on the success of the campaign.

During the past year honours have been conferred on several members of the Board. We congratulate Doctors Morrow and Godfrey on receiving F.A.C.D. Fellowship and Dr. Gullett who received the Coronation Medal.

During this session of the Board, we shall give consideration to the following problems in addition to routine business:

1. Ways and means of approach to the Governments for greater financial assistance for the provision of a new building to house the Faculty of Dentistry, University of Toronto.
2. Set up the necessary machinery for the approach to the Ontario Government in relation to opening of the Dentistry Act.
3. Endeavour to adopt a clear-cut policy in dealing with some of our disciplinary problems.

4. Discuss with our representatives to the Canadian Dental Association matters as they relate to the Royal College of Dental Surgeons of Ontario.
5. Promotion of better Public Relations.

In conclusion, I would like to again express my thanks for your loyal support. To the headquarters: staff, I am grateful for their co-operation. I appreciate the honour and it has been a privilege to serve in my capacity as your President.

Respectfully submitted,

C. MURRAY PURCELL,

President.

Motions: That the President and Dr. R. P. Lowery be appointed members on a joint committee to represent this Board in connection with a new dental school. . . . Carried.
That the report of the President be adopted. . . . Carried.

REPORT OF REGISTRAR-SECRETARY

Mr. President and Members of the Board:

1. It will be found in examining the following table that the number of Ontario dentists increased by 27 during the past year. To arrive at the number of dentists actively engaged in dentistry approximately eighty must be deducted from the total number given. The deducted number is made up of those who pay a fee but do not practise in Ontario and honorary members who are known to be not in practice.

Changes in Register

As of April 30th, the number on the Active List of the Register was as follows:

Annual fee paid	2182	
Less deceased since paying fee	4	— 2178
Honorary Licences issued	106	
Less deceased since issuance licence	4	— 102
Fees unpaid		8
	Total	2288

The following changes in the list have occurred during the year:

Additions

Graduates of University of Toronto	63
D.C.C. Certificates	8
Board Examinations	1
Inactive to Active	10 — 82

Deletions

Deceased	23
Retired	32 — 55

Increase over previous year 27

2. Another fact to be taken into consideration is that it is estimated Ontario has a higher proportion of members on salary in various functions related to dentistry than any other province.

3. Nine dental hygienists are registered in Ontario as of this date, two of which are not engaged in practice at the present time.

4. The number graduating at the Toronto school this year is the lowest for several years, being 70. Of this number 55 have indicated that it is their intention to establish practice in Ontario. Of these 55, some six or seven are accepting positions other than private practice.

5. The loss by death of Honorary Members during the year was eight. Fifteen members are eligible for honorary membership January 1st, 1955. These names follow below in this report.

6. As can be observed from the current issue of Statistical Data re Dental Personnel in Canada, the province of British Columbia now possesses the best ratio of practising dentists to population of any province, being slightly better than that for Ontario. This province has possessed the best ratio over the years.

7. Twenty-seven meetings of local dental societies were arranged under the Extramural and Extension Lecture Service, compared to forty in the previous year. The average number of meetings under the service for the past twelve years is 32.8. A report of the year's activity is appended.

8. The most difficult problem to handle satisfactorily in this office is the matter of complaints respecting services rendered. A great deal of time is involved in endeavouring to establish the facts so that sound decision may be made.

9. At a meeting of the Senate, University of Toronto, the following admission requirements were adopted and will apply on the dates indicated. It will be observed that applicants beginning with the session 1955-'56 will be required to show standing with an average of at least III Class Honours in at least nine papers of the Ontario Grade XIII examinations.

"1. That, beginning with the session 1954-'55, the present requirement of the Ontario Secondary School Graduation Diploma (Grade XII) be withdrawn.

2. That, beginning with the session 1955-'56, the minimum requirements for admission to any undergraduate degree course will be Ontario Grade XIII certificates (or equivalent) showing standing, with an **average** of at least III Class Honours, in at least nine papers which must include English and a second language. The selection of subjects must include **either** Latin or Mathematics (2 papers) and standing in **both** papers of a language subject will be required.

3. That the various Faculties and Schools of the University be requested to specify such additional requirements as they desire for admission to their courses in terms of particular papers."

10. Some twenty Ontario dental societies had submitted resolutions supporting an amendment to the Dentistry Act in respect to the section dealing with the annual fee at the time of preparing this report.

11. During recent months considerable correspondence has occurred respecting the relationship of the practice of dentistry and the existing hospital and medical care plans. Consideration should be given to this matter at this meeting.

12. The biennial election of the Board occurs this coming fall for which scrutineers should be appointed at this meeting.

LICENTIATES DECEASED

April 30, 1953-1954

1915	Joseph Henry Atkins	Toronto	Apr. 24, 1954
1903	Frederick Nichol Badgley	Toronto	June 7, 1953

Total Attendance 821

Motion: That amendment to the Dental Act be sought, deleting from Section 22 (1) the words "not exceeding \$25.00", and amending the schedule of electoral districts by changing Electoral District Number Four from the City of Toronto to the County of York and amending Electoral District Number Eight accordingly, and that the Secretary prepare a supporting brief and take other necessary measures to have the proposed amendments presented at the next session of the Legislature.
... Carried.

Correspondence in respect to the relationship of hospital and medical service plans to dental practice was presented. This correspondence indicated that members of the profession were experiencing difficulty in admitting patients to hospitals. A letter from the Blue Cross Plan of the Ontario Hospital Association stated under the following conditions payment would be made for hospitalization:

1. Where there is a severe medical condition such as heart disease.
2. Where there is severe oral surgery, such as dental cysts and jaw fractures.

Motions: That Dr. A. D. A. Mason and Mr. A. T. Laidlaw act as scrutineers for the coming fall elections and that the Secretary be given power to appoint someone else should either of the above be unable to act. ... Carried.

That the following members:

James Mitchell Abbott, Erin
Howard Watson Anderson, Toronto
John Lorne Anderson, Orillia
William John Cameron, Palmerston
Samuel Eckel, Waterloo
Edward Mills Fulton, Parry Sound
Frederick Charles Husband, Toronto
James Belden Lundy, Port Perry
William Craven Macartney, Ottawa
Howard Victor Pogue, Wainfleet
William Mee Sivers, Toronto
Neil Smith, Chatham
George McKay Sutherland, Toronto
Hillary Newman Wilkinson, Toronto
James Malcolm Wilson, Trenton

be granted Honorary Registration in the College as of January 1st, 1955. ... Carried.

That the report of the Registrar-Secretary be adopted. Carried.

REPORT OF TREASURER

Mr. President and Members of the Board:

The Auditors' Financial Statement for the year ending April 30th, 1954, is herewith presented. It will be observed that the revenue is in excess of that anticipated and some saving was made in the anticipated disbursements resulting in a surplus.

In accordance with the regulations, first notices for the annual fee were sent out on December 1st, 1953; second notices to those who had not paid were mailed on January 18th and drafts drawn on unpaid members on February 5th. On March 1st those members who had not paid were notified of the added penalty. A letter was sent to those not paid on March 26th stating that accounts would be placed in Court on April 1st unless paid previous to that date. As a result of this procedure the fees of the following remained unpaid and were entered in

Court for collection: Doctors H. S. Bryans, J. W. Ingram, W. C. Kelly, W. H. Leach, T. J. McDonough, C. C. Smart, T. A. Watson, J. G. Woods.

No change has been made in the securities held by the Board during the year..

The appointment of auditors for the ensuing year is necessary.

Respectfully submitted,

DON W. GULLETT,

Treasurer.

Motions: That First Notices respecting the annual fee be sent out December 1st. Second Notices on January 15th. Drafts to be drawn on those unpaid on February 1st and Penalty of Five Dollars (\$5.00) be added on March 1st for those unpaid. All unpaid accounts to be enterered in Division Court on April 1st. . . . Carried.

That Thorne, Mulholland, Howson and McPherson be appointed auditors for the next financial year of the R.C.D.S. Carried.

That the Report of the Treasurer be adopted. . . . Carried.

AUDITORS' REPORT

We have examined the books and accounts of the Royal College of Dental Surgeons of Ontario for the year ended April 30, 1954. All our requirements as auditors have been complied with and we report that the above balance sheet is in accordance with the books and, in our opinion, fairly presents the financial position of the College as at April 30, 1954.

FINANCE COMMITTEE

(At the Fall Meeting)

Dr. Furlong, as Chairman of the Finance Committee, made verbal report to the effect that the Board was overdrawn at the bank. He stated that there appeared to be no other alternative than seek authority to raise the annual fee. It was agreed that the Board should have a reserve of approximately Seventy-five Thousand Dollars (\$75,-000.00) under present conditions.

Motions: That a reserve fund of Seventy-five Thousand Dollars (\$75,-000.00) be maintained as essential to good business practice and a necessary safeguard to the public and the dental profession.
.... Carried.

Whereas this Board has found it necessary of late years to operate on a deficit budget under the Dentistry Act, as presently set up, and whereas to secure an increase of the annual licence fee, it will be necessary to open The Act, be it resolved that instruction be given to take the necessary measures. . . . Carried.

REPORT ON FACULTY EXAMINATIONS

Dean Ellis presented a complete report of the final examinations for the current year.

He stated that six had successfully graduated in Dental Hygiene. Of seventy in the senior class, sixty-eight had passed successfully, with two having supplementals to complete. Of a class of seventeen in Dental Nursing, sixteen had been successful with one having a supplemental.

Report was also made on the examinations of the earlier years of the course.

Dean Ellis stated that there had been discussions occur within the University respecting the discontinuance of the course in Dental Nursing. Decision was made to consider this point at the Fall Meeting. Motion: That the Examination Report as presented by Dean Ellis be received . . . Carried.

REPORT ON BOARD EXAMINATIONS

As Examiner-in-Chief, Dr. R. J. Godfrey made report that the following had successfully passed the Board Examinations:

Arthur Harry Craven, D.D.S. James Victor Pastfield Chatwin,
D.D.S.

Motion: That the report of the Board of Examiners be received Carried.

APPLICATIONS FOR LICENCE

The applications for licences presented were considered.

Motions: That the following:

Gordon Leslie Adair
Ronald Joseph Austin Andrews
Manly Gary Badner
Frederick Graham Baker
Roger Dawson Bleakley
Alan S. Brown
Frederick Bruce Burns
James Alexander Burt
Albert Joseph Calzonetti
Hugh Harkins Canning
John Henry Carty

Robert James MacLelland
Ludwig Ferdinand Matthews
Leonard Mendels
Victor Anthony Mizzi
Ray Mulrooney
Douglas Alan Norbury
Carl John Osadetz
Peter Joseph Ostaff
Kenneth Franklyn Pallett
John Peter Pequegnat
Edward Francis Porter

Nina Cernavskis—Viducis
 Charles John Clayton
 Peter James Coates
 Stephen Dayneka
 Ernest Heinz Ehrmann
 Ronald Walter Erhardt
 Clair Joseph Ernewein
 Samuel Fedoruk
 John Fejes
 Cecil William Ferguson
 Harold Laurie Fleishman
 Oliver Wendell Kirke Gott
 Harold Albert Grammer
 Ralph Halbert
 Norris Allen Hodgins
 Ivan Hrabowsky
 Malcolm Campbell Johnston
 Angus Joseph Kennedy
 Fredrick Kinoshita
 Ronald Lyon Landsberg
 James Love
 Louis B. Lukenda
 Ian Urquhart MacIntosh

John Gerard Power
 Stanley E. Rosenthal
 Guy Arthur Rouleau
 Ross Hewitt Sheppard
 Herbert Wagner Sorensen
 Nicholas Skab
 David Reidar Sortome
 George Edmond Sparrow
 Maimu Talvet
 William Cecil Sturtridge
 Bruce Walton Taylor
 Wayne Harold Tester
 Richard James Thompson
 Svatoopluk Frantisek Tomanek
 Walter David Ure
 Robert Gould Walthers
 John Harold Weber
 Gordon Everard Williamson
 Tadeusz Zygmunt Edward
 Wieckowski
 Ian Brownlie Wilson
 Inese Ziedins
 Raisa Zuk—Hrystkievic

be granted their Licentiate in Dental Surgery. . . . Carried.

Arthur Harry Craven, D.D.S.

That Arthur Harry Craven be granted his L.D.S. Certificate when registration fee is paid . . . Carried.

James Victor Pastfield Chatwin, D.D.S.

That James Victor Pastfield Chatwin be granted the Licentiate in Dental Surgery when he has met all the requirements of the Board . . . Carried.

Gerald Gunther Lehmann and Jack James Simpson

That Gerald Gunther, Lehmann and Jack James Simpson be granted their Licentiate in Dental Surgery when they produce evidence that they have met all the requirements of this Board . . . Carried.

PETITIONS

Filip Cappa

A communication from a faculty student who failed the third year examination in general surgery and also the supplemental. He requested consideration for permission to indenture until September 1954 when he hopes to enter the final year.

Motion: That the Board regrets that the By-laws under which it operates will not permit any additional indentureship, other than that authorized between completion of the third and fourth dental years . . . Carried.

Mervyn Samuels, D.D.S.

A petition requesting a ruling that in the event a hospital intern-ship cannot be obtained he be permitted to take one year's training as an assistant in the office or clinic of a recognized oral surgeon.

Motion: That the Board agree in the case of Mervyn M. Samuels, to accept a year in the office of an Oral Surgeon, who is acceptable to this Board, in lieu of a year internship in a hospital—provided it is impossible for him to obtain intern-ship in a recognized hospital . . . Carried.

Gerald Gunther Lehmann

The following petition was presented: "In view of the fact that I have a supplementary examination to write in Periodontology I would like to make an application for indentureship in the intervening period."

Motion: That the petition of Gerald Gunther Lehmann for indentureship be not granted . . . Carried.

Berniece E. Quinn

A petition was received from Miss Quinn requesting registration as a Dental Hygienist at nineteen years of age.

Motion: That Section 10, Sub-section 1(a) of By-laws respecting Dental Hygienists be waived and the petition of Miss Berniece E. Quinn be granted . . . Carried unanimously.

APPLICATIONS FOR CERTIFICATION AS SPECIALISTS

Albert Alexander Antoni, D.D.S.

Motion: That Albert Alexander Antoni, having fulfilled the requirements of this Board, be granted a Specialist's Certificate in Oral Surgery . . . Carried.

Albert Jarvis, D.D.S.

Motion: That Albert Jarvis, having fulfilled the requirements of this Board, be granted a Specialist's Certificate in Orthodontics . . . Carried.

Robert William Marshall, D.D.S.

Motion: That having fulfilled the requirements of this Board, Robert William Marshall be granted a Specialist's Certificate in Dental Oral Surgery . . . Carried.

C. Bruce Morrow, D.D.S.

Motion: That Dr. C. Bruce Morrow be certified in the Specialty of Orthodontics, effective when he gives notification to the Board that he has limited his practice to this specialty . . . Carried.

Frank Popovich, D.D.S.

Motion: That Frank Popovich, having fulfilled all the requirements of this Board, be granted a Certification in the Specialty of Orthodontics . . . Carried.

William James Spence, D.D.S.

Motion: That Dr. William James Spence be granted his Certification in Orthodontics having fulfilled the requirements of this Board . . . Carried.

Thorpe Bruce Van de Mark, D.D.S.

Motion: That the application of Dr. Thorpe Bruce Van de Mark for Certification in Dental Oral Surgery be approved . . . Carried.

REPORT OF COMMITTEE OF EXAMINERS AND PETITIONS

Mr. President and Members of the Board:

The Committee of Examiners and Petitions beg to report on the proposed regulations on examinations for a licence for dental hygienists as requested at the 1953 Fall Meeting of the Board, which are presented for your consideration.

R. J. GODFREY,
Chairman.

(Complete details relating to the conduct of the examinations were appended to the report.)

Motions: That the report of the Examiners and Petitions on the Requirements and Rules for Applicants of Dental Hygienists be received and adopted.

That these regulations become effective January 1st, 1955
... Carried.

That the examinations for Dental Hygienists be operated concurrently with the regular Examinations for Licensure of this Board ... Carried.

That the Chief Examiner be authorized to appoint Examiners ... Carried.

REPORT OF THE DISCIPLINE COMMITTEE

The Discipline Committee has held one official meeting since our last Board Meeting.

Your chairman and the Registrar-Secretary have held many conferences, in attempting to successfully handle all of the forty-three complaints which have come before us since our last Annual Meeting. I feel that with perhaps few exceptions, these complaints have been satisfactorily handled.

The complaints come under the following headings:

1. Exorbitant fees.
2. Services rendered.
3. Unsanitary offices.
4. Unprofessional conduct.
5. Illegal practice.

General speaking, I feel that, with our limited administration personnel and inadequate financial resources, the Discipline Committee is justifying its existence as a committee of the Board of the R.C.D.S.

The Discipline Committee would recommend:

1. A Discipline Committee whose personnel is such that a quorum could conveniently meet once a month to review all correspondence on hand.

Respectfully submitted,
R. P. LOWERY,
Chairman.

Motions: To facilitate the work of the Discipline Committee, which requires a quorum of three, that the personnel of this committee be chosen so that this regulation can be complied with
... Carried.

That Dr. R. J. Godfrey replace Dr. F. J. Furlong on the Discipline Committee ... Carried.

That the report of the Discipline Committee be received and adopted ... Carried.

REPORT OF INSPECTOR

Mr. President and Members of the Board:

I have the honour to submit for your information the following investigations and prosecutions from May 1st, 1953 to May 14th, 1954.

1. **William Fulton**, 9 Tuxedo Street Hamilton, dental technician, practising dentistry. Between July 17, 1953, and August 7th, some time

was spent gathering sufficient evidence to obtain a search warrant. Friday, August 7, 1953, in company with a Hamilton Police Constable. we searched Fulton's home and obtained sufficient evidence for a charge. I preferred two charges; one for practice of dentistry and one for equipment. He pleaded guilty to both charges. He was fined One Hundred Dollars \$100.00

2. **Gail Hopkins**, 601 Ducharme Avenue, Roseland, dental technician, practising dentistry. September 18th, 1953, I obtained a search warrant I found sufficient evidence and preferred a charge for having equipment and on September 25th, 1953, he was fined. The fine was paid \$100.00

3. **Hegimum Malawski**, 54 Marlborough Street, St. Catharines, practising dentistry without a licence. The accused practised dentistry in Poland. He went to England and was fined there for practising without a licence. This report was derived from the St. Catharines Police Department.

We obtained a search warrant and there was ample evidence for a charge.

He was fined One Hundred Dollars or thirty days. He took the jail term.

4. **Graydon Tyrrell**, 48 Geneva Avenue, Toronto, dental technician. Convicted for his fifth offence. In company with two Toronto Police Constables, we searched and there was ample evidence for a charge. On January 8th, 1954, he was fined Five Hundred Dollars and costs or three months. He took jail term.

5. **Michael Wurtz**, 130 Millwood Road, Toronto, dental technician, was reported as practising illegally. I investigated the complaints and obtained a search warrant. On November 10th, 1953, in company with a Toronto Police Officer, we searched Mr. Wurtz's home and obtained sufficient evidence for a charge. He was charged with the practise of dentistry and having equipment. He pleaded guilty to both charges. On Thursday, November 25th, 1953, he was fined.

Fine paid \$100.00 and costs.

6. **Joseph R. Beland**, 277 Cumberland Street, Ottawa, dental technician practising dentistry. Pledaded guilty to making denture without a prescription. On Thursday, May 13th, 1954, in Magistrate's Court, Ottawa, was fined One Hundred Dollars. First offence.

Fine paid \$100.00.

7. **Gerard Bourgault**, 49 Marier Road, Eastview, dental technician, practising dentistry. Pledaded guilty to repairing dentures without authorization from proper authorities. On Thursday, May 14th, 1954, in Magistrate's Court, County of Carleton, was fined One Hundred Dollars. First offence.

Fine paid \$100.00.

In addition, inspections of dental offices and many minor matters respecting signs etc., have been attended to during the year.

Respectfully submitted,

Inspector.

Motion: That the report of the Inspector be received and adopted
... Carried.

REPORT OF THE DEAN FACULTY OF DENTISTRY UNIVERSITY OF TORONTO

At Fall Meeting

Mr. President and Members of the Board:

Registration — for 1953-'54 Session is given in detail as follows:

Year	Civilian	Ex-Service	Total
Predental Year	79	0	79
First Dental Year	80	3	83
Regular — 74			
Occasional — 6			
Second Dental Year	80	0	80
Third Dental Year	66	6	72
Fourth Dental Year	58	11	69
Dental Nursing	17	0	17
Dental Hygiene			
First Year	9	0	9
Second Year	6	0	6
Bachelor of Science in Dentistry	1	0	1
Diploma Courses	3	0	3
Occasional Students (graduate)	3	0	3
	402	20	422

In addition, 15 students are registered in the School of Graduate Studies proceeding to the degree of Master of Science in Dentistry.

437

Staff

It is with profound regret that we record the passing of Dr. W. T. Holmes, an active member of the staff of this Faculty, who for thirty-one years had inspired and encouraged students both in their academic life and extracurricular activities, particularly sports. Dr. Holmes will be greatly missed both by the students and the staff.

We are pleased to report the following promotions:

Dr. D. H. Jenkins succeeds Dr. R. E. Moyers as Professor of Orthodontics and Head of the Department; Dr. R. E. Diprose from Assistant Professor to Associate Professor in Dental Surgery and Anaesthesia; Dr J. B. Macdonald from Assistant Professor to Associate Professor of Dentistry; Drs. M. E. Lucyk, H. Mercer, P. T. Smylski and J. Charlotte Whitney from Demonstrators to Associates in their respective departments.

We welcome Dr. A. A. Antoni who has accepted an appointment as Associate Professor in Dental Surgery and Anaesthesia, and Dr. A. L. Posen has been appointed an Associate in the Department of Orthodontics.

New appointments as Demonstrators have been accepted by the following: Drs. J. Gordon Chalmers, G. L. Hancock, and W. W. Pressey. Dr. E. M. Madlener has joined the staff as a Clinical Instructor.

Dr. S. L. Twible returns to the staff after a year's leave of absence. Dr. F. L. Cole has been granted leave of absence for the present Session.

Dr. H. M. Worth, lecturer in Radiology, continues his association with the staff even though he is now residing in Vancouver. Dr. Worth's lectures will be given during the month of November, 1953.

We welcome Miss W. J. Doughty, Miss M. L. Haselton and Miss M. V. Willett to the staff of Dental Nurses.

Research

In the report submitted one year ago reference was made to the status of dental research. While adequate space was provided through alterations to the fourth and fifth floors of the Dental Building, and the staff was augmented by the addition of several graduates with post graduate training, it was intimated that great need existed for additional funds to support and extend dental research. Subsequently, in the May report, we indicated that an appeal to the dental profession for funds had passed the \$100,000. mark. The latest figures available indicate that the dental profession has pledged or donated \$135,884. toward the \$300,000. objective of this campaign.

Details of the establishment of a Research Advisory Committee were provided in May. At a meeting of the Advisory Committee late in October plans were laid for raising the balance of \$165,000. from industrial and financial corporations. We reiterate a statement which was made in the May report; namely that "We are confident that the overall objective of \$300,000. set for this campaign, will be reached."

Dental Hygiene

The province of origin of the fifteen students registered in the First and Second Year of the Dental Hygiene course might be of interest to this Board. The figures are as follows:

Ontario — 7; Saskatchewan — 7; Nova Scotia — 1.

It is believed that the provision of bursaries accounts for the number of registrants from Saskatchewan. We anticipate an increase in the number of applications from the Province of Ontario in subsequent sessions, as the result of the amendments which this Board made to its regulations recently.

Miscellaneous Items

We record, with pleasure, the election of Dr. J. H. Johnson, Professor of Dental Surgery and Anaesthesia, as President of the Ontario Dental Association for the current year. Dr. W. J. Ross, Director of the Clinic, has been honoured with a Fellowship in the International College of Dentists, and a similar honour was conferred upon Dr. R. J. Godfrey, Professor of Prosthetics, upon whom Fellowship in the American College of Dentists was conferred recently. Dr. P. G. Anderson, Professor of Operative Dentistry, became President-Elect of the Canadian Dental Association at its recent annual meeting. Dr. E. E. Johns, Kingston, was elected President of the Eastern Ontario Dental Association for the current year.

The students of the Faculty extended their prize winning effort by making it two in a row in the All Varsity float parade. An outstanding performance on the part of the students in Dentantics of 1953, developed the theme that dentistry needs a new "Dental Building."

Open House was held in the Dental Building on Sunday, October 18th, 1953, with approximately 400 in attendance. The attendance was undoubtedly affected this year because home-coming week-end coincided with the joint meeting of the Annual Montreal Fall Clinic, and the annual meeting of the Canadian Dental Association.

The Faculty has been pleased to co-operate with the Dental Public Health Committee of the Ontario Dental Association in setting up a series of eight Seminars in Dental Public Health. The first of these Seminars was held in Port Arthur on October 26 and October 27, with Drs. A. L. Posen and A. W. S. Wood as the Clinicians. The topics which they discussed were from the fields of Orthodontics and Pedodontics.

All of which is respectfully submitted.

ROY G. ELLIS,

Dean.

Motion: That the Report of the Dean be adopted . . . Carried.

At Annual Meeting

Mr. President and Members of the Board:

In preparation for the January visit of the Dental Education Survey Committee of the Canadian Dental Association, the heads of departments and the staff devoted considerable time and effort in revising course synopses in line with current course content. These outlines, together with time-tables, and hour schedules were assembled and presented in a two hundred page report to the Survey Committee. A copy of this material is tabled herewith for the files of the R.C.D.S. The Survey Committee stated "Any University contemplating the establishment of a dental school would find this document invaluable".

Recently, a report on the findings of the Survey Committee was submitted to the President of the University and a copy to the Dean of the Faculty. The report is eminently satisfactory and concludes with a summary of the main recommendations as follows:

1. There is urgent need for more dentists.
2. More time should probably be devoted to biochemistry.
3. There is still a scant supply of slides for histology for the dental students. Building up complete sets of slides, especially for dental histology, is a slow process.
4. Art instruction should be added to the course in dental anatomy.
5. More light and some new equipment are needed for the dental laboratory.
6. The two laboratories for dental materials require more light and considerable equipment.
7. The physical equipment for pedodontics is antiquated.
8. To alter the course in pedodontics in the desired direction will necessitate some increase in staff.
9. Consideration should be given to training an alternate for the the course in endodontics.
10. Is hospital relationship wholly satisfactory?
11. Improve the organization for preventive dentistry.
12. More dental hygienists should be enrolled if at all possible.
13. Lecture room acoustics and lighting should be improved.
14. A modern building is an urgent need.

A NEW DENTAL BUILDING

The first and last items of the above recommendations point to subjects which have received considerable attention in several quarters. President Sidney Smith in his 1953 Annual Report referred to the shortage of dentists and quoted in this respect from the Health Survey Committee's report. He concluded his remarks with the comment that: "The Faculty of Dentistry cannot accept more students with its present accommodation and facilities. The registration in 1952-'53 was 294, or 40 per cent of all the dental students in Canada. The staff of the Faculty are ready to make every effort to overcome the shortage of dentists. This kind of education, however, demands space and expensive equipment on a scale that is beyond the purview of our current financial resources". The President underscored a paragraph included in my report for 1953, which read as follows:

"The effect of the present inadequate accommodation and facilities for dental education in this University is already a matter of grave concern to those responsible for dental education in this province, and it will become increasingly serious with each year of further delay. It is urged that this situation receive immediate consideration."

Subsequent events, commencing with inquiries on the part of the Provincial Government authorities, late in 1953, have led to the inclusion of One Million Dollars in the provincial 1954-'55 estimates as "A special capital grant to the University of Toronto for expansion of

its college of dentistry". In making this announcement on March 11, 1954, the Premier said he hoped "the federal government would also help finance the expansion of the University's dental facilities". Architects have been appointed by the University and already two preliminary sets of plans have been drawn, based on expansion of facilities on the present building site and vicinity. However, the following statement formed the basis for the most recent report on the matter:

"Various proposals for the modernization of the existing dental building and the construction of an addition have been studied. The expenditure of a total of one million dollars would result in an increase of fewer than ten graduates a year. Such a proposal is not only uneconomical, but it would perpetuate many shortcomings embodied in the present outmoded building.

To increase the number in the graduating class to 125, using the existing building and an addition, would require an expenditure comparable to that for a new building on a new and more favourable location, and would ignore the fulfillment of a very positive movement on the part of the profession toward preventive dentistry.

For these reasons we recommend that a new dental building be constructed in the immediate vicinity of the Toronto Hospital for Sick Children".

I fear that this matter which has been one of the utmost urgency for some years already, is likely to suffer from further delay.

Research

The programme of the Division of Dental Research continues to develop. The first of a series of Newsletters to the profession, issued by the Division of Dental Research on February 1, 1954, listed thirty-nine projects in progress at that time. This Newsletter also records the generous donation of \$2500.00 from the Rotary Club of Toronto in support of dental research.

Expenditures for research from all sources, including the regular faculty appropriations, now approximates \$100,000 a year. Particular attention is directed to the paragraph in Appendix I which is quoted from the President's report for 1953 which states in part, "One of the most heartening and encouraging events that has taken place in the University in recent years is the launching of an expanded programme of dental research".

Graduate Courses

After a prolonged period of study, the Council of the Faculty adopted at its meeting on December 8, 1953, recommendations made by its Graduate Studies Committee, which affect the postgraduate and graduate courses for specialty training, initiated in 1946.

The essential points in these recommendations which become effective on July 1, 1954, are as follows:

1. The Diploma Courses in Dental Oral Surgery and Anaesthesia, Paedodontics, Periodontics and Orthodontics hereafter extend over a minimum period of two consecutive academic years.
2. During the first year, a candidate will be required to pass examinations in the subjects of Anatomy, Histology, Physiology, either Biochemistry or Pathology, and such additional subjects as the department concerned may require.
3. During the final year, emphasis will be placed on clinical training.
4. If he so elect, upon satisfactory completion of the first year of the course and the recommendation of the Head of the Department concerned, a candidate shall become eligible for admission to the two-year course leading to the degree of Master of Science in Dentistry. (If admitted to the M. Sc. D.

course, he must then meet all the requirements of the School of Graduate Studies with regard to it.)

5. The first year of the Diploma Course, may upon satisfactory completion, be accepted as the equivalent in time of one year towards the degree of Master of Science in Dentistry.

In essence this means that the first year of the Diploma course becomes a basic science year, and the second, a year of clinical training. In the case of Dental Oral Surgery and Anaesthesia, two years of clinical training will be required following the basic science year. Candidates proceeding to the M. Sc. D. degree will take a basic science year, followed by the specialty clinical training and complete a thesis, embodying the results of a research project.

It is not anticipated that the degree candidate will complete all the requirements in the same time as the diploma candidate, because the same clinical standing will be required as for the diploma candidate.

Notwithstanding the recommendations made above the M. Sc. D. degree will be available on the basis of the general regulations, for candidates not proceeding with a specialty training.

A further change which has been approved by the Senate of the University, concerns the abbreviations used for the Bachelor and Masters degree's in this Faculty. The new form is B. Sc. D. and M. Sc. D. respectively.

Scholarships and Awards

Several new awards have been established during the current academic session.

Dr. J. G. Perkin, Toronto, has generously offered to provide \$50.00 for a bursary to a third year dental student with the required standing in second dental year Prosthodontics.

The friends and associates of Dr. Hugh A. Hoskin established a fund, the income from which will provide in perpetuity an award of the value of approximately \$100.00 annually. This new award will be made to the fourth dental year student who obtains the highest standing in the subject of Dental Diagnosis.

The generous action of the P. G. Anderson Study Group has made possible the establishment of the T. Howard Graham Bursary of the value of \$100.00. This award will be made annually to a third dental year student with standing in second dental year Operative Dentistry, and who has completed both the first and second years in the Faculty of Dentistry, University of Toronto.

Through the generosity of the Novocol Chemical Manufacturing Company and the co-operation of the University of Toronto Associates, in New York, a fellowship in Dental Anaesthesiology is offered through this Faculty. The fellowship is tenable at the University of Pittsburgh, and is of two years' duration for the study of both local and general anaesthesia. If the applicant chosen is single, the value of the fellowship will be \$1,500.00 per year plus tuition; but if married, the fellowship will be augmented to \$3,000.00 plus tuition, by the University of Toronto Associates in New York.

Programme for Graduates

The Faculty has maintained a series of Continuation Courses, and has responded to all requests for extramural lectures and clinics. In addition, the staff have been very active providing essays and clinics for dental societies and dental schools in other provinces and in the United States.

The number of requests for extramural lectures fell off to some extent, possibly because the Dental Seminars provided by the Dental Public Health committee of the Ontario Dental Association in co-

operation with the Faculty, fulfilled the needs for this type of programme in some areas. More detail relative to the Dental Seminars will appear in other reports submitted to this Board. I am convinced that these Seminars are an important phase of continuing education for the graduate dentist.

Staff Notes

We regret to announce that on June 30, 1954, Dr. R. S. Woollatt will retire. Joining the staff as a clinical instructor in 1910, almost immediately after graduation. Dr Woollatt rose through the ranks to his present status, namely, Professor of Dentistry in the Department of Prosthodontics. The experience of having served with the five deans of this dental school since its inception can be claimed by very few members of the dental profession.

While he will always be remembered for the many contributions he has made to his profession, particularly during his term of office as President of the Toronto Academy (1927—'28) and President of the Ontario Dental Association (1937—'38), above all, Dr. Woollatt will be remembered with affection by a legion of warm friends among the students, graduates and staff members, with whom he has been associated as teacher and counsellor for forty-four years.

On Wednesday afternoon, April 28th, a group of staff members and representatives of the Students' Cabinet met in the Faculty Room to honour both Dr. and Mrs. Woollatt and wish them many happy leisure hours and good health to enjoy them.

Dr. J. H. Johnson was awarded the Thomas P. Hinman medallion for outstanding services to his profession at the Thomas P. Hinman Midwinter Dental Clinic meeting in Atlanta, Georgia, in March.

Through contributions from the staff the Wendell T. Holmes Memorial Award was established to perpetuate the name of a man who brought honour to the Faculty, not alone through professional service, but also through his outstanding athletic career. This trophy is to be awarded annually to the class with the best athletic record. The first award was made to the fourth dental year on May 6th.

Miss A. Hebert, Dr. W. J. Ross, and the Dean attended the annual meeting of the American Association of Dental Schools in March.

At the thirty-second General Meeting of the International Association for Dental Research held in French Lick, Indiana, March 19—21, four members of the research staff presented the following reports: Dr. Gordon Nikiforuk — "Reducing property of saliva towards some oxidation-reduction indicators"; Dr. John B. Macdonald — "Production of fusospirochetal infections in guinea pigs"; Dr. H. A. Hunter — "Pathologic characteristics of experimental fusopirochetal infections"; Dr. R. M. Grainger — "A provincial study of dental caries". Owing to illness, Dr. K. J. Paynter was unable to attend this meeting and present the paper which he had prepared on "Relation of nutrition to tooth morphology".

Acknowledgements

Once again we gratefully acknowledge a further contribution from the Ladies' Auxiliary to the Academy of Dentistry in the amount of \$850.00. This fund was established several years ago to provide "service for needy children with dental abnormalities".

We acknowledge with deep appreciation the support, both financial and moral, given by the Dental Alumni Association to the students.

The interest and help of organized dental groups in the province, namely, the Ontario Dental Association, the Alumni Association, and this Board, in the need for a new dental building has been stimulating

to the staff. It is possible that these groups will have further opportunities to assist with this project.

Finally to the members of this Board we extend sincere appreciation for your continuing interest and financial assistance.

All of which is respectfully submitted.

ROY G. ELLIS

Dean.

Motions: That the Committee on Examinations and Petitions proceed with a study of revision of regulations and report at the Fall Meeting in respect to certification for specialization

. . . Carried.

That the report of Dean Ellis be adopted . . . Carried.

REPORT OF LIBRARIAN

Mr. President and Members of the Board, R.C.D.S.:

It is my privilege to present herewith the Annual Report of the Harry R. Abbott Memorial Library and the Library of the Faculty of Dentistry, University of Toronto.

During the year, 144 new books were added to the collection and 7 new Journal subscriptions were approved. There are 61 orders outstanding at this date but the general routine of the order department has functioned smoothly.

A pleasing high-light of the years activity was the greatly increased use of the Library reading-room by the undergraduate students, who often taxed the available reading space to its limits in their free periods.

Student borrowings have been 7,964, while Faculty and Graduate Student borrowings have been 1,752. Out-of-town borrowings were 109, as compared with 118 from the previous year. Inter-library loans were 8 and requests for micro-film are on the increase from graduate students. Comparative circulation statistics for the past five years are appended hereto.

The circulation of 35 mimeographed copies of "Current Journal Title Pages" has been continued and have been gratefully appreciated by the staff and graduate students.

Additional shelving has been placed at considerable expense on the north and west walls of the stack-room and part of this space is equipped with doors in which rare books can be kept under locked supervision. The Library Committee had instituted the regulation that the books in this section will be made available on a restricted basis and only on personal signature.

The financial status of the funds as of May 6th is as follows:

Harry R. Abbott Fund

Binding	82.50	227.65

Balance on hand — May 1, 1954	\$ 3.69
-------------------------------------	---------

University of Toronto

Basic appropriation	\$ 1,475.00
Expenditure for books and periodicals	1,322.00

Unexpended as of April 30th, 1954	153.00
---	--------

Cognizance must be taken of the proposed building programme at the Faculty of Dentistry and your Library Committee has been zealous in its investigation of this problem, having regard to the possible demands of a half century from now in respect to Library function and the expansion of graduate training. Based on the recog-

nized standard that reading-room accommodation should be available for 20% of the student body at any one time, and the recognized library allotment of 25 square feet per student, the new reading-room accommodation for classes of 125 undergraduates, 40 hygienists, 20 dental nurses and 40 graduate students would require a reading-room with 5,000 square feet of floor space. The total proposed space requirements for the new library is as follows:

Book collection	— 1500 sq. ft.
Book storage space	— 3000 sq. ft.
Total reading-room space	— 5000 sq. ft.
Work room	— 300 sq. ft.
Museum	— 1500 sq. ft.

The matter of adequate museum space should be carefully considered. At the present time museum items are in dead storage and in an extremely unsatisfactory condition. It should also be remembered that museum displays, to be effective, demand dignity and good taste, which unfortunately are items which are costly in a monetary sense. If the proposed museum is to materialize, immediate attention should be given to consideration as to the source of funds for the display cases and fittings that propriety will demand for adequate display.

All donations to the Library and Museum are herewith most gratefully acknowledged. Those received from Dr. Fitzgerald of St. Catharines, Dr. Hutchison of London and Dr. A. D. A. Mason of Toronto deserve particular note. Dr. Fitzgerald has also written and supplied the Library with a well-organized outline of his early days in Dentistry. It is to be deplored that museum items and acquisitions are unable to be displayed because of lack of space.

The co-operation, assistance and advice received from Mr. Wallace and Mr. Blackburn of the University Library is gratefully acknowledged, both for current operation and future development in design, as is also the support received from the Board of the Royal College of Dental Surgeons, the Members of the Library Committee, and from the Assistant Librarians.

This report is respectfully submitted with the recommendation that the customary grant be continued for the ensuing year.

J. H. JOHNSON,
Librarian.

REPORT OF REPRESENTATIVE TO THE WORKMEN'S COMPENSATION BOARD

Mr. President and Members of the Board:

Your appointed consultant to the Workmen's Compensation Board of Ontario begs to report as follows for the twelve month period ending April 30, 1954.

During this period I have reviewed seventy-nine claims which is quite an increase again over last year. As far as I know settlements have been arranged and for the most part satisfactory to all concerned.

My contact with the Board is chiefly through Mr. W. R. Kerr, Chief Medical Aid Officer, whom I find to be a very fair-minded and co-operative young man. The scope of the Workmen's Compensation Board's work has been greatly enlarged as to the number of people

covered. A new system of claims evaluation has been set up and now there are ten claims appraisal units. Therefore you will understand I am in touch with practically all the appraisers from time to time. If, however, I have something unusual which I would like to discuss, for example a matter of policy, then I would contact Mr. Kerr who in turn would take the decision of the Board to all appraisers at their weekly meeting. I feel our relations with the Appraiser Staff, the Medical Aid Department and the members of the Board are quite cordial and co-operative.

In commenting on my observations over the past year the following points might be of interest to you:

1. The new fee schedule negotiated with the Board a year ago seems to be quite acceptable to the profession as a whole. There are still a few dentists who quote their own fee irrespective of the Board's schedule but generally speaking this does not happen too often. There is still some dissatisfaction among the group of dentists doing Endodontia. The fee of \$25.00 allowed by the Board for satisfactory endodontic treatment as shown by the dental radiograph appears to be inadequate for some men doing this type of work. They complain that often their services have been completed before they are advised the Workmen's Compensation is responsible for payment of their fee. They are embarrassed because the operation has not been authorized and their fee unacceptable. These men have a point here that I do not know how to remedy. I shall take the matter up with Mr. Kerr and perhaps these cases might be considered as emergency treatment. I do feel, however, that the Board will not consider an increase in fee allowance especially when they agreed to present fee only a year ago.

2. I might mention that I have had half-a-dozen cases during the year, perhaps, where the dentists fee was higher than the Board's tariff; the dentist concerned would intimate he would accept the Board's allowance and get the balance from the patient. Perhaps it is proper that I should bring such matters to your Board's attention because the **Workmen's Compensation Board does not allow a dentist to collect a fee from any claimant in addition to the Board's allowance without its written consent.**

3. In every report I have made to your Board, I think I have mentioned that many dentists recommend all needed dental treatment for their patient rather than treatment necessitated by the accident. This practice still continues but needless to say only treatment resulting from the accident is allowed. It may be that the patient urges the dentist to try and get all he can for them but such a practice reflects on the dentist's professional integrity.

4. Too many dentists do not take time to fill out properly the dental form provided by the Board. Information solicited by these forms is a valuable record to the Board and they allow \$3.00 for a good report. For example, a question is asked to bring out an appraisal of periodontal conditions of the claimants teeth prior to the accident. The question is nearly always ignored. I can see in the near future where the allowance of \$3.00 for examination and report will not be made in those instances where the report is poorly done.

5. Generally speaking I feel there is no new problem to bring to your attention at this time. In closing I would like to express my appreciation to our Registrar-Secretary for his always helpful counsel and to your Board for the privilege of serving as your representative in these matters.

Respectfully submitted,

D. D. S.
Consultant

Motion: That the report of the Representative of the Workmen's Compensation Board be received and adopted . . . Carried.

FINAL REPORT OF REPRESENTATIVE TO THE DENTAL COUNCIL OF CANADA

Mr. President and Members of the Board of Directors, R.C.D.S.:

The following report is purely a matter of record in case some inquiring soul in future generations turns back the pages of Dental History searching for the demise of the Dental Council of Canada.

The members of this Council on its retirement from an active existence for a period of over fifty years were as follows:

Harry H. Peters, New Brunswick
H. S. Crosby, Nova Scotia
A. J. Brett, Saskatchewan, Secretary
H. L. Freeland, Alberta
H. J. Merkeley, Manitoba
Heath McIntyre, Prince Edward Island
R. O. Winn, Ontario, President

In the city of Montreal, at twelve o'clock noon, on the 19th day of October, 1953, the Dental Council of Canada ceased to exist.

Excerpts from this final meeting may be of interest:

In existence for fifty-one years.

Issued over 1930 certificates of qualification.

Donated:

\$5,000.00 to the Research Council of the C.D.A.

\$6,000.00, in Vancouver, June, 1952, to assist in the formation of the National Dental Examining Board of Canada.

October, 1953, to the N.D.E.B., all past records and approximately \$1,000.00 in equipment and furniture, along with all remaining cash assets, amounting to nearly \$5,000.00.

The final entry in our minutes reads: "And be it further resolved by the members of this Council in complete agreement, that we record here our happiness and confidence in laying down the responsibilities that have been ours for half a century and our determination to lend full support as individuals to the executive and members of the N.D.E.B. of C. in all its operations for the good and welfare of Dentistry and that copies of this resolution be handed the officers of the N.D.E.B. and to the Executive of the C.D.A."

Respectfully submitted,

ROY O. WINN

Representative Dental Council of Canada.

Motion: That the final report of the representative to the Dental Council of Canada be received and adopted . . . Carried.

REPORT ON HEALTH INSURANCE STUDIES

(April 22-23 1954)

Mr. President and Members of the Board:

I wish to thank the R.C.D.S. Board for making it possible for me to take part in the discussions of the Committee on Health Insurance Studies. It has been about one year and a half since they had their last meeting, and I find much has been accomplished both by the work which has been done, and by a changed outlook on our procedure in the future.

All Provincial Committees were encouraged to send in reports. Three did so. The one from Alberta was lengthy and contained many constructive suggestions. British Columbia and New Brunswick also submitted reports, which outlines the present situation of dentistry in their provinces. They suggested that there is immediate need of changes, so that all the people can receive more complete dental service. These

reports contained some criticism and many suggestions for improvement. A Sub-Committee was appointed to bring in a report based on the discussion that took place at the meeting.

Canadian Sickness Survey

The report of the Canadian Sickness Survey was studied as it applied to dentistry. It was noted that the figures differ considerably to those that we have been using. The Sickness Survey stated that 27% of the population see a dentist in one year. This is a scientific survey expensively done and it will be the figures the Government will use for any of their purposes. Dr. Gullett pointed out that the only chance of refuting figures developed in this and other surveys is to do accurate surveys ourselves on a scientific basis. Dr. Grainger was asked to study these figures and assist Dr. Gullett, who was asked to report on this later, as all the data from the Government has not yet been released.

Blue Cross

Since the Blue Cross is a Dominion-wide service, this Committee discussed the changes in its new contract, which states no hospitalization costs will be paid for dental operations. They claimed this was brought about by abuses by both the dental and the medical professions. Dr. Tanner was asked to give us guidance. He stated that the dental patients requiring hospitalization were:

1. Those whose physical condition was such that it was not suitable or safe to have the operation done in the dental office and could not be cared for at home.
2. Those who required operation of a serious nature.

After a full discussion it was decided to ask the Blue Cross to insert in their contract, "except when the services were performed by a qualified member of the dental profession", and that we would try and direct dentists not to participate in abuses.

Pre-paid Dental Plan

This Committee had some time ago prepared details for a pilot plan for dentistry operating under a pre-paid scheme. It was thought that this being a Federal Society, it would be better to outline the principles under which a pre-paid plan should operate, as the details might vary in different provinces. Dr. Gullett outlined broad principles which would give guidance to any plan attempted in any of the provinces.

It was decided to let it be known that a plan of this type would be welcomed. It was felt that while we will encounter many difficulties we can succeed in the same way as the medical groups have.

Dr. Grainger stated that incidence of dental disease varies considerably in different localities. Therefore, if a pre-paid dental plan was started in an area that had not been carefully studied, we might have trouble. However, in such places where a careful examination has been made and records kept for a few years, Dr. Grainger expressed confidence that we could foretell fairly accurately the amount of work necessary to be done.

Post-payment plans were studied. This is a contentious problem. However, a start is being made immediately in Manitoba and its progress will be watched carefully. Once again Dr. Gullett prepared a list of principles which should be considered by any society setting up a plan of this type.

New Zealand

In the report of the New Zealand Dental Association it was significant that the members were anxious to re-enter the field of dentistry for children. Previously some of the members were not parti-

cularly concerned when treatment was provided by dental nurses. This is considered now to have been a mistake. They suggest that the child patient should be given the choice of choosing between the dentist or the dental nurse in the clinics.

Economic Survey

A fair number of returns have come in from the Economic Survey, but it was decided to send a follow-up letter. This we believe will bring in sufficient information to be of value.

Respectfully submitted,

M. V. J. KEENAN

Chairman.

Motion: That the report on Health Insurance Studies be received and adopted . . . Carried.

REPORT OF REPRESENTATIVE TO AMERICAN ASSOCIATION OF DENTAL EXAMINERS

Mr. President and Members of the Board:

Your representatives attended the sessions of the seventieth annual meeting of the American Association of Dental Examiners at Cleveland. The President, Dr. Herbert L. Bunker, presented his address which contained no controversial subjects except a suggestion that it was more acceptable to have dental technicians licensed under the dental act rather than having the technician obtain legislation of their own. In the report on the president's address no mention was made of this subject. This Board considers it to be desirable that technicians have their own act and that there be frequent consultations with the Board rather than that they be licensed under the Dentistry Act of Ontario. In general there were few very controversial matters discussed.

For most State Boards the problem of written and clinical examinations is much greater than for this Provincial Board, due to the great number of candidates and the requirements that all graduates take the State Board examinations.

Many State Boards have turned to objective types of examinations employing I.B.M. scoring machines. Most State Boards include oral diagnosis and treatment planning and some include dentistry for children in their clinical examination.

There are five Special Committees, two Reference Committees and fifteen Standing Committees, and reports of varying lengths were presented and will be published in the printed proceedings.

The Seminar on "Streamlining State Board Examinations" was presided over by Dr. V. L. Hunt. Mr. J. F. Rummell, School of Education, University of Oregon, a specialist on Examination Measurements, presented a lengthy explanation of the methods of conducting and evaluating objective type examinations employing the electrical scoring machine. The objective type of examination is favoured over the essay type in that more information of the candidates' knowledge can be obtained with a considerable saving of time, but the cost is greater. Especially would this be true if only a comparatively few candidates were present for examinations.

Dean Noyes presented the viewpoints of the dental schools and stated that State Board examinations protected the public from inexperienced operators, raised the standard of dental education and that it would be of value to dental educators if the results of failures or low grades obtained in various subjects on State Board examinations were released to various schools where graduates were low in certain subjects and some adjustment in raising the teaching level in these subjects could be effected.

The secretary of the National Board of Dental Examiners reported on the work of the council stating that the examinations of the Board have been set up completely in the objective type. A large group of persons (selected from all parts of the United States) have been utilized in constructing objective type examinations. In this way the test questions are representative of the subject matter being taught in all parts of the country.

The scoring of examinations is done on an electrical Scoring Machine at the Division of Educational Measurements of the Council on Dental Education, who also do the tabulating work.

The board conducts examinations twice yearly, composed of Part I which includes the basic sciences and may be written by undergraduate students, and Part II which includes dental practice subjects.

The number of candidates taking the Board examinations has increased from 449 in 1950 to 2888 for the half year ending April 1953.

The National Board Scores and Certificates are now recognized by twenty-eight states, the U.S. Public Health Service, the Army and Puerto Rico.

The acceptance of the National Board Examination Scores are on such basis as each state board may determine. Information regarding the time and place of examinations is published in the J.A.D.A.

The report on Foreign Colleges referred to the well equipped schools in Chile and especially in Buenos Aires, Argentine, where there is an enrollment of twenty-five hundred students but by a process of elimination they graduate only two hundred students a year.

Continuation of Seminar Programme on Friday evening consisted in a display by the Nebraska Board of examples of cast partial veneer crowns on dentoform teeth, a requirement of their board. They showed a wide variation in types of preparations and finished castings from the various schools from which the candidates graduated.

In addition a test on the accuracy with which alginate impression materials were handled by candidates for partial denture prosthesis by taking an impression of a metal master model and reproducing it in stone. There was considerable doubt as to the validity and reliability of this test.

The report of the committee on publication referred to the rising costs in printing and in view of the interest in the proceedings for information and records it was decided to continue the publication of the proceedings of the meetings but to delete a good deal of the reporting of discussion, confining the subject matters to the resolutions passed at the meetings along with other information of value.

The Committee on Legislation reported no changes in dentistry acts that were significant. It was emphasized that occasionally a dentist was a front for a dental laboratory and that many of the infractions of the law were contributed to by dentists sending patients to a dental laboratory for some service that should only be rendered in a dental office.

The Constitution and By-laws of the Association were amended to provide for a president, president-elect and three vice-presidents and a secretary-treasurer.

The President-Elect and the three Vice-Presidents shall be from the East, West, North and South, one being elected from each section.

The districts, of which there were formerly three, were increased to four as indicated above and a redistribution of the states was made to conform to the increase in districts. The Province of Ontario is placed in the North District.

It was of interest to note that the State Board Examinations in South Dakota are conducted each year in the State Penitentiary with the inmates as patients. This arrangement seems to be very satisfactory as reported by a member from this State Board.

The report of the representative to the Council on Dental Education included information regarding the council's appraisal of Dental Hygienists' training programmes. The majority of these programmes are two years in length and lead to a certificate.

The principle aim of the dental hygiene courses is to train personnel to assist the dentist and provide dental prophylaxis for his patients. It is also recognized that the dental hygienist should be trained as a dental health educator both in the dental office and in public schools and elsewhere. The requirements of these courses are similar to the Toronto requirements, and the subject of roentgenology is to be added to the curriculum. It should be noted that this subject was included in the University of Toronto course from the beginning.

The subjects presented and the discussions at these meetings are most helpful in the conduct of the examinations of this Board.

Your representative wishes to acknowledge the valuable contacts made by Dr. S. J. Phillips, your former representative to the A.A.D.E., and to the cordial relations which exist between this Board and the members of the American Association of Dental Examiners.

Respectfully submitted,

R. J. GODFREY,
Representative.

Motion: That the Report of the Representative to the National Dental Examining Board be received and adopted . . . Carried.

REPORT OF REPRESENTATIVES TO THE CANADIAN DENTAL ASSOCIATION

Mr. Chairman and Members of the Board:

The 1953 Meeting of the Board of Governors was held in the Sheraton-Mount Royal Hotel, Montreal, October 14th to 17th inclusive. The Meeting of the Board of Governors was followed by the C.D.A. Convention under the sponsorship of The Montreal Clinic Club. The Tuesday afternoon programme took the form of a clinical "At Home" at the University of Montreal. The Board of Governors' Meeting was an extremely busy one. The Convention was a great success with a splendid registration. The clinical presentations were of high calibre and the entertainment was excellent.

It would not be possible to cover the reports of all committees but we shall endeavour to give to you what we considered some of the high lights of the meeting. We would recommend to your perusal the copy of the Transactions of the meeting, which will be published as soon as possible.

The reports of the President, the Secretary, the Executive and Finance Committees were excellent presentations. These reports covered a wide range of activity never losing sight of our future programme if we are to fulfil our obligations as a profession. They gave food for much thought. The energy and initiative exhibited by these leaders in our organization who are promoting the welfare of our profession is a challenge to the rank and file of our numbers.

Two items in particular coming from these reports, which came in for considerable discussion, were needed Dental Personnel and Increased Revenue. Ways and means were discussed at some length as to what procedure should be taken to remedy these situations. In the matter of revenue it was felt that the Corporate Bodies should explore the possibilities of increasing the annual grant to the C.D.A.

Spiralling costs in administration, particularly in the field of printing and publications, has made it necessary to curtail the work of several committees. This restricts the programme that we would like to see implemented.

Approval was given to the following resolution.

"WHEREAS a definite shortage of Dental Personnel exists in Canada and

WHEREAS, the present teaching facilities in Canada are inadequate to graduate adequate personnel to meet the need of the public for dental services and

WHEREAS the responsibility for the provision of increased teaching facilities in dentistry rests upon university and government authorities therefore be it

RESOLVED that this Association use all available means to further the securing of expansion of teaching facilities for the training of dentists and dental hygienists in order to provide adequate dental service to meet the need of the public."

Council on Dental education:

A most interesting report and among the observations made was the fact that while we are exerting great effort for increased physical facilities for the training of dental personnel, on the other hand we have the applications for admission falling off. Reasons offered for this condition are: (1) The cost of education of the dental student and the university is too high. It is the most costly of the university courses. (2) Cost of establishment of an office after graduation is very expensive. In order to induce prospective candidates we should endeavour to impress them with the opportunities dentistry offers for public service and independence.

A Resolution was approved:

"BE IT RESOLVED that the conduct and example of the members of our profession in a community is in our estimation the greatest means of bringing young men into the profession of dentistry."

The film strip, "Careers in Dentistry" with the explanatory booklet was approved.

The meeting was advised that two subsidization plans offered by the Canadian Government are available for students.

PLAN I offers \$299.00 per month for the final year plus \$75.00, to be applied on books, tuition and instruments, if he agrees to serve for five years in the armed services following graduation.

PLAN II, Reserve Officers' Training Plan. This is a five year plan and offers \$95.00 per month for the first year and \$60.00 per month for each subsequent year. He receives summer holidays with full pay of a second lieutenant which is \$170.00 per month plus \$89.00 per month subsistence allowance. To receive this he serves for three years in the Dental Corps following graduation. The lack of cultural training in professional courses was discussed.

The Council recommended to the Board of Governors that consideration be given by the Corporate Bodies as to the feasibility of requiring a year of internship in a hospital before granting a licence to practise. This was approved.

Another matter that the Council approved and recommended to the Board of Governors that Corporate Bodies be asked to accept for examination, without further attendance at a Dental School, those graduates who possess the Bachelor of Dental Surgery degree from the University plus Fellowship in Dental Surgery of the Royal College of Surgeons, England, being considered as at least equivalent to Cana-

dian graduate standards. This matter was referred to the Council for further study.

National Dental Examining Board:

This Board has become a reality and will be ready to operate next spring. The President is Dr. H. Merkley, Winnipeg; Vice-President, Dr. W. Millar, Vancouver; Secretary-Treasurer, Dr. H. N. Beach, Ottawa. Dr. R. J. Godfrey is the Ontario Representative on the Board of Examiners.

At the Monday Luncheon of the C.D.A., Dr. R. O. Winn, President of the Dental Council of Canada, made a presentation of the balance of funds held by the Dental Council of Canada amounting to approximately Five Thousands Dollars, together with certain other assets including valuable records, to the N.D.E.B. This is in addition to Six Thousand Dollars previously subscribed by the D.C.C. This fine contribution is much appreciated by the profession.

C.D.A. Pension-Assurance Plan:

In a Supplementary Report brought in by the Executive Committee we were advised that an independent survey in respect to this Plan had been completed recently by a reputable company of financial advisers, the Wyatt Company. This report confirms and sustains without reservation the position taken by the C.D.A. in endorsing the plan. Some observations are: There are no danger clauses. The value of individual policies issued under the Plan are proven to be distinctly more advantageous than policies written under group insurance.

It was suggested that Provincial Legal Bodies be urged to appoint a committee to become well-informed, in order to devise ways and means of presenting the advantage of this plan to their members.

Health Insurance Studies:

In bringing in this report. Dr. Harvey Reid paid tribute to fine contributions to the November meeting by Dr. H. K. Brown, Department of National Health and Welfare, Ottawa; Dr. R. Grainger, Department of Health, Ontario, and Dr. Keenan, Sudbury. While the report covered continued activity of that committee, there are two observations which we would make: (1) Upward revision of fees — simple alloy fillings from Two Dollars to Three Dollars; emergency treatment from Two Dollars to Three Dollars . . . (II) Announcement on May 1st, 1953, by the Honourable Paul Martin of new grants to provide: (1) Better health care for the disabled. (2) Better health care for mothers and children. (3) Better facilities and services to assist doctors in diagnosis of illness of their patients. This is the first step under Federal Health Aid into the field of treatment service.

Dr. Reid and Dr. Gullett were speakers at the closing dinner of the Eastern Ontario Dental Association, in Ottawa, in September. Their subject was Some Aspects of Dental Health Insurance. In reporting this to the Board of Governors the Chairman of the Committee made the following statement: "At this meeting were Mr. A. R. Mosher, head of the Canadian Congress of Labour; and Mr. Wisner, Public Relations Director of the Trades and Labour Congress of Canada. Together these men represent nearly a million members and these were happy circumstances to have them hear outlined the position of the C.D.A. in relation to Dental Health Insurance. Credit goes to Dr. H. N. Beach, of Ottawa, for making the arrangements."

Auxiliary Services

Another interesting report on the problems that confront the profession. The recent attempt on the part of dental mechanics to obtain legislation in British Columbia, permitting them to work for the public. Fortunately the profession of dentistry were able to show the govern-

ment the possible danger that might present itself from such legislation and so nothing came of it. The matter of illegal practice is on the increase and is a matter of major concern of all Corporate Bodies. It was brought to the attention of the meeting that the profession generally are responsible to a great extent for part of the problem. A quotation by the Chairman in his report is worth repeating. "It behooves every dentist practising in Canada to make himself a Public Relations Man, explaining to every dental patient, when the subject arises, the relationship that should exist between the dentist and the profession and the technician, emphasizing the biological factors involved and explaining that the technician's job is purely a mechanical process, the fundamentals of which may be learned in a day or two. We wish to emphasize again as in the past, that the apathetic attitude of the average dentist toward the situation is the basic cause of most of our troubles with the bootleg lab. of to-day."

All provinces have legislation permitting the practice of Dental Hygiene.

Dental Public Health:

Each province has a public dental health programme, varying in the different provinces. All provinces have the same difficulty in securing dental personnel.

The Research Committee having recommended the fluoridation of communal water supplies, a resolution was presented and approved by the meeting of the Board of Governors. It reads in part. "Be it resolved, that the Canadian Dental Association recommends to the people of Canada, that communities having a public water supply adopt a procedure for water fluoridation best suited to thier local needs and for this purpose seek competent dental, medical, and engineering advice."

During the meeting of the Board of Governors presentations were made to Dr. Garvin, Winnipeg, and Dr. T. R. Marshall, Toronto. in recognition of the excellent contribution they had made over the years to the Journal of the Canadian Dental Association.

At the Monday luncheon C. D. A. Honorary Memberships were given to Dr. Arthur Walsh, Montreal, former Dean of the Faculty of Dentistry, McGill University; Dr. E. Charron, Dean of the Faculty of Dentistry, University of Montreal; and to H. Parker Buchanan, Secretary of The British Dental Association, London, England.

Dr. P. G. Anderson, Toronto, was elected President-Elect.

The 1954 C. D. A. Meeting will be held at St. Andrew's by-the-Sea, New Brunswick, September first to fourth.

Much could be said of other activities but neither time nor space will permit.

We would be remiss in our duties if we did not pay tribute to the wonderful work of our Secretary, Don Gullett. In a tribute paid to him by Dr. Cline, I am sure we all concur. "It is doubtful if any activity of the Association does not have the 'hall mark' of our capable Secretary. No one person can be an organization but it is given to a person at times to be the one, who constantly inspires dreams, aspirations and activities of that organization. This person would be the first to acknowledge that without the loyalty and capabilities of the individuals in the organization his efforts would be wasted; such is our Secretary."

Respectfully submitted

R. O. WINN, D. D. S.

C. L. STRACHAN, D. D. S.

P. G. ANDERSON, D. D. S.

C. M. PURCELL, D. D. S.

Motions: That this Board accept in principle the recommendation of the Council on Dental Education of the Canadian Dental Association with respect to the recognizing of candidates for provincial board examination who possess a B. D. S. degree from a university and in addition the title of F. D. S., R. C. S., of England. . . . Carried.

That a letter, re C. D. A. Pension-Assurance Plan, stating the Board's endorsement, be submitted to membership of the R. C. D. S. . . . Carried.

That the report of the C. D. A. Representatives with amendments be adopted. . . Carried.

DENTAL PUBLIC HEALTH COMMITTEE REPORT

Gentlemen:

The Dental Public Health Committee begs to report on its year's activities.

Dental Seminars

Most of our activity this year has been directed toward the dental seminar program. Six of these seminars were held during the period from October, 1953, until March, 1954.

Date	Place	Instructors	No. Registered
Oct. 26-27	Lakehead	Drs. Wood and Posen	24
Oct. 30-31	Kirkland Lake	Drs. Wood and Posen	12
Dec. 11-12	Kingston	Drs. Boyes and Shultis	21
Dec. 11-12	Orillia	Drs. MacGregor and Lesco	18
Jan. 12-13	St. Catharines	Drs. Bilkey and G. Johnston	22
Mar. 3-4	Windsor	Drs. Boyes and Shultis	14

The expected attendance at Kirkland Lake was curtailed due to the Gold Mine strike, and Windsor by a severe snowstorm. The press and radio gave the seminars excellent coverage particularly in the Northern part of the province. From the unsolicited letters and telegrams of thanks that we received it is good evidence of the enthusiastic acceptance of this type of post-graduate education. Dr. Mitton our field secretary, is to be commended on the efficient manner in which he organized the seminars and his report dealing with the program in more detail will be presented later. On April 13th, 1954, the general seminar committee held a meeting and recommended that application be made for a public health grant, through the Faculty of Dentistry to conduct six dental seminars in 1954-5.

Field Work

This committee was under the Chairmanship of Dr. E. A. White. During the past year over 80 lectures have been given in the Toronto area to Home and School Associations, Service Clubs, Conventions, etc. Members of our Committee made trips to Barrie, Kingston, North Bay, Georgetown, Bolton, Britt, Thessalon, Cloyne, Brantford, Shelbourne and many other parts of the province to give Dental Public Health lectures, or to assist in local programs. The Dental Public Health Committee also assisted in the preparation of the brief that was presented to the Board of Education respecting the curtailing of the sale of chocolate milk in the Toronto schools.

Materials Committee

Dr. M. Jackson and her committee are at present preparing a film strip to be used in conjunction with the book "Your Child and Mine". Dr. H. A. Swales and his committee, who have been responsible for most of this book, have recently made some promising contacts which we hope will enable us to sell more of the books.

Convention Committee

Dr. D. L. Rife has represented Dental Public Health on the Convention Committee this year. A symposium on Dental Public Health has been arranged for Wednesday, May 19th. The breakfast meeting will be held on Monday morning, the speaker being Dr. D. V. Currey, M.O.H. of Lincoln-St. Catharines Health Unit. A Dental Public Health Luncheon has been arranged for Tuesday, the speaker being Dr. Carl Sebelius, Director of the Dental Division of the Tennessee State Dental Department of Health. Our display panel has been re-arranged to give publicity to Dental Seminars, Research and the promotion of the book "Your Child and Mine".

Diploma in Dental Public Health

One dentist is taking the course in Dental Public Health this year. Dr. R. Connor was appointed by the Dental Public Health Officers to represent them on our committee and attended our meetings. This side aids in closer liaison between our two committees.

Red Cross

Dr. S. A. MacGregor, the Red Cross Representative of our Committee reports that three dental coaches have continued to bring dental health education and treatment to the outposts of Northern Ontario. The Junior Red Cross paid the dentists that manned the coaches and paid for the supplies required and the cost of maintaining the coaches. The Red Cross budget for dentistry this year is \$15,030.00. In 1953-54 the Junior Red Cross (Ontario Division) also gave \$10,000.00 to the Newfoundland project. Mrs. Stringer, the Commissioner and Dr. MacGregor visited the Coaches during the present year.

Junior Red Cross at the Sick Children's Hospital has been greatly appreciated. A cleft palate clinic has been established. \$15,000.00 was contributed by Junior Red Cross and is still being used in the maintenance of the program,

Respectfully submitted,
A. W. S. Wood.

REPORT of FIELD SECRETARY

(Dental Public Health Committee)

The decision of the Dental Public Health Committee to extend their activities toward the Dental Seminar programme and to look at the province of Ontario with a purposeful and organized approach to dental public health planning, provides opportunity for more effective activity in field work. While we must continue to give assistance to dentists who are prepared to promote dental public health programmes in their own communities, the Dental Seminar offers another useful medium for promoting dental public health. The primary purpose of the Dental Seminar is to bring newer dental knowledge and skills to dentists in order that they may be able to provide better dental health services to more people and especially to children. The first point in the terms of reference for dental public health activity is "the education of the dentist in accepted dental health teaching". This seminar project is directed toward improving our knowledge and skills but it also affords opportunity for public health education and good public relations.

Dental Seminars

The Dental Seminar is a two-day intensive course of instruction of both a didactic and clinical nature held under the auspices of the

local dental society and in the community where dentists are in practice. With the co-operation of the Faculty of Dentistry, staff instruction is provided with the assistance of a government grant which pays the honoraria to the two instructors. The Ontario Dental Association also provides a grant and along with the attendance fee of ten dollars from those enrolled, provides for the instructors' expenses of travel, hotel and meals, the printing of programmes, hall rental and administrative costs (stamps, mimeographing, telephone and telegraph). One dinner meeting during the course is arranged for those enrolled and local key people are invited as guests. A Board of Governors' representative from the Ontario Dental Association is invited as the speaker. This dinner is paid for out of this fund.

Six dental seminars were held between October, 1953, and March 1954. One hundred and eleven dentists attended these courses, two of which were held in Northern Ontario, one at the Lakehead, the other at Kirkland Lake. The others were held in Kingston, Orillia, St. Catharines and Windsor. The maximum number suggested for enrolment, due to the emphasis on chairside instruction with patients, is twenty. A minimum enrolment to operate successfully on a financial basis is fifteen. The operation of the six seminars fell well within the budget of our committee this year.

Public Relations Aspect of Dental Public Health Activity

While the purpose of promoting preventive dental care for the young child was the main objective of the dental seminar an opportunity to use the occasion to promote a better understanding of dental health and to foster good public relations was not overlooked. The press and radio were co-operative and generous with space and radio time to keep the local public informed. The choice of guests at the seminar dinner was made with a view to good public relations and better understanding by representatives of local government, health authorities, educationists and the press. News releases were prepared and provided for local use. It is hoped in this coming year to prepare tape recordings to be available for local radio stations as a media of dental health education.

Better and closer professional relationships were fostered in suggesting to the local society that their district representative of the Board of Governors be invited to speak at the dinner meeting. Favourable comments have been received in our correspondence on this point.

It is interesting to note here in making an assessment of the years of graduation of those attending, to find that approximately two-thirds of those enrolled on the six seminars were graduates of years when little or no paedodontic instruction was given in the undergraduate dental training.

An effort was made this year to hold seminars in organized public health areas. While all six were not areas where public health dentists are employed, all were organized areas with full-time staff, such as in health units or departments of public health. The purpose was to stimulate interest toward the extension of their services to include a dental health programme. Kingston is one area where this is expected to take place this fall with the appointment of a dental health officer. Requests have come from a number of this year's seminar areas for assistance to dentists who are accepting invitations to speak to local lay groups. A demonstration of such an assignment was given by one of our instructors during the seminars to help the local dentists in their presentation. This, however, makes a very heavy schedule for our

seminar staff but it is another valuable contribution to dental health education.

Another aspect of the field secretary's work which bears a relationship to dental public health education and better public relations is the attendance at meetings of voluntary and official agencies where public health problems are being considered. In most instances executive meetings were attended in the planning of programmes for annual meetings or the discussion of health matters. During the year, meetings of the Canadian Public Health Association, Ontario Public Health Association, Health League of Canada, Toronto Welfare Council, and the annual meetings of these organizations were attended. It was encouraging to be able to arrange good dental representation on the programme of the Ontario and Canadian Public Health Association. I had the privilege of taking part in a symposium on Health Education at the annual meeting of the Health League of Canada. Three meetings of the Dental Health officers were attended at Welland, Fergus and Brampton. The annual meetings of the United Nations Society, Toronto Branch, was attended during United Nations Week. I was present as official representative of the Dental Public Health Committee of the Ontario Dental Association at the Northern Ontario Dental Association meeting in New Liskeard and in Montreal at the Canadian Dental Association meeting last fall. While at the Montreal meeting, besides supervising our Dental Public Health exhibit of dental health materials, I also was present at a meeting of the Canadian Dental Association Dental Public Health Committee where problems of national dental public health were discussed.

Trips out of town in the planning of Dental Seminars were made to Orillia, New Liskeard, Gravenhurst, Midland, Barrie, Kingston, Belleville, and St. Catharines.

Two meetings of the General Seminar Committee were held during the year. Discussion of policies, programme and the administration of the dental seminars took place and a report was prepared and presented at the last meeting of the year's operation. Much correspondence has been necessary in the introduction, planning and holding of six dental seminars this year. It is found that much more can be accomplished by a meeting of the field secretary with the local society group when the details of local planning can be discussed. An opportunity is also offered to strengthen professional relationship between the local society and the parent body, who sponsor these seminars.

Many daily telephone conversations and conferences with those wishing to discuss dental health problems or seek advice is routine work of the field secretary.

I wish to express my appreciation for the co-operation and happy working relationship with the executive officers of the Ontario Dental Association, the chairman, committee chairman and members of the Dental Public Health Committee and all members of the Ontario Dental Association with whom I have been privileged to work during the year.

Respectfully submitted,

GLEN T. MITTON.

Motion: That the reports of the Dental Public Health Committee and Field Secretary be adopted. . . . Carried.

PUBLIC RELATIONS

As Chairman of the Public Relations Committee, Dr. Langmaid stated he was not presenting a formal report but suggested certain

action, represented in the following resolution.

Motion: That the Public Relations Committee of this Board concentrate its efforts in acquainting the members of the profession with the activities of this Board and give full support to the Public Relations Committee of the Canadian Dental Association and the Dental Public Health Committee of the Ontario Dental Association . . . Carried.

**SUBMISSION TO
THE ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO
BY THE ADVISORY COMMITTEE ON DENTAL RESEARCH IN THE
FACULTY OF DENTISTRY, UNIVERSITY OF TORONTO**

The remarkable achievement of the dentists of Ontario in the Dental Research Fund Campaign is unparalleled among professional groups anywhere. They have pledged personal contributions of more than \$140,000 for the five-year period beginning January, 1953. Over 50 per cent of the licensed practitioners in this province have contributed to the support of Dental Research.

The total objective of the original campaign was \$300,000. Contributions are now being solicited from foundations and corporations. There seems little doubt that the total objective will be achieved. It was computed that \$60,000 a year over the first five years would allow the establishment of a modest programme of dental research.

The funds are on deposit with the Bursar of the University of Toronto. They are administered by the Dean and the Research Committee of the Faculty of Dentistry. The actions of the Research Committee are under the control of the Faculty Council. The funds are being administered wisely.

State endowed institutes of Dental Research which exist in poorer countries than Canada have produced outstanding developments in Dental Research. If the dental profession in this country is to assume its proper role of leadership, it is essential that it should lead in research. It would appear that the dental profession itself must take the initiative in this endeavour.

It is essential to the progress of the dental profession of Ontario that an adequate programme of research be established on a permanent basis. We respectfully submit the suggestion that the dentists of Ontario through their annual payment of fees to the Royal College of Dental Surgeons continue to support research. Advantages of this method of securing financial support for Dental Research are as follows:

1. Financial contributions are evenly distributed among the profession.
2. A research programme may be developed around highly trained staffs which may be assured of continuing employment.
3. The Public of Ontario and indeed the whole world will enjoy, and will realize it enjoys, the benefits of Dental Research performed in Ontario.
4. The public will be assured of the sincerity of the profession in its stated objective of improved dental health.
5. The government cannot fail to be impressed by the demonstration of long range active interest in an effective research programme.

We would therefore request the Board of the R.C.D.S. to support the Division of Dental Research by an annual grant.

Respectfully submitted,

C. H. M. WILLIAMS,
Chairman.

Motion: That the report of the Advisory Committee on Dental Research in the Faculty of Dentistry be received and adopted . . . Carried.

BY-LAW NO. 82

A BY-LAW TO AMEND BY-LAW NO. 7 BY THE ADDITION OF BY-LAW NO. 7 B

BY-LAW NO. 7 B

Section 1.

Any graduate in dentistry of an approved school who is at least twenty-one years of age and who desires to become an interne in dentistry in a recognized hospital in the Province of Ontario shall put himself under the protection of The Dentistry Act by signing an Indenture with the member of the College who is the director of the dental department of such hospital, in the form approved by the Board, for a period of not more than twelve months which shall not be extended or renewed without the consent of the Board.

Section 2.

All Indentures of internship shall be promptly filed with the Secretary of the Board and shall be valid and effective only from the date of acceptance of such filing by the Secretary of the Board and shall forthwith cease to be valid or effective if the applicant shall fail to comply with the terms of the Indenture or these By-laws at any time.

Section 3.

The Secretary of the Board shall not accept for filing any such Indenture unless it is in the approved form duly executed by the applicant and by the director of the dental department of the recognized hospital in which internship is sought, and accompanied by evidence satisfactory to the Secretary of the Board that the applicant is a graduate in dentistry of an approved school.

Section 4.

Production of a copy of such Indenture duly endorsed by the Secretary of the Board with the date of acceptance of filing thereof shall be a condition precedent to any person acting or being allowed to act as or to undertake any of the duties of an interne in dentistry.

Section 5.

In this By-law, "approved" shall mean "approved by the Board" and "recognized shall mean "recognized by the Board".

(The By-law (No. 82) was given three readings and approved.)

ABOLITION OF INDENTURESHIP

Motion: That By-law Number Six, Section One (c) be deleted, to be effective on or before March 1st, 1955, and that a By-law be prepared for presentation at the Fall Meeting covering this matter . . . Carried.

(This amendment will do away with indentureship which has been permitted for students during the vacation period preceding the final year.)

ADDITIONAL ITEMS

Cleft Palate Cases

A memorandum entitled "Rehabilitation of the Cleft Palate and/or Harelip Child" as submitted to the Board by the Ontario Department of Health was read.

Motion: Whereas this Board has received a memorandum entitled "Rehabilitation of the Cleft Palate and/or Harelip Child" and whereas we have carefully studied the content of this memorandum, be it resolved that we are heartily agreed in approving the establishing of clinic arrangements as suggested and further that this Board assist by every possible means in furthering this effort . . . Carried.

Incorporation of a Dental Practice

An inquiry was read from Dr. ———— requesting information respecting the incorporation of dental practice. A letter from the Board Solicitor, dated May 21st, 1954, pointing out that from Section 2 (a) of By-law Eleven, it appears that incorporation is prohibited.

Motion: That the Secretary be instructed to advise Dr. ———— that our By-laws forbid dentists incorporating. Reference: By-law Eleven, Section Two . . . Carried.

Ownership of Dental Laboratory by Dentist

An inquiry was read from Dr. ———— respecting the operation of a commercial laboratory. The Secretary was instructed to make reply stating that the Ontario Technicians' Act does not appear to contain any provision authorizing the operation of such business in the name of a corporation provided a dentist is in charge of the operations.

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:—

1. May not display any sign containing anything other than his name, degrees and profession and in which any letters larger than four inches are used.

2. May not display more than two signs in addition to one at or on his entrance door.

(a) Not more than one of these may be a suspended sign.

(b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.

3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only un-illuminated letters or figures not larger than two inches):

(a) Add to his entrance sign, his office hours.

(b) Add to any sign the words "Open Evenings" and (when an entrance is difficult to find) the words "Entrance on . . ."

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:—

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice. The announcement shall not contain any reference to qualifications, procedure or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be the nature of a display.

2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:

(a) Use private professional cards.

(b) Issue accounts and receipts.

(c) Issue appointment cards.

(d) Mail to his patients recall notices.

(e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice.

SOLICITING ADVERTISING

For the protection of the Profession from solicited advertising, this Board prohibits any Member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

RE LISTING OF DENTISTS IN TELEPHONE DIRECTORIES FOR PROVINCE OF ONTARIO

- (1) No display advertising of any kind.
- (2) No black face listings in the yellow pages.
- (3) No specialists listed under separate group headings.
- (4) Mention of office hours is of no particular value, and is usually used only to increase space, therefore, to be excluded.
- (5) Mention of particular facilities or equipment, such as X-ray, gas extractions etc., not acceptable in either section.
- (6) Black face listings acceptable in white pages.
- (7) Residence listing on yellow pages, as well as on white pages, is acceptable.
- (8) Designation as specialists may be used in both yellow and white pages, provided the dentist is a specialist certified in and restricted to the designated branch of dentistry.

Annual Report
of the
Board of Directors

*The Following Is a Condensed Report
of the Business Transacted by the
Board During the Year:*

ROYAL COLLEGE OF DENTAL
SURGEONS OF ONTARIO
1954-1955

SECRETARY'S REPORT RE ELECTION BOARD OF DIRECTORS

To the Board of Directors.

Gentlemen:

In accordance with the provisions of the Dentistry Act of Ontario and the By-laws of this College an election of the Board of Directors for the Royal College of Dental Surgeons of Ontario was held from October to December 1954.

On the twentieth day of October, nominations were called for by circular letter to each member of the College resident in Ontario as of October 1st.

Valid nominations were received as follows:

- For District No. 1. — C. M. Purcell, Pembroke
2. — W. J. Langmaid, Oshawa
3. — M. V. J. Keenan, Sudbury
4. — R. P. Lowery, Toronto
5. — M. C. G. Bebee, Owen Sound
6. — J. M. Campbell, Chatham
F. J. Furlong, Windsor
7. — R. O. Winn, Kitchener
8. — G. K. Chapman, Fort Erie
A. H. Leckie, Hamilton
H. M. Morrow, Hamilton

No valid nominations having been received for opposing candidates in Districts 1, 2, 3, 4, 5 and 7, the nominated candidates were declared elected by acclamation. Under the stated provision in By-law- 12, Section 6, two nominated candidates; namely, F. J. Furlong and H. M. Morrow, withdrew from the election by notifying the Secretary by registered mail and the remaining candidate in District No. 6, J. M. Campbell, was declared elected. As a result election was held in District No. 8.

On December 1st, ballots were mailed to all qualified electors in District No. 8, together with necessary instructions.

The officially appointed Scrutineers counted the ballots on December 8th and made report herewith submitted, indicating that A. H. Leckie was elected as Representative for District No. 8.

A communication from the Secretary of the Faculty of Dentistry, University of Toronto, stated that at a regularly held meeting of the Faculty Council, R. J. Godfrey was elected Representative to the Board by the said Faculty.

Therefore, the duly elected members of this Board of Directors for the ensuing biennial term are:

- District No. 1. — C. M. Purcell, Pembroke
2. — W. J. Langmaid, Oshawa
3. — M. V. J. Keenan, Sudbury
4. — R. P. Lowery, Toronto
5. — M. C. G. Bebee, Owen Sound
6. — J. M. Campbell, Chatham
7. — R. O. Winn, Kitchener
8. — A. H. Leckie, Hamilton

Faculty of Dentistry — R. J. Godfrey

The ballots as sealed by the Scrutineers are herewith presented and should be disposed of by direction of the Board.

DON W. GULLETT,
Secretary.

SCRUTINEERS' REPORT ON ELECTION

DISTRICT — 8

Number of ballots received	208
Number of valid ballots	200
Number of invalid ballots	8
Reasons for declaring ballots invalid:	

Late — 4

No validation slip — 4

The 200 valid ballots were marked as follows:

For Dr. A. H. Leckie	108
For Dr. G. K. Chapman	92

Showing a majority of 16 for **Dr. Leckie**

In accordance with By-law Number 12,

Section 18, Dr. A. H. Leckie was chosen by lot.

Scrutineers:	(Sgd.) R. S. Woollatt
	(Sgd.) Colin C. Rous

Toronto, Ontario,
8. December, 1954.

REPORT OF THE PAST PRESIDENT

Mr. President and Members of the Board:

As we convene for this, the Two Hundredth Meeting of the Board of the Royal College of Dental Surgeons of Ontario, I feel that I would be remiss if I did not pay tribute to the men, who have preceded me in this office. Ours has been a great heritage and we are deeply indebted to them for the great contribution that they have made to this honourable profession of Dentistry.

Since we last met, two members of this Board have retired in the persons of Doctors Morrow and Furlong and I would like to express our appreciation of the services, which they rendered as members. At the same time, we welcome their successors, both of whom, I am certain, will prove valuable members of this Board.

During the course of this meeting the several committees will report on their proceedings. Several committees have been intensely active and I am deeply grateful for the support which has been given to me during my term of office by committee chairmen and the members. I shall therefore confine my remarks to what I consider some of the major activities of the past year.

Since our last annual meeting, there has been considerable activity on the part of the committee composed of representatives of the Ontario Dental Association, The Dental Alumni and the R. C. D. S. Board, together with Dean Ellis and our Secretary, in an endeavour to procure physical facilities for the training of Dental Personnel. This has involved several meetings together with much correspondence in dealing with the Ontario Government and the University of Toronto. While progress has been slow, we are most happy to be able to announce that property has been purchased adjoining the Hospital for Sick Children, notices of expropriation have been sent to tenants presently occupying the properties and the Ontario Government has paid to the University of Toronto the sum of Six Hundred and Forty Thousand Dollars (\$640,000.00) for the purchase of said property. The architects are presently preparing plans for the new building and the Government of Ontario voted another Million Dollars (\$1,000,000.) for the new building at the last session of Parliament.

Another major activity has been the preparation for the approach to the Ontario Legislature for the purpose of opening the Dentistry Act. We are deeply grateful to the profession across the Province for their response in sending resolutions from their respective societies

supporting the movement and materially strengthening our hand in the presentation of our case. I congratulate our representatives on their work in this respect. It is very gratifying to report that at the last session of the Ontario Legislature, the amendments to the Act were passed.

Due to our limited registration fee in the past, we have been placed in an embarrassing position financially. Spiralling costs of administration have forced us to budget for a deficit for the past years. We have been financially handicapped in giving leadership as far as Ontario is concerned. In other provinces, the fees range up to \$75.00 as paid by the members of the profession in the Province of Quebec.

Our Board is now in a position to increase our annual registration fee to an amount in keeping with our financial requirements.

Dean Ellis and the members of the Faculty of Dentistry, University of Toronto, continue to give the co-operation that has been characteristic over the years. The harmonious relationship between the Faculty and the Board of the R.C.D.S. has contributed much to the well-being of the profession generally. The honours that have come to the members of the Faculty of Dentistry, together with the great demand for their services both in this province and beyond our borders, is of more than passing significance.

It is with satisfaction that we observe the increase in the number of admittances of students to the pre-dental year.

Dean Ellis stresses the need of Legal Bodies assisting in attracting candidates for Dentistry. This is in order to procure the right type of individuals into the profession. This is based on the recommendation of the Council on Dental Education of the Canadian Dental Association and was approved by the Board of Governors of the C.D.A.

The recently developed course for Dental Hygienists is progressing favourably and the demand for these graduates is in excess of the supply. Until we have greater facilities for training the number will be limited.

During the year the Board drafted regulations on examinations for licensing of Dental Hygienists.

Nine Dental Hygienists will graduate this year .

Printing

During the past year, due to the energetic action of our Secretary, a printing establishment of no mean proportion has been set up in the basement at 234 St. George Street, C.D.A. Headquarters. Here much of our printing is being done at a considerable saving.

The work of the Discipline and the Public Relations Committees has been heavy. The manner in which they have handled some of the problems has been praiseworthy. Some of the complaints coming before our Discipline Committee have been perplexing problems to deal with. Disciplinary action had to be taken in some cases. Complaints in relation to exorbitant fees, abusive language, failure to give post-operative treatment, etcetera are some of the abuses listed. A matter that received consideration is the injecting of penicillin into the lower part of the body. While this is within our right, nevertheless the Board feels that it is unnecessary and unwise.

Illegal practice is still a contentious problem. We appreciate the co-operation of the Board of Technicians in sending representatives to meet with our Board representatives to discuss mutual problems in this particular field. To get some control over the violators has become a major problem and a headache for the Corporate Bodies across the country. Greater cooperation by the dentists generally would help materially. **The use of prescriptions for all work going to the technicians is a must.**

Our appreciation goes to the Ontario Dental Association, The Dental Alumni, University of Toronto, and the Dental Societies across the province for their co-operation through the years. Special tribute is extended to the Dental Public Health Committee of the Ontario Dental Association. Their work is highly commendable and is the finest contribution to better Public Relations that I know of in the field of Dentistry.

The Seminars held under the direction of the Dental Public Health Committee are proving very popular and instructive.

For some time past the matter of obtaining an assistant for our Secretary has been under consideration. I appointed a special committee at our annual meeting a year ago. At the fall meeting, this committee, under the Chairmanship of Doctor R. P. Lowery, reported progress. The other members of the committee are Doctors H. W. Reid, S. J. Phillips, P. G. Anderson and R. J. Godfrey. A report will be forthcoming at this meeting and I am certain that this Board will approve the recommendation of their selection.

The eventual appointment of our present Registrar-Secretary as full-time Secretary of the Canadian Dental Association has been a matter of speculation for some time. Since we last met, circumstances have precipitated a problem, which has necessitated his immediate appointment to that post. This news came as a shock to those of us who have been in close touch with the work of this Board. We are happy to know that he will still be available for consultation after he takes on his duties as full-time Secretary of the Canadian Dental Association.

We are deeply grateful to Doctor Gullet for the years of service, which he has rendered to this Board and Dentistry as a whole. His untiring effort on behalf of the profession coupled with the efficiency that make an executive have made his name famous in the world of Dentistry. Few men in our profession are as well known and highly esteemed as our Secretary. We shall miss his services on this Board and we wish him health and happiness for years to come as Secretary of the C.D.A.

The success of any institution depends largely on the efficiency of its headquarters staff. The loyalty and devotion to duties here at 234 St. George Street has been of the highest order. On behalf of our Board, I extend our thanks and appreciation.

Matters to be considered at this meeting and to which much thought will be given are:

1. Revision of our annual registration fee.
 - (a) To give adequate financial support for the proper administration of all Board activities. At the same time to make provision for the building up of our reserve fund to an amount equal to one year's income. This is considered good business and comes as a recommendation from our auditors.
 - (b) To give increased financial support to the Canadian Dental Association.
2. With a **new building** in sight for the training of dental personnel, our Board should be ready to give any assistance in furthering and speeding up the project.
3. Give consideration to the matter of Public Relations. This can possibly be done to some extent by keeping our membership better informed on Board activities. This is being done in some other provinces by issuing a Bulletin.

In conclusion may I say, to have served as your President for the past two years has been a great honour and a privilege and I am deeply grateful for the loyal support of the Board members and the

profession as a whole. To the incoming President, I pledge my support.

All of which is respectfully submitted,

C. MURRAY PURCELL,
Past President.

Motion adopted:

THAT the Report of the Past President be received and adopted.

REPORT OF REGISTRAR-SECRETARY

Mr. President and Members of the Board:

1. As directed at the last meeting of the Board, amendment of the Dentistry Act was sought. A brief was prepared and submitted to the Honourable Mackinnon Phillips, Minister of Health, who presented the amendment as a government measure. The Bill was enacted on March 30th, 1955, copy of which is appended.
2. Since the last meeting another Past President of this Board, Doctor E. E. Bruce of Kincardine, has died. Doctor Bruce was President for the term 1925—27 and served on the Board for a period of eight years. It will be recalled that it was during his tenure of office that agreement was negotiated with the University of Toronto in establishing the Faculty of Dentistry. He would have been eligible for honorary registration on January 1st next.
3. Fifteen members, whose names are listed below, are eligible for honorary membership beginning January 1st, 1956. Seven honorary members have died since the last Annual Meeting.

For Honorary Membership — (Registered in 1906)

Baker, Herbert Wesley	Stratford
Becker, Frederick Charles	Toronto
Bothwell, John Alexander	Toronto
Bradley, Sydney Wood	Ottawa
Coram, James Weldon	Toronto
Deans, William James Martin	Windsor
Elliott, Alex. Smith	Toronto
French, Felix Andrew	Ottawa
Glover, William Ryerson	Kingston
Grant, Edmund Alexander	Toronto
Hackett, John Thomas	Weston
Linscott, Bradley Wills	Brantford
Smith, Lewis Thomas Gerald	Toronto
Sparks, Ernest Bland	Kingston
Wilson, Edwin Herbert	Perth

4. It will be observed by the following table that the number of dentists in Ontario increased by 37 during the past year.

Changes in Register

As of April 30th, the number on the Active List of the Register was as follows:

*Annual fee paid	2215	
Less deceased since paying fee	3	2212
Honorary Licences issued	113	
Less deceased since issuance licence	3	110
Fees unpaid		3
Total		2325

*Including 40 who have paid \$10.00 fee.

The following changes in the list have occurred during the year:

Additions

Graduates of University of Toronto	62	
N.D.E.B. Certificates	10	
D.C.C. Certificates	1	
Board Examination	1	
Inactive to Active	12	86

Deletions

Deceased	25	
Retired	24	49

Increase over previous year 37

5. As stated above, there were on the date given 2325 names on the Active List. It may prove of interest to estimate the number actually engaged in practising dentistry for the Ontario public in private practice. Such estimate follows:

Total number	2325		
Out of Ontario	40	2285	
Honorary not in practice (Est.)	60	2225	
Full time salaried positions:			
Dental school	11		
Hospital service	31		
School service	17		
Public Health	15		
R. C. D. Corps	66		
Others	2	142	2084

As of June 1954, the population of Ontario was given as 5,046,000. This would give an estimated ratio of one dentist in private practice to 2421 of the population. It should be stated that the majority of these dentists in full time salaried positions also serve the public in some capacity.

6. Coverage by Workmen's Compensation Board.

A fact not well known by the dentists of Ontario is that members of the profession may apply for coverage under the Workmen's Compensation Act if they have at least one employee. The rate of assessment at the present time is Twenty-five Cents (25¢) per hundred dollars of payroll. For example, with a maximum coverage for a dentist of \$4,000., plus coverage for one nurse or secretary whose salary is \$3,000., the assessment would be computed as follows:

$$25 \times \$7,000. = \$17.50 \text{ per annum.}$$

100

A dentist or his staff would be covered for any accident and certain occupational diseases arising out of and in the course of employment.

The coverage is broad and the benefits include payment of compensation at a maximum of \$57.69 per week, complete medical and hospital care, physical and vocational rehabilitation, artificial appliances, life-time pensions for permanent disabilities, death benefits, limited funeral expenses, etcetera.

Further information can be obtained by writing Mr. George Beach, Chief Assessment officer, Workmen's Compensation Board, Toronto.

7. At the Annual Meeting last year, several incidents of difficulty were reported relating to dental practice and the existing plans

for medical and hospital care. The number of difficulties in this respect has increased greatly during the year. These matters should be explored more thoroughly with the objective of establishing a better understanding.

8. Appended to this report will be found a table setting forth the activities under the Extramural and Extension Lecture Service, a list of licentiates of this College who have died during the past year and a list of honorary members.
9. Once again may I express my appreciation to the members of the Board for the many courtesies and kindly assistance in carrying forward the work.

Respectfully submitted,

DON W. GULLETT,
Registrar-Secretary.

No. 100

1955

BILL
An Act to amend The Dentistry Act

HER MAJESTY, by and with the advice and consent of Legislative Assembly of the Province of Ontario, enacts as follows:

1. Subsection 1 of section 22 of **The Dentistry Act** is amended by striking out the words "not exceeding \$25, as may be prescribed by by-law of the Board" in the fifth and sixth lines and inserting in lieu thereof the words "as may be prescribed by by-law passed by the Board and approved by the Lieutenant-Governor in Council", so that the subsection shall read as follows:

Rev. Stat.,
c. 92, s. 22,
subs. 1,
amended

- (1) Every member of the College engaged in the practice of dental surgery in Ontario shall, on or before the 1st day of January in each year, pay to the treasurer, or to a person deputed by him to receive the same, such annual registration fee as may be prescribed by by-law passed by the Board and approved by the Lieutenant-Governor in Council, and such fee shall be recoverable by suit in the name of the Royal College of Dental Surgeons of Ontario in the division court of the division in which the member in default resides.

Annual fees

2. The Schedule to **The Dentistry Act** is amended by striking out the words "city of Toronto" in the tenth line and inserting in lieu thereof the words "county of York" and by striking out the words "Wentworth, and York (except Toronto)" in the eighteenth line and inserting in lieu thereof the words "and Wentworth".

Rev. Stat.,
c. 92,
Sched.,
amended

3. This Act comes into force on the day it receives Royal Assent.

Commence-
ment

4. This Act may cited as **The Dentistry Amendment Act, 1955.**

Motions adopted:

THAT the following members:

Herbert Wesley Baker
 Frederick Charles Becker
 John Alexander Bothwell
 Sydney Wood Bradley
 James Weldon Coram
 William James Martin Deans
 Alex. Smith Elliott
 Felix Andrew French
 William Ryerson Glover
 Edmund Alexander Grant
 John Thomas Hackett
 Bradley Wills Linscott
 Lewis Thomas Gerald Smith
 Ernest Bland Sparks
 Edwin Herbert Wilson

eligible for Honorary Membership, beginning January 1st, 1956, be granted Honorary Registration.

THAT the Report of the Registrar-Secretary be adopted.

Interview with Blue Cross Officials

Mr. R. D. Beaman, Mr. J. Sutterington and Mr. W. Gaylor of the Blue Cross Plan met the Board by appointment. Mr. Beaman stated that until recently there had not been many admissions to hospitals for dental operations but these increased rapidly during the nineteen

fifties and many such admissions were considered unnecessary. It became necessary to exclude dental operation from Blue Cross contracts (Spring 1954). This seemed drastic; so a letter was sent hospitals that admissions would be permitted if signed by Chairman of Medical Advisory Committee of the hospital. Admissions for dental operations continued as before. It was then suggested that several authorized persons could sign the admission but this information has not been sent out to hospitals. He stated that they were confused and not able to judge admissions for essential dental cases.

During discussion, it was pointed out that patients, particularly members of Blue Cross, demand hospitalization. It was suggested that the dentist be requested to certify as to need for hospital admission of his patient.

Mr. Beaman expressed the opinion that the best solution was to place the responsibility on the dentist.

REPORT OF THE TREASURER

Mr. President and Members of the Board:

You will observe by the following Auditors' Financial Statement for the year ended April 30th, 1955, that a deficit of \$5,514.70 appears. For several years the Board has operated on a narrow margin—often borrowing on next year's revenue by delaying payments. It would appear that the disposal of some securities should be considered in order to meet necessary expenditures for the immediate future.

In accordance with the regulations, first notices for the annual fee were sent out on November 26th, 1954; second notices to those who had not paid were mailed on January 17th and drafts drawn on unpaid members on February 3rd. On March 7th those members who had not paid were notified of the added penalty. A letter was sent to those not paid on April 1st stating that accounts would be placed in Court. As a result of this procedure the fees of the following remained unpaid and were entered in Court for collection: Doctors H. J. Caulfield, H. M. Katzenmeier, W. C. Kelly and C. C. Smart. Fees of Doctors H. M. Katzenmeier and C. C. Smart are now paid. Orders of execution have been issued to respective Division Courts for Doctors Caulfield and Kelly.

No change has been made in the securities held by the Board during the year.

The appointment of auditors for the ensuing year is necessary.

Respectfully submitted,

DON W. GULLETT,
Treasurer.

Motions adopted:

THAT the Report of the Treasurer be received and adopted.

THAT the firm of Thorne, Mulholland, Howson and McPherson be appointed auditors for the ensuing year.

THAT the President and Treasurer be authorized to sell Bonds to the extent of Eleven Thousand Dollars (\$11,000.00).

AUDITORS' REPORT

We have examined the books and accounts of the Royal College of Dental Surgeons of Ontario for the year ended April 30, 1955. All our requirements as auditors have been complied with and we report that the above balance sheet is in accordance with the books and, in our opinion, fairly presents the financial position of the College as at April 30, 1955.

REPORT OF FACULTY EXAMINATIONS

Dean Ellis presented the results of the examinations of the final year of the Faculty of Dentistry, University of Toronto, in detail. He also presented the results in Dental Hygiene, Dental Nursing, Graduate Students and other Dental Years. The members discussed the results. Questions were asked respecting the continuance of the course in Dental Nursing. The Dean stated that the admission requirement was being raised to Grade XIII with the hope that the course would prove more satisfactory. Some twenty-eight out of seventy-five of the Predental Year were conditioned.
 Motions adopted:

THAT in the case of Douglas Farquhar, the citizenship clause in the By-law be waived. By-law 8, Section 1-A. (Unanimous vote).

THAT the following, having met the requirements of this Board be granted their L.D.S. Certificates:

Frederick Abrams	Douglas James MacDonald
John Albert Alexander	Gordon Martin Marshall
Peter Andrews	Paul Ivan Marten
William John Arthur Baynton	Bruno Peter Martinello
Alexander Stein Black	Walter Michael Matulak
Alexander Bondarchuk	John Ross Mayne
Gordon Stanley Bowles	Reginald Grant Merriam

George Leo Glen Kelly	Albert Joseph Wilson
Edward John Ksiazek	Raymond Joseph Yakasovich
John Stringer LeGallais	Edward Lubanir Zaharuk
George Emery Little	Marvin Zarnett

REPORT OF COMMITTEE OF EXAMINERS AND PETITIONS

At Fall Meeting

Mr. President and Members of the Board:

We present herewith some suggested changes in the regulations for certification of specialists.

Section II — Nos. 1, 2, 4, & 5 — same.

Section II — No. 3 — changes as attached.

Section IV —

If the change in title of dental oral surgery—surgeon to oral surgery—surgeon has now been agreed upon by the Canadian Dental Association or other authoritative bodies, this should be changed. The spelling of the word "Paedodontics" has been accepted by the Faculty.

Where the word "licence" appears the word "certification" has been substituted.

Copy of the regulations amended as proposed follow.

Respectfully submitted,

R. P. LOWERY,

R. O. WINN,

R. J. GODFREY, Chairman.

ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO

Office of the Registrar-Secretary

234 St. George St. - Toronto 5

RULES AND REGULATIONS FOR THE CERTIFICATION OF SPECIALISTS

- I. A member of the College who prior to June 1st, 1944, has confined his practice to a specialty and has been recognized by the Board of the Royal College of Dental Surgeons as so doing, upon satisfying the Board as to qualifications, good character and ethical conduct, and upon the payment of a registration fee of \$25.00, shall upon application be granted a certificate qualifying him to practise as a specialist.
- II. New candidates for certification as a specialist must show evidence of each of the following:
 1. Membership in the Royal College of Dental Surgeons of Ontario.
 2. Completion of one of the following:
 - (a) Three years in the practice of dentistry.
 - (b) Three years of service in an approved dental clinic on a part-time basis of not less than 20 hours a week.
 - (c) Two years of full-time service in an approved dental clinic.
 - (d) Forty-eight consecutive weeks' indenturship with a regularly qualified specialist approved by the Board.
 - (e) Two school years as demonstrator or clinician in a dental school recognized by the Board.
 - (f) Other experience considered by the Board to be of equal value.
 3. Completion of a post-graduate course in the specialty designated, in any dental school or institution approved by the Board consisting of a minimum of thirty-two consecutive months of instruction in the specialty of Oral Surgery and a minimum of two consecutive periods of eight months each in the specialties of Orthodontics, Paedodontics and Periodontics, or the equivalent of such courses.
 4. Of having passed written and clinical examinations upon the subjects appertaining to the special branch of dentistry

designated as may be determined by the Board, and having paid an examination fee of \$50.00.

5. Good character and satisfactory behaviour in the previous practice of dentistry.
- III. All applications to practise any specialty shall be made upon a special form as provided by the Board.
- IV. The following special branches of dental practice are recognized by the Board:

Orthodontics
Periodontics
Oral Surgery
Paedodontics

The certificate holder in the said specialties shall be known only as an Orthodontist, Periodontist, Paedodontist, Oral Surgeon, as the case may be.

- V. Upon satisfactory completion of all requirements and upon payment by the applicant of a registration fee of \$25.00, the Board may issue a specialist's certificate to the applicant to practise the branch of dentistry designated.
- VI. The said certification shall be renewed each year at the time when the annual fee of the College is due and every recipient of the annual certificate of such certification, shall pay the College One Dollar (\$1.00) in order to defray the cost of issuing the same.
- VII. The Board may require periodic proof of the qualifications of a specialist.
- VIII. The giving or receiving of commissions or splitting of fees shall be deemed to be unprofessional conduct.
- IX. The annual register shall contain a separate list of the names of the recognized specialists, indicating under which specialty each is recognized.

At the Annual Meeting

To the Chairman and Board of Directors, R.C.D.S.
Gentlemen:

A brief review of the duties of the Board in general and this committee in particular with respect to the obligations and procedures of this committee would seem to be of value. Especially is it appropriate at this time to review the working of this committee with Board members who have already served terms and more especially to acquaint the new members of the Board with the administration of examinations and the recommendations with regard to licensure.

Dental examiners and licensure boards are commissioned to protect the public welfare and have been delegated with the responsibility and the authority to license dentists and dental hygienists. This carries the responsibility for designing, preparing and administering examination programmes for appraising the competence of applicants.

The dental examining board has the primary objective of appraising the candidate in such a way that the Board will have reasonable assurance that it is granting licences to practise dentistry and dental hygiene and issuing certificates of specialization, to individuals who are competent to practise their profession in accordance with the legal requirements.

This Board is in a much more favourable position than is the case with most State Boards in the U.S.A. in that this Board conducted a school of dentistry for many years and has always had a much better understanding of the problems of dental education in relation to licensure and particularly the factors that are important for boards to consider in their evaluation of a dental practitioner's competency.

It is suggested that members read the sections of the Act and By-laws pertaining to examinations and licensure.

Respectfully submitted,

R. P. Lowery

R. O. Winn

R. J. Godfrey, Chairman

APPLICATIONS

Motions adopted on recommendation of the Committee:

Lt.-Col. Garnet P. Francis, Jr. — A U.S. citizen now serving in U.S. Dental Corps, making inquiry respecting acquiring an Ontario licence.

In the case of Garnet P. Francis, Jr., that the regulation re citizenship be waived and that he be considered for licence when he has fulfilled all other requirements of the Board.

(Unanimous vote)

James Matthew Gregory — a graduate of the University of Michigan, formerly employed by the Jamaica Government, now retired.

THAT the citizenship rule be waived but that James Matthew Gregory be informed that he must meet other requirements of the Board.

(Unanimous vote)

Gerald Hogate Roberts — a graduate of Leeds, England, 1946 — L.D.S., and a graduate of University of Toronto, 1947 — D.D.S.

In the case of Gerald Hogate Roberts that he be granted his licence when he has fulfilled all the requirements of the Board, and that the citizenship by-law be waived.

(Unanimous vote)

Donald Paul Hult, D.D.S., M.Sc.D.: For Registration:

THAT Donald Paul Hult be raised two marks in Preventive Dentistry and after having met all the necessary requirements, that his registration be granted.

APPLICATIONS FOR CERTIFICATION AS SPECIALISTS

Motions adopted:

David John Eric Mithell, D.D.S., M.Sc.D.

THAT David John Eric Mitchell, having met the requirements of this Board, be granted a Specialist's Certificate in Orthodontics.

Thomas Charles Tim Turner, B.A., D.D.S., M.Sc.D.

THAT when Thomas Charles Tim Turner has met the requirement of this Board, that he be granted a Specialist's Certificate in Orthodontics.

Gordon Nikiforuk, D.D.S., M.Sc.

THAT application of Gordon Nikiforuk for certification as a specialist in Paedodontics be granted when all credentials are submitted.

Samuel David Brigel, D.D.S.

THAT Samuel David Brigel be granted a Specialist's Certificate in Oral Surgery when the requirements of this Board are met and when the fee requirements are fulfilled.

Bert Jeremiah Levin, D.D.S., M.Sc.D.

In the case of Bert Jeremiah Levin, D.D.S., M.Sc.D., having met all the requirements of this Board, that he be granted his certification as a specialist in Orthodontics.

William Franklin Riches, D.D.S.

THAT William Franklin Riches, D.D.S., having met all the requirements of this Board, be granted his certification as

a specialist in Oral Surgery; such certificate to be effective when he notifies the Registrar-Secretary that he be prepared to limit his practice.

Mervyn Michael Samuels, D.D.S.

THAT Mervyn Michael Samuels, on his satisfactory completion of his internship and when he has met the requirements of this Board, he be granted his certification as a specialist in Oral Surgery.

Howard Walter Shanks, D.D.S., M.Sc.D.

THAT Doctor H. W. Shanks be granted his certification in Orthodontics having met all the requirements of this Board.

Malcolm Yasny, D.D.S., M.Sc.D.

THAT in the case of Malcolm Yasny, the Board is unable to conclude that sufficient time has been spent in the practice of dentistry (general or specialty) to grant certification at this time. That we will consider a subsequent application when these requirements have been met.

PETITIONS

Motions adopted:

Homer E. McIntosh, D.D.S. — now attending a post-graduate course at Washington, U.S.A. In a letter Dr. McIntosh made inquiry respecting the content of his course.

THAT in case of Homer McIntosh, the Board appreciates the progress reports submitted of his course and suggests to the Chairman of the Committee on Examinations and Petitions to acknowledge such and make such recommendation as he thinks might assist balancing the required standing.

Howard Young — a student in the final year of the dental course at University of Buffalo.

THAT in the case of Howard Young, following the completion of his undergraduate studies successfully and his declaration of intention to become a Canadian Citizen, that he be allowed to sit for Board Examinations.

Aina Ilona Birnbaum, D.D.S. — a graduate of Tufts College Dental School and not a Canadian citizen.

THAT in the case of Aina Ilona Birnbaum, when she has met the requirements of this Board and when she has signified her intention of becoming a Canadian Citizen, that Section 1 (a) By-law 8 be waived and that she be accepted for examination. (Unanimous vote.)

REPORT OF THE DISCIPLINE COMMITTEE

Mr. President and Members of the Board:

1. We beg to report that complaints of varied type have arrived at this office to the number of twenty-nine since our last Board Meeting.
2. We are fairly well satisfied that with two or three exceptions our Secretary, with limited advice, has accomplished satisfactory solution.
3. We are submitting for your information and advice one such complaint.
4. On the whole we feel that the large percentage of our dentists are to the best of their ability providing ethical service to our people.
5. During the year, the Board has found it necessary to take disciplinary action against several members of the College. It is regretful that such action becomes necessary.

6. We would remind the Board for future Committee personnel that it is not essential that the Chairman of the Discipline Committee should be a resident of Toronto.

Respectfully submitted,

R. P. LOWERY,
Chairman, Discipline Committee.

Motion adopted:

THAT the Report of the Discipline Committee be received and adopted.

REPORT OF THE INSPECTOR

Mr. President and Members of the Board, R.C.D.S.

Gentlemen:

I have the honour to submit the following investigations and prosecutions from April 30, 1954 to April 30, 1955:

1. **Bain, Donald B.**, 172 Gough Avenue, Toronto, (dental technician), practising dentistry. This person was charged with possession and that of practising dentistry. He pleaded guilty and was fined \$100.00 and costs.
2. **Borus, Sydney**, 2460 Orchard Avenue, Stamford, (a European dentist). This person was charged with possession of equipment. He pleaded guilty and was fined ... \$85.00 and costs.
3. **Cassels, Sydney**, 806A Bloor Street, West, Toronto, (dental technician). He was charged with the possession of equipment. He pleaded guilty and was fined \$100.00 and costs.
4. **Graham, Rex Stanley**, 806A Bloor Street, West, Toronto, (dental technician). He was charged with the second offence of practising dentistry. He pleaded guilty and was fined \$200.00 and costs.
5. **Matulionus Anicita**, 121 Beatrice Street, Toronto (European dentist). She was charged with possession of equipment. She pleaded guilty and was fined \$100.00 and costs.
6. **Vandervale, Walter P.**, 144 MacDonald Avenue, Belleville, (dental technician). This person was charged with possession of equipment. He pleaded guilty and was fined \$100.00 and costs.

A considerable number of complaints are under investigation at the present time.

Respectfully submitted,

Inspector.

Motion adopted:

THAT the Report of the Inspector be received and adopted.

REPORT OF THE DEAN FACULTY OF DENTISTRY UNIVERSITY OF TORONTO

At Fall Meeting

To the Board of Directors,
Royal College of Dental Surgeons of Ontario.
Mr. President and Members of the Board:

Registration — for the 1954-55 Session is given in detail:

Predental Year	77	} average 77.5 per class
First Dental Year	75	
Second Dental Year	86	
Third Dental Year	70	
Fourth Dental Year	79	
Dental Nursing	22	
Dental Hygiene		
First Year	9	
Second Year	8	
Bachelor of Science in Dentistry	3	
Diploma Courses	8	
Occasional Students (graduate)	1	
Occasional Students (undergraduate)	3	
In addition, 11 students are registered in the School of Graduate Studies proceeding to the degree of Master of Science in Dentistry	11	
	452	

The overall total of 452 compares with 437 (1953-54); 426 (1952-53) and 427 (1951-52). The question of the need for an active programme of student recruitment has been raised in various quarters during the past year or two. The number of applications received by this Faculty has remained reasonably satisfactory during the past five years as shown by the following figures:

Applications submitted supported by at least the minimum requirements

Session	For Predental Year	For First Dental Year	Total
1950-51	137 (60 accepted)	102 (24 accepted)	239
1951-52	149 (80 ")	81 (11 ")	230
1952-53	133 (74 ")	75 (11 ")	208
1953-54	145 (81 ")	56 (20 ")	201
1954-55	134 (81 ")	53 (17 ")	187

While the total number of applications received by this Faculty is still considerably in excess of the places available for incoming students, we agree whole-heartedly with the observation made by the Council of Dental Education in its report to the 1954 meeting of the Board of Governors of the C.D.A. urging consideration of "the desirability of the dental legal bodies in Canada joining in a general plan of recruitment of students. It is felt that perhaps the time has arrived when the licence boards could make an important contribution in attracting worth while candidates to dentistry."

Dental Hygiene

Applications were received from 12 candidates, distributed as follows:

Ontario 6; Saskatchewan 3; Alberta 1; New Brunswick 1; Manitoba 1.
All were accepted but by registration day 3 had withdrawn, leaving the present first year class with 9 students enrolled.

Since the establishment of this course in Session 1951-52, the registration in the first dental hygiene year, by province, is as follows:

1st Year Registration	Total	Ont.	Sask.	Alta.	N. S.	N. B.
1951-52	6	4	2	0	0	0
1952-53	7	3	3	1	0	0
1953-54	9	4	4	0	1	0
1954-55	9	6	2	0	0	1

The curriculum for the dental hygiene course is now about stabilized. As some of these young women after graduation, may accept assignments as educators in the dental health field, arrangements are being made to provide some teaching practice in the elementary schools during the second year of the course.

Questions are being raised continually regarding special preparation for dental hygienists who, upon graduation, seek employment in public health fields. In the minds of some persons it may appear desirable to introduce elective subjects in the final stages of the undergraduate course for those who are preparing for service in private practice and those who will engage in public health service. The faculty believes firmly in the policy of maintaining one good well-balanced course in dental hygiene, and of resisting the introduction of specialization in any undergraduate curriculum.

A serious matter of policy arises relative to the training of dental hygienists to make an examination of the oral cavity and chart the findings. With both the private practice needs and public health service in mind, it would appear realistic to adopt the policy that these students should be given instruction in the mechanical process of the routine aspects of oral examination and impressed with their limitations in this field. They should understand that diagnosis and treatment planning are beyond the scope of their education and jurisdiction in practice. An expression of opinion from this Board on this controversial matter would be appreciated.

Staff

We are pleased to report the following promotions: Dr. G. T. Mitton from Associate Professor of Dental Public Health to Professor; Dr. J. E. Moser from Associate Professor of Dental Radiology to Professor; Dr. S. A. MacGregor from Assistant Professor to Associate Professor and Head of the Department of Paedodontics; Drs. T. N. Scott and R. L. Twible from Associates in Dentistry to Assistant Professors.

Miss Phyllis Smith succeeded Miss E. Bradley as Assistant Librarian.

New appointments as Demonstrators have been accepted by the following: Drs. C. D. Beierl, K. W. Davey, P. A. Scott and T. Van de Mark. Dr. Ian Wilson has joined the staff as a Clinical Instructor. Assistants in the Dental Radiology include, Drs. L. Mendels, H. Sorenson and G. E. Sparrow. Miss B. E. Quinn was appointed on a half time basis, to assist Miss Hebert, Supervisor in Dental Hygiene, and to receive training in this field.

Honours to Staff Members

We record with pleasure Dr. A. Antoni's election to membership in the Chalmers Lyons Academy of Oral Surgery; Dr. P. G. Anderson's election as President of the Canadian Dental Association; Dr. J. H. Johnson's election as President of the Canadian Society of Oral Surgeons.

The American College of Dentists conferred a Fellowship on Dr. J. G. Perkin at their annual convocation recently in Miami.

Courses attended

With partial assistance from the Faculty, the following staff members attended courses during the summer months: Miss D. F. J. Berry a postgraduate course in Nutrition, at Syracuse University, June 21 — July 3; Dr. J. R. Fletcher a course in Dental Materials, at

The Faculty is pleased to continue its association with the Dental course in Anaesthesiology at the University of Illinois, September 1—3. the University of Michigan, September 13—18; Dr. R. E. Diprose a Public Health Committee of the Ontario Dental Association in providing Seminars to the Ontario Dental Societies. The first of these during the current session was held in Peterborough on October 8 and 9, with Drs. E. Johns and Marjorie Jackson as clinicians. The second took place in Welland on November 10 and 11. Drs. G. W. Johnston and Marjorie Jackson developed the theme of "Better Dental Care for the Child Patient". Several more are planned for the remainder of the session.

The new Dental Building

At the annual meeting in May, I reported a little progress in our quest for a new building for dental education. At this time there is little further to add. Throughout the summer months a great deal of discussion took place behind the scenes. On August 2 and 3 two fine articles appeared in the *Globe and Mail* (Toronto) entitled "Canada suffers a famine of dentists" and "Ontario losing ground". A further editorial appeared also on the morning of August 3. In the near future further publicity will be sought in an endeavour to make the dental profession's position quite clear in relation to the shortage of dentists. We deeply appreciate the backing of the dental profession in this project. Representatives from this Board, the Board of the Ontario Dental Association and the Dental Alumni Association have met on several occasions during the past year, and their efforts may yet be crowned with success.

All of which is respectfully submitted.

ROY G. ELLIS,

Dean.

Motion adopted:

THAT the Report of the Dean of the Faculty of Dentistry, University of Toronto, be approved.

REPORT OF THE DEAN

At the Annual Meeting

Mr. President and Members of the Board:

The academic year which is drawing to a close has not been without incident. It has been an active year for all departments. We lost through death two loyal, highly respected colleagues, during the early part of the spring term. The very sudden passing of Doctor T. N. Scott, on December 29th, removed from our ranks an able, effective, understanding teacher in the prosthetic department. Tom Scott had been on the staff for twenty-seven years, during which time he had been a continuous student, teacher and friend of the undergraduates and staff. He knew when a word of encouragement might be most helpful to a student, and was not slow to offer such help. The equally sudden death of Doctor John E. Moser, on January 29th, left a grievous gap in the staff of the radiology department. Jack Moser joined the staff fairly recently after training at the University of California for the post he filled with distinction at the time of his death. He was very active in his special field, stimulating the students in the Faculty, and graduates in the Radiodontic Study Club to strive to provide better radiological service.

During the year illness curtailed the activities of Doctor W. M. Twible, Doctor G. C. Cameron, and recently Doctor G. V. Morton.

Faculty Council Resolutions

Several matters of general concern to the dental profession have been given consideration at recent meetings of the Faculty Council.

A special meeting of the Council was held on March 28, 1955, "to

discuss the question of fluoridation of water supplies and to determine the Faculty policy regarding it". After a lengthy debate and the presentation of much factual data the following resolution was adopted on a vote of 33 in favour, and 6 opposed.

"Resolution:

WHEREAS, This Council has reviewed the evidence relative to the effectiveness of fluoridation as a measure for the partial prevention of dental caries, and the evidence relative to the safety of this procedure; and

WHEREAS, This Council recognizes the value of continuing studies relative to fluoridation.

BE IT RESOLVED THAT This Council endorses the principle of communal water fluoridation as a scientifically sound public health procedure."

The subject of hypnosis came under review by the Council on April 4, 1955, at which time the following resolution was adopted.

"Resolution

WHEREAS, in the opinion of this Council the present body of scientific knowledge in the use of Psychosomatic Relaxation (Hypnosis) in the dental field is very limited and incomplete; and

WHEREAS, its introduction now into dental education is not deemed to be in the best interests of the dental profession and the public;

BE IT RESOLVED THAT until further knowledge is available, this Faculty refrain from teaching it in any part of the curriculum including the undergraduate courses; the graduate, postgraduate and continuation courses; and the extramural lectures to dental societies; and that a copy of this resolution be forwarded to the Royal College of Dental Surgeons of Ontario."

Preventive Dentistry

The Survey Team of the Canadian Dental Association in its January, 1954 report respecting the Faculty of Dentistry, University of Toronto, stated that, "Much has been done in preventive dentistry at Toronto, and the school is showing the way in this important field. There is however, a real need for more co-ordinated effort"

Even before the Survey Team made its 1954 study, Doctor J. Kreutzer, Professor of Preventive Dentistry, had started to review with all departments concerned ways and means of co-ordinating the many facets of instruction given, which related to prevention. We remember with pride the leadership given by the late Dean Wallace Secombe in establishing this Department, many years ago, perhaps the first of its kind in a dental school. The objective of the present study grew out of the recognition that preventive dentistry concerns many departments and to be most effective requires the careful integration of its many ramifications into one well-rounded course. In Appendix A to this report will be found a synopsis of the course which will become effective in session 1955-56.

Research

Evidence of great activity in the Division of Dental Research is abundant. At the Thirty-third Annual Meeting, the International Association of Dental Research, in March, six excellent papers were presented, emanating from the projects under investigation in this Faculty.

In the reports which I have made during the past three of four years, under the heading of Research, I have referred to our many problems and needs. I have also recorded the efforts of the Faculty

to improve the personnel situation, accommodation for research and financial assistance available for the support of the Division of Dental Research. It makes rather interesting reading to review these paragraphs in the proceedings of this Board. The important fact to-day is that the Division is producing results, not alone in the papers which are presented at meetings such as the International Association of Dental Research, but in enhancing the reputation of the Faculty. As is stated elsewhere in this report the President of the University has expressed the need for a new building to accommodate more students and "to allow for an extended research programme".

Admission requirements

Commencing with session 1955-56, the minimum requirements for admission to any undergraduate degree course in the University of Toronto will be Ontario Grade XIII certificates (or their equivalent) showing standing, with an average of at least Third Class Honours (60%), in at least nine papers which must include English and a second language. The selection of subjects must include either Latin or Mathematics (two papers) and standing in both papers of a language subject will be required. This general regulation does not alter the choice of subjects for admission to dentistry, but the 60% average in the nine papers will apply to all applicants.

A slight change in the admission of students to the First Dental Year will affect Ontario students. In the past, Ontario students were required to complete the Predental Year at Toronto, or obtain a B.A. degree if they entered through another Ontario University. The amendment to the regulation permits Ontario students in the future to apply after successful completion of the equivalent of the Predental Year in another Ontario university. In effect, the final admission of all students to the dental course will be delayed a year, namely until after completion of the Predental Year at Toronto, or its equivalent. It is to be noted that the candidates who successfully complete the Predental year at Toronto will not be automatically admitted to the First Dental Year.

The term 'Predental Year' is considered to be misleading in this new context, and therefore has been changed to 'Preprofessional Year' (leading to admission to dentistry). The regulations governing the examinations in the preprofessional year will be those which apply to the first year of the General Arts Course, rather than those of this Faculty. Candidates who pass the preprofessional year, but who are not admitted to the First Dental Year, will receive credit for one year of study toward the B.A. degree.

Notice has been given in the Calendar for 1955-56 that "Commencing with session 1956-57 an applicant for admission to the Course in Dental Nursing will be required to present certificates for at least nine papers of Ontario Grade XIII, which must include English (two papers) and a language other than English (two papers). The present typing requirement will not be required.

Admission to the Course in Dental Hygiene will not be affected by the new general regulations governing admission to the **degree** courses.

Dental Alumni—Faculty Day

On the evening of Friday, October 14, 1955, the Dental Alumni Association will hold its Annual Dinner Meeting and Dance. The Faculty and the Alumni Association will provide a one-day programme for the alumni members during the day. The tentative arrangements include one paper in the morning followed by an informal visit and tour of the dental building. After luncheon two speakers will be provided.

This joint Dental Alumni—Faculty Day is being sponsored to further the excellent relationships enjoyed by the Faculty with the Dental Alumni Association. It is hoped that this may become an annual function as an integral part of the Varsity Homecoming Weekend.

Graduate and Diploma Course

At the annual meeting one year ago I reported on changes in the specialty training courses which would become effective on July 1, 1954. Further study of these courses has been made and we submit in Appendix B to this report a summary showing the subjects and hours of instruction devoted to each subject.

It will be noted that a Basic Course (Group I) is common to all. It includes four compulsory subjects and a total of 185 hours of instruction, except in Dental Oral Surgery where the courses are of longer duration. A second group of fundamental subjects, specified for each specialty field, is listed as Basic Course (Group II).

The percentage of the hours devoted to the Basic Courses (Groups I and II) to the total hours in each case is approximately the same — as follows:

(a) Orthodontics	13.9%
(b) Paedodontics	15.9%
(c) Periodontics	17.2%
(d) Dental Oral Surgery	15.6%

Refresher Courses for Graduates

Registration for the series of Continuation Courses offered during the session has given cause for concern. Three courses had to be cancelled because of insufficient registration. It is difficult to determine the reason for this falling off unless it is because of the increase in the tuition fee from \$75.00 to \$100.00 for the five-day courses. The evident lack of interest in some of these courses has led the committee to revise the list to be offered in session 1955-56.

During the session thirty-six extramural lectures have been arranged for county societies with approximately 1400 members of the profession in attendance. In co-operation with the Dental Public Health Committee of the Ontario Dental Association, five (5) two-day dental seminars were held with an average of seventeen (17) members of the profession in attendance at each seminar. The distribution of these seminars was as follows: Peterborough, Welland, Sault Ste. Marie, North Bay and Belleville. These seminars are an important extension of the extramural service, and it is hoped that they will become a permanent adjunct to the programme for graduates. An application for a government grant to support six (6) seminars has been submitted for session 1955-56. The Public Health Grant is available only on an annual basis and only for assistance with seminars pertaining to the broad field of dentistry for children. Numerous requests have been received for seminars in other fields. It would appear wise to consider ways and means of extending these seminars to include a wider range of subjects. Their value has been proven during the past two years.

Scholarships and Awards

We are happy to report once again the establishment of several new scholarships and awards during session 1954-55.

The offer of \$250.00 annually from a very generous anonymous donor established the "Oral Anatomy Scholarship" to be awarded student "who having ranked among the first ten in the subject of Oral Anatomy in the first Dental Year, ranks highest in First Class Honours in that subject in the Fourth Dental Year". The basis of award in the final year relates primarily to "Applied Oral Anatomy".

Dr. Gordon S. Murray has generously provided \$50.00 for a Bur-

sary which is available to a student in any of the four professional years.

The International College of Dentists (Canadian Section) has offered to establish a Scholarship in the amount of \$100.00 in each of the five Canadian dental schools. The award in this Faculty will be made to "a student who successfully completes the Third Year on the basis of academic proficiency, character, participation in extra-curricular activity and athletics".

The same anonymous donor whose generous gift made possible the establishment of the Oral Anatomy Scholarship, donated \$400. to establish a General Student Loan Fund in the Faculty.

The staff and students are deeply grateful to these donors for these various awards. Besides the direct benefit which will accrue to the successful students, these contributions indicate a continuing interest in the work of this Faculty, and indirectly act as a stimulus to staff and students.

Dental Building

The members of the Board probably noticed that the Provincial Treasurer included in his budget in March a further grant of a million dollars "to the University of Toronto for a new dental building". Since I last reported, there has been considerable activity on the part of the University with respect to the site of the new building. It is stimulating to read in the University President's Report for the year ending June 1954, "In the Faculty of Dentistry a new building is being provided in order to increase the number of students that can be accommodated and to allow for an extended research programme."

Staff Notes

On June 30, 1955, Doctor Harold K. Box will retire from active membership on the staff. Since graduation in 1914 Doctor Box has been a member of the staff continuously. During the forty-one years of loyal service to the Royal College of Dental Surgeons and the Faculty, Doctor Box has established for himself an international reputation, and for this dental school renown in the field of Periodontology.

With a long list of publications already to his credit, Doctor Box plans to finish several projects during the next few years. The staff and his colleagues await with interest his new book which is due to be released shortly.

The numerous honours and distinctions which he has received have been richly deserved. We wish for Doctor and Mrs. Box many years of continuing health and happiness.

Doctor A. A. Antoni successfully passed the examinations of the American Board of Oral Surgery in Chicago in April and is now a licensed Diplomate of that Board. He is, at present, the only Diplomate of the American Board of Oral Surgery practising in Canada. Our congratulations are extended to him on the attainment of this high distinction.

Doctor G. C. Hare was elected Vice-President of the American Association of Endodontics at its meeting in Chicago in February.

I was invited to serve as Consultant to the Council on Dental Education of the American Dental Association.

Doctor Gordon W. Johnston was the recipient of the Thomas P. Hinman Medal at the mid-winter meeting of the Society in Atlanta, Georgia.

Acknowledgments

The Ladies' Auxiliary to the Academy of Dentistry has contributed a further amount of \$854.31 to the Auxiliary's fund set up "to provide service for needy children with dental abnormalities". This assistance is herewith gratefully acknowledged.

The Dental Alumni Association has actively supported the students in many ways during the year. Again we express our appreciation to the Alumni Association.

The continued and enthusiastic support and co-operation of the Registrar-Secretary and the members of this Board are greatly appreciated.

All of which is respectfully submitted.

ROY G. ELLIS,
Dean.

PROPOSED COURSE — PREVENTIVE DENTISTRY

First Dental Year

1. INTRODUCTION TO PREVENTIVE DENTISTRY*
 - (a) Nature and Scope
 - (b) Course Content
J. Kreutzer 1 Lecture
2. GROWTH*
 - (a) Embryology
J. K. J. Paynter 4 Lectures
 - (b) Physical Growth and Development of the Child
G. Nikiforuk 5 Lectures
 - (c) Cranio-Facial Growth
M. Culbert 5 Lectures
 - (d) Cranio-Facial Growth — Musculature
and Physiology
H. Jenkins 5 Lectures

TOTAL — 20 Lectures

* The above lectures to be given towards the end of the First Dental Year, after completion of the course in History and Dental Anatomy.

Second Dental Year

3. NUTRITION
Lectures by Miss Berry
TOTAL — 14 Lectures

Third Dental Year

3. NUTRITION (Continued)
 - Miss Berry 5 Lectures
 - Clinical Nutrition
J. Kreutzer 3 Lectures
4. Heredity, Genes and Enzymes
 - G. Nikiforuk 1 Lecture
 - Composition of Dental and Supporting Tissues
G. Nikiforuk 1 Lecture
 - Physical Properties of Teeth
G. Nikiforuk 1 Lecture
 - Chemical Biogenesis of the Calcifying Tissues
G. Nikiforuk 2 Lectures
 - Composition and Properties of Saliva
G. Nikiforuk 2 Lectures
5. DENTAL CARIES
 - (a) Historical Review
J. Kreutzer 1 Lecture
 - (b) Bacteriology of Dental Caries
J. B. Macdonald 2 Lectures
 - (c) Histo-Pathology of Dental Caries
H. A. Hunter 1 Lecture
 - (d) Biochemical Aspects of Dental Caries
 - (1) Glycolysis
 - (2) Caries Activity Tests

G. Nikiforuk	2 Lectures
(e) Prevention of Dental Caries	
(1) Interference in Bacterial Metabolism	
G. Nikiforuk	1 Lecture
(2) Restriction of Cariogenic Substrate	
J. Kreutzer	1 Lecture
(3) Increasing the Resistance of Teeth	
(a) Metabolism of Fluoride	
(b) Fluorides in Relation to	
Dental Health	
M. A. Cox	3 Lectures
(f) Epidemiology of Dental Caries	
R. Grainger	1 Lecture
6. PERIODONTAL DISEASE	
Bacteriological Aspects	
J. B. Macdonald	3 Lectures
TOTAL —	30 Lectures

Fourth Dental Year

7. PREVENTIVE ASPECTS OF PERIODONTICS	
(a) Epidemiology of Periodontal Disease	
W. G. McIntosh	1 Lecture
(b) Early Signs, Diagnosis and Corrective	
Treatment	
W. G. McIntosh	1 Lecture
(c) Relationship of Physical Consistency of the	
Diet and Nutrition to Periodontal Health	
C. H. M. Williams	2 Lectures
(d) Oral Hygiene	
C. H. M. Williams	1 Lecture
8. PREVENTIVE ASPECTS OF OPERATIVE	
DENTISTRY	
(a) Review of Dental Anatomy	
K. J. Paynter	1 Lecture
(b) Clinical Operative Dentistry as a Pre-	
ventive Procedure, X-Rays, Pulp Protec-	
tion, Open Contacts, etc.	
J. Kreutzer	1 Lecture
9. PREVENTIVE ASPECTS OF ORTHODONTICS	
H. Jenkins	1 Lecture
10. PREVENTIVE ASPECTS OF PAEDODONTICS	
M. Jackson	1 Lecture
11. Brief Progress Reports on Research Projects	
at the Faculty.	
1 Lecture by Staff of the Division of Dental	
Research	1 Lecture
TOTAL —	10 Lectures

SUMMARY

First Dental Year	—	20 Lectures
Second Dental Year	—	14 Lectures
Third Dental Year	—	30 Lectures
Fourth Dental Year	—	10 Lectures
TOTAL	—	74 Lectures

Motions adopted:

THAT the Secretary be instructed to communicate with those responsible this Board's satisfaction with changed regulations re admissions to the course in Dentistry.

THAT the amount of the J. B. Willmott Scholarship Grant remain the same and that it be divided between two (2) years.

THAT the Secretary be asked to write a letter to Doctor Harold Keith Box, expressing our appreciation of his many years of loyal service to the Royal College of Dental Surgeons of Ontario and the Faculty. His ability has established for himself an international reputation and renown for our dental school in the field of Periodontology His numerous honours and distinctions have been richly deserved.

THAT the Report of the Dean of the Faculty of Dentistry, University of Toronto, be adopted.

REPORT OF THE LIBRARIAN

Mr. President and Members of the Board:

It is a privilege to again present the Annual Report of the Harry R. Abbott Memorial Library and the Library of the Faculty of Dentistry, University of Toronto.

During the year, there were 152 acquisitions of new books and 8 new journal subscriptions were instituted, bringing the total number of our journals to 120 subscriptions and 39 donations. As of date of report, there are 70 orders still outstanding which cannot be ordered until the start of the next fiscal year on July 1, 1955, due to the fact that our appropriation for this year has been exhausted for some time. However, there is hope that our University budget may be increased next year. The delivery has been particularly slow this year because it was necessary to move the University collection in the Main Library into the new wing, with several staff changes aggravating the situation.

Comparative circulation figures for the current year are appended hereto. Out-of-town borrowing increased, with 213 items being mailed to 92 borrowers. There were also 30 inter-library loans as compared with 6 the previous year. Although the total out-going circulation was less than last year, the reading room circulation increased to 1500. It is gratifying to note that the reading room is enjoying increased use by both graduates and undergraduates, and in the case of the latter it is only lack of time in a very overloaded curriculum that limits much more extensive use of the Library.

Books and Journals were received from 19 Universities in the United States, and from the British Dental Association, Beirut in Lebanon, Vellore in India and San Juan, Puerto Rico. Our own Exchange list of the Medical Library Association mailed out in April from the Dental Library offered 96 journal titles and 142 books.

We are grateful to Colonel R. J. Benford of the United States Armed Forces for helping us to complete our file of the U.S. Armed Forces Medical Journal, and to Doctor A. Porter S. Sweet of the Eastman Kodak Company who has so generously supplied us with all of our missing copies of Dental Radiography and Photography. We are also indebted to the Library of the University of Pennsylvania for supplying us with several parcels of the Penn Dental Journal, which we lacked. Donations of books and periodicals are also gratefully acknowledged from Doctor Harold J. Fahey, Doctor G. C. Cameron, Doctor J. E. Tilson, Doctor W. J. McEwan, Doctor J. F. Reynolds, and Mrs. E. A. Peaker, as well as many from Faculty members. Such donations are always appreciated, and the interest of such donors augurs well for the future of the Library.

We are especially grateful to Miss Elaine Patterson of Paris, Ontario, who has donated the Licentiate certificate of her grandfather, dated 1869, to our Museum, as well as a very early type of foot engine and an early Archer chair. The chair is in an excellent state of preservation. Miss Patterson's grandfather began practice in 1859 and we are deeply indebted to her for donating items of such sentimental and familiar significance to our Museum.

A booklist of the acquisitions covering the period from 1948 to 1955 is nearing completion and should be ready for distribution during the coming summer, and will fill a very real need. The Library now has also over 300 biographies of outstanding Canadian dentists, along with approximately 25 American biographies. These biographies have been in heavy demand during the past year, and it is hoped in the years to come to make this file as nearly complete as possible.

The Library Committee has recommended that the Abbott fund be devoted to the rebinding of such items in the Abbott collection as

require it until such time as the collection has been brought into a satisfactory state. In this connection it was a disappointment to the Committee to learn on April 26th that there was only \$1.21 in this fund instead of \$168.50 that had been previously reported to us as being in the Harry R. Abbott fund. This discrepancy was due to a clerical error in the University offices wherein an account submitted for payment the first of July last year had not been charged to the correct source. Your Library Committee again calls attention to the difficulty that has always existed in securing detailed information as to the exact expenditure of this fund, and bespeaks your suggestions and guidance as to how this matter may be improved.

I must further regretfully report that a practising dentist in Ontario has for many months ignored all requests to return three books which he has borrowed from the Library and has retained for 19 months. The requests have been in the nature of telephone calls, letters from the Librarian, and from the Dean. Since one of the books is from the Abbott collection, the Library Committee would appreciate your guidance as to what action should be taken. In the interim, the Committee has refused the use of the Library to this practitioner.

Two of the oil paintings, the Property of the Board, are showing disturbing signs of deterioration, and we have had competent advice that the canvas in both the Seccombe and Abbott portraits is sticking to the glass. We are presently awaiting a written statement from an expert in painting rehabilitation advising us as to the cost of repair. Again, we invite your direction as to what procedure should be followed. The situation appears to be urgent, and getting worse.

The possibility of a new dental building with its accompanying Library and Museum continues to occupy our attention. In view of the more hopeful developments of recent date, your Committee respectfully suggests that consideration should be given to providing ways and means of surveying recently built Libraries and Museums before finalizing any plans for a new building.

The co-operation and assistance received from Mr. Blackburn, the University Librarian, is gratefully acknowledged, as is the loyal support of our own Library Committee. During the year, we had the misfortune to lose Miss Bradley after many years of valued service. Her position has been taken by Miss Phyllis Smith who is doing an exemplary job as her successor.

This report is respectfully submitted with the recommendation that the customary grant be continued for the ensuing year.

J. H. JOHNSON,
Librarian

CIRCULATION — MAY 1, 1954 — APRIL 30, 1955

— and the previous 4 years by comparison —

Years	Faculty	Students	Graduates	Periodicals	Total
1950-51	605	9286	885	3201	13,977

Motions adopted:

THAT the Report of the Librarian be received and adopted.

THAT Doctor J. H. Johnson be reappointed as Librarian.

THAT the Secretary and President be authorized to proceed with restoration of the oil paintings if the estimate proves to be satisfactory.

THAT a letter over the signature of the President of the Board of the Royal College of Dental Surgeons of Ontario be forwarded to Doctor requesting their property of the Abbott Library be returned immediately.

REPORT OF REPRESENTATIVE TO THE WORKMEN'S COMPENSATION BOARD

Mr. President and Members of the Board:

Your appointed consultant to the Workmen's Compensation Board of Ontario desires to report on his work for the year ending April 30, 1955. During the period under review some 80 claims have been referred for perusal and written opinion. There have probably been as many more telephone consultations with the Board appraisers, all of which indicates the increasing scope of the service and the close contact your representative maintains with the Board's Medical Aid Department. Communications have been cordial at all times and a desire to be fair to all concerned has been the prime consideration in every discussion.

Members of the profession who take compensation patients, and most of them do, are generally quite co-operative; difficult situations are really quite the exception. However looking back over the year there are perhaps three observations that could be made that would expedite settlements.

The first has to do with the reports sent to the Board by many dentists. Too often these reports are very inadequate and frequently useless to properly appraise the needed dental care of the Compensation patient resulting from accidental injury. The Board pays for this original "examination and report", and from many reports I have seen I would not blame them for discontinuing the arrangement unless better reports are forthcoming. The Board report forms specifically set out the nature of the information required which is essential for intelligent appraisal of the Board's responsibility. Carelessly prepared reports obviously reflect on the standing of the dentist submitting them and delays authorization of legitimate claims.

A second observation has to do with the prescription of treatment submitted. The Workmen's Compensation Board will pay for dental services made necessary by an accidental injury but will disallow all other unrelated services. Services included that have no connection with the accident but have quite obviously been neglected by the patient only delay settlement of the claim. The Board wants to be fair with every injured workman and if the examining dentist would take this fair attitude in appraising the needed dental care resulting from an accident and no more, the settlement of claims would be just as generous if not more so and authorizations would readily be given.

The third observation is that dental radiographs when taken should accompany the report as a record of conditions following the accident. This is seldom done without a special request to do so. Your representative has suggested to the Board that they insist on x-ray films being taken of mouth areas where injuries have occurred but they have not seen fit to do so. Perhaps they feel that when the dentist is free to do what he so desires, he should know when the use of x-ray is indicated. The point being, that the dental radiograph is a valuable record for reference on file and its inclusion in the dentist's report does expedite appraisal and settlement of the claim.

During the past twelve months there have been increasing requests for authorization of root canal therapy. The treatment is usually allowed for anterior teeth when modern therapy is employed and the dentist agrees to submit an x-ray film showing complete canal

obliteration at the conclusion of the treatment. The fee allowance of \$25.00 for this service seems to meet with pretty general acceptance.

In the past year two other matters have come up for discussion which are of more than usual importance in principle.

The first has to do with the case of a young man, age 18. This claimant had a traumatic injury involving the four upper incisor teeth, causing loss of vitality and fracture of the crowns in 1943. A well known Toronto dentist of good report elected to perform root canal therapy and restore the crowns with a three-quarter crown and silicate facing restoration. The claimant had three of the crown restorations changed to plastic crowns by a Kingston dentist in 1949 at his own expense. A third dentist in Western Canada advised four new acrylic crowns in 1954 because there was evidence of caries involving one or more teeth and because of gingival irritation.

The case was referred in consultation resulting in an exchange of correspondence as well as telephone discussions. Your representative contended the claimant was entitled to some further compensation and estimated the figure to be 50% of the cost on the following basis:—

This man had an injury to four of his maxillary incisors which was severe and permanent in its effect. As a result of this injury the teeth were more vulnerable to dental disease and therefore subject to more rapid deterioration than normal. Premature loss could be expected. In reviewing the case as a dentist, I asked myself — Suppose my son age 18 had such an injury, would I be satisfied with a settlement that provided only immediate necessary treatment? Submission was made that the claimant was entitled some allowance to cover future needs that could be shown directly related to the accident. It was pointed out that this was a common practice in negotiating settlements with private insurance companies. As the Workmen's Compensation Board allow on the basis of paying actual costs of needed services to restore the claimants teeth as nearly as possible to conditions prior to the accident, your consultant made a plea on behalf of the claimant for a further allowance of 50% of the cost of presently needed service realizing eleven years had elapsed and specifying this allowance would be the final settlement in the case. The submission was disallowed on the basis that permanent dental restorations were supplied in the first instance.

Another matter that has given your consultant concern has to do with the treatment of jaw fracture cases. It is natural to expect an injured workman to be taken to the hospital and be attended to by a physician or surgeon. A number of jaw fracture cases have been treated by the physician or surgeon and some months later referred to a dentist to give the injured workman something to masticate with. The following is a part of a letter to an appraiser dealing with one such case:

"I have reviewed this claimant's file and once again find a man has had a jaw fracture injury treated by a general surgeon with no collaboration with a dentist. The accident occurred November 18, 1954, and the claimant consulted a dentist on his own on February 11, 1955 —three months after the accident. Now the dentist reports the teeth were "fractured and knocked out in the accident" and that he cannot be sure of the condition of the man's mouth at the time of the accident.

Such cases as the above seem quite common; that is to say, jaw fracture cases are treated by a surgeon and a dentist is confronted months later to do the best he can to restore the patient's ability to masticate.

In the interest of good care of the injured, when a jaw fracture

is encountered, is it not reasonable at least to have a dentist collaborate with the surgeon in treatment at the beginning rather than bring him in at the end of things? Would it be possible for your Board to arrange for a dental consultation whereby a dentist could assist in fracture reduction with a view to optimum intermaxillary occlusal relationship of the teeth and a report of individual tooth injuries incurred in the accident placed on file? I believe this procedure would not only result in more satisfactory treatment but would save your Board money in the end."

The above letter was referred to the assistant medical aid officer, Mr. McCartney, and by him to Doctor Curry, Chairman of the Medical Aid Committee. I have had no communication as to the disposition of the matter at this time.

These matters are brought to your Board's attention for comment and instruction, even possible action. The present good relations with the Compensation Board exist because of co-operation and suggestions for improving dental services. Your appointed consultant desires to keep you informed of important trends in the hope that our profession may continue to improve its services to the Board's injured beneficiary.

In closing may I extend my appreciation of your Board's confidence in entrusting this important work to my care.

Respectfully submitted,

.....D.D.S.
Consultant.

Motions adopted:

THAT the Report of the Representative to the Workmen's Compensation Board be received and adopted.

THAT this Board reappoint Doctor as their consultant to the Workmen's Compensation Board and that a letter of commendation be sent to Doctor in appreciation of his services.

REPORT ON HEALTH INSURANCE STUDIES

(March 28 & 29, 1955)

Mr. President and Members of the Board:

As your representative of the R.C.D.S. Board, attending the sessions of the Dental Health Insurance studies of the Canadian Dental Association, once again I wish to express my appreciation for the opportunity to take part in these discussions.

The topics discussed, and to be considered in the future, are numerous and just as complex as they have been in the past, but slowly and surely the light filters through and the members of the Committee seem more hopeful of eventual accomplishments.

This committee does its best to evaluate the figures compiled by statistically minded groups, so that dentistry may progress. In this regard Doctor R. M. Grainger is our forte.

Considerable time was given to the study of the C.D.A. Survey of Dental Practice, not only as it provides information to the profession and individual dentists, but also by comparison with the survey of 1947 and with the data secured out of the Canadian Sickness Survey. The latter was not intended to be an economic survey, but figures from it are being used for this purpose.

It is well that we have our own information and it was recommended that future surveys be made. It is hoped a larger response will result when the benefits are seen by the C.D.A. members.

Reports were presented for information and study of:

- (1) The intended pre-paid dental plan in New York.
- (2) A post-paid dental plan in Manitoba.

- (3) A plan used by a dentist alone, not organized with other confreres.

Progress of these plans merits future attention.

- (4) For the first time a detailed report was received for the Pensioners' Treatment Services of Alberta. This has been successfully carried on for several years and has reached the stage where, by trial and error, the future can be planned. This information is very important.
- (5) A pilot plan for examination and treatment was outlined and accepted for implementation. The work on this was done by Doctor A. B. Sutherland of Sudbury, Dental Public Health Officer for that city. From this new approach to the problem of dental diseases in children, we hope to secure revealing data.
- (6) British Columbia presented a very well-prepared report, in which it points out the difficulties of a pre-paid plan. It presents some very tangible recommendations:
1. A tremendous increase in public education as to preventive dentistry.
 2. Fluoridation of communal water supplies to decrease the incidence of caries.
 3. Education and encouragement of the dental profession to employ more ancillary personnel.
 4. A great increase in educational facilities to train more dentists and dental ancillary personnel and particularly dental hygienists.
 5. An increase in dental research for all branches of dentistry.

Doctor A. C. Ahren's report for Alberta was thought-provoking. He stressed the value of more research as an aid in combatting dental diseases. He was apprehensive of socialized dentistry. Since his report contained considerable technical information, it was referred to the Committee on Research for the C.D.A.

While we are all concerned about the approach of socialized dentistry in some form, it is reassuring to know that various pilot plans are being carried on, which may aid the Health Insurance Studies Committee to guide us. We, the dentists, must hear the people before they are heard by the governments.

The desire of the profession is to render more dental service to more people. This, of course, is one of the aims of those who advocate socialized dentistry. One question stands out—Who is going to create the patient demand (other than relief of pain and esthetics)? It is a well known fact that there is a very great gap between patient need and patient demand. This is where an active, altruistic profession is needed. By dental education—far in excess of that now in existence—we hope to materially close this gap.

In the Alberta report, it is pointed out that even after treatment has been cleared through the proper authorities, it is often never commenced and in other instances never completed. This shows the need for dental education to make the patient demand more closely conform to patient need, even when treatments are free.

The public will be behind a plan for socialized dentistry because by some it appears to be Utopia (something for nothing) but, if and when this takes place, I fear the gap between the patient demand and the patient need will widen.

As stated in the beginning of this report, the problems of the committee are complex, but continued effort will see them resolved for the greatest good of all.

All of which is respectfully submitted,

M. V. J. KEENAN,
R.C.D.S. Representative.

Motions adopted:

THAT the Executive be authorized to make a study of Dental Welfare Treatment Services with the view of an approach to the Ontario Legislature re institution of a Treatment Service and report to the Board at the Fall Meeting.

THAT the Report of the Health Insurance Studies Committee be received and adopted.

REPORT OF THE REPRESENTATIVE TO THE AMERICAN ASSOCIATION OF DENTAL EXAMINERS

Mr. Chairman and Members of the Board, R.C.D.S.

Gentlemen:

Your representative was privileged to attend the sessions of the seventy-first meeting of the American Association of Dental Examiners, held on November 5th and 6th at Miami.

The President, Doctor A. A. Albert of Pawtucket, Rhode Island, in his Presidential address, drew the attention of the members to the desirability and the necessity of closer co-operation between state examining boards and the dental schools, a subject that had been brought up at previous meetings. As I have mentioned in the Report of Examinations and Petitions, the intimate association of this Board with the Faculty of Dentistry, University of Toronto, and the mutual understanding of each others problems is a reality which does not exist between most State Boards and Schools of Dentistry in the U.S.A.

The President expressed the opinion that it would facilitate the work of the State Examining Boards and result in fewer failures if poor students were eliminated from dental schools earlier in their courses. He stated that he was strongly in favour of internship for dental graduates and hoped that sometime all graduates of dental schools would be able to spend a period of internship in a hospital or institution before being licensed.

Some consideration, he thought, should be given to the older graduate who presents for licensure examinations and suggested that some form of comprehensive examination be given to such candidates who had not written academic examinations for a long time, especially in the subjects of the basic sciences.

He hoped that more states would accept the certificates of the National Board of Dental Examiners and recommended that all candidates for State Board Examinations for Licence should have passed the National Board Examinations. This appears to us a duplication of effort on the part of candidates because, to our way of thinking, the applicant who has a National Dental Examining Board of Canada Certificate is eligible for registration in any province on payment of of the registration fees.

It was reported that the situation with regard to dental personnel in the U.S.A. was no better than ours and in view of the fact that the profession in the U.S.A. is losing upwards of one thousand dentists a year, it would appear that even with greater facilities for dental education and the larger number of graduates, the ratio of dentist to population was not even being maintained at a satisfactory level.

The financial condition of the Association is relatively satisfactory and the Treasurer reported that the total receipts for the period July 1st, 1953, to July 1st, 1954, were \$4,315.72. The disbursements

for the same period were \$3,385.95, leaving a cash balance of \$929.77. A slight increase in our fees may be expected. It is interesting to note by the Treasurer's report on active membership dues that of the 52 active members there are only 16 state boards with a comparable number of registered practitioners to Ontario.

As reported last year the number of candidates who took the National Board in the U.S.A. had increased, and a further increase was indicated for this year. The total number of candidates to March, 1954, was 3,227 who wrote both Part I and Part II examinations. An estimated total of 4,400 is indicated. The State of Utah, the U.S. Navy and the Territory of Alaska have now recognized the certificate and grades of the National Board of Dental Examiners and the State of Connecticut Dental Commission has announced that one of its conditions for licensure in this State is the passing of the National Board of Dental Examiners examinations. The States of Arizona and New Mexico do not accept the National Board certificate.

There appears to be no question but that one of the results of the National Board of Dental Examiners has been that more uniform methods of examination has been possible and that reciprocity between State Boards has been improved.

In the majority of states, the board examination is of several days duration, during which a good deal of technique work is done by the candidates. Complete denture set-ups and casting of three-quarter veneer crowns on preparations made by the candidates are included in most state examinations. This is a time consuming method and one which, to your representative, involves too much time and valueless effort as there are much better methods of determining a candidates ability to practise. These include tests of knowledge and the application of practice methods not usually delegated to dental technicians.

One whole session was devoted to presentations by various teachers of Crown and Bridge prosthesis on the requirements and preparation of teeth for partial veneer crowns.

A tribute was paid to the memory of the late Vernon L. Hunt, of Eureka, California, who lost his life by drowning. He would have been the next president-elect and his untimely death removed a very prominent and useful member of the association.

It is not necessary to make this report more lengthy by including all the committee reports and the routine business discussed at the meetings. These will be published in the annual proceedings which will be received by our board members. I have attempted to give the highlights of the meeting.

The social gathering when we and the ladies were guests of the Florida and Alabama State Boards was a refreshing and profitable wind-up to the Annual Meeting.

The election of officers resulted in Doctor Russell I. Todd, Richmond, Kentucky, being elected to the office of President; Doctor F. J. Martin, Medford, Wisconsin, as President-elect; Doctor W. A. Wilson, Trenton, New Jersey, 1st Vice-President; Doctor A. W. Kelner, Hollywood, Florida, 2nd Vice-President and Doctor R. F. Gilmore, Grand Junction, Colorado, 3rd Vice-President.

Respectfully submitted,

R. J. GODFREY,
Representative to A.A.D.E.

Motions adopted:

THAT the Report of the Representative to the American Association of Dental Examiners be received and adopted.

THAT Doctor Godfrey be reappointed as the Representative to the American Association of Dental Examiners and should circumstances be favourable, recommend that he attend the forthcoming Annual Meeting at San Francisco.

REPORT OF REPRESENTATIVES TO THE CANADIAN DENTAL ASSOCIATION

Mr. Chairman and Members of the Board:

The beautiful setting of the Algonquin Hotel overlooking Passamaquoddy Bay at St. Andrews-by-the-Sea, New Brunswick, was the place of meeting for the Canadian Dental Association Board of Governors and the convention in conjunction with the New Brunswick Dental Society.

Immediately following the official call of the meeting, President A. J. Coughlan was presented with a new gavel, beautifully fashioned, and constructed from pieces of wood from all the provinces. Doctor P. G. Anderson, President-Elect, who made the gavel, made the presentation. A history and outline of the significance of the different parts of this gavel will appear in the copy of the Transactions, 1954, and will be read with keen interest by members of the profession.

Twenty-six reports were presented and carefully studied. A brief summary of the highlights of the meeting follow.

The reports of the President and Secretary were very informative and dealt not only with the years progress but outlined some of our problems with which we will be faced in the future and asked that we give consideration to the financial requirements if our organization is to progress. An outstanding feature of the Secretary's Report under the caption, "Means of Progress" are listed seven points and we would recommend that all our membership should read and re-read this presentation.

The reports of the different committees give us some idea of the tremendous amount of work that is being done within the organization and as our Editor of the Journal has said, we quote: "Canadian dentistry should consider itself most fortunate that dedicated practitioners are willing to sacrifice time, leisure and money to contribute, on the broadest basis, to the progress of the profession."

The Survey Team, as set up by the Council on Dental Education, after four years' work, have published their report. Their findings and recommendations merit the perusal of all who are interested in the advancement in the programme of dental education. The members of this team; namely Dean A. C. Lewis, Doctors H. W. Reid and A. L. Walsh, deserve the highest commendation for their work. It has been agreed that the work of this survey should be extended for two years more.

Resolution re: Shortage of Dental Personnel

Re-affirmation of a previous resolution was passed unanimously and reads in part. "Resolved that this Association use all available means to further the securing of expansion of teaching facilities for the training of dentists and dental hygienists in order to meet the growing need."

A new National Blue Cross Plan for members of the Canadian Dental Association and their families was announced and will in due course surely receive the support of all dentists interested in such a plan. The C. D. A. Pension-Assurance Plan is producing very gratifying results.

Economic Survey — 1953

Dr. Gullett presented a report on this survey which provides an amazing amount of valuable information and the findings of the survey when completely summarized will be published in the Journal of the Canadian Dental Association.

New policy statements on pre-payment and post-payment plans for dental service, and a new policy statement on industrial dentistry were approved.

The report on studentships as a means to develop personnel in the field of research was enthusiastically received and approved.

Fluoridation

The policy of the Association in favour of fluoridation was re-affirmed. The resolution reads: "Resolved that the C.D.A. strongly re-affirms its recommendation to the people of Canada, that without delay that communities having a communal water supply adopt a procedure for water fluoridation best suited to their local needs, and for this purpose seek competent dental, medical and engineering advice." (A similar motion was endorsed by the Canadian Medical Association at their meeting in June, 1954.)

The relationship between hospital dental services and dental education came up for considerable discussion. Recommendation for further study of this phase of training was recommended.

A recommendation that local dental societies assist in securing suitable dental students was approved.

A brief summary of results of deliberations on other committee reports are as follows:

- Authorization of the appointment of a committee to inquire into certain inequities existing among those members employed in the field of dental public health.
- Directed that a firm of economic analysts be chosen to give study to the economics of dental practice.
- Endorsed the work of the International Dental Federation.
- Approved the establishment of a teacher-training course for members of faculty staffs.
- Commended the action of the Alberta Dental Association on holding a Health Week and encouraged other provinces to do likewise.
- Adopted a resolution designating the term "Oral Surgery" as the connotation of the said practice.
- Authorized the development of information packets for writers and speakers.
- Approved submitted by-laws for the Section on Oral Surgery (Canadian Society of Oral Surgeons).

Dr. Leslie Fitzgerald, President of the American Dental Association, attended the meeting as official representative of said association.

Dr. P. G. Anderson was elected President.

The 1955 Meeting will be held in Toronto.

Dr. R. R. McIntyre, Calgary, Alberta, was elected President-elect, with Banff, Alberta, the place of meeting for 1956.

Dr. Wesley J. Dunn, Editor of the Journal of the Canadian Dental Association was highly commended on his work as editor and on the "new look" of the Journal.

Such are some of the high lights of the meeting. Each year presents a possible broader field of endeavour for the Association as new problems continually arise. Due to the present limited budget, the work is somewhat curtailed in support to many worthy objectives. Spiralling costs of administration in all phases, together with the high cost of printing the Journal, have placed a heavier financial burden on our administrators than was anticipated some few years back. Consideration is being given by the Corporate Bodies across the country to the possibility of increasing their annual grants when circumstances permit. If we are to meet the demands of a growing organization and maintain the high plane upon which our profession stands, we must be prepared to support it in every possible way.

We would like at this time to express our appreciation to our Secretary for the usual efficient manner that he has discharged his

duties. Compliment was paid to him at St. Andrews. To our staff here at C.D.A. Headquarters, we appreciate and compliment you on your kindly co-operation.

We appreciate the honour and privilege of representing the Board of the R.C.D.S. as your C.D.A. representatives.

All of which is respectfully submitted,

P. G. ANDERSON,
C. STRACHAN,
R. O. WINN,
C. M. PURCELL, Chairman.
Representatives to the Canadian Dental Association.

Motions adopted:

THAT the Report of the Representatives to the Canadian Dental Association be received and adopted.

The following resolution was presented:

"THAT the Executive Committee of the Canadian Dental Association in session on March 24th, 1955, desire to express by resolution their deep appreciation to the Royal College of Dental Surgeons of Ontario for their expression of continued co-operation and interest in the welfare of the Canadian Dental Association in their objective of making available the full time services of the Secretary to our Association at a time when he is most needed in that capacity; and further that they be commended on their selection of an Assistant Secretary in the person of the Editor of the Journal of the Canadian Dental Association."

REPORT OF THE DENTAL PUBLIC HEALTH COMMITTEE

Mr. President and Members of the Board:

The Dental Public Health Committee of the Ontario Dental Association begs to report the following activities for the year 1954-55.

We have completed a year which was slightly different from other years. In an endeavour to relieve the O.D.A. office, our committee recorded our own minutes, appointed our own treasurer and had as much stenographic work done in our own offices as possible.

This was accomplished by Doctor Swales acting as a most efficient treasurer and Doctor Mitton looking after the minutes. Doctor Mitton also gave invaluable aid to your chairman and relieved me of a hundred and one details which has been much appreciated. A copy of his activities as field secretary is attached to this report.

The demand for information by lay-groups was as keen as ever and our field work chairman, Doctor Peterkin, arranged for speakers to address Home and School Clubs, Parent Teacher, Service Clubs and other various lay-groups. The members of my committee were also active in speaking at and assisting local groups with their problems.

The seminars arranged by Doctors Boyes and Mitton and their committee were as popular and successful as in previous years. Five seminars were presented in various parts of the province; namely Sault Ste. Marie, North Bay, Peterborough, Welland and Belleville. The average attendance was 17. We have continued the policy of trying to cover the entire province.

We were successful in having a member of the Board of the O.D.A. at the dinner on the first night of the seminar. A representative of this committee was also present. The local chairmen of these seminars, together with their committees, are to be congratulated on the excellent manner in which they handled arrangements at the local level. We deeply appreciate the assistance of the Faculty of Dentistry and the Department of Health and Welfare, Ottawa, (for

health grant made through the Provincial Department of Health) for making these seminars possible. To the clinicians, our gratitude for a job well done.

It was suggested that we organize the seminars before the summer recess as it is difficult to make arrangements in the fall to cover the activity for the whole year. Tentative seminars have already been arranged at Owen Sound, Oshawa, and Orillia.

Doctor Jackson and her material committee of Doctors Monteith and Pownall have done an excellent job of repairing and ordering new slides. All requests for slides have been met. Our film library has been used to full advantage and a new film, "The Gateway to Health", has been added to the library. More film strips have been purchased to replace those worn out or accidentally damaged. We are having difficulty in making up a complete set of slides for "Your Child and Mine" but hope to have same completed before the summer.

Doctor MacGregor again represented your committee on the Red Cross and upheld and presented the principles of this committee to the governing body of that society. He not only supervised the procurement of personnel but also the location of three coaches in Northern Ontario and a travelling unit in Newfoundland. At the suggestion of Mr. Stringer, Red Cross Commissioner, your chairman and field secretary went to Cochrane to try to help the people of Cochrane and district arrange for dental care.

Doctor Rife has been in charge of arrangements for the Convention as well as the Public Health Council Breakfast. The display at the Convention has been arranged and an innovation has been introduced at this year's convention. We are planning a miniature seminar, complete with patients, to take up our two-hour session.

Doctor Butler is continuing his efforts to popularize "Your Child and Mine" and is meeting with considerable success. The Academy of Dentistry, Toronto, has purchased from us enough copies to place one in the library of every public, separate and high school of Toronto. We have reduced our indebtedness by \$500.000 through sales this year. Our loan now stands at \$2,000.00 and have over \$300.00 in book account.

Our committee took an active part in planning the fluoridation presentation. We deeply appreciate the help and encouragement given this committee by the Board of the O.D.A., the Board of the R.C.D.S., and to Doctor Compton for his advice as representative of the D.P.H. group, also to all local societies who carried on their educational programmes in their own districts.

We hope we have been of assistance to these groups and stand ready and willing to give guidance, help and direction not only to groups but individuals so that the principles of Dental Public Health may be understood and appreciated by all.

Respectfully submitted,

EDGAR A. WHITE,
Chairman.

REPORT OF FIELD SECRETARY (Dental Public Health Committee)

Mr. President and Members of the Board:

Dental Seminars

The major activity has again been the promotion and organization of the dental seminars held since September 1954. The two seminars in Northern Ontario took place at Sault Ste. Marie and North Bay. Those in Southern Ontario were held at Peterborough, Welland and Belleville. The sixth seminar, planned originally for March in the Grey-Bruce-Dufferin Society area, is now arranged for October 5th

and 6th, 1955, with eighteen dentists registered. The average attendance on these courses was seventeen. Through the co-operation of Dean Ellis, members of the Faculty staff and a specialist in Paedodontics, it was possible to arrange for instructors in subjects relating to better dental care for children. The following instructors took part: Doctors C. D. Beierl, J. T. Crouch, Marjorie Jackson, E. E. Johns, Gordon W. Johnston, W. J. Spence and A. W. S. Wood.

The Dental Seminar programme has provided an organized type of field work, offering opportunity for local publicity in matters of dental health and a chance for better public relations with the health and educational authorities of the district. The local press and radio were generous with their coverage of the activities of the district seminar committees. I am convinced that much more can be accomplished by the better use of such opportunities. An attendance of one hundred per cent of the dentists in the Welland area is a record in our seminar planning experience. Speakers at the seminar dinner meetings, held always on the evening of the first day, represented organized dentistry and public health. The Field Secretary attended all but the Sault Ste. Marie dinner meeting. In all 240 dentists have registered in these two-day refresher courses.

It has been noted that much more can be accomplished in this type of organizational work where the opportunity is given to meet with Society executives to discuss the seminar programme and its values to busy dental practitioners.

An application has been made to the Provincial Grants Administrator for renewal of the Dental Seminar grant for 1955-56.

Water Fluoridation

The current interest in this subject has meant much activity in answering enquiries and requests, and by attendance at many meetings of associated health organizations. This work has included telephone calls, letters and conferences, and circulation of material. Speakers were arranged for special occasions and material prepared for information bulletins to the profession.

Field Trips

In the course of Dental Public Health programme planning and activities, two trips were made to Peterborough, Welland and Belleville, and single trips to Cochrane, North Bay, Kingston, Barrie, Orillia and Owen Sound.

Meetings

Annual meetings were attended of the American Public Health Association in Buffalo, Canadian Public Health Association in Quebec City, Eastern Ontario Dental Association meeting in Kingston, Ontario Public Health Association in Toronto, Health League of Canada in Toronto, Academy Winter Clinic, and the American Association of Dental Schools in Chicago. Other meetings include Toronto Welfare Council, eight committee meetings of the Dental Public Health Committee, Pharmacists' Association, North Toronto Clinic Night, Fluoridation Committee meetings of the Health League, two bi-monthly meetings of the Dental Health Officers, Health Unit Board Meeting of East York-Leaside Health Unit, "Career Day" at Oakwood Collegiate Institute.

Ryerson Institute Television Course

In order to understand better the use of television as a media for dental health education, a familiarization course and a television workshop were attended one evening a week for twenty weeks at the Ryerson Institute.

Conferences

Several conferences were held. These included two community group meetings in Cochrane on dental health services for remote communities of this district; the Commissioner of Ontario Red Cross on dental services for northern outposts; Doctor H. R. Skilling and Dr. W. Mosley re dental services in East York-Leaside Health Unit; Dr. F. H. Compton respecting programme planning in the Dental Division, Department of Health of Toronto; Doctors D. Mitchell and E. E. Johns on Dental Public Health activities in their respective communities.

I wish to express my sincere appreciation to many for the support, encouragement and co-operation which has been given me to make the work of the Field Secretary possible. This includes the Chairman, Sub-Committee Chairman and members of the Dental Public Health Committee and its General Seminar Committee, the Royal College of Dental Surgeons Board and its Registrar-Secretary, Dean Ellis and members of the Faculty staff, the Ontario Dental Association Board and its Secretary, the Dental Health officers and executives of the Dental Societies with whom I have been privileged to work.

Respectfully submitted,

GLENN T. MITTON,
Field Secretary

Motion adopted:

THAT the Report of the Dental Public Health Committee be received and adopted.

AMENDMENTS TO BY-LAWS

The following By-laws were enacted during the year.

BY-LAW NO. 83

- A By-law to amend By-law No. 6 by the deletion of Section 1(c).
Change 1(d) to 1(c).
Change 1(e) to 1(d).
Change 1(f) to 1(e).

BY-LAW NO. 84

Being a By-law to amend By-law 11, Section 1 (e) (8)
and By-law 13, Section 1.

BE IT ENACTED a By-law of Royal College of Dental Surgeons of Ontario as follows:

THAT sub-section (e) of Section 1 of By-law 11 be amended by deleting from Paragraph 8 thereof the words and letters "i.e. Periodontist, Dental Oral Surgeon, Orthodontist, Pedodontist", so that the said paragraph as amended shall read as follows:

"8. Designation as specialists may be used in both yellow and white pages, provided the dentist is a specialist certified in and restricted to the designated branch of dentistry".

THAT Section 1 of By-law 13 be amended by deleting "\$30.00" and inserting in place thereof \$45.00 so that the said paragraph as amended shall read as follows:

"Sec. 1. Each member in attendance at the meeting of the Board, or Committees thereof, shall be paid for each day in attendance, \$45.00; and for each additional day necessarily spent in travelling from and returning to his home, \$45.00."

BY-LAW 85

Being a By-law to prescribe the amount of annual
registration fees.

BE IT ENACTED a By-law of Royal College of Dental Surgeons of Ontario as follows:

Effective in respect of the year 1956 and following years, the annual registration fee payable by every member of the College engaged in the practice of dental surgery in Ontario shall be \$50.00

ADDITIONAL ITEMS

Appreciation to Doctor P. G. Anderson, Past President Canadian Dental Association.

Motion adopted:

THAT a letter of appreciation for his excellent service to the Canadian Dental Profession and particularly during the past year be sent to Doctor P. G. Anderson and to accompany the notice of his appointment as representative to the Canadian Dental Association from this Board.

Brief of the Ontario Dental Association

To the Board of Governors of the Royal College of Dental Surgeons of Ontario.

You will recall that at the Annual Meeting of the Ontario Dental Association on Monday, May 17th, 1954, it was duly moved and seconded and passed unanimously, that the Ontario Dental Association endorse the action of the Royal College of Dental Surgeons in requesting the Provincial Legislature of Ontario to amend the Dental Act so as to permit the Board of the Royal College of Dental Surgeons of Ontario to establish whatever licensing fee it deems necessary for its financial requirements.

You will further recall that prior to this date your Toronto representative Dr. R. P. Lowery, met with the Executive Committee of the Ontario Dental Association for preliminary discussion.

Following this discussion the Board of Governors of the Ontario Dental Association, communicated with your President, Dr. Murray Purcell, drawing your attention to the precarious financial position of the Ontario Dental Association and requesting that due consideration be given to this factor.

We requested at that time that when the Act was amended that provision should be made for the R.C.D.S. Board to provide a grant of \$12.00 per dentist licensed in the Province of Ontario.

With such a grant it is our opinion that we could maintain all our present activities and provide an annual convention without additional cost to all practitioners in Ontario.

Now that the Dental Act has been satisfactorily amended we respectfully restate this position.

For eighty-eight years the Ontario Dental Association has laboured voluntarily for the improvement of Dentistry in the Province of Ontario. During this period it has provided an annual convention of the highest possible scientific and clinical standards.

For many years this was the only type of Post Graduate education available to the profession in Ontario and even today the majority of Ontario dentists receive their only Post Graduate instruction from this source.

It is our opinion that in this way we are a most potent force in raising the standard of Dentistry in Ontario.

In addition, the Ontario Dental Association, through its Dental Public Health Committee, has been not only the pioneer but also the greatest factor in Public Health education in the Dominion of Canada.

We are grateful for the support received (from your Board) and our Field Secretary which has aided us greatly with our educational program.

With the alarming situations that are now developing in other provinces it is our firm conviction that the type of Public Relations

that can only be developed through alert Public Health education is more vitally necessary than ever.

We would also point out what we have accomplished in the field of prevention and Dentistry for Children, through the Seminars which we have recently instituted in private offices throughout the Province.

These have been made possible through the support of the Ontario Dental Association in conjunction with Governmental aid.

For 32 years we have also, provided a scientific journal to all the Dentists in Ontario, which provides an integretation and common meeting ground for the profession in Ontario. Without such a publication it would be impossible to either adequately publicize our activities or acquaint the non attendants at our convention with the valuable essays and clinics presented.

For the past four years, as a result of increasing publishing costs, the journal has been showing a mounting deficit. Until, at the present time, it is costing approximately \$5.00 for each contributing Dentist per year.

In addition, another function of our Association is our Benevolent Fund, which is the only professional source within the Province of Ontario from which a Dentist in illness or misfortune can receive financial support.

Out of 2300 dentists in Ontario only, approximately one-third make any contribution towards the support of the Ontario Dental Association. Obviously, in the face of rising costs and increasing deficits, we cannot continue to carry on in our present manner.

We, again, respectfully draw your attention to the fact that the Ontario Dental Association, both in numbers and activities is of major importance in the progress of Canadian Dentistry and we would further suggest that this fact should be given due cognizance when your Board deliberates upon any future grants, that it may make.

Any or all of the funds which it is your obligation to administer come 100 per cent from Ontario Dentists and it is our plea that this group should receive an adequate grant in return.

Respectfully submitted on behalf of the Board of Governors of the Ontario Dental Association, by:

H. R. BATEMAN,
J. A. BOYD.

In accordance with the adopted budget, instruction was given the Secretary to forward grant to Ontario Dental Association, designating Four Thousand Dollars (\$4,000.00) for dental public health work and Two Thousand Dollars (\$2,000.00) as an educational grant. At the same time to state that the Board is appreciative of the activities of the Ontario Dental Association and that a Committee of the Board had been appointed to meet with the Ontario Dental Association Executive at an appropriate time.

BRIEF CONCERNING FORMATION OF COMMITTEE ON SPECIALISTS CERTIFICATION

The Board of the Royal College of Dental Surgeons of Ontario certifies specialists for the protection of the public and the upholding of the good name of dentistry.

With the influx of newly trained specialists, and the changing and rising standard of the specialties, the problem of evaluating any given candidates training and credentials will become increasingly complex.

It is suggested that the specialty groups of dentistry may be able to render valuable assistance to the Board in an advisory capacity.

To this end it is proposed that a committee of four men be formed, one from each specialty, one to be chosen by the group as chairman.

When a candidate applies for certification, it will be the responsibility of the committee member of the specialty concerned to check on the training and the qualification of the candidate in detail, to report and confer with the members of his specialty group and to return a report representing the opinions of his group to the Secretary of the Board. This report may be used by the Board of the Royal College of Dental Surgeons of Ontario in its deliberation on the candidate.

While immediately apparent that such a plan is far from ideal, it is felt that such a move would represent an advance, however imperfect.

The existence of such a committee would act as an important liaison between the specialties and the Board, and therein may lie its chief value.

Respectfully submitted,

E. J. SIEGEL,
For Committee of Ontario Society
of Oral Surgeons and representative
of the other three specialties in
dentistry.

Motion adopted:

THAT our Secretary write to Doctor Siegel, representing the specialties in dentistry, thanking him and his associates for his intelligent presentation and to assure them that when deemed advisable, this Board will take advantage of their suggestion of kindly co-operation.

**PROPOSED AMENDMENTS TO THE REGULATIONS MADE BY
THE GOVERNING BOARD OF DENTAL TECHNICIANS UNDER
THE AUTHORITY OF THE DENTAL TECHNICIANS ACT OF
ONTARIO (JUNE 1954)**

Regulation 16, Clause (b) is to be repealed and replaced to read as follows:

16. No dental technician shall,—

- (b) advertise or cause to be advertised the prices or terms of payment for his work or products as a dental technician except to quote or state, upon request therefor, the price or terms for any specific item of work or any specific product to any legally qualified medical practitioner, person licensed under The Dentistry Act or registered dental technician;
- (bb) prepare or produce except for his own reference or that of his partners or employees any general list of prices for the various items of his work or products as a dental technician, nor shall he publish or distribute any such general list of prices either with or without a request to any person outside his own dental laboratory;

Regulation 16, Clause (d), sub-clause (vi) is to be added to read as follows:

16. No dental technician shall,—

- (d) directly or indirectly advertise expressly or impliedly that he,—
 - (vi) will perform services or supply products in the course of his business as a dental technician at a lower price than that charged by any other dental technician or by other dental technicians generally.

Motion adopted:

THAT the R.C.D.S. Board approve the proposed amendments to the Regulations made by the Governing Board of Dental Technicians.

Actions taken re Dental Hygienists

Motions adopted:

U. S. Hygienist Applicants

THAT in the case of citizenship of U.S. Hygienists, the Board will accept a statement of intention in lieu of full citizenship.

Approval of School of Dental Hygiene

THAT the Board accept the schools approved in Dental Hygiene as issued by the Council of Dental Education of the Canadian Dental Association.

Course in Dental Hygiene, Faculty of Dentistry, University of Toronto

THAT this Board concur with the proposal of the Faculty regarding admission of female holders of degrees in dentistry from recognized universities into the second year of the course of Dental Hygiene at the Faculty of Dentistry, University of Toronto, providing the applicants possess satisfactory entrance requirements.

Ontario Dental Nurses' and Assistants' Association

A letter from the President of the O.D.N. & A.A., Mrs. Irene Pollack, of Windsor, requesting support in an effort to establish a training course.

Motion adopted:

THAT the Royal College of Dental Surgeons of Ontario commend The Ontario Dental Nurses' and Assistants' Association in its desire to improve their knowledge and efficiency in their services to the profession and as this Board is responsible for all dental education in this Province of Ontario and appreciates the desires of the above mentioned association, approves the plan to put a pilot course into operation provided it is under the aegis of a local dental society and the details of the suggested course of instruction be submitted and approved by this Board.

REPORT OF THE PRESIDENT

Mr. Chairman and Members of the Board of Directors:

One year has elapsed since you honoured me by electing me to the Presidency of the Board.

In my remarks in accepting this honour and the accompanying responsibilities I stated that if progress and achievement of objectives attend my term of office it will be due in large measure to your co-operation as Board members in giving of your time, your abilities and your skill. Because of your acceptance of your duties, cheerfully performed, much, I feel, has been accomplished in meeting the general needs of the profession and the public whom it serves.

I will not take an unnecessary amount of your time to relate in detail the many matters which have required attention and have been acted upon since the last meeting of the Board, but I will mention a few of the more significant particulars.

The work of some of our committees has been heavy, and much has been achieved. You will be asked to approve in addition to other business the revisions in our By-laws and the Workmen's Compensation Fee Schedule; to discuss the actions and proposed measures of the Discipline Committee, and the Government and Legislation Committee with respect to the dental treatment of welfare recipients.

The reception by the profession of the necessary increase in the Licentiate fee with a few exceptions has been most favourable and it would appear that the time is opportune for the finance committee to review the Board's financial position and make suggestions as to how our resources may be effectively applied to strengthen our financial position. It is expected that deficit financing will no longer be necessary although grants and administrative expenses have been increased.

The information bulletins and other approaches by the Public Relations Committee have received favourable comment but we must not leave all the work in this regard to the appointed committee. I would urge each member of the Board to consider himself a public relations representative and to attend as many meetings of local societies as possible.

The representatives to the Workmen's Compensation Board met and will present a report on our relations with this board and proposed revisions in the fee schedule.

The Government and Legislation Committee was convened to make the necessary revisions in our by-laws and you will be asked to study these and approve the proposed changes.

The special committee on dental welfare treatment services held a session and will submit a progress report for your consideration.

The active and continued interest on the part of the profession as officially represented by the Board in offering advice and giving leadership on health legislation and dental public health matters in addition to the activity on the national level must claim our close attention.

The Discipline Committee have had numerous grievances to dispose of and the work of the committee seems to fall heaviest on the chairman and the secretaries. This seems quite appropriate as the majority of the complaints have been resolved and in most cases amicably settled by them. While professional competence to render

PRESIDENT

an adequate dental service to the public is delegated to our teaching schools our duty as Board members does not end there. We must make an effort, through our representatives, to influence dental thinking in some of the attitudes of the members of our profession.

There is an increasing demand for a wider distribution of dental service. We may not like it but we must concede that our economy is becoming more socialized and we should be thinking in terms of what effect it is going to have on our service to the public. We must recognize the trend of creeping socialism and set our sights to keeping it in balance.

Our profession's responsibility to the community is one of our most important considerations since because of the increase in population the need for treatment is increasing each year.

The use of union welfare funds to purchase dental care as well as post-payment plans is a new development and one which should be watched carefully and weighed critically to determine whether or not it improves the quality or increases the dental service to the public. This method of fee settlement may be considered a matter for discussion on a national level but our Board should take an interest in it.

The situation in some parts of our country with respect to the proper relationship of the profession to the dental laboratory industry is somewhat disturbing. The Board and its officers must be continually on the alert and aggressive in its duty of enforcing the Dentistry Act in the protection of the profession and for the welfare of the public against the inroads of illegal practitioners. The active interest of each member of our profession in the enforcement of the act is a duty that should not be evaded. The co-operation of the Board of Dental Technicians with this Board is acknowledged and good relations between our legal bodies can be of mutual benefit.

It is regretted that many practising dentists do not realize their responsibility in the employment of auxiliary help. It is most important that the profession should be specific in their written prescriptions of work authorizations to dental laboratories and that they avoid referring patients to dental laboratories for any purpose.

The relations between hospital authorities and dental graduates who are specialists in oral surgery with respect to the field of operations are in a confused state at the present time. It is hoped that a better understanding can be reached and a workable arrangement can be agreed upon to the mutual benefit of the professions and in the best interests of the public. In this connection a special joint committee of Board members and members of the Ontario Society of Oral Surgeons was convened owing to the situation which has recently developed by the action of several authorities.

The dentist's opportunities and indeed the necessity for continuing education needs emphasis. The wisdom of those who avail themselves of the opportunities of further study after graduation is to be commended. One sometimes wonders, however, if practitioners realize and appreciate the necessity not only to improve themselves in older techniques but upon the biological basis.

The number of extramural lectures in the past year, as you will observe in the report, remains about the same as in previous years but it appears that there has been a better distribution of areas and in subjects presented. The seminars are providing a most useful type of refresher course and the requests for them are being met as much as resources permit.

The recruitment of suitable personnel and the motivation of professional students is of importance to the future of the profession. Two factors play a part on forming the attitudes of young people in

PRESIDENT

making a choice of their life's work. Probably the most important factor is the person-to-person contact in the dental office and secondly the impact which the dentist makes on his community aside from his professional duties. These, in my view, exert a greater influence than books or pamphlets although vocational guidance carefully presented is often a determining influence.

The larger view of dentistry is its service opportunities, rather than merely a field in which one can make a good living without inconvenience, must be the incentive for those whom we encourage and accept into our profession.

Allied to the recruitment of dental personnel is the problem of a better distribution of dental service to the public of this province. I ask this question and at the same time realize that I cannot provide a satisfactory answer, "What can be done to encourage graduates to locate in rural areas and smaller communities where dental service is not provided or is not adequate?"

Dean Ellis will inform us on the progress being made on the new dentistry building and we may now be within reach of the objective envisioned and indeed initiated by this Board some fifteen years ago.

It is hoped that all matters coming before this meeting with regard to policy, plans for the future and affairs of immediate concern may be dealt with to the satisfaction and advancement of the profession and that your labours may not be unnecessarily burdensome.

In conclusion, I wish, to acknowledge with gratitude the sustained support and interest of the Board members, the work of the chairmen of committees and the loyalty, understanding and efficiency of our secretaries and staff in carrying on the Board's affairs during the past year.

Respectfully submitted,

RICHARD J. GODFREY,
President.

ACTION

Motions: THAT the Executive Committee be directed to study and survey the relationship of the dental profession with the hospitals and be prepared to present a report to this Board at their earliest convenience and that the Executive Committee be empowered to act if necessary . . . Carried.

THAT the Report of the President be adopted and the President be congratulated on presenting a very excellent report . . . Carried.

REPORT OF REGISTRAR-SECRETARY

Mr. President and Members of the Board of Directors:

1. This is the 202nd meeting of this Board since inception in 1868. The entering of the third hundred in meetings is an event worthy of note in this history of the College.

2. During the last year a considerable disturbance among members has occurred respecting the relationship of members of the profession with hospitals. It is claimed by some members that their position in hospitals has become most difficult and request is being made for direction. Serious consideration should be given to this matter in view of the number who have approached the Board for solution of the problem. The profession has co-operated in the establishment of dental service in the majority of the larger hospitals in the province. Only recently it has been drawn to our attention that no legal basis for such service exists. Neither the Public Hospitals Act nor the regulations under the act make any such provision. Clarification of the position of the dentist in hospital is necessary.

3. The position of a dentist in attempting to operate the business of a dental laboratory has arisen several times during the past year. The Solicitor for the Board states as follows upon this point.

4. "The Act respecting Dental Technicians provides in effect that every one who is not registered under the Act and who carries on business as a dental technicians is guilty of an offence."

5. "Section 6 introduces an exception in favour of dentists who by virtue of their professional status are, of course, authorized, without contravening the provisions of the Act, to perform the work or services which are ordinarily performed by a dental technician, and similarly an employee of a legally qualified dentist in the course of, or as the whole or as a part of, his duties as such employee may perform for the dentist, without contravening the provisions of the Act, work or services ordinarily performed by a dental technician."

6. "It is obvious that this exception was intended to apply to an employee working for a dentist who is acting in his professional capacity rather than a dentist who proposes to become a proprietor of a commercial laboratory. It cannot be denied that the Act is susceptible of the alternative interpretation that an employee engaged in his duties as an employee of a dentist can engage as a dental technician (though not licensed under the Act) even in a commercial laboratory operated by a dentist because the provision of the services made available by the commercial laboratory are services which a dental practitioner is authorized to provide."

7. "It would appear from Section 7 of the Act that the business of a dental technician can be carried on in the name of a corporation provided there is a registered dental technician in charge of its operations. The Act does not appear to contain a provision authorizing the operation of such a business in the name of a corporation provided a dentist is in charge of the operations."

8. The biennial election of Board Members will occur this coming fall and it will be necessary to appoint scrutineers in accordance with By-law Number Eleven, Section 13.

9. Considerable disparity exists in the distribution of dental service throughout the province. This situation applies for the most part to

REGISTRAR-SECRETARY

the smaller municipalities. When a dentist dies or retires in one of these municipalities, it is all but impossible to replace the service to the area. Such situations have increased during the year.

10. As of January 1956, the ratio of dentists to the Ontario population was one dentist to 2283. For the same date in 1955 the ratio was one dentist to 2262 of the population. In comparison the ratio in 1931 was one to 1906; in 1938 one to 1926 and in 1952 one to 2118. These figures represent a worsening ratio over a period of twenty-five years.

11. The table below indicates that the number of dentists on the Ontario list actually increased during the year by two (2). Authorities estimate that the Ontario population increased by approximately 140,000 during the year.

Changes in Registrar

As of April 30th, the number on the Active List of the Register was as follows:

Annual Fee paid	*2215	
Less deceased since paying fee	5	— 2210
Honorary Licences issued	119	
Less deceased since issuance	6	— 113
Fee unpaid (plus)		4
		<u>2327</u>

* Including 22 who have paid \$25.00 fee.

The following changes in the list have occurred during the year:

Additions

Graduates of University of Toronto	70	
N. D. E. B. Certificates	9	
D. C. C. Certificates	3	
Board Examinations	4	
Resumed licence (3 Inact., 7 Act.)	10	— 96

Deletions

Deceased (Hon. 12; Active 21)	33	
Retirements (Active in '55)	27	
Inactives (Did not renew \$25. Cert.)	24	
Left Ontario	10	— 94

Increase over previous year		<u>2</u>
-----------------------------	--	----------

As of April 30, 1955, number on active register	2325	
Add additions for 1955—56		96
		<u>2421</u>
Less deletions		94
		<u>2327</u>
Number on Active Register		<u>2327</u>

12. Progress in securing increased teaching facilities is now evident. However, it will be several years before an increased number of graduates will be available from the proposed enlarged school. In the meantime it is most probable that the ratio in Ontario will continue to worsen.

REGISTRAR-SECRETARY

13. One matter with which the Board should be concerned is that increased teaching facilities will require accelerated recruitment of students. An enlarged school will not solve the personnel problem unless students of high calibre are available. The present is a period when competition for students of the proper type is keen, even among professions. Commercial and industrial fields are attractive from the economic stand-point. University applicants for the next five years are the babies of the thirties, when the birth-rate was low.

14. To date, twenty (20) dental hygienists have been registered on the Ontario Register. Eighteen (18) of these hold 1956 renewal certificates and of these fourteen (14) reside and practise in Ontario.

15. Appended to this report will be found a list of those licentiates who have died during the year; the list of Honorary Members with the proposed names of those to be added this year by action of the Board and a report of the Extramural and Extension Lecture Service.

16. Presumably this is the last annual report the writer will present as Secretary of the Board. It is now over twenty years since my activities began as an elected representative to the Board. Evidence exists to support the statement that some progress has been made during this interval. But when measured against objectives and the new developments, the work of the future appears indeed great. The Board occupies the most critical position in organized dentistry. The decisions of the Board make for progress or retrogression of the profession. Board members must seriously endeavour to look far ahead in rendering leadership for dentistry. It is not enough to simply meet emergencies as they arise. During my tenure of office, there have been grave differences of opinion between members of the Board, which sometimes delayed progress but, in the end, the Board acted in a progressive manner. Those differences which occurred were honest differences and never to the best of my knowledge based on political reasons or questions of personalities. Such attitudes to the vital matters relating to the profession are commendable.

17. During my years of office, many men have sat as members of this Board. It has been a glorious experience to know them so intimately. They have been men who were ready to make any sacrifice in the interests of dentistry and who deserve great credit for their efforts. It is with regret that I sever my direct connection and appreciate that my future association in the work of the Board will simply be of a more indirect nature. I should like to express my most sincere appreciation for the great numbers of courtesies shown me. The various Boards have been most generous at all times. I wish for my successor the same experience in office which has been mine to enjoy.

Respectfully submitted,

DON W. GULLETT,
Registrar-Secretary.

APPENDIX A

LICENTIATES DECEASED

May 1st, 1955, to April 30, 1956

*1894	Abbott, Chester Neterville	London	July 21, 1955

TOTAL ATTENDANCE: 995

ACTION

The very real public relations value of the celebration of the 100th anniversary of a Dental Association was pointed out and a time ten years ahead was not too early to commence giving earnest consideration to the matter.

There was a considerable discussion relative to the dentist-hospital relationship. There was a general feeling among the members of the Board that the present situation in which a dentist has no legal status in Ontario's hospitals was most untenable. It was pointed out that this matter would receive discussion on an national level at the forthcoming meeting of the Board of Governors of the Canadian Dental Association. The Executive Committee has been directed to study and act upon this situation.

A discussion developed in respect to the establishments of Dental Laboratories by dentists. One laboratory has been established, not technically within the law. The Board directed the Secretary to communicate with the dentists involved and point out that it is misleading to list their laboratory in the telephone directory.

Motions:

THAT Doctor R. S. Woollatt and Mr. Colin C. Rous be appointed as scrutineers for the forthcoming Biennial Election in accordance with By-law Number Eleven (11), Section Thirteen (13). . . . Carried.

THAT the resolution pertaining to the issuing of licences on the reduced fee schedule to non-practising dentists desiring to remain on the Ontario register be rescinded and that no new memberships of this type be granted and that it be understood, however, that those now enjoying this privilege may continue to renew licenses of this type annually as long as they desire. . . . Carried.

THAT the Report of the Registrar-Secretary be received and adopted. . . . Carried.

REPORT OF THE TREASURER

Mr. President and Members of the Board of Directors:

Examination of the Auditors' Financial Statement, which follows, reveals a more improved financial situation than has obtained for a considerable number of years. It is pointed out that the amount of securities held by the Board is at the lowest total during the last twenty years. Recommendation is made that consideration be given to increasing the reserve as soon as possible.

Comparatively and in keeping with the times, it will be observed that practically every item of expenditure has increased, some substantially, over that of last year. It can be anticipated that some items will again increase for the coming year. As instructed at the last annual meeting, Eleven Thousand Dollars (\$11,000.) worth of bonds were sold on which a profit of Two Hundred and Twenty-six Dollars and Eighteen Cents (\$226.18) was realized.

Fluctuations have occurred in the bond market during recent months with rising interest rates. With the result that the securities now held by the Board of Sixty Thousand Dollars (\$60,000.) par value only have a market value of Fifty-four Thousand Eight Hundred and Fifty Dollars (\$54,850) at the time of audit. Your attention is directed to the fact that securities can only be bought or sold by resolution of the Board.

In accordance with the regulations first fee notices were mailed to the last address of all names appearing on the list of members on November 28th and 29th last. 429 second notices were mailed on January 17th to those who had not paid the fee on that date. Drafts were issued on 143 members on February 6th who had not paid the fee. As a result of this procedure, the fees of the following remained unpaid on April 1st and were entered in Division Court for collection: Doctors H. J. Caulfield, Ayr; H. M. Katzenmeir, New Hamburg; Wm. C. Kelly, Windsor; J. G. Woods, Dresden. Notification has been received from the Court that H. J. Caulfield has paid with costs. Execution of judgment is in progress for the others.

The appointment of auditors for the ensuing year is necessary.
Respectfully submitted,

DON W. GULLETT,
Treasurer.

ACTION

The President directed the Finance Committee to make an analysis of the existing Bonds and give direction for future investment.

Motions: THAT Thorne, Mulholland, Howson and McPherson be appointed auditors for the ensuing year. . . . Carried.

THAT the Report of the Treasurer be received and adopted.
. . . Carried.

AUDITORS' REPORT

We have examined the books and accounts of the Royal College of Dental Surgeons of Ontario for the year ended April 30, 1956. All our requirements as auditors have been complied with and we report that the above balance sheet is in accordance with the books and, in our opinion, fairly presents the financial position of the College as at April 30, 1956.

REPORT ON FACULTY EXAMINATIONS

At Annual Meeting

Dean Ellis presented a complete report of the final examinations for the current year.

He stated that nine had successfully graduated in Dental Hygiene. Of seventy-eight in the senior class, seventy had passed successfully, with eight having conditions to clear. Of a class of twenty-one in dental nursing, nineteen were successful.

Report was also made on the examinations of the earlier years of the course.

The Dean enunciated the problem of teaching load and stated that the time may come when it will be necessary to institute an internship or externship to care for clinical requirements.

Applications for Licence

The applications for licences presented were considered.

Motions: THAT Licentiate Certificates be granted to the following upon payment of the required fees:

John Thomas Anders	Joseph Stanislaus Lesniak
John Edward Balmer	Howard Allan Levin
Richard Alling Bell	Ronald Francis Martin
Lewis Donald Bigelow	Madan Mohan Mehta
Wilfred Roy Black	Bruce Orland Milligan
John Blackstone	George Jiri Mraz
Alexander John Bolechowsky	Richard Victor Seymour Muscat
Mary Ann Alyce Charlebois	Robert Paul McCutcheon
Petro Chlebowych	Alice Pitea-Paomees
Harry Christian Donald Cook	Gilles Gerald Patenaude
Julius Dick	Gerunsio Peloso
Robert Laurence Drew-Brook	Emmanuel Jonathon Rajczak
Roger Langrick Ellis	Beverley Arthur Richardson
David Engel	Roger Andrew Rivest
John Donald England	Freeman Llewellynn Vernon Roth
James Pollock Farrell	Vladislava Sadauskas
Joshua Fedder	Ian Duncan Forbs Schofield
Murray Bernard Frum	Jeffrey Robert Scott
James Zygmunt Gajda	Helene L. Shingles
Amanda-Meta Gerulath	Bruce Albert Simpson
Frank Gigal	Joseph Slogan
Cecil Morris Gilbert	John Donald Evans Smith
Sidney Golden	Edward George Sonley
Henry Alexander Grant	Stanley Earl Starkman
Russell Theodore Grenkow	Kenneth Lyman Stensrud
Robert Joseph Hall	Barbara Winifred Timmers
Samuel Hoffman	Maret Truvert
Calvin Henry Hoppe	Nadia Walter-Tschishevsky
John Kimball Kerr	Benjamin Francis Turner
Willard Lawrence Kerr	Andrew Tynio
Sidney Robert Kirson	Charles Eugene Underhill
Gundega Kravis	Ayako Marjorie Wani
Walter Blaise Kruzel	Robert Murray Werry
David Manuel Lampert	Peter Zakarow
Paul Lechicky	

. . . Carried.

FACULTY EXAMINATIONS

THAT the following:

Edward Gorley Baird
Max Marvin Balshin
Allington Franklin Dungy
James Henry Mucklow
Walter Alexander Kindiak
Piotr Wladslaw Witold Kuryllowicz
Barclay Gordon Stewart
Gordon William Stewart

be granted their L.D.S. Certificates when notification has been received from the Faculty that they have met the necessary academic requirement and have paid the required fees. . . . Carried.

Dental Hygienists

Motion: THAT the following:

Mary Joan Ballantyne
Irene Elizabeth Black (Mrs.)
Shirley Donna Cranswick
Kathryn Anne MacKenzie
Ethel Jill McKerracher
Ann Olesko
Alexandra Irene Sawchuk
Barbara Isabel Stott
Rose-Anne Sutin

having met the academic requirements of the Board and when the other requirements of the Board of the Royal College of Dental Surgeons of Ontario have been fulfilled, be granted their Dental Hygienists' Certificates.

. . . Carried.

REPORT — EXAMINERS & PETITIONS COMMITTEE

At Fall Meeting

As Examiner — in Chief, Dr. R. J. Godfrey, made report that the following had successfully passed the Board Examination:

Basil Kebalo, D.D.S.
Howard Young, D.D.S.
Edward Charles Schwartz, D.D.S., M.S.

Basil Kebalo, D.D.S. — an application for Registration.

Motion: Lowery — Campbell

THAT the application of Basil Kebalo for permission to register with the Royal College of Dental Surgeons of Ontario be approved. . . . Carried.

Howard Young D.D.S. — an application for Registration

Motion: Purcell — Winn

Re application of Doctor Howard Young that he be permitted to register with this Board and that By-law 8, Section 1, Subsection (a) be waived. . . . Carried.

EXAMINERS AND PETITIONS

Edward Charles Schwartz D.D.S., M.S.—an application for Registration

Motion: Winn — Leckie

THAT By-law 8, Section 1, Subsection (a) be waived and Dr. Edward Schwartz be permitted to register with the R.C.D.S. . . . Carried.

At Annual Meeting

As Examiner — in Chief, Dr. R. J. Godfrey made report that the following had successfully passed the Board Examinations:

Gunars Sultmanis, D.D.S.

Noel Stanley Watkins, D.D.S.

Motions: THAT the Report of the Committee on Examiners and Petitions be received and adopted and that L.D.S. Certificates be granted to Doctors **Gunars Sultmanis** and **Noel Stanley Watkins**, providing that the required fees have been paid.
. . . Carried.

THAT the Committee on Examiners and Petitions consider the advisability of waiving the requirement of written examinations in the case of graduates of Approved Schools and bring in a resolution to be considered at the fall meeting.
. . . Carried.

APPLICATIONS

Francis John Furlong, D.D.S., M.S.—an application for a Certificate in the Specialty of Orthodontics.

Motion: Bebee — Lowery

THAT Doctor Frank Furlong, having met the requirements of this Board be granted a Specialist's Certificate in Orthodontics. . . . Carried.

Norman Bennett Lightford, D.D.S., — an application for a Certificate in the Specialty of Oral Surgery.

Motion: Bebee — Keenan

THAT Doctor Norman Lightford, having met the requirements of this Board, be granted a Specialist's Certificate in Oral Surgery. . . . Carried.

Homer Everette McIntosh, D.D.S. — an application for a Certificate in the Specialty of Oral Surgery.

Motion: Keenan — Bebee

THAT when Doctor Homer McIntosh has completed his file by producing certificates covering his course, he be granted his certification in Oral Surgery. . . . Carried.

Henry Arthur Jensen Thompson, D.D.S., B. Sc. D.—an application for a Certificate in the Specialty of Oral Surgery.

Motion: Lowery—Keenan

THAT in the case of Doctor Henry Thomson,—his application for certification in Oral Surgery be refused because the requirements of the Board have not been fulfilled. . . .
. . . Carried.

Michael Mountjoy Maclaire-Hillier, D.D.S.—an application for Registration.

Motion: Purcell — Langmaid

THAT in respect to Application for Dr Michael Mountjoy Maclaire-Hillier that providing he furnish the required statement of his intention of becoming a Canadian citizen, By-law 8, Section 1, Subsection (a) be waived and that he be permitted to register. . . . Carried.

DISCIPLINE

REPORT OF THE DISCIPLINE COMMITTEE

Mr. President and Members of the Board of Directors:

The following represent the official complaints laid with this Board since the fall meeting:

November 1955 — 7 — Reported at fall meeting.

— 1 — Re fee.

December 1955 — 2 — Both re fees.

January 1956 — 3 — All re fees.

February 1956 — 7 — 1. Malpractice

2. Reline

3. Fee

4. Lack of attention

5. Failure to keep appointments

6. Performance of services without consent

7. Misunderstanding re accident to equipment

March 1956 — 3 — 1. One re fee

2. Two re unprofessional attention and fees

April 1956 — 5 — 1. Performance of service without consent

2. Poor orthodontic care and fee

3. Reline necessary

4. Dentures unsatisfactory

5. Patient referred to dental laboratory for service.

Since the last meeting of the Board there have been 21 official complaints.

The office handled at least as many more which were posed more in the nature of questions with the dentists' and patients' names being withheld.

Respectfully submitted,

R. P. LOWERY,

Chairman, Discipline Committee.

ACTION

Evidence was documented in respect to a situation in which illegal practice was being carried on and condoned in the office of a licensed practitioner.

Motions: THAT the Board conduct further investigation into the ethical conduct of Dr. . . ., and further that the Discipline Committee be authorized to proceed with whatever disciplinary measures are considered proper.

THAT the action taken in respect to Dr. . . . at the Annual Meeting, 1955, be terminated on December 1st, 1955 AND THAT the Secretary be advised to notify him of such action, and further to remind him of his declaration regarding the practice of his specialty. . . . Carried.

THAT the report of the Discipline Committee be received and adopted. . . . Carried.

REPORT OF INSPECTOR

Mr. President and Members of the Board of Directors:

I have the honour to report for your information the investigations and prosecutions from April 30, 1955, to April 30, 1956.

George Neufeld, 7 Traymore Crescent, Toronto. Practising dentistry illegally. The accused was a student at McGill University. I obtained sufficient evidence for a search warrant. June 9, 1955, with an officer of the York Township Police Department we entered at 8:15 p.m. We found five persons there — all wanting Mr. Neufeld to give dental service of one kind or another. The accused appeared before Magistrate Lovell in York County Police Court and pleaded guilty. He was fined One Hundred Dollars (\$100.00) or five days without costs for practising dentistry illegally.

Thomas Staden, 530 Church Street, Toronto, dental technician. Practising illegally. A complaint was received at the R.C.D.S. Office regarding the dentures not fitting properly. The accused was charged with taking impressions; found guilty and fined Five Hundred Dollars (\$500.00) or two (2) months, as this was his third offence. He took the gaol sentence. On the second charge, making dentures without prescriptions, he was given suspended sentence.

Kurt Schultz, 262 Lippincott Street, Toronto. The accused attempted to treat and extract a tooth for a Mr. . . . After investigating the same with Doctor Dunn, we obtained a search warrant and found sufficient equipment and material to prefer charges of illegal practice and possessing equipment. Shultz was found guilty on both charges and fined One Hundred Dollars (\$100.00) for having equipment. Sentence was suspended on the charge of illegal practice but the conviction is registered.

There have been very few complaints come to the office. The complaints that have been turned in have been attended to. On a few of them, we are endeavouring to obtain more definite information before we proceed.

There have been a few signs checked, which have been corrected on receiving notice from the College.

Respectfully submitted,

Inspector.

ACTION

Motion: THAT the report of Inspector be received and adopted. . . .

. . . Carried.

REPORT OF THE DEAN

FACULTY OF DENTISTRY, UNIVERSITY OF TORONTO

At Fall Meeting

The Acting Dean, Dr. P. G. Anderson, reported informally as follows:

Registration — for 1955-1956 Session is given in detail as follows:

Total enrolment	446
Pre-professional year	76
First Dental Year	70
Second Dental Year	79
Third Dental Year	78
Fourth Dental Year	78
Dental Nursing	21
Dental Hygienists	
First	11
Second	9
Diploma Courses	6
Bachelor of Science in Dentistry	2
Occasional students in graduate course	1
Occasional students in undergraduate	
courses who are clearing conditions	5

In addition, 10 students are registered in the School of Graduate Studies proceeding to the degree of Master of Science in Dentistry.

Admission Requirements

In the future, admission requirements to the pre-professional year at the University of Toronto will be Ontario Grade XIII or its equivalent with at least a 60% average. Students in the pre-professional course in any recognized University in Ontario may make application to the first year of the dental course.

Conference on Dental Education

The Conference on Dental Education sponsored by the Council on Dental Education of the Canadian Dental Association was an outstanding success. The objective was to improve teaching and measurement methods. Each department of the Faculty will review the proceedings of the Conference.

At Annual Meeting

Mr. President and Members of the Board of Directors:

In my absence during the fall term of the present session Dr. P. G. Anderson presented the report to this Board on behalf of the Faculty. I should like at this time to express again my very deep appreciation to Dr. Anderson for relieving me during the six months' period, July 1st to December 31st. From the President of the University and all quarters in the school I have heard nothing but the highest praise for the way in which Dr. Anderson carried out his duties as Acting Dean. I can assure you that I benefited greatly from this period of leave. It provided me an opportunity to think about the future of dental education, and give some consideration as to where we are going. A general review of dental education seemed opportune at this time in view of the prospects for the future needs of dental education

in a new building. In the first issue of the new journal of the Australian Dental Association (January 1956) under the title "Dental Education for Research" I have set forth a few of my ideas on this subject.

The New Dental Building

You will have noticed that the Provincial Treasurer included in his March budget an additional one million dollars as a special grant for the Dental College of the University of Toronto. This brings to three million dollars the capital funds which have now been made available for the construction of a new dental building. In this budget speech The Hon. Dana Porter states "although no federal contribution has been forthcoming for this project, we are leaving the door open, hoping that they will give tangible recognition to the Canada-wide service which this college performs, but meanwhile we are going to take action to bring this project to realization."

The president of the University, Dr. Sidney Smith, at the meeting of the Faculty Council, held on Monday, March 5th, commented in respect to this statement "we have reached the point of no return". Further activity on the part of the Property Committee of the Board of Governors indicates that action on this project is likely to be stepped up during the months ahead. A small grant has been made available from the capital fund for the support of a limited programme of visitation of new dental schools on the North American continent. This will be undertaken in the next few weeks. We are optimistic about the future of this programme.

Survey Committee Report

The third inspection of the Faculty of Dentistry of the University of Toronto was made on February 20th, 21st and 22nd, 1956. The previous visits of the survey team were made in March 1951 and January 1954. The confidential report following the third visit was directed to the President of the University, and a copy to the dean of the Faculty. In turn, copies were made available to the heads of every department in the Faculty. While the recommendations in both the 1951 and 1954 reports concerned items of more or less major importance, the summary and recommendations in the 1956 report were very short, and included such points as —

- additional staff for Prosthodontics required;
- modern Cephalometric x-ray equipment required;
- improvement suggested for instruction in practice management;
- need for a liaison committee for dental therapeutics;
- increase the output of hygienists;
- suggest closing the clinic on Saturday mornings;
- continue to upgrade the staff;
- continue to improve hospital relations;
- new dental building and equipment required;

A number of these recommendations are already under consideration.

The survey team of the Canadian Dental Association presented a composite report on the five Canadian schools at the annual meeting of the Council of Dental Education of the Canadian Dental Association, held on April 23rd and 24th. The Council then recommended to the Board of Governors of the Canadian Dental Association that all five Canadian dental schools be given full accreditation. This action should be of significance to the licensing boards across Canada in that it should pave the way for recognition of graduates of the Canadian schools when they seek the right to practise in other areas of the North American continent. It is likely that in due course the Council on Dental Education of the American Dental Association will examine this recommendation respecting accreditation.

DEAN

Registration

Dr. Anderson reported in December on the registration figures for session 1955-56. An overall total of 446 compares with 452 in session 1954-55, and 437 (1953-54), 426 (1952-53), and 427 (1951-52). The average number of students registered in each of the four dental years was 76 students. In a recent report from one of the committees of the Canadian Dental Association reference was made to the problems created by the shortage of dentists, and also to the unequal distribution of dentists. It was urged by this committee that the dental schools study this matter in the hope that they could influence new graduates to go into the rural areas where their services are urgently needed. We have been concerned about this problem for a number of years, but we recognize our limitations in trying to persuade students to take up practice in rural and country towns. Dr. G. T. Mitton, in charge of our Department of Dental Public Health, has made a very extensive survey of the Province of Ontario, which included details relating to communities of two thousand population and over. In the tabulation of material obtained from the 1951 census and other sources, he has included the population of the town, the school population, the number of wage earners, average earnings, the retail sales, the number of dentists, and indeed, the number of years each dentist has been in practice. From this table he has important information relating to the need for dental services in certain areas. The students are advised that this information is available, and indeed, a number have consulted with Dr. Mitton on this matter. It would appear, however, that this problem is one which requires the co-operative efforts of both the dental schools and the licensing board. It is probable that the Dental Alumni Association could be helpful in this matter.

Pre-professional Education

For some years the Faculty has been pressing for a change in the present arrangements relating to the pre-professional (pre-dental) year. Other dental schools make the final selection of the incoming class after the student has completed two years of arts and science. In this university we have been unable to provide a suitable year in the Faculty of Arts which would include the three sciences, namely, physics, chemistry and biology. For this reason we have found it necessary to continue registering prospective dental students in a pre-professional year, and then with the co-operation of the Arts Faculty, arrange for a course which included these sciences. At long last there is evidence that the Faculty of Arts may consider arranging subjects in such a way that science options could predominate in the first year of arts. While we may have to agree to certain compromises relative to course content in such an arrangement, it is believed that the disadvantages would be far outweighed by the advantages. Such a method would also facilitate the establishment of aptitude tests for prospective dental students.

Post Graduate Education

Continued study by the Faculty Post Graduate and Graduate Committee has resulted in a further revision of the programmes being provided for candidates proceeding with training in the specialty fields. Heretofore these candidates registered in a course leading to a diploma, and at the end of one year elected to either continue toward the diploma or to register in the graduate school and proceed to the M.Sc.D. degree. The heavy clinical programme necessarily associated with the diploma course has always been difficult to reconcile with the

major requirement of a research project and thesis in the Master's programme. The Council has, therefore, adopted the recommendation of the committee that all candidates in the specialty fields proceed first through the diploma course, and if subsequently they wish to register for the Master's degree, they will be granted credit of one year in the case of diploma courses of two years duration; and two years toward the Master's degree in the case of a diploma course of three years duration. In this way the emphasis on clinical training in the diploma courses will not be interfered with by the emphasis on the research project and the thesis in the Master's field.

Extramural Lecture Service

The number of Extramural Lectures arranged during the present session has increased slightly this year. However, there is increasing evidence that serious study should be given respecting the value of this programme as compared with the value that can accrue from an extended two days seminar programme, such as has been carried out under the Public Health grant in the field of dentistry for children. I believe it would be helpful if a joint committee made up of members of the Board and Faculty were to study this matter in the near future.

Research

In the absence of Dr. J. B. Macdonald, Chairman of the Division of Faculty Research, who was on leave, and on loan to the University of British Columbia during the fall term, Dr. Gordon Nikiforuk carried on as Acting Chairman. We are indebted to Dr. Nikiforuk for his excellent leadership during this period. There is no letup in the interest and activity in the Research Division, and indeed, there is evidence of increasing interest on the part of undergraduate students registered in the Faculty, in the research programme. During the coming summer several students will be employed in the Division working on research projects. These students are the potential research workers of the future if given the proper training and guidance.

Teachers' Conference

Last spring we reported on a conference which was to be held in the fall of 1955 under the sponsorship of the Council of Dental Education of the Canadian Dental Association. This three day meeting, held September 12th to 14th, was a tremendous success as evidenced by the splendid attendance of the Faculty staff (the majority of them being part time men who were willing to leave their offices for this three day period in order to attend the conference), and furthermore, by the enthusiasm for followup sessions which have been held subsequently. It is of interest to note also in this connection that other departments in the University are thinking in terms of similar conferences. Tremendous credit is due to Dean A. C. Lewis and the staff of the Ontario College of Education for the time and effort which they devoted to instruction in these courses, and also to the W. K. Kellogg Foundation who provided the financial assistance.

Teacher Training

A new dental building providing accommodation for 125 students in each class obviously presents a problem associated with finding increased staff. The active programme of teacher training of several years ago must be revived in the near future. It is becoming increasingly difficult to find fellowships to support such a programme finan-

DEAN

cially. We, therefore, have in mind that immediately after the present obligations of the profession in Ontario to the Division of Dental Research have been completed, we will make an appeal to the profession for assistance with this programme. The five-year pledges made by members of the profession in support of the research division will be paid up by the end of 1957. Preparation for a new campaign on behalf of the fund for training dental teachers must begin early in 1957. Any suggestions or comments which this Board may have would be appreciated.

Staff Notes

We regret to report the retirement of Mr. Colin C. Rous, Secretary of the Faculty, which will take effect on June 30th, 1956. For thirty-one years he has given loyal service to this Faculty. His great ability as an organizer will be greatly missed by the whole staff. It is also regretted that Dr. G. C. Cameron, Professor of Bacteriology and Pathology, will retire this session. Several changes are also imminent in respect to senior staff. Final details of these changes cannot be reported at this time.

Acknowledgements

We are indebted to many organizations for their moral and financial support with various phases of our work in the Faculty of Dentistry. We extend our thanks —

To the Ladies' Auxiliary of the Toronto Academy of Dentistry for their further contribution of \$556.00 to the fund which they set up several years ago "to provide service for needy children with dental abnormalities". This contribution brings to \$6,302.00 contributed by the ladies during the past six years. To the Ladies Auxiliary of the London Dental Society for the establishment of a \$200.00 Bursary to be available to a student in any year, but with preference to be given to students from London, Ontario, or the Western Ontario Area;

To the Dental Nurses' Alumnae Association for the contribution of \$100.00 for dental research;

To the Dental Alumni Association for their annual Bursaries (two each of \$200.00), and in addition, a further amount of \$600.00 for additional Bursaries during this session;

To the Toronto Radiodontic Study Club for the establishment of the J. E. Moser annual prize in Radiology;

To Dr. Lorne E. MacLachlan for the establishment of a fund for training teachers in full Denture Prosthesis;

To all these and many others we extend sincere thanks and appreciation.

The continual, enthusiastic support and co-operation of the members of this Board and the Secretary are greatly appreciated.

All of which is respectfully submitted.

ROY G. ELLIS,
Dean.

ACTION

Appreciation was directed to the Canadian Dental Association for the efforts of the Council on Dental Education and the Survey Committee for the work leading to approval of all five dental schools. It was the considered opinion of the Board that these efforts have greatly assisted the advancement of Canadian dentistry.

In consideration of the Extension and Extramural Service the Board was in complete agreement as to the great value which attends this service, but, if the Faculty wishes, agreed to a meeting, between the established Board Committee on Clinics and Extension Lectures and the Faculty Committee.

Dr. Lorne E. MacLachlan has provided in his will a sum of money sufficient to provide Three Hundred Dollars (\$300.00) per year for the expressed purpose of enabling teachers in Prosthodontics at the Faculty of Dentistry, University of Toronto, to take further training to better equip them to fulfill their responsibilities as teachers. During his lifetime Dr. MacLachlan has provided Two Hundred Dollars (\$200.00) per year for such a fund and the Board was requested to augment this sum by One hundred Dollars (\$100.00).

Motions: THAT this Board endorse the action of the President in agreeing that the Board provide a grant of One Hundred Dollars (\$100.00) per annum to augment the Lorne E. MacLachlan fund during his lifetime for training teachers in Prosthodontics. . . . Carried.

THAT the Report of Dean Ellis be adopted. . . . Carried.

REPORT OF THE LIBRARIAN

Mr. President and Members of the Board of Directors:

It is my privilege to again present the annual report of the Harry R. Abbott Memorial Library.

During the year there were 114 acquisitions of new books and 4 new journal subscriptions were placed. There are 57 orders for books still outstanding.

Circulation figures for the 1955-56 session are as follows:

CIRCULATION MAY 1, 1955 — APRIL 30, 1956 AND PREVIOUS 4 YEARS BY COMPARISON

Year	Faculty	Students	Graduates	Periodicals	Total
1951-52	812	7271	1403	3091	12,577
1952-53	688	7273	1268	2457	11,688
1953-54	736	7964	1016	2647	12,363
1954-55	573	6647	1053	1738	10,011
1955-56	560	5866	906	1890	9,222

These figures do not include Reading Room statistics which were 1500.

There was a decrease in the number of books circulated inclusive of the faculty, students and graduates but the number of periodicals circulated increased. The decreased circulation of books to students may probably be attributed to the fact that the undergraduate essay requirement has been changed and the students now only write an essay in their final year instead of one each year as existed previously. However, the reading room circulation has been maintained and the reading room is patronized by the students to a gratifying extent but which, of course, is dependent on their free time. There were 10 inter-library loans during the year and 189 books and journals were loaned to 79 borrowers in various parts of Canada. We have received mail from 54 libraries this year and have received requests from 70 libraries in the United States, England, Argentina, Switzerland, Brazil, South India, Hawaii and Finland, to whom we have forwarded 139 parcels with a total of 1661 journals and books. We gratefully acknowledge donations from many quarters including Dr. H. K. Box, Dr. R. G. Ellis, Dr. G. V. Fisk, Dr. G. C. Hare, Dr. H. A. Hunter, Dr. A. B. Hooks, Dr. E. J. Johns, Dr. A. D. A. Mason, Dr. A. Posen, the Canadian Dental Association, Oral Health, Dr. W. K. Shultis, Dr. H. Shepherd and the estate of the late Dr. J. H. Carrique. We are particularly grateful to the family of Dr. Carrique who donated his certificate dated 1886 together with his cabinet and chair and various other interesting items.

In conformity with our plan of last year, we have had the portraits of Colonel Abbott and Dr. Secombe expertly renovated and express our appreciation to the Board for their financial assistance for this repair. The glass in the portraits has now been properly shimmed and similar deterioration should not occur in the future. Also in conformity with our plan of last year, the use of the Harry R. Abbott fund has been restricted as far as possible to the re-binding of the older books in the Abbott collection. We were fortunate in securing a firm that did an excellent binding job at a reasonable fee. The standing of the Abbott Fund as reported on May 1st is presented below. It will be noted that the sum of \$149.22 was still expended for subscriptions. This matter has been the subject of discussion for some years but from a recent conference it is expected that this charge will be transferred to the University account thus bringing the expenditure of the Abbott

Fund into conformity with the wishes of the donor. The Senate Library Committee has also established a more satisfactory status for lost books than that which previously existed. Henceforth the cost of replacing a lost book will be charged to the responsible individual provided this can be established. If not, a replacing copy may be purchased from the University appropriation.

Your Committee has been actively concerned regarding both Library and Museum space in the prospective new dental building and would appreciate any suggestions or directions from the Board relative to such plans. Consideration should be given to how funds will be provided for display cases and equipment that will be necessary for a modern Museum.

We would appreciate direction also on the disbursement of the \$150.00 account which the Board makes annually for Museum items and suggest that this fund should also be available for the purchase of an occasional rare book. For the convenience of the Committee we recommend that this fund be placed with the Dean of the Faculty of Dentistry and that disbursement from it be made on the recommendation of the Library Committee and the approval of the Faculty Council on the signature of the Dean or Secretary. Rare items frequently require rapid action and the suggested change is recommended in the interest of economy and time.

The University Library appropriation has been over-spent for the current year and we wish to express our appreciation to Mr. Blackburn, the University Librarian, and to the University authorities for permitting us to overdraw our account. We have requested that our Library budget be supplemented next year to bring it into harmony with the expansion of the Library and the increased cost of books. The co-operation and assistance received from the University, the University Librarian and our own Library Committee throughout the year is gratefully acknowledged. Miss Smith, the assistant Faculty Librarian, has been particularly courteous and zealous in the discharge of her duties.

HARRY R. ABBOTT FUND

July 1, 1955	Deposited to account:	\$500 00
Sept., 1955	Carswell's Binding:	\$223.75
	Globe & Mail Sub'n	18.60
May 1, 1956	Expenditures to Date:	
	Continuations —	4.90
	Subscriptions —	149.22
		\$396.47
	Unexpended Balance	103.53
		\$500.00 \$500.00

This report is respectfully submitted with the request that the Board continue its customary support for the coming year.

J. H. JOHNSON,
Librarian.

ACTION

Motion: THAT the Report of the Librarian be received. . . . Carried.

The same policy is retained in respect to the purchase of historical items as has been in force in the past. It was pointed out that the Harry R. Abbott Fund was available for the specific purpose of purchasing books.

Motion: THAT the Report of Doctor Johnson, Librarian, be adopted. . . . Carried.

WORKMEN'S COMPENSATION BOARD

REPORT OF THE REPRESENTATIVES TO THE WORKMEN'S COMPENSATION BOARD

Mr. President and Members of the Board of Directors:

A meeting of the representatives to the Workmen's Compensation Board was held in the Board Room, 234 St. George St., Toronto, on Thursday, January 26, 1956.

Present were: Doctors M. V. J. Keenan, Chairman
J. M. Campbell
R. J. Godfrey, President
T. R. Marshall, Consultant
D. W. Gullett, Registrar-Secretary
W. J. Dunn, Associate-Secretary

At first it was thought possible to meet in the morning to discuss any problems and in the afternoon present them to Workmen's Compensation Board. However, at the suggestion of Dr. . . . our consultant with the Workmen's Compensation Board, we spent the full day in session reviewing our past position with respect to them and suggesting some changes for the future. This proved to be a very good idea. Our recommendations are for your consideration and a meeting with the Workmen's Compensation Board will follow.

Considerable time was given to a thorough study of Form 8B. This is in keeping with our past policy of a review at two-year intervals. The suggested revised form appears in Appendix A and the suggested tariff changes appear as Appendix B. As one might well imagine, new problems are frequently being presented to our consultant and Workmen's Compensation Board referee, Dr. . . . He deals with them as he thinks best, keeping in mind the needs of the patient, the requirements of the Workmen's Compensation Board, and the ethics and well-being of the dental profession. These decisions could in effect form policy and this being so, Dr. . . . asked the opinion of the committee in some typical cases. It was the opinion of the committee that his methods of handling these problems were excellent and recommend that he proceed in the future as he had done in the past.

Our relationship with the Workmen's Compensation Board continues to be excellent. We, on our part, have tried to avoid excessive requests from them. We hope our recommendations will be such that the Workmen's Compensation Board will continue to approve them as being in the best interest of all.

Respectfully submitted,

J. M. Campbell,
M. V. J. Keenan, (Chairman).

REPORT OF CONSULTANT TO THE WORKMEN'S COMPENSATION BOARD

Mr. President and Members of the Board of Directors:

Your appointed consultant to the Workmen's Compensation Board of Ontario desires to report to you on his work during the past twelve months. As you know, many aspects of the work were discussed with you at your fall meeting and some of the problems arising were dealt with by your special committee last January. It is understood that

WORKMEN'S COMPENSATION BOARD

recommendations resulting from these discussions will be presented by your secretary as a report of the meetings.

The number of claims referred for written report in the period under review is 64; this was a decrease from last year. The number of the telephone consultations with Board Staff however has perhaps increased. These telephone contacts are always cordial and your consultant tries to be as helpful as possible. A relationship of easy approach gives opportunity for free discussion and a better understanding of dental problems.

This is a step forward and should speed up the authorization of dental treatment to the Board's beneficiaries.

Looking back over the claims reviewed and discussed the commonest causes for need of Consultation are as follows:

1. Unsatisfactory report from the dentist. The Chief Medical Aid Officer in a letter written last October comments as follows:

"... It is true that reports are occasionally received from dentists which do not provide the Board with sufficient information to authorize treatment immediately and, frankly, I get the impression that the dentist is, at times, more anxious to provide the claimant with the necessary treatment, not always the result of an accident, than assisting the Board in appraising the limits of our responsibility.

The Board is completely dependant on the profession to provide an accurate description of a condition existing before and after the accident... the Board is obliged by the terms of the Workmen's Compensation Act to confine its responsibility to any condition arising out of an accident and cannot accept responsibility for (treating) any pre-existing conditions... Recognition, by the dentist, of the Board's limited responsibility... would assist greatly in processing a claim".

Considerable thought has been given to encourage dentists to prepare better reports. Some changes are recommended in the Workmen's Compensation Board Form 8B which, if read, should help to improve the information value of the report. Special mention should be made perhaps of the importance of x-raying the injured areas and contiguous parts and forwarding x-rays to the Board as part of the report.

2. Dentists recommended treatment for which no fee schedule is set out.

Examples of these are as follows:

- (a) Root canal therapy
- (b) Jacket crowns
- (c) Jaw fractures

In recent years an improved endodontic technique has been evolved and a fee of \$25.00 allowed when the dentist submitted an x-ray of the completed treatment, showing canal obliteration. Unless the dentist is willing to comply with this standard of treatment the Board prefers to discourage this treatment.

Porcelain jacket crowns and acrylic jacket crowns are allowed only when the claimant is willing to assume responsibility for them. In recent months the full gold anterior crown with cured plastic facing has been suggested by your consultant in many instances in place of porcelain or acrylic crowns. They seem to be more practical. A fee of \$40.00 is usually allowed for porcelain jacket and gold acrylic but only \$25.00 for an acrylic crown when used.

The item, jaw fractures, has been discussed by your committee and it is recommended that a fee be placed on the schedule.

3. Fee for service is a common cause for consultation.

In dealing with the fee for service as allowed by the Workmen's

WORKMEN'S COMPENSATION BOARD

Compensation Board, perhaps some clarification of the dental benefit provided might be in order.

There are two basic kinds of benefit — **indemnity** benefits and **service** benefits generally provided in accident insurance policies. Under the indemnity benefit, payments of specific amounts for specifically defined items are provided. (This may or may not cover the professional fee in full; if it does not the patient pays any balance). The service type of benefit provides payment in full of the professional fee. The Workmen's Compensation Board benefit is the service type.

In order to provide this dental service benefit, the Workmen's Compensation Board negotiates a schedule of fees with your Board, which it agrees to pay members of the profession for performance of these services. Such a fee schedule should therefore provide fair compensation for good service.

The great majority of the profession are anxious to co-operate and accept the fee schedule whatever it is. However, suggestions have come to your consultant, in various ways, that the present tariff is inadequate for good dentistry. The increased cost of operating a dental practice, the greatly increased costs of dental technicians' services, and the increased cost of living for the dentist in keeping with other members of his community — these facts, all well known to your Board; have increased the cost of dental service. It is therefore suggested the revised schedule of fees recommended by your Committee and set forth in Appendix B, be considered with a view to fair remuneration for good dental care.

4. **Appraising the Board's responsibility in case of certain injuries is a common cause for consultation.**

It is almost impossible to enumerate the many situations that arise. The problem is usually something like this. — An injured workman presents with badly neglected teeth, usually has several missing; he has an incisor injured; he wants his whole mouth fixed up, so how much will the Board pay? Will it pay all?

You gentlemen, with your experience, will appreciate the various factors to be considered in such cases. The Workmen's Compensation Board is willing to be generous within the limits of its responsibility but of course does not always concur in the settlement sought by the claimant through his dentist. The opinion of your consultant is usually based on a percentage of the dentist's fee for the recommended service or on the basis of injured tooth or teeth replacement appliance and allow such sum to apply on the dentist's fee for recommended service. Frequently the problem is discussed with the dentist concerned and a fair allowance agreed upon.

5. **Appraising Board's responsibility, if any, in cases where dental service has been rendered and recurrence of need for dental service brings the claimant back in a further claim.**

It appears the Board accepts responsibility for maintaining removable dental appliances supplied to a claimant for an indefinite period. However it is not clear whether the Board recognizes that "fixed restorations" e.g. crowns, bridges, etc. may cause an increased rate of dental deterioration.

It should be pointed out that when such restorations are made necessary by an accident for which the Board accepts responsibility for treatment, it is only reasonable that some further service in connection with these restorations might reasonably be expected at a further time. (You will note that your committee endorses this point of view.

WORKMEN'S COMPENSATION BOARD

In concluding this rather long report, it is only fair to say there are many interesting cases that could be brought to your Board's attention. But in the main, the main problems have been discussed. Your consultant is very pleased to report excellent relations existing between the profession and the Workmen's Compensation Board; he is also very grateful for the helpfulness of your members and your special committee and finally he is appreciative of your confidence and this opportunity of serving the profession as your representative.

Respectfully submitted,

..... D.D.S.

Consultant.

ACTION

Motions: THAT the Report of the Workmen's Compensation Board be received. . . . Carried.

THAT the Workmen's Compensation Board's Form 8B as amended and the Reports of the Representative and Referee to the Workmen's Compensation Board be adopted and that the presentation of the proposed amended Form 8B be presented at the earliest convenience. . . . Carried.

THAT Doctor . . . be granted a per diem allowance of Forty-five Dollars (\$45.00) in appreciation of his attendance at the meeting of the Representatives to the Workmen's Compensation Board to amend Form 8B, on January 26th, 1956. . . . Carried.

REPORT OF THE REPRESENTATIVE TO THE NATIONAL DENTAL EXAMINING BOARD OF CANADA

Mr. Chairman and Members of the Board of Directors:

Your representative attended the meeting of the Examiners on July 3rd, 1955, and the annual meeting of the Board on July 4th. While the temperature was excessive there were no heated discussions and tempers, if not the temperature, were moderate.

The financial condition of the National Dental Examining Board of Canada is very satisfactory due to the monies received from the Dental Council of Canada and the relatively large number of candidates presenting for the examinations.

The financial statement of June 30, 1955, shows assets amounting to \$17,033.31 as compared with the December, 1954, statement showing assets of \$8,013.05. It should be pointed out, however, that the cash balance shown on the June statement will be reduced by the amounts for Examiners fees and Board members expense allowances for the June, 1955 meeting, and other expenses.

Comparative figures for candidates for the examinations in 1954 and 1955 are shown in Appendix A to this report.

This year, the Examiners met on the day previous to the Board meeting so that it was possible to transact all the business of the Board in one day. The main business of the meeting was the consideration of the examination results and the granting of certificates. In order that candidates could apply for provincial registration with the least delay, it was decided that each candidate should be notified by telegram of the result of his N.D.E.B. Examinations. Several minor changes were made in the by-laws to clarify their meaning.

Dr. H. J. Merkeley of Manitoba who had occupied the presidents' chair since the inception of the N.D.E.B. two years ago announced his retirement from the Board.

Dr. Wm. Miller, British Columbia, who had held the office of Vice-President announced that due to other commitments he found it necessary to resign from the Board.

Elections were held, resulting in your representative being elected President for the ensuing year; Vice President, Dr. H. R. McLean, Alberta; Executive Committee, Doctors Hugh Eaton, Nova Scotia; A. G. Racey, Quebec; and R. G. Ellis, Council on Dental Education, Canadian Dental Association. Dr. H. N. Beach was reappointed Secretary-Registrar.

The position of Quebec province in the N.D.E.B. remains the same, but all provincial representatives expressed the hope that the relations would eventually be regularized. The members of the Board expressed their desire to co-operate with Quebec despite the political difficulties with which they have to contend.

Finally, the retiring president, Dr. Merkeley, presented to the incoming president a gavel made from specimens of wood of historic significance furnished by the representatives of the ten provinces.

This work of art fashioned by Dr. P. G. Anderson was acknowledged and the appreciation of the Board was extended to him. The gavel is a duplicate of the one, and of the same woods, made by Dr. Anderson for the Canadian Dental Association.

Your representative received the gavel on behalf of the Board members and made suitable acknowledgement of the symbolic work of art.

It is considered that the National Dental Examining Board of Canada is performing a useful function in advancing the cordial relations between the provinces and encouraging greater reciprocity between provincial licensing bodies. This opinion is supported by two comments in the report of the Council on Dental Education presented at the 1955 Canadian Dental Association meeting, which are as follows:

"The representatives from the Council to the National Dental Examining Board reported that the results of the first national examinations had provided convincing evidence that the National Board was determined to hold its standards high".

"The Deans of the dental schools were being provided with a confidential report on the marks obtained by each of their respective graduates, so that they might review, with the departments concerned, any weakness revealed through the N.D.E.B. examinations."

All of which is respectfully submitted,

R. J. GODFREY,

ACTION

The Board expressed congratulations to the President on the honour accorded him of being elected President of the National Dental Examining Board of Canada.

Motion:

THAT the report of the Representative to the National Dental Examining Board of Canada be received and adopted. . . .
... Carried.

REPORT OF THE REPRESENTATIVE TO THE HEALTH INSURANCE STUDIES COMMITTEE OF THE C.D.A.

Mr. President and Members of the Board of Directors:

The Committee received reports from five of the provinces. The one presented by your Ontario committee follows:

Report of the Ontario Committee to the Health Insurance Studies Committee of the Canadian Dental Association.

At the fall meeting of the R.C.D.S. board, a special committee was appointed to study the Dental Welfare Treatment Services in Ontario and to discuss the relationship of the R.C.D.S. board to a National Health Insurance plan. This committee met in Toronto on January 27, 1956.

Present:— Doctors — M. V. J. Keenan, Chairman

M. C. G. Bebee

W. J. Langmaid ✓

J. M. Campbell

R. J. Godfrey, President ✓

D. W. Gullett, Registrar-Secretary ✓

W. J. Dunn, Associate Secretary ✓

There exists in the province today, a very minimum service for relief recipients, their wives and children. This minimum treatment is not available to welfare recipients. How much this small service is used, we do not know, but it is essentially wrong because it is only an emergency treatment service — education and prevention are excluded. The committee was in definite agreement that some service must be provided for welfare recipients.

F i r s t — because it is our professional duty to do everything to render a complete service to everyone as far as it is possible. This means that this reason is basically beneficial to the welfare recipients.

S e c o n d — we need the experience which creating and administering a service of this kind would give us. We need to find out the pitfalls and evaluate the data which will be forthcoming. This reason is basically to benefit the dentist.

Dr. Gullett reviewed the background for us, pointing out that a plan of this nature had at one time proceeded to the point where the government agreed, but it was never implemented for political reasons. Now, all in the government who were familiar with our desires in 1948 are no longer available, with the exception of Mr. Frost. Dr. Gullett pointed out that the National Health Insurance plan, as outlined by the government in Ottawa is progressing. Namely. 1. Health grants to establish hospital centres to train auxiliary and technical personnel. 2. Establishment of diagnostic services. 3. Hospital care plan which is the part being implemented at present in Ontario. The next step no. 4 will be medical care when this is running smoothly. the fifth step, dental care, will be included. **WHEN** is important, but **HOW** and by **WHOM** is more important.

The hospital care plan could conceivably be taken over by such an agency as the Blue Cross because they have by now had considerable experience in this service. Medical care is to come in the future. No doubt, such an agency as P.S.I. will carry great weight in the organization and direction of this service.

What will dentistry have to offer when dental care is proposed:

Our experience with having our problems handled by others—e.g. medicine, has been very bad and we do not want dental services directed by the governments.

HEALTH INSURANCE STUDIES

In order to develop a Dental Welfare Scheme, the following considerations are pertinent.

- (1) What should be done by way of services to these people?
 - (a) Minimum service?
 - (b) Comprehensive service?
- (2) The cost should be investigated.
- (3) Methods of administration must be studied.

A motion was passed that the board of the R.C.D.S. reapproach the proper authorities of the Ontario government with a view to rediscussion of ways and means of providing dental service to welfare recipients.

Our committee carefully reviewed the report of the prepaid dental care for social service recipients in Alberta. The associate secretary was asked to secure additional information for us as follows:

1. Detailed figures pertaining to numbers of people who would be involved in such a service.
2. What present services are provided by the Ontario Department of Health?
3. Further information respecting breakdown of costs and services provided in Alberta.
4. Some concept of the demand for services would be valuable.

Another meeting was scheduled for further study and to implement the motion to reapproach the Ontario government.

The revised principles of Dental Health Services were reviewed. The Committee offered several suggestions in respect to the principles presently existing as well as several new principles.

One of the main products of this meeting was a revised policy statement on Health Insurance. This is similar to "Revised Principles for Dental Health" as outlined in the Ontario report. The original policy statement had been presented to the Federal Committee on Health Insurance in 1942. Dr. Reid stated that he believed that the time had come to draft a new statement making known the position of the profession and its objectives and requested a definite decision by the Committee as to whether any change should be made. Health Insurance in the overall plan was already in its second stage and the third stage was known to be hospital services, the fourth, medical services and the fifth, dental services. The committee should be ready with a statement in preparation for discussion purposes before authorities at any time. The same **principles** might hold, but it should be presented in a new form showing that continuous study and work had been done to keep up to date with changing trends and conditions. It should be different from the statement of 1942.

Dr. Grainger's report shows us the wisdom of our policy of stressing dental education, prevention and research. One part of his report is very enlightening.

"Specific Inferences on Health Insurance — in the event that some type of prepayment dental treatment service were to be introduced to this country there would be the following important advantages of it being preceded and accompanied by intensive dental health education programs.

- (a) Public appreciation for a service would be vastly greater if it were something for which they had previously been willing to pay, than if it had never previously been of interest.
- (b) The backlog of treatment need would be found reduced to the order of one half making it possible to provide better service to more people from the very beginning.
- (c) The inspection of school children by the dental health officer would provide an ethical and effective supervision of services rendered since practitioners become conscious that their work is observed and compared with that of others

- (d) The wealth of data on the prevalence and incidence of dental defects would make it possible to plan for treatment required with great accuracy and enable the results of the service to be evaluated.
- (e) The continued teaching of control measures to the public offers great hope for the reduction of the incidence of dental defects to lower than present levels."

At the meeting in 1953, a sub committee was appointed to study the feasibility of insuring dental conditions. Dr. Marshall and Dr. Grainger were selected and their report was very thought provoking and created considerable discussion. The report is too long to be included here, although it might well be.

Dr. Marshall states in his conclusion: These observations are submitted with a feeling of arriving at a dead end, at least for the time being. There is a recognized difficulty in setting up a strictly dental plan financially sound and yet attractive to the public because of the nature of dental diseases. The possibility of some association with a general health insurance plan should not be discarded without consideration. Further study seems indicated perhaps with the assistance of someone versed in health insurance practices and supported by a pilot experiment to obtain needed information. Every effort should also be made to follow the experimental plans underway in the United States.

Doctors Grainger and Marshall were commended for their work on their respective reports and it was noted that considerable time and work were involved.

While no new prepaid plan or insurance plan has been started in Canada, those under way in the United States namely, the New York plan and the Pilot Dental program of the International Longshoremen and Warehousemen's Union were reviewed. The Alberta Dental Association made a very complete report on their prepaid Dental Care for Social Service recipients. This is the first time that a full year's figures could be given as previously some change was made midway in the year which made it difficult to assemble figures for a full year. It is to be noted here that several of the provinces have some kind of service for pensioners. Ontario is lagging behind.

In Saskatchewan they have inaugurated a post-payment plan. The details of the plan were outlined to the committee and it was noted that they were in agreement with the policy on post-payment plans as outlined by the committee previously. The plan received unanimous approval.

Once again, I wish to say that at times it seems that little progress is being made, but upon analysing the situation, it is found that the very nature of the work of the committee requires caution. However, each year shows progress and it might well be that the knowledge of this committee will be used to educate the government committees that have to do with health and in this very way make its greatest contribution.

Respectfully submitted,

M. V. J. KEENAN,
R.C.D.S. Representative.

ACTION

Motion: THAT the Report of the Representative to the Health Insurance Studies Committee be received and adopted. . . . Carried.

REPORT OF THE SPECIAL COMMITTEE
RE DENTAL WELFARE TREATMENT SERVICES

Mr. President and Members of the Board of Directors:

Your special committee appointed to give consideration to the Dental Welfare treatment service and the relationship of the R.C.D.S. in the National Health scheme met January 27, 1956 and would bring in the following report for your consideration.

1. We would recommend that a second brief be presented to the Minister of Welfare of the province of Ontario pointing out the difficulty the recipients of Welfare Relief, namely, Old Age Pensioners, Blind Pensioners, Mother's Allowance and Unemployed Relief Recipients have in securing the minimum of dental treatment, but more especially we would point out the danger to the health of the children of the above, if no dental treatment is available.
2. In considering the dental treatment of the National Health scheme it is difficult to know where the dental profession fits into the Federal Health Scheme and it becomes more confusing when you study the proposals of the different provinces but we feel that we must have a definite program on a national scale if dental treatment becomes available to any of the citizens of Canada, and our program should include:
 - (1) A definite administration program under the control of the dental profession.
 - (2) An educational program with emphasis on prevention.
 - (3) An age limit for children depending on the qualified dental personnel available and a program that can be extended later.
 - (4) An estimate of all costs.
 - (5) We should decide to what extent we should recommend a contributory program.
 - (6) The program of treatment to be carried out in private offices and co-ordinated with other health agencies.
 - (7) The patient should have free choice of his dentist.
 - (8) That an intensive public relations program should be set up in order that the above program receive the support of government and the public.

Respectfully submitted,

M. C. G. BEBEE,

Chairman.

ACTION

Motions: THAT the Report of the Special Committee on Dental Welfare Treatment Services be received. . . . Carried.

THAT the President appoint a Special Committee to seek an interview with the Minister of Welfare of the Province of Ontario in respect to Dental Services for Welfare recipients.
. . . Carried.

REPORT OF THE REPRESENTATIVE TO THE AMERICAN ASSOCIATION OF DENTAL EXAMINERS

Mr. Chairman and Members of the Board of Directors:

The meetings of this Association took place at San Francisco on October 14th and 15th, 1955, which your representative attended as directed by you.

Dr. Russell I. Todd of Richmond, Kentucky, the President, in his address to the association, after extending his greetings to the members, introduced a number of topics which he considered of importance.

He emphasized the desirability of better reciprocity between State Boards and between State Boards and the National Board of Dental Examiners. In this connection he suggested that State Boards might find it advantageous to use the National Board theoretical examinations and for State Licensure the written examinations might be omitted. The practical and clinical examinations would continue to be conducted by the State Boards. In his view "it is not the knowledge of the basic sciences, but the ability to make practical application of them, that determines whether the recent graduate is competently skilled to undertake the practice of dentistry."

Reciprocity between State Licencing Boards and the standardization of dental laws continue to be subjects for discussion. While most State Boards favour reciprocity in principle there appear to be many difficulties to overcome before complete reciprocal agreement becomes a reality. Some form of restricted universal dental reciprocity is desired.

The work of the Committee on Standardization of Dental Laws hopes to develop a master plan to which all states may refer when reviewing their acts or when planning new legislation.

He reminded the audience that the express purpose of State Boards is to protect the interests of the public as well as those of the profession.

The President referred to the outstanding success of the seminar on State Board Testing which was sponsored by the A.A.D.E. in co-operation with the staffs of Temple University and University of Pennsylvania dental schools. The seminar took place at Philadelphia on April 30 and May 1, 1955, and held six sessions in which six State Boards participated. It was strongly advocated that regional seminars should be held in other areas to promote better understanding on the part of the dental schools and the State Examiners as to what each is doing.

In addition to the Seminars on State Board Testing, a congress on Dental Education and Licensure is held each year during the Chicago mid-winter meeting. The purpose of these congresses is to afford an opportunity for a discussion of questions and problems of interest to both the dental examiners and dental educators.

The need for additional and expanded dental educational opportunities with a view to seeing that the dental profession is adequately supplied with graduates in the years to come, continues to be a pressing problem. This situation is acute in Canada and we, too, are faced with the fact that there are not enough dental graduates at the present time to maintain the proper ratio of dentists to population.

In the report of the Committee on State Laws, numerous references were made to the prohibition of dental laboratories from dealing

A.A.D.E.

directly with the public and of illegal practice by unlicensed persons. There is considerable concern over the inroads of unlicensed practitioners and laboratory technicians on the legitimate practice of dentistry. It is reasonable, however, to believe that a great majority of all reputable laboratories want to co-operate with us in the correction of these infractions of the dentistry act.

It was noted that members of the profession were not always living up to their obligations and in some instances were disciplined for irregularities in their method of practice.

Miss Margaret Swanson, Executive Secretary of the American Dental Hygienists Association, read an interesting paper on "The Educational Program in School of Dental Hygiene". Her paper was ably presented and dealt with the requirements for courses and the progress being made in dental hygiene education. The aims and objectives of the course in dental hygiene as approved by the Council on Dental Education of the American Dental Association are found in Appendix A to this report.

Dr. Arthur W. Easton representative of the A.A.D.E. to the Council on Dental Education dealt in his report with the various aspects of licensure and accreditation of Dental Schools and Schools of Dental Hygiene. The benefit and help received from this program of visitation by a recognized accrediting agency is of great benefit to the Schools in pointing out the strengths and weaknesses of their educational programs. This system provides the State with reliable information regarding the status of each School. As a member of a teaching staff I wish to acknowledge the excellent work of the survey team of the C.D.A. and the helpful suggestions they have made from time to time to improve the teaching of dentistry in Canada.

Dr. Gerald J. Casey, Secretary of the Council of the National Board of Dental Examiners spoke on the operations of this Board. Several additional States have accepted the N. B. of D. E. examinations bringing the total to 29 States, Alaska, Hawaii and Puerto Rico. The average passing grade required by State Board Examiners is in the order of 75%.

The candidates who have been successful in the National Board Dental Examinations are exempt from taking written examinations in all States in which the scores of these examinations are recognized. Examinations are given in all 43 dental schools in the U.S.A. National Board Certificates, it appears, are null and void three years after date unless registered.

A practical examination in the insertion of gold foil fillings is a requirement on many State Board examinations. Those in attendance at the meeting were given the opportunity to observe demonstrations on patients by members of the National Academy of Gold Foil Operators. These demonstrations by more than 20 operators were most interesting and instructive and there is a strong evidence that there is a swing towards the insertion of more gold foil restorations.

One of the luncheon meetings was addressed by Dr. Daniel F. Lynch, President of the A.D.A. He chose "Dentistry on the March" as his theme, and referred to the many advances made in dental education, practice and licensure. He emphasized that dentistry has and still can administer its own profession and refuted the necessity for regimentation by governments.

At the concluding session, Dr. F. J. Martin of the Wisconsin State Board was installed as President and Dr. W. A. Wilson of New Jersey was elected to the office of President-elect.

After the final session of the Annual meeting a social gathering of the members and wives, as guests of the California State Board, took place.

The personal contacts made at these meetings are most pleasant and informative as many of the problems we face are encountered by the State Boards in the U.S.A.

Respectfully submitted,

RICHARD J. GODFREY,
Representative to A.A.D.E.

APPENDIX A

AMERICAN ASSOCIATION OF DENTAL EXAMINERS

"The prime function of the dental hygienist is to assist the members of the dental profession in providing oral health care to the public. She may apply her knowledge and skills either in the office of the private practitioner, or in formal health educational activities in schools or other agencies. In either instance, she can and should perform an important function in health education.

"The Intra-oral operations performed by the dental hygienist shall be limited to the natural and restored surfaces of the crowns of the teeth beginning at the epithelial attachment; in no circumstance shall she attempt to treat pathologic involvements of the crowns of the teeth or of the supporting and adjacent tissues.

"At the discretion of the dentist, and within the limitations of the laws of the state in which she is practising, the dental hygienist may be required to perform other important office duties for which her training in the hygienist schools may have prepared her.

"The present two year course seems adequate to prepare the dental hygienist to perform tasks that may be assigned to her in the private dental office, but when employed by a school system or any other agency, her dental hygiene education should serve as a foundation for further study, or as a supplement to previous study to prepare her to assume such responsibilities. Her education should develop a sense of professional responsibility and an understanding of her relationship to the broad field of health as well as a capacity for growth and advancement."

ACTION

Motions: THAT Doctor R. J. Godfrey be the Board representative at the 1956 Annual Meeting of the American Association of Dental Examiners . . . Carried.

THAT the Report of the Representative to American Association of Dental Examiners be received and adopted. . . . Carried.

REPORT OF THE REPRESENTATIVES TO THE CANADIAN DENTAL ASSOCIATION

Mr. President and Members of the Board of Directors:

The Annual Meeting of the Canadian Dental Association was held this year from May 11th to 14th at the Royal York Hotel, in Toronto. Those in charge of hotel arrangements as well as those who had any part in organizing this meeting are to be highly commended for their efforts in making this gathering an outstanding success as well as the Convention which followed. The overall registration was 1700 of which 1189 were dentists, the largest attendance in our history.

Doctor P. G. Anderson, of Toronto, President of the Canadian Dental Association, presided at all sessions in his usual gracious manner and though he kept all members working at top speed throughout the three days, to all it seemed a pleasure to do his bidding. Dentistry as a whole, but Ontario in particular, is proud to have had such a capable and inspiring leader and we offer him our sincere congratulations on a job so well done. Here I would recommend to all a careful study of his address at the Board of Governor's opening session.

Doctor Anderson was also the main speaker at the C.D.A. luncheon which officially opened the Convention. The ovation he received at the conclusion of his talk can be described as tremendous and dentistry is fortunate to have such a man within our ranks. Thank you, Doctor Anderson, for your leadership and the contribution you have made to Dentistry.

As you are all aware, Doctor Gullett has been named full time Secretary of the Canadian Dental Association. The R.C.D.S. deeply regrets our loss but appreciates the impossibility of his carrying on in his dual capacity but we have been assured that his wise counsel and valuable advice will still be available to this Board. We wish Doctor Gullett many happy and fruitful years in this full time endeavour and know full well that Dentistry will be the better for this decision. To take his place on the R.C.D.S. Board we are indeed most fortunate in securing the services of Doctor Wesley J. Dunn. We, too, wish Doctor Dunn many happy years in his new field.

As is usual, many reports were received and fully discussed. All committees were instructed to bring in resolutions to present to the Board of Governors following their study of all reports. All were agreed that this was a big step forward, placing before the Executive of the C.D.A. specific wishes from the whole group, thereby greatly strengthening their position.

The President reported visiting every province along with the Secretary and the reports received from these many visitations undoubtedly prove their value. While all know that this is an exceedingly strenuous and time-consuming task, the results have more than justified a continuance of this yearly procedure.

Following is a summary of the highlights of the Annual Meeting:

Endorsed an educational programme on organized dentistry for members.

Endorsed a campaign for early detection of mouth cancer.

Instructed the Executive to pursue the objective of obtaining deductibility of pension payments from taxable income.

Recommended against incorporation of dental practices.

Approved that where possible provincial grants to the C.D.A. be based on \$25.00 per capita.

Adopted a resolution strongly urging the proper authorities to establish training facilities for hygienists.

Commended the establishment of teacher training courses for dental teachers.

Adopted requirements for the approval of dental internships in properly equipped hospitals.

Recommended the establishment of a Dental Health Week programme in provinces which have not already done so.

Adopted the following resolution re fluoridation of communal water supplies:

"Whereas tooth decay, by affecting the vast majority of people in Canada, has come to be recognized as one of the major public health problems of our time, and

"Whereas studies covering a period of over thirty years under the widest variety of controlled conditions have marked fluoridation as one of the most widely studied of public health procedures and

"Whereas such studies reveal that fluoride in the recommended amount of 1 part of fluoride to 1 million parts of water is safe from any ill-effects and is effective in reducing tooth decay by approximately two-thirds, and

"Whereas fluoridation benefits children and the benefits extend into adult life, therefore be it

"Resolved, that the Canadian Dental Association reiterates its recommendation to the people of Canada that communities having a public water supply adopt a procedure for adjusting the fluoride content of their water supply and for this purpose seek competent dental, medical and engineering advice."

Agreed that ethical dental laboratories should receive the active support of the profession.

Disapproved of the principles involved in the New Zealand Dental Nurse Plan but strongly recommended the employment of Dental Hygienists.

In view of the vast amount of information gained by the survey of dental practice across Canada, direction was given to conduct another such Survey by 1959.

Recommended implementation of a plan for adequate dental treatment for welfare recipients.

Recommended that information respecting fluoridation and other preventive measures be presented on an informative or educational level only.

The following ruling was given by the Ethics Committee:

"The Committee feels that it is appropriate to have a notice containing the name, location and phone number of the "house dentist" appear only on the main directory of the hotel lobby and/or the bedrooms of hotel guests and in no other location or type of hotel directory.

We do not consider it proper for such listings to appear in directories for use outside the particular hotel in which the dentist's services are available."

Further information regarding these resolutions, recommendations and endorsements will be found in the copy of "Transactions of the C.D.A.", a copy of which has been sent to all members of the profession in Canada and a careful study of this book cannot help but impress on all of us the importance of the work being done by the C.D.A.

C.D.A.

Very shortly, we hope that each Province will increase its grant to the Canadian Dental Association as this increased revenue will enable the Association to greatly increase their field of operation as well as make for a very much stronger association and we look forward to an early implementation of the many suggestions contained in the various reports.

Doctor Harold K. Box, of Toronto, internationally known and recognized for his outstanding contributions to dentistry, particularly in the field of research, was made an Honorary Member of the Association and presented with an oil portrait of himself which he in turn presented to the University of Toronto. In addition, the Board of Governors approved of the establishment of a lectureship in the name of Doctor Box.

Doctor R. R. McIntyre, of Calgary, was elected President of the C.D.A. for 1955-1956 and Doctor K. M. Johnson of Winnipeg was elected President-elect.

This committee appreciates the honour and privilege of representing this Board as your C.D.A. representatives.

The Representatives of this Board in attendance at the meeting were Doctors P. G. Anderson, C. Strachan, C. M. Purcell and R. O. Winn. This report is prepared by R. O. Winn.

ACTION

Motion: THAT the Report of the Canadian Dental Association Representatives . . . be received and adopted. . . . Carried.

REPORT OF THE PUBLIC RELATIONS COMMITTEE

Mr. President and Members of the Board of Directors:

1. Your Public Relations Committee met for an all-day meeting on October 3rd, 1955.
2. There was general agreement that the membership was not sufficiently cognizant of the functions and responsibilities of the Board. Although a "Terms of Reference" was developed, the Committee was anxious to achieve tangible results and not become enveloped in a programme so extensive that such results would be unobtainable. The following "Terms of Reference" were approved.

TERMS OF REFERENCE

On the broadest basis the responsibility of this Committee is to develop and maintain a public relations programme for the Royal College of Dental Surgeons of Ontario, including the dissemination of information and publicity concerning the dental profession in Ontario.

More specifically this committee shall endeavour to:

1. Develop and maintain an awareness of the essentiality of good relations among the members of the profession and with the public.
2. Establish and maintain satisfactory relationships between this College and governmental agencies with which this College is associated.
3. Establish and maintain satisfactory relationships between this College and other health organizations.
4. Arrange for distribution of information to the various media of public information.
5. Encourage and make provision for vocational guidance assistance where deemed advisable.
6. Provide an information and review service for newspapers and magazines desiring critical appraisal of material presented by others for publication.
3. It was decided to send a letter accompanying the notice of fee.
4. It was decided to prepare a Question and Answer Brochure in respect to R.C.D.S. activities for use by Board Members when addressing their constituents.
5. The Committee has prepared the first "Bulletin" of the R.C.D.S. It was decided that each "Bulletin" should be short and deal primarily with only one subject. The first Bulletin on the subject of "Immediate Dentures" is attached as Appendix "C".
6. The matter of dentists failing to list their home telephone numbers, thereby making it virtually impossible to contact them after office hours, was briefly discussed. It was decided that this matter was of sufficient seriousness that it should be brought to the attention of the Board.
7. In order to develop within the membership an increased awareness of the physical accommodation of the C.D.A. building and thereby engender a greater consciousness of the services provided by the organizations within the building, it was decided to suggest to the C.D.A. Public Relations Committee that both committees issue an invitation to the Dental Alumni Association to visit the building at the Fall of 1956 Home-Coming.

PUBLIC RELATIONS

8. It is the avowed intention of your Public Relations Committee to discharge its responsibilities to the best of its ability in accord with the Terms of Reference which have been adopted.

Respectfully submitted,

W. J. LANGMAID,

Chairman.

ACTION

Motions: WHEREAS the matter of dentists failing to list their home telephone numbers under their own names, thereby making it virtually impossible to contact them after office hours in cases of emergency AND WHEREAS most of these failures of listing are in the City of Toronto, this BOARD views with concern this serious situation. We therefore instruct our Secretary to write the Toronto Academy of Dentistry, pointing out this unethical situation and seeking their co-operation to remedy it. . . . Carried.

THAT the Report of the Public Relations Committee be received and adopted. . . . Carried.

REPORT OF THE DENTAL PUBLIC HEALTH COMMITTEE OF THE ONTARIO DENTAL ASSOCIATION

Mr. President and Members of the Board of Directors:

I beg to report that the main activities of our committee were with the Seminar Programme and Materials.

Eight meetings of the committee were held during the year.

The Seminar Committee under Dr. Boyes presented 7 seminars, one each at Owen Sound, Fort William, Sudbury, Orillia, Kingston, Oshawa, and Chatham. We are indebted to the Faculty of Dentistry for making available members of the teaching staff to act as clinicians. The Honoraria for the clinicians with the exception of the seminar in Chatham were covered by the grant made available by the Department of National Health and Welfare through the Provincial Department of Health.

The Materials Committee — Doctors Marjorie Jackson (Chairman), Ken Pownall and Keith Davey — produced a series of 30 2 x 2 slides, with a descriptive narrative. The Catalogue of Materials has been revamped, and a new 2 x 2 projector and one new film have been purchased.

Convention arrangements and details were planned and executed by Doctor Rife. So that the men attending the convention could evaluate our film library, we arranged to have all our films shown on the three mornings of the convention and our materials were displayed at the table clinic session.

Doctor Peterkin, Chairman of Field Work, has supplied speakers for all groups requesting same. Through his efforts and the efforts of the local groups throughout the province approximately eighty Home and School, P.T.A., Service Clubs and similar groups were so supplied.

Dr. Butler has continued his efforts to promote the sale of "Your Child and Mine" and we have been successful in reducing our bank loan to \$1200.00 through book sales.

Doctor MacGregor has continued to represent Dentistry on the Red Cross executive in his same enthusiastic manner.

Doctor Swales has been an invaluable member of our committee in helping to guide our deliberations.

The committee appreciates the attendance at our meetings of Doctor Bateman, President of the O.D.A., also our associate members, Doctor Kohli, representing the Provincial Government, Doctor Herron, representing the Academy of Dentistry, Toronto, Doctor Dunn, representing the Board of the R.C.D.S., and Doctor Compton, representing the City of Toronto and the D.P.H. group. All have given of their time and knowledge to the benefit of the committee.

Doctor Mitton, our Field Secretary, has as usual, been of inestimable help to the committee in looking after correspondence and minutes, in his numerous field trips, and in his careful attention to minute details in the planning of our endeavours.

We are going ahead with seminar planning for next year. We collaborated with the Public Relations Committee of the C.D.A. to produce six-five minute tape recordings for local radio broadcasting. A further series of 2 x 2 slides on diet is in preparation. We are trying to bring our printed materials up to an adequate level.

This committee deeply appreciates the Board's generosity in mak-

DENTAL PUBLIC HEALTH

ing available the services of a Field Secretary because without him we could not operate. It is our hope that this Board may see its way clear, so that we could increase his remuneration.

It is not always the privilege of a chairman to be able to work with such an enthusiastic and loyal committee, and I commend their efforts to you.

Respectfully submitted,

E. A. WHITE,
Chairman.

REPORT OF FIELD SECRETARY

(Dental Public Health Committee)

Mr. President and Members of the Board of Directors:

The practice of Public Health has been stated as the scientific diagnosis and care of the community as an entity and demands distinctive competence, knowledge, skills and techniques with the focus on the community as the patient.

As a provincial committee, elected by our colleagues, our responsibility on the basis of this philosophy is to assess the status of dental health, to evaluate the dental care available for the health needs of the people of Ontario and to take steps to improve dental health and the services which contribute to it.

Dental data, which has been made available through our Dental Health Officers and the Dental Statistics Division of the Department of Health under Dr. R. M. Grainger, has made it evident that our main hope to improve dental conditions is to provide more dental health education, better dental supervision and care for the younger child population of the province. Factors which influence this include the undergraduate training in dentistry for children, preventive orthodontics, periodontics, nutrition, dental hygiene and dental public health. Better distribution of dentists into smaller centres, more effective use of auxiliary personnel, and refresher courses for dentists in subjects relating to better dental care of children can be important contributions to better dental health.

The Dental Public health Committee considers the dental societies an important component of this overall planning. Our experience in conducting seminars has shown the value of sharing some of the responsibility for local planning and publicity with the society and thereby stimulating more interest and activity among the members. Our plans for next year include further activities for members of local societies in the planning and promotion of dental health programmes.

A real interest on the part of dental societies or the Alumni in the placement of recent graduates in smaller towns could prove an important public health activity. It has become an acute Dental Public Health Problem in many communities. Statistics of the 54 counties and districts of Ontario (excluding the City of Toronto) show that 704 of the 1454 dentists in practice have been practising 25 years or longer. Since no formal instruction in paedodontics was given at the Faculty of Dentistry before 1944, it can be seen that a large number of Ontario dentists have not received formal instruction in paedodontics and related subjects in the undergraduate course. The four-year activity in dental seminar instruction has been an attempt by the Dental Public Health Committee to improve this situation. About two-thirds of those registering for the dental seminars were graduates prior to 1944. Four hundred and seventy-three (473) dentists have attended these two-day seminars, with an average attendance of 17 at each. Maximum attendance is limited to twenty dentists. Choosing one year

at random, it was also discovered that 23 per cent of those who registered had not attended an Ontario Dental Association Meeting in the previous five years.

The following shows the distribution of seminars within the Province of Ontario since the programme was instituted:

Province of Ontario — Dental Seminar Distribution

Northern Ontario

- 1 Fort William
- 1 Kirkland Lake
- 2 Sudbury
- 1 Port Arthur
- 1 Sault Ste. Marie
- 1 North Bay

Central Ontario

- 1 Owen Sound
- 2 Orillia
- 1 Peterborough
- 1 Oshawa
- 1 Brampton

Eastern Ontario

- 1 Belleville
- 2 Kingston

South-Western Ontario

- 1 Windsor
- 1 Chatham

Niagara Peninsula

- 1 Welland
- 1 St. Catharines

The past year's activities of the Field Secretary include.

Seminar Planning 1955—1956

Number — 7. Attendance — 122.

Locations:

Owen Sound, Fort William, Sudbury, Orillia, Kingston, Oshawa and Chatham.

Staff Instructors:

Drs. M. G. Boyes, W. K. Shultis, C. D. Beierl, D. J. E. Mitchell, Marjorie Jackson, E. E. Johns, S. A. MacGregor, C. H. M. Williams, M. G. Crockford and W. J. Spence.

Trips out of Town

on field work and seminar planning and supervision.

Orillia — 2 trips

Welland

Barrie

Milton

Owen Sound — 2 trips

Brampton

Kingston

Oakville

Oshawa — 2 trips

Ann Arbor — attending Dental Health Workshop.

Chatham

Meetings attended in interest of Dental Public Health

Health League — Annual Meeting.

Dental Health Day — Welland.

Opening of Riverdale Health Centre.

Academy of Dentistry — Winter Clinic Three stated meetings.

Royal College of Dental Surgeons Board.

Board of Health Unit — Halton County.

Ontario Public Health Association — Annual Meeting.

DENTAL PUBLIC HEALTH

Represented Dental Public Health at following Dinner Meetings

General Council of the Health League of Canada during the Annual Meeting.
Dinner Meeting of the School of Hygiene graduating class of 1956.
Seminar Dinner Meetings at Owen Sound, Oshawa, Orillia, Kingston and Chatham.

Executive or Committee Meetings

Dental Public Health Committee — 8 meetings.
Dental Health Officers' Bi-monthly meetings.
Dental Health Officers' Section of the Ontario Public Health Association.
Ontario Public Health Association — Executive — 4 meetings.
Programme Committee of the Ontario Public Health Association — 4 meetings.
Toronto Welfare Council.
Committee on Dental Needs & Resources — 4 meetings.
Health League, Fluoridation Committee — 2 meetings.
Co-ordinating Committee — Riverdale Project.

Interviews and Speaking Engagements

Numerous interviews on programmes, appointments, materials and training were given and arrangements made for speakers.

At the request of the Dental Health Officers, was guest speaker at the Staff Christmas Party given by the Board of Peel County Health Unit; special Dental Health Day speaker at Queensway Lions Club.

Material Activities

During vacation time arranged some photographic work in preparation of slides on Canada's Food Rules.

Assisted the Public Relations Committee of the Canadian Dental Association in the preparation of material for radio tape recordings.

Postgraduate Course in Dental Public Health

Attended a five-day Workshop Conference at the University of Michigan. Seventy registered and represented Dental Public Health workers from most states of the Union and one only from Canada. Deliberations were directed toward Dental Public Health practice, with special consideration of objectives and evaluation of Dental programmes. Consultants present represented officials of the United States Public Health Service, Directors of Schools of Hygiene, State Directors and officials of the American Dental Association.

What of the Future?

Our policy over the past few years of decentralizing more Dental Public Health activity to the local societies has proven effective. This can certainly be expanded and, as a first step towards this end, a province-wide effort to hold a Dental Health Day during National Health Week in February 1957 has been planned. Continuance of the Dental Seminar programme can also contribute much to joint activity with the local societies.

A plan should be instituted for local dental societies to assist in the better distribution of dental graduates in areas of Ontario needing dental services. A follow-up programme with the recent graduate is required, to show our interest in him and to integrate his interest locally toward dental health education and more effective dental care in his community.

A province-wide Dental Health Workshop to have local society membership study Dental Public Health needs and resources in Ont-

ario should be considered as an activity of our Association by 1958.

All such activity will improve our public relations with the lay public, other health workers and our colleagues who have elected us to fulfill a trust in their name.

All of which is respectfully submitted,

GLENN T. MITTON,
Field Secretary.

ACTION

Motion:

THAT the Report of the Dental Public Health Committee and of the Field Secretary be received. . . . Carried.

The need of the Seminar programme in districts which are not included in Health unit areas was enunciated but it was pointed out that Government funds were not available for such districts.

Motion: THAT a grant of Four Thousand Dollars (\$4,000.00) be made to the Ontario Dental Association for purposes of the Dental Public Health Committee. . . . Carried.

REPORT OF THE GOVERNMENT AND LEGISLATION COMMITTEE

The Government and Legislation Committee met on January 28th, 1956 for the purpose of considering the existing By-laws of the Board.

Many alterations to the existing By-laws are proposed.

With respect to By-law No. 11, sub-section 7, it is our opinion that on literal interpretation of the clause, no member of the College is free to advertise himself as limiting his practice to any branch of dentistry unless he is the holder of an unrevoked Certificate of Qualification as a specialist in that branch of dentistry. The prohibition in By-law 11, sub-section 7, is not merely against holding himself out to the public as a specialist but specifically against holding himself out as "limiting his practice to any branch of dentistry".

Under Section 7, of By-law No. 11, it would appear that the Board is technically in error in permitting the quoted type of listing.

It has been confirmed by our solicitor that under By-law No. 2 (7) any resolution not passed at a regularly constituted meeting of the Board must have the unanimous approval of all members of the Board in order to be effective and not merely a majority, even though all members of the Board record votes on the resolution.

Respectfully submitted,

M. V. J. KEENAN,
Chairman.

ACTION

Motion: THAT the Report of the Government and Legislation Committee be received and adopted. . . . Carried.

AMENDMENT TO BY LAWS

The following By-law was enacted:

BY-LAW NO. 86

Being a By-law to Amend By-laws numbered 1, 2, 3, 6, 7, 7A, 7B, 8, 9, 10, 11, 12, 13, 14, and 15.

Be It Enacted a By-law of the Royal College of Dental Surgeons of Ontario as follows:

That Section 2 of By-law No. 1 be amended by adding the word "Registrar," after the words "Neither the" in line 3.

That Section 1 of By-law No. 2 be amended by deleting the number "5" in line 2 and inserting in place thereof the number "6".

That Section 4(b) of By-law No. 2 be amended by the addition of the words "of Ontario" following the word Surgeons in line 3.

That Section 5 of By-law No. 2 be amended by deleting the sign and number "\$5,000.00" in line 9 and inserting in place thereof the sign and number "\$10,000.00" and by deleting the number "19" in line 21 and inserting in place thereof the number "22".

That Section 6 of By-law No. 2 be amended by deleting the words "of whom at least two shall be members of the Board".

That By-law No. 3 be amended by deleting the sign and number "\$2,000.00" in line 3 and inserting in place thereof the sign and number "\$10,000.00".

- That Section 1(b) of By-law No. 6 be amended by deleting the word "five" in line 1 and inserting in place thereof the word "four", and in lines 7, 8, and 9, by deleting the words "(In no case shall less than the concluding two academic years be taken in the said Faculty of Dentistry.)", and in line 10 by deleting the entire paragraph beginning with the words "In all cases" and terminating with the words "Faculty of Dentistry".
- That Section 2 of By-law No. 6 be amended by deleting the entire section and inserting in place thereof the words "The subjects in which examination shall be passed before receiving a Certificate of Licence to practise dentistry in Ontario are those which shall be determined by the Board from time to time".
- That Section 3 of By-law No. 6 be amended by deleting the entire section and inserting in place thereof the words "No student shall, while in attendance at a school of dentistry or hospital engage in practice for his own pecuniary benefit, either in the infirmary or elsewhere, nor shall he at any time perform any dental operations elsewhere than in a school of dentistry or hospital. Violation of this section will render the offender liable to immediate suspension from all the privileges of a student of Dentistry in the Royal College of Dental Surgeons of Ontario".
- That Section 4 of By-law No. 6 be amended by deleting the word "College" in line 7 and inserting in place thereof the word "school".
- That Section 2 of By-law No. 7 be amended by deleting subsections (a), (b), (c), (d) and (e), and inserting in place thereof the following:
- (a) The examinations may be conducted by the Board at a place and time set for the purpose.
 - (b) The results shall be reported to the Board of Directors of the Royal College of Dental Surgeons of Ontario.
 - (c) The candidate must adhere to the Regulations Governing Board Examinations established by the Board and such regulations may, by by-law or resolution, be revised from time to time".
- That By-law No. 7A be renumbered By-law No. 8.
- That By-law No. 7B be renumbered By-law No. 9.
- That By-law No. 8 be renumbered By-law No. 10 and Section 1(d) be amended by reversing the words "State or Province" in line 3 to "Province or State", and in Section 1(e) by deleting the word "predental" in line 3 and inserting in place thereof the word "pre-professional".
- That By-law No. 9 be renumbered By-law No. 11.
- That By-law No. 10 be renumbered By-law No. 12 and that section 2 be amended by deleting the word "February" in line 2 and inserting in place thereof the word "March" and by adding the sentence as follows: "Any such member whose annual fee (plus any applicable penalty) is not paid on or before the first day of April next following, shall be liable to have the unpaid account entered in Division Court for collection".
- That By-law No. 11 be renumbered By-law No. 13 and that section 1(e)2 be amended by deleting the words "in yellow pages" and by deleting 1(e)6, and by renumbering "1(e)7" and "1(e)8" to "1(e)6" and "1(e)7" respectively, and further that section 5 be deleted and section 6. be renumbered section 5 an section 7 be renumbered section 6 and the section be amended by adding the words "as a specialist" following the words "to practise" in line 12 and by adding at the end of the section the words "by failing so to limit his practice or otherwise."
- That By-laws numbered 12, 13, 14, and 15, be renumbered By-laws 14, 15, 16, and 17 respectively.

ADDITIONAL ITEMS

Amendments to Regulations of Governing Board of Dental Technicians

A mail vote was taken on December 28th, 1955, on a resolution numbered "One Hundred" as follows:

That this Board approves of the amendment proposed by the Governing Board of Dental Technicians of Ontario pursuant to the Dental Technicians' Act, raising the annual renewal or registration fee from \$10.00 to \$20.00.

The Mail vote was unanimous in favour of the regulation.

Motion: THAT the result of the mail vote regarding the amendment proposed by the Governing Board of Dental Technicians of Ontario pursuant to the Dental Technicians' Act, raising the annual renewal of registration fee from \$10.00 to \$20.00 be confirmed. . . . Carried.

Annual Licentiate Fee — Graduating Students, University of Toronto

Motion: THAT the licence fee for the Graduates in Dentistry of the University of Toronto, who apply for registration, be Twenty-five Dollars (\$25.00) for the balance of the year in which they graduate. . . . Carried.

Appointment of Registrar-Secretary-Treasurer

Motion: THAT as of July 1st, 1956, Doctor Wesley J. Dunn be appointed Registrar-Secretary-Treasurer of the Royal College of Dental Surgeons of Ontario. . . . Carried.

Change of Appointments

Motion: THAT Doctor Wesley J. Dunn be the representative of the Board of the Royal College of Dental Surgeons of Ontario on the Council of the Faculty of Dentistry, Faculty Library Committee, and the Senate, University of Toronto, replacing Doctor Don W. Gullett, as of July 1st, 1956. . . . Carried.

Courses for Dental Assistants

A letter was received from Mrs. Loretta Parry, President of the Ontario Dental Nurses' and Assistants' Association making request for the conduction of a course of lectures in dental assisting under the auspices of a local dental society.

Motion: THAT the dental assistants be permitted to conduct a course under the conditions as previously arranged, for young ladies employed in dental offices. . . . Carried.

Dental Hygienists in Public Health Programmes

Motion: THAT the Secretary be instructed to write to the Ontario Dental Association and convey to them the following: The R.C.D.S Board is aware of the immediate and acute shortage of dentists with the specialized public health training and appreciates the desire of the Dental Public Health Committee to secure the most service from the limited personnel available in this province. To facilitate the establishment of dental public health services in localities not now enjoying same, and

to extend the benefits of a trained public health worker in existing health programmes, the Board agrees that it would be in the best interest of all to set up on a trial basis a regional unit (supervision only) wherein one D.D.P.H. dentist may direct the dental programme in more than one health unit. The Board wishes to point out that they still hold to their ideal of one D.D.P.H. dentist and associated staff in each health unit and that the above mentioned regional supervision be in the nature of an experiment, and further state that in the opinion of the Board, it would be ill-advised to approach the Legislature seeking amending legislation to confine the control of dental hygienists in public health service to those members of the College who possess academic qualification in dental public health. . . . Carried.

Dental Nurses' Alumnae

A letter was received from the Dental Nurses' Alumnae in respect to certain jurisdictional matters.

Motion: THAT a reply to letter presentation from Dental Nurses' Alumnae of Canada be forwarded, stating that this Board although without authority to direct or legislate control from a legal standpoint, express our appreciation of any effort by the Dental Nurses' Alumnae Association of Canada which has for its object the good and welfare of the dental profession in the Province of Ontario. . . . Carried.

Dental Research Fund

A letter was received from the Chairman of the Research Advisory Committee seeking an increased grant from the Board.

Motion: THAT the grant made to the Dental Research Fund of the Faculty of Dentistry, University of Toronto, be increased from Five Hundred (\$500.00) to One Thousand Dollars (\$1,000.00). Carried.

Dentists' Legal Protective Association

Doctor Harvey W. Reid, President of the Dentists' Legal Protective Association met the Board, by appointment.

Doctor Reid reported that the financial condition of the Dentists' Legal Protective Association was somewhat precarious. Doctor Reid stated that an organization is judged somewhat on its financial resources. The D.L.P.A. cannot live within its present budget even though great care is taken of its finances. The reserve, Doctor Reid stated, is much too low for safety's sake.

The Secretary of the D.L.P.A. elaborated upon many of the functions of the Association and the tremendous drains upon the funds of the Association. Doctor Gullett stated that the Association had the benefit of the highest standards of legal counsel at an extremely modest fee.

Doctor Reid stated that on the basis of a grant of Three Thousand Dollars (\$3,000.00) there was a hope gradually to increase the assets of the Association.

Motion: THAT the grant to the Dentists' Legal Protective Association be increased from Fifteen Hundred Dollars (\$1,500.00) to Three Thousand Dollars (\$3,000.00). . . . Carried.

Examining Referees

Motion: THAT fee for referee for examination on request of the Board be Ten Dollars (\$10.00) per examination and report. . . . Carried.

MISCELLANEOUS

Income Tax Relief for Post-Graduate Courses

Motion:

WHEREAS increased knowledge is essential to progress as it relates to a health profession, and

WHEREAS the Board of the Royal College of Dental Surgeons of Ontario acknowledging the benefits derived from post-graduate study in rendering a better service to the public and desiring that more members of the profession participate in post-graduate instruction, but realizing the sacrifice in loss of time from office with continued overhead costs, and costs attendant to their instruction for which no concessions are made to income deductions, therefore be it RESOLVED that the Canadian Dental Association make continued effort re tax deduction as it relates to post-graduate studies. . . . Carried.

Mileage Regulations

Motion:

THAT as from this date mileage will be paid at rate of Ten Cents (.10¢) per mile up to a maximum of one hundred and fifty (150) miles — one way — making a maximum of three hundred (300) miles return journey. . . . Carried.

Per Diem Allowances

(a) Examiners

Motion: THAT the per diem allowance for clinical examiners be set at Forty-five Dollars (\$45.00). Examiners setting written papers Ten Dollars (\$10.00), Reading papers Two Dollars (\$2.00), per paper. To be made retroactive to include Fall Examinations of 1955. . . . Carried.

(b) Extramural and Extension Lectures

Motion: THAT the per diem rate for clinicians on extramural and extension lectures be as follows, beginning December 1st, 1955.

Full Time Faculty Members — Twenty-five dollars (\$25.00).

Part Time Faculty Members — Forty-five Dollars (\$45.00).

Non Faculty Members — Forty-five Dollars (\$45.00). . . . Carried.

(c) Half Day

Motion: THAT per diem allowance for half-day be Twenty-five Dollars (\$25.00). . . . Carried.

Regulation of a Member in Respect to Graduate Study

It was pointed out that members of the College taking Graduate Study at the University of Toronto have been required to pay the annual licence fee. These members felt some disparity existed because members on graduate study outside Ontario were not required to pay the annual fee. In the past virtually all these members engaged in some practice during the year and therefore a licence was requisite. A Declaration Form has been developed to meet this situation.

Motion:

THAT the Regulation and Form re Declaration of a Member in Respect to Graduate Study be approved by this Board. . . . Carried.

Solicitations by Dentists

There is a most prevalent practice of solicitations by dentists for prizes for golf tournaments and other events. There was some question as to the propriety of dentists seeking such handouts from commercial organizations. The Board was in general agreement that this practice should be discouraged.

Motion: WHEREAS the dental profession is in a position of being able to provide prizes for their golf tournaments and similar events, the Board of the Royal College of Dental Surgeons of Ontario hereby frowns on the present procedure of solicitations for said prizes. . . . Carried.

Status of Faculty Staff from outside Canada

A letter was received from Dean Ellis respecting the status of a staff member who has been brought to the Faculty from outside Canada.

Motion: THAT the Board adhere to the ruling laid down in article 14, Section No. 2 of the Dentistry Act, in relation to issuing certificates of licensure and that a copy of this resolution be forwarded to Dean Ellis in reply to his inquiry. . . . Carried.

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:—

1. May not display any sign containing anything other than his name, degrees and profession and in which any letters larger than four inches are used.

2. May not display more than two signs in addition to one at or on his entrance door.

(a) Not more than one of these may be a suspended sign.

(b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type", and no colours shall appear in such signs other than white or black.

3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only un-illuminated letters or figures not larger than two inches):

(a) Add to his entrance sign, his office hours.

(b) Add to any sign the words "Open Evenings" and (when an entrance is difficult to find) the words "Entrance on . . ."

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:—

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice. The announcement shall not contain any reference to qualifications, procedure or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be the nature of a display.

2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:

(a) Use private professional cards.

(b) Issue accounts and receipts.

(c) Issue appointment cards.

(d) Mail to his patients recall notices.

(e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice, provided he is a certified specialist.

SOLICITED ADVERTISING

For the protection of the Profession from solicited advertising, this Board prohibits any Member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

RE LISTING OF DENTIST IN TELEPHONE DIRECTORIES FOR PROVINCE OF ONTARIO

- (1) No display advertising of any kind.
- (2) No black face listings in either white or yellow pages.
- (3) No specialists listed under separate group headings.
- (4) Mention of office hours is of no particular value, and is usually used only to increase space, therefore, to be excluded.
- (5) Mention of particular facilities or equipment, such as X-ray, gas extractions etc., not acceptable in either section.
- (6) Residence listing on yellow pages, as well as on white pages, is acceptable.
- (7) Designation as specialists may be used in both yellow and white pages, provided the dentist is a specialist certified in and restricted to the designated branch of dentistry.

SECRETARY'S REPORT RE ELECTION OF BOARD OF DIRECTORS

To the Board of Directors:

In accordance with the provisions of the Dentistry Act of Ontario and the By-Laws of this College, an election of the Board of Directors for the Royal College of Dental Surgeons of Ontario was held from October to December, 1956.

On the nineteenth day of October, nominations were called for by circular letter to each member of the College resident in Ontario on October 1st.

Valid nominations were received as follows:—

- For District No. 1 — Dr. I. W. Hamilton, Ottawa
 2 — Dr. W. J. Langmaid, Oshawa
 3 — Dr. M. V. J. Keenan, Sudbury
 4 — Dr. C. K. Hickling, Weston
 Dr. R. P. Lowery, Toronto
 Dr. W. K. Prendergast, Toronto
 Dr. E. Rollaston, Toronto
 5 — Dr. M. C. G. Bebee, Owen Sound
 6 — Dr. J. M. Campbell, Chatham
 Dr. D. C. Stiles, London
 7 — Dr. J. R. Hurton, Brantford
 Dr. R. O. Winn, Kitchener
 8 — Dr. A. H. Leckie, Hamilton

No valid nominations having been received for opposing candidates in Districts 1, 2, 3, 5 and 8, the nominated candidates were declared elected by acclamation.

Under the stated provision in By-Law No. 14, Section 6, three nominated candidates, namely C. K. Hickling, E. Rollaston and J. M. Campbell withdrew from the election by notifying the Secretary by registered mail and the remaining candidate in District No. 6, Dr. D. C. Stiles, was declared elected. As a result, elections were held in Districts 4 and 7.

On December 4th, ballots were mailed to all qualified electors in Districts 4 and 7, together with necessary instructions. The officially appointed Scrutineers counted the ballots on December 12th and made report herewith submitted, indicating that Dr. R. P. Lowery and Dr. R. O. Winn were elected as Representatives of Districts 4 and 7 respectively.

A communication from the Secretary of the Faculty of Dentistry, University of Toronto, stated that at a regularly held meeting of the Faculty Council, Dr. R. J. Godfrey was elected Representative to the Board by the said Faculty. Therefore the duly elected members of this Board of Directors for the ensuing biennial term are:—

- District No. 1 — Dr. I. W. Hamilton, Ottawa
 2 — Dr. W. J. Langmaid, Oshawa
 3 — Dr. M. V. J. Keenan, Sudbury
 4 — Dr. R. P. Lowery, Toronto
 5 — Dr. M. C. G. Bebee, Owen Sound
 6 — Dr. D. C. Stiles, London
 7 — Dr. R. O. Winn, Kitchener
 8 — Dr. A. H. Leckie, Hamilton

Faculty of Dentistry — Dr. R. J. Godfrey, Toronto.

The ballots as sealed by the Scrutineers are herewith presented and should be disposed of by direction of the Board.

WESLEY J. DUNN,
Secretary.

ELECTIONS

APPENDIX A

SCRUTINEERS' REPORT ON ELECTIONS

District No. 4

Number of ballots received	—	400
Number of valid ballots	—	390
Number of invalid ballots	—	10
Reasons for declaring ballots invalid:—		
Late	—	5
No validation slip	—	3
No ballot contained	—	2

The 390 ballots were marked as follows:

For Dr. R. P. Lowery	—	210
For Dr. W. K. Prendergast	—	180

Showing a majority of 20 for Dr. Lowery

Dr. Lowery is thereby declared elected.

District No. 7

Number of ballots received	—	126
Number of valid ballots	—	121
Number of invalid ballots	—	5
Reasons for declaring ballots invalid:—		
Late	—	3
No validation slip	—	1
No ballot contained	—	1

The 121 ballots were marked as follows:

For Dr. Hurton	—	58
For Dr. Winn	—	63

Showing a majority of 5 for Dr. Winn

Dr. Winn is thereby declared elected.

(Sgd.) R. S. WOOLLATT.

SCRUTINEERS

(Sgd.) COLIN C. ROUS

Toronto, Ontario.

December 12th, 1956.

UNIVERSITY OF TORONTO

Faculty of Dentistry

230 College Street,
Toronto 2-B.
March 13th, 1957.

To Dr. W. J. Dunn,

Registrar-Secretary,

Royal College of Dental Surgeons of Ontario.

Dear Dr. Dunn:

I wish to confirm the fact that the members of the Council of the Faculty of Dentistry, at a meeting on September 25, 1956, elected Dr. R. J. Godfrey as the Council representative to the Board of Directors of the Royal College of Dental Surgeons of Ontario.

Yours sincerely,

(Sgd.) P. W. MILLIARD,

Secretary.

ACTION

Motion: THAT the Secretary's report on the election be received and adopted. . . . Carried.

The President appointed Dr. Stiles and Dr. Hamilton to destroy the ballots. This destruction by fire was duly reported.

REPORT OF THE PAST PRESIDENT

Mr. President and Members of the Board of Directors:

It is customary for the President of the Board on completing his term of office to present a report to recall to continuing members and at the same time to acquaint new members of the Board with some of the events and decisions since our last annual meeting. This report offers the opportunity also to make some observations of a general nature with respect to the future.

In this connection I should like to commend our Secretary for his initiative in sending out information reports from time to time on events that concern the Board members and the profession.

"Today we live with crises at home and abroad, and not only the people who are oppressed but the politicians and the military men are involved: we are all in it. We do not, however, need to fear becoming bewildered by change or thrown into a panic by misfortune, because we can determine three vital things, namely; where we are, where we are headed, and what we had better do under the circumstances."

These words, quoted from a recent writer, I believe, apply to us in our relations with the public and the profession. Of all our decisions, however, the most important in my view are matters that contemplate the public good as it affects the future welfare of our people.

1.

The continued shortage of dentists in general practice necessary to properly care for the oral conditions of our present and ever increasing population continues to give us much concern. The prospect, however, is brighter as regards the increase in the number of graduating dentists within a few years by the establishment of new schools of Dentistry and the enlarged facilities of existing schools. This should soon result in a better ratio of dentists to population and the gradual increase in the number of dental hygienists will have an effect.

We may assume that the use of effective caries control methods will influence the demand for dental care. Nevertheless, it is safe to assume that the potential demand for dental care will never be entirely met.

The availability of dental assistants in sufficient numbers is a serious problem. The formal training of dental assistants at the moment is practically non-existent and it is probable that the Board may be requested and consider it their obligation to arrange for the training of young women as dental assistants.

Important to the end result in dental service is the dentist's understanding of both his patients' problems and requirements and the technical problems of his dental technician and laboratory. Dentists would do well to visit the laboratory of their choice. The dental practitioner will receive superior service from his laboratory if proper preparatory work is done and specific written instructions are sent.

2. Research

There is a certain interest in what happened yesterday and in the past decades. But I think what most dentists want to know is, "What does the future hold for our profession?". The emphasis will more and

PAST-PRESIDENT

more be upon the preventive aspects of dentistry.

Investments in dental research should enhance the welfare of our nation as well as bring dividends to the individual. For more fruitful and greater results new sources of funds for research must be sought and found to open new projects and to maintain current investigations. The dental profession itself can be proud of its financial support and approaches have been made to provincial authorities for financial and moral support for dental research.

The practical significance of basic research is not always appreciated but it is fundamental to the application of practical knowledge in dental practice. The practising dentist, however, is specifically interested in research which produces results which can be applied in clinical practice. Without considerable assistance here, research and scientific enquiry may languish and the beneficial results to the public may be delayed.

3. Dental Public Health

In Canada today the average person knows a great deal about public health compared with what his grandfather knew. This is especially true as regards dental public health through the efforts of dental public health agencies, The Red Cross and individual practitioners. Great credit is due to the people who quietly and tirelessly are helping to translate into practice, the ideals of dental public health services and measures.

If dentistry is to advance and indeed maintain its important position in the field of public health and improve its high professional standards in the changing social scene, it cannot be done by a small minority of dental leaders but by the efforts, no matter how insignificant they may seem, of every member of our profession.

4. Relation to Medical Profession

As representatives of the dental profession we must clarify our position in the public health picture and aid in bringing about a closer liaison and improving relations between the dentist and the allied fields.

The dental graduate receives training in the basic biological sciences equivalent in scope and detail to that of the medical graduate. The knowledge gained from this training should enable him to discuss health problems with the physician intelligently. We should not try to ape the medical profession nor devote our energies to become diagnosticians only.

Individually, and as a group, dentists must with determined effort, demonstrate to the medical profession that we are not usurping its role but that we are fellow members of a health team deserving of respect and co-operation. In one area alone, to add emphasis to my argument, it has been reported that from 30-35% of all cancer patients seek consultation from dentists first, despite the fact that physicians outnumber dentists 5 to 2.

5. Hospital Relations

If the treatment of dental ills for the public who require hospitalization is not regularized and provided for legally in hospitals, it can only result in a detriment to the public.

Dentistry has always felt it a privilege and indeed a necessity to co-operate with medicine in the total care of the sick and disabled in providing better health.

The dentist is anxious to have hospital services legally available to the public if in his opinion the best interests of the patient can be served by hospitalization. It should be pointed out that it is more costly and time consuming for the dentist to leave his office to treat patients in hospital.

6. Specialization

Approaches have been made to the Board during the past few years by several groups who believe that their particular branch of dental practice should be recognized as a specialty. While certain branches of dental practice have been recognized as specialties for many years, the addition of too many specialties will only result in the segmentation of dentistry, a state that should be avoided.

The brief presented by the diplomates in dental public health has considerable merit and should, I think, be given consideration.

7. Plans for Payment of Dental Services

The future does seem to portend that there will be an increasing demand by the public and organized groups for a type of pre-payment or post-payment plan of dental insurance.

There are valid objections to any form of compulsory dental service in which the historic dentist-patient relationship is done away with — in which the dentist is servant of a bureaucracy and dentistry as a free profession vanishes!

A post-payment plan such as that operated by the Saskatchewan Dental Association appears to have had considerable success and a similar plan might be instituted by a voluntary body such as the Ontario Dental Association.

8. Care of Welfare Patients.

Definite arrangements will soon be made with the Provincial Department of Welfare for providing dental care for children of welfare recipients. A full report on this service will be made.

9. Emergency Treatment of Patients

Some plan for the care of patients who require emergency dental treatment during summer vacation periods or over weekends is dental service that should receive attention. Arrangements should be made by local groups particularly in the larger centres whereby patients who through accident or because of the sudden onset of pain may seek immediate relief and may be directed to dentists who may be detailed in these areas to attend to legitimate emergency cases. A group such as the Academy of Dentistry in Toronto and similar groups in other cities would seem to be the appropriate agency to initiate and carry on such a service.

10. Overseas Graduates

As reported by our Secretary, and probably will be referred to in Dean Ellis' report, the matter of registering United Kingdom graduates especially for a year or two of training towards the D.D.S. degree, a requirement for licensure and the Board may be asked for a decision.

11. Canadian Dental Association

The Canadian Dental Association, through its officials, is to be commended for again making a presentation to the Federal Government on pension plans for self-employed persons. As this affects all the members of our profession it is gratifying that favourable action has been taken by the Federal Administration.

12. Reciprocity with State Licensure Boards

Since the accreditation of all Canadian Dental Schools by the Council on Dental Education of the American Dental Association it is expected that greater reciprocity between State Boards and our Board may be possible.

13.

Our relations between the Workmen's Compensation Board of Ontario, the Ontario Dental Association, the Dentists' Legal Protective Association and other official groups are most cordial.

PAST-PRESIDENT

14. Board Finances

Our financial position at the present time is sound but requires the vigilance and scrutiny of the Committee on Finance in strengthening our reserves.

15. Registrar-Secretary

The ever increasing business of the Board is a matter which I feel should be emphasized in this report. A full-time stenographer in addition to Miss Wilson has become a necessity and is now on our office staff. Our Registrar-Secretary's responsibilities are demanding more and more time and attention and the probability of increased duties in connection with the dental treatment of children of welfare recipients and duties in other areas point to the necessity of our Secretary devoting his full time and energies to Board work. The time has come again when serious consideration and action should be taken in this regard.

16.

The Board for many years has offered prizes to undergraduate students in the regular and dental nursing courses and it is suggested that the Board may wish to establish a prize to students in the Dental Hygienists' Course.

17. Illegal Practice

The problem of illegal practice by unqualified persons is still one of our problems and while the Dentistry Act and our procedure seem to be adequate in apprehending offenders one wonders if the penalties in conviction are severe enough to act as a deterrent to illegal practice.

In conclusion may I tell you how much I have appreciated the honour of being President and acknowledge the work performed by the various committees to the advancement of the Board's work. I congratulate the incoming President on his election and wish for him a very successful and satisfying term of office.

It is with pleasure and appreciation that I pay tribute to the splendid initiative and co-operation during the year from all members of the Board, our executive officer Dr. Dunn, and all other office staff and employees.

Respectfully submitted,

RICHARD J. GODFREY,
Past President.

ACTION

Dental Assistants

In respect to any possible training of Dental Assistants at the Ryerson Institute of Technology, it was the opinion of the Board that a course longer than one year was impractical. The Secretary was instructed to negotiate further as a member of the committee meeting with Ryerson to bring all possible information to the Fall meeting of the Board.

Dental Laboratories

The Board agreed that a measure of responsibility rested with each Board member to impart information in respect to each dentist's responsibility in his relationship with his laboratory.

Dental Research

The Board agreed that a further approach should be made to the Department of Health of Ontario for the provision of public moneys for dental research. The Secretary was instructed to make such an approach.

Specialization

The Board agreed that over-specialization was not desirable and that great care must always be exercised when proposals are received for the establishment of new specialties.

Prizes

Action in respect to prizes for Dental Hygienists was deferred.

Penalties Under the Act

The Government and Legislation Committee was directed to give study to that section of The Dentistry Act setting out the penalties for convictions under the Act.

Registrar-Secretary

Motion: THAT the Executive Committee be given the authority to arrange for a full time Secretary for the R.C.D.S. Board to take effect as soon as possible. . . . Carried.

Motion: THAT the report of the Past President be adopted. . . . Carried.

REPORT OF THE REGISTRAR-SECRETARY

Mr. President and Members of the Board of Directors:

1. Introduction

On this the occasion of the 204th meeting of the Board of Directors of this College, and my first report to this Board, I should be remiss if I did not express my sincere appreciation for your expressed confidence which resulted in my appointment as Registrar-Secretary-Treasurer of the Royal College of Dental Surgeons of Ontario. As the fifth incumbent of the Secretaryship of this Board, I am indeed mindful of the significant contributions of my predecessors. This Board has functioned under 33 presidents with the member you have so recently elevated to this post now number 34. During that time dentistry has developed virtually from a craft, requiring almost no formal training, to an honoured profession, possessing high standards of qualification. No group has played a more significant role in this development than has the Board of the College.

I am especially grateful to Dr. Don W. Gullett, my immediate predecessor, for his wise counsel and sound advice which have been freely given when I have made request. Because the Board is a legal body and therefore functions under legislation, a prodigious amount of background is required to appreciate, fully, the operations of the Board. Obviously, your secretary possesses no such experience and therefore deeply appreciates the counsel of Dr. Gullett, whose knowledge of Board affairs is encyclopaedic. It is my sincere wish to serve the Board and the members of our profession in a manner befitting the precedents established by those who have held this office before me.

2. Welfare

There were two areas of endeavour particularly, in which considerable effort was expended during the past year — dental services for welfare recipients and the dentist-hospital relationship. Welfare is dealt with in some detail in a special report appearing elsewhere and therefore no further need exists for enunciation here other than to record this consideration as a major area of concern for your Secretary.

3. Hospital Relationship

Permissive legislation has not yet been obtained respecting the provision of dental care in the public general hospitals of Ontario. On October 23rd a meeting was held in the office of the Minister of Health to discuss the various aspects pertaining to the dentist-hospital relationship. The profession was represented by the Dean, the Secretary of the C.D.A., and the President, Solicitor and Secretary of the Board. At this meeting our Solicitor presented a proposed amendment to the Public Hospitals Act and five proposed additions to the General Regulations made pursuant to the Act. These proposals were subsequently referred to the Ontario Medical Association and the Ontario Hospital Association for comment.

Subsequent to this meeting the same committee, with the exception of the solicitor, met with Dr. Fred Evis, Medico-legal consultant to the Department of Health. Dr. Evis pointed out that if a hospital drafted by-laws which were not in conflict with existing legislation and these by-laws received the approval of the Lieutenant-Governor in Council,

they would have the same effect in law as the General Regulations. Dr. Evis presented a draft of Model By-Laws for hospitals and it is noted that Section IX relates to Dental Service. A copy of this section is attached as Appendix A to this report.

Your Secretary had two further meetings, one with the Secretary of the Ontario Hospital Association and the Director of the Blue Cross Division and another with the O.H.A. Secretary and the General-secretary of the Ontario Medical Association.

The attitude of the Ontario Hospital Association is relatively clear. The O.H.A. in a letter to the Deputy-Minister of Health suggested an alteration of Section 50 of Part VII of the Hospital By-Laws from the presently worded section which reads as follows:

"Only a person qualified to practise medicine and registered under the provisions of the Medical Act shall be eligible to be a member of the medical staff of the hospital".

to

"Only a person qualified to practise medicine and dentistry and registered under the provisions of the Medical Act or the Dentistry Act (of Ontario) shall be eligible to be a member of the medical staff of the hospital".

It appears to be the view of the O.H.A. "that if order is to be maintained and proper controls exercised, some provision will have to be made for integrating the dentists into the professional staff organizations of the hospital."

The attitude of the O.M.A. is not as clear. The Association, however, appears to approve the suggested By-Laws as contained in Section IX, but is concerned over some of the proposals contained in the suggested General Regulations submitted by the Board, but not to the point of not granting to dentists hospital privileges.

The main area of contention in the Hospital By-Laws is Section 113 which places dentistry as a service under the department of surgery. At a meeting of the C.D.A. Hospital Dental Services Committee, which your secretary attended, the following amendment was proposed:

"The Dental staff shall operate as a department under the dental surgeon-in-chief with Oral Surgery under co-direction of the dental surgeon-in-chief and the surgeon-in-chief of the department of surgery."

Dentistry is an autonomous profession. It functions in this province under the Dentistry Act similarly to medicine under the Medical Act. Dental students are educated under University discipline within a separate Faculty and upon graduation receive the degree of Doctor of Dental Surgery.

We recognize areas of joint responsibility within the hospital administration in respect to the field of Oral Surgery but fail to understand why areas of specific dental interest such as operative dentistry, paedodontics, orthodontics, or periodontics should come under the oversight of a department of surgery.

While it may be argued that surgery itself is divided into several distinct phases such as orthopedic surgery, thoracic surgery, general surgery, etc., and separate departments are not established for each, it must be remembered that all engaged in these varied pursuits are members of the same profession and all at some time or other, either as graduates or under-graduates, have been exposed to some general knowledge or training in these areas.

Dentistry, too, has several areas of concern and while the chief of a dental department may have only cursory interest in, say, orthodontics, he was required, at least as an undergraduate, to possess certain basic knowledge in the field.

In expressing our view to the O.M.A. we stated that it is funda-

REGISTRAR-SECRETARY

mentally untenable to have responsibility for those areas of specific dental concern delegated to a member of another profession, albeit we both are concerned with the health and welfare of the patient.

From indications it seems that further discussions will take place with the policy-making body in the O.M.A.

While technically our position has not changed since one year ago, it is my view that significant progress has been made with the groups intimately concerned.

4. Foreign Graduates

There has been a great increase in the number of enquiries from graduates of overseas dental schools. This problem, as outlined in the special report of the Dean, is causing considerable consternation at the Faculty. The number of persons seeking admission to a school already taxed beyond capacity is alarming.

The position of United Kingdom graduates is perhaps most acute. The immigration policies of the Federal Government and the vast numbers of people in the United Kingdom desiring to emigrate to Canada are creating problems for which some solution should be found. On the one hand we require each applicant to be a graduate of a school approved by the Board and on the other realize that only a very few opportunities for admission become available at an advanced-standing level in the Faculty.

It is suggested that the Board might give consideration to the advisability of accepting holders of a Commonwealth D.B.S. degree for examination. These examinations should be equivalent to the standards expected of our own graduates.

It should be necessary for the applicant to supply the following when he seeks examination by the Board — evidence that the applicant is registered by the General Dental Council or comparable group in Australia and New Zealand, a transcript of his University record, proof of the degree of B.D.S., a picture, birth certificate and declaration of intention for citizenship.

5. Discipline Committee

The chairman of the Discipline Committee has instructed the Secretary to report for the committee. It has not been necessary since the last session of the Board for the Committee to meet. All matters arising have been handled through the office of the Secretary. Complaints in respect to fees and inadequate prosthetic services are the most prevalent of all complaints recorded. Almost without exception complaints respecting fees arise through the failure of the dentist to inform his patient, in an ethical and professional manner, of the approximate fee involved for the proposed service. Special note has been taken and we have no record since the last meeting of any complaint having been submitted in respect to fees where an estimate has been given prior to the rendering of treatment. Presumably any differences are settled between patient and dentist at a time when reasonable explanation is possible.

We believe that this office has been able to provide a reasonable service on many occasions, because almost every patient who telephones seems appreciative of the explanations given. Many times patients call feeling not at all well-disposed to the profession, but after being able to re-orient their own thinking or realize the problem from the dentist's point of view, they often terminate their conversation in a most conciliatory and friendly fashion. Most of the explanations given by the office are unnecessary. They should have been made in the dentist's office in the first place. It is suggested that the Public Relations Committee might take this problem under advisement as most of these matters do not really fall within the purview of the Discipline Committee but rather are examples of inattention to criteria for good public relations.

6. Centenary of Ontario Dentistry

In 1967 the Centennial of dentistry in Ontario will be celebrated when the Ontario Dental Association reaches its 100th anniversary. It was through the efforts of the O.D.A. in 1867 that the R.C.D.S. was legislated into existence the following year. Traditionally centenaries are times of celebration. This occasion should be no different for dentistry.

1967 marks the centennial celebration of Canada as a nation and undoubtedly many significant events will take place in that year. Ontario dentistry should develop plans appropriate to the occasion.

Finances, of course, will be important to any plans. It is therefore suggested that a fund might be established now to which the Board and the O.D.A. could contribute annually on a matching basis. An annual amount up to \$500.00 from each organization might be considered.

7. Delineation of Activities

From time to time the Secretary is presented with proposals which could well prove to be of value to the members of the profession from the standpoint of services or monetary advantage. In a meeting with the Executive of the O.D.A., I pointed out that because the Board functions under delegated legislation from the Legislature of this province the first responsibility of the Board must be to the public from whom their authority stems. The O.D.A., although having definite professional responsibilities, is not so circumscribed by law and should rightfully have as a prime area of effort programmes or services of benefit to the profession.

Problems arise, however, when proposals are directed to our office presumably because the Board secretary is a dentist and may be thought by those making proposals to be more familiar with the needs and views of members of his profession in the province. It would seem appropriate to develop some type of liaison between the Board and the O.D.A. in order to deal with matters which fall into the above category.

8. Ratio of Dentists to population

1931 — 1 to 1906
1938 — 1 to 1926
1952 — 1 to 2118
1955 — 1 to 2262
1956 — 1 to 2283
1957 — 1 to 2353

It may be noted that while the increase in ratio from 1955 to 1956 was 21 per dentist, the increase from 1956 to 1957 was 70. Recent figures indicate that the population in Ontario is increasing at the rate of 12,000 per month. Ontario is second to British Columbia in terms of patient-dentist ratio. Our ratio will certainly worsen at least until classes are capable of being augmented in the new Faculty building.

9. Changes in Register

As of April 30th, the number on the Active List of the Register was as follows:

Annual Fee paid	2262*	
Less deceased since paying fee	2	2260
Honorary Licenses issued	110	
Less deceased since issuance	3	107
Fee unpaid (plus)		5
		2372

* Including 21 who paid \$25.00 fee.

REGISTRAR-SECRETARY

The following changes in the list have occurred during the year:

Additions

Graduates of University of Toronto	71	
N. D. E. B. Certificates	8	
D. C. C. Certificates	1	
Board Examinations	2	
Resumed licence (2 Inact., 10 Act.)	12	94

Deletions

Deceased (Hon. 9; Active 18)	27	
Retirements (Active in '56)	14	
Inactives (Did not renew \$25. Cert.)	3	
Left Ontario	5	49

Increase over previous year 45

As of April 30/56	
number on active register	2327
Add additions for 1956-57	94

2421

Less Deletions 49

Number on Active Register 2372

10. Dental Hygienists

On April 30th, the number of hygienists on the Dental Hygienists' Register was as follows:

Registered to date	— 28
Holding 1957 Renewal Certs.	— 26
Residing and Practising in Ontario ..	— 21

11. Licentiates Deceased — Honorary Members — Extramural and Extension Lectures

Appended to this report will be found a list of the licentiates who died during the year (Appendix B). It will be noted that two past-presidents of this Board are included in the list — Dr. Herbert Irvine (1935-37) and Dr. Leonard Douglas Hogan (1939-41). This list of Honorary Members with the proposed names of those to be added this report of the Extramural and Extension Lecture service. Although the number of lectures has remained constant the attendance has increased year by action of the Board is included in Appendix C. Appendix D is a by 450.

Respectfully submitted,

WESLEY J. DUNN,
Registrar-Secretary.

ACTION

Motions: THAT the Secretary take necessary steps to institute a questionnaire as it relates to liability insurance. . . . Carried.

THAT the following: Drs. M. R. Billings, C. E. Brooks, W. L. Chalmers, H. L. Cheney, O. S. Clappison, W. A. Dalrymple, T. D. Higginson, C. C. MacLachlan, W. D. Ramore, Herbert W. Reid, H. B. Rickard, J. N. Stewart, be granted Honorary Membership in the R.C.D.S. of Ontario as of January 1st, 1958. . . . Carried.

THAT \$100 be made available for the establishment of a centenary fund on the basis of the suggestion in the Report of the Secretary. . . . Carried.

THAT the report of the Registrar-Secretary be adopted. . . . Carried.

EXTRACT FROM
A SUGGESTED MODEL SET OF BY-LAWS
FOR
ONTARIO PUBLIC GENERAL HOSPITALS
PART IX
DENTAL SERVICE

Appointment

112. (1) The Board, on the advice of the Medical Staff, may appoint one or more dentists to the professional staff of the Hospital.
- (2) No person other than one holding a Certificate of Licence under The Dentistry Act of Ontario shall be eligible for appointment to the dental service.
- (3) Appointment to the dental service shall be for one calendar year, or the remaining part thereof, and may be a full time or a part time appointment, as determined by the Board.
- (4) An applicant for membership on the Dental Staff shall submit his application in writing to the administrator on a form similar to Form I.
- (5) Each application shall contain a statement on the part of the applicant that he has read the by-laws and rules of the Hospital and the General Regulations under The Public Hospitals Act of Ontario, and an undertaking that, if he is appointed to the Dental Staff, he will govern himself in accordance with the requirements set out in the said by-laws, rules and regulations.
- (6) The administrator shall refer the application to the secretary of the Board who shall forthwith make the contents of the application known to the secretary of the Medical Staff.
- (7) Before making an appointment to the Dental Staff, the Board shall ask for and receive a report from the Credentials Committee of the Medical Staff as to the professional reputation and experience of the applicant and the authenticity of his qualifications.
113. The Dental Staff shall operate as a service under the Department of Surgery.

Head of the Dental Service

114. (1) Where the Board has appointed more than one dentist to the staff of the dental service, it shall appoint, annually, one of the members of the Dental Staff who is considered by the Board best qualified by training, experience, ability and judgement to be the head of the dental service.
- (2) Before making the appointment the Board may ask for and consider the recommendation of the Credentials Committee of the Medical Staff.
- (3) The head of the dental service shall supervise the professional care given by all members of the Dental Staff and shall be responsible to the Board, through the chief-of-staff and the chief of the Department of Surgery, for the quality of care given patients by members of the dental service staff.

Dental Patients

115. (1) Each patient admitted for dental operation or treatment shall be admitted on a surgical ward and shall be the responsibility of the chief of surgery, or of a surgeon specified by the chief.

REGISTRAR-SECRETARY

- (2) Where there has been no division of the Medical Staff into departments, a dental patient shall be assigned by the president of the Medical Staff to the care of a surgeon on the active staff of the Hospital.

Records

116. Before dental surgery is performed on a patient in the Hospital, a complete medical examination shall be performed and a case history shall be completed on the patient by a member of the Medical Staff, with the same thoroughness as if the patient had been admitted to undergo a general surgical operation.

Consultation

117. Indicated consultations shall be held on a complicated dental surgery case in the same manner as if it were a general surgery case.

Medical Staff Meetings

118. (1) A member of the Dental Staff shall not be eligible to vote at a Medical Staff meeting, or to hold office on the Medical Staff executive.
- (2) A member of the Dental Staff shall not be required to attend Medical Staff meetings unless a patient is to be presented who was examined by, operated on by, or received treatment from the member of the Dental Staff.
- (3) When the case of a patient who has been examined by, operated on by, or has received treatment from a member of the Dental Staff is to be presented at a general, or departmental Medical Staff meeting, the dentist who examined and/or treated the patient shall attend at the time and place named for the meeting prepared to present the dental aspect of the case to the Medical Staff, if he has been given forty-eight hours notice by a Medical Staff officer of the meeting and the name of the case to be presented.
- (4) Failure of the dentist to appear and present his part of the case of which he received proper notice under sub-paragraph (3) may subject him to disciplinary action recommended to the Board by the Credentials Committee, through the Medical Staff Advisory Committee, similar to the action which might be taken against a physician on the Medical Staff for neglecting to comply with some provision of the Hospital by-laws.

TREASURER

WESLEY J. DUNN

REPORT OF THE TREASURER

Mr. President and Members of the Board of Directors:

Once again an examination of the Auditor's Report which follows reveals an improved financial position. During the year the Reserve Fund has been increased by \$10,000.00. Should it be the desire of the Board to augment, further, this Reserve Fund, suitable resolution to that effect is required.

It will be noted that the surplus recorded for 1955-56 has been considerably reduced. This is largely accounted for by increases in grants, and increased costs for printing, stationery and office supplies, and the lecture programme. The surplus, nevertheless, is still considerably higher than the amount budgeted.

In accordance with regulations, first fee notices were mailed to the last address of all names appearing on the list of members on November 28th and 29th last. 352 second notices were mailed on January 15th to those who had not paid the fee on that date. Drafts were issued on 131 members on February 4th who had not paid the fee. As a result of this procedure, the fees of the following remained unpaid on April 1st and were entered into Division Court for collection: Doctors H. J. Caulfield, Ayr; W. H. Dean, Toronto; J. G. S. Macintosh, Toronto; W. C. McLean, Toronto; C. C. Smart, Ottawa; G. A. Watson, Stayner. Notification has been received from the Court that H. J. Caulfield, W. C. McLean and C. C. Smart have paid with costs. Execution of judgment is in progress for the others.

Section 22(3) of the Dentistry Act of Ontario provides the following:

"Where default is made in payment of the annual fee and such default continues for a period of one month the licence of a member so in default shall lapse but such licence may be renewed thereafter upon payment of the fee and an additional sum not exceeding \$10 as may be prescribed by by-law of the Board and such sum shall be recoverable in the same manner as the annual fee as set out in subsection 1. R.S.O. 1937, C.227, S.19 (2, 3).

The present custom of the Board is to add a penalty of \$5.00 for late payment on March 1st of the year in question. This action is in accord with By-Law #12, Section 2 which is as follows:

"Any such member whose said annual fee is not paid on or before the first day of March next following, shall pay in addition to the said annual licentiate fee the sum of Five Dollars before becoming entitled to have his Licence renewed. Any such member whose annual fee (plus any applicable penalty) is not paid on or before the first day of April next following, shall be liable to have the unpaid account entered in Division Court for Collection".

Because of the extra clerical work and associated expense involved with those who are in default of annual fee, it is recommended that the Board give consideration to an amendment of By-Law #12, Section 2, to give effect to a penalty to the extent permitted in Section 22(3) of the Act.

TREASURER

Some years ago a special current account was created for the Inspector apart from the \$200.00 petty cash account he maintains. This account stands at \$344.00 and has remained constant at this level for the last two years. It is recommended that the Board give consideration to reducing this emergency account to \$200.00 and transferring this amount to a savings account and thereby receive some benefit from the interest.

The appointment of auditors for the ensuing year is necessary.

Respectfully submitted,

WESLEY J. DUNN
Treasurer.

ACTION

Motions: THAT By-Law 12 Section 2 be amended increasing the penalty permitted in this Section to the extent permitted in Section 22(3) of the Act. . . . Carried.

THAT the special current account of the inspector be reduced to \$200.00 and that amount be transferred to a Savings Account. . . . Carried.

THAT the firm of Thorne, Mulholland, Howson & McPherson be appointed auditors for the year 1957-58. . . . Carried.

THAT the report of the Treasurer be adopted. . . . Carried.

AUDITORS' REPORT

We have examined the books and accounts of the Royal College of Dental Surgeons of Ontario for the year ended April 30, 1957. All our requirements as auditors have been complied with and we report that the above balance sheet is in accordance with the books and, in our opinion, fairly presents the financial position of the College as at April 30, 1957.

REPORT OF THE EXECUTIVE COMMITTEE

Mr. Chairman and Members of the Board of Directors:

On direction of the November 1955 meeting of the Board your Executive Committee met January 26th 1956 to discuss our position with respect to dental treatment of welfare recipients in the province of Ontario. The committee was unanimous in recommending that a committee be appointed to reapproach the Minister of Welfare of the province with a view to implementing the brief previously placed before his Department.

A committee composed of the President, the Secretary and Dr. Lowery met the minister on October 9th, 1956 and placed before him the Board's recommendations. The government of Ontario has since announced through the Speech from the Throne that the Department of Welfare would provide dental care for the children who qualify under mothers' allowance and direct relief. It is estimated that 30,000 children under the age of eighteen would qualify and it is also stipulated that the Board of the Royal College of Dental Surgeons of Ontario would administer the Plan.

The committee directed the Secretary to travel to the province of Alberta and make a study of the Alberta Welfare recipient's dental treatment plan which has been in effect since 1947, also a study of the Ontario Medical Association Welfare Plan. The Secretary's very complete and excellent report on his studies together with his recommendations and conclusions are submitted for this meeting.

As a great deal of work has been done by the Board over the past number of years to secure dental treatment for welfare recipients, your Executive Committee recommends that the Board take action to institute a plan at this meeting.

A committee appointed by the Board met the Minister of Health and officials of the Ontario Hospital Service Commission in respect to the status of dentists in Ontario Public Hospitals. They were informed that members of our profession could not be appointed to staff under the present Public Hospitals Act. Dean Ellis and our Secretary will report to the Board on this meeting.

The licensing of foreign dentists other than graduates of approved schools is a problem to which the committee recommends consideration at this meeting. Because of new Canadian immigration policy many of our British confereres, holding B.D.S. degree, wish to come to Canada to practise. It will be noted that the Board of British Columbia has given an examination and has licensed some of these men.

The new schedule of fees as negotiated by our representatives to the Workmen's Compensation Board has had an exceptionally good reception from our members and the very cordial relations that exist between the two Boards are a source of satisfaction.

It will be noted that fewer cases of illegal practice have been reported to our inspector. The Discipline Committee is to be congratulated on the method of dealing with complaints that come before it in a manner to create the best possible public relations.

Respectfully submitted,

M. V. J. KEENAN,
C. M. PURCELL,
R. P. LOWERY,

W. J. LANGMAID,
M. C. G. BEBEE, Chairman.

ACTION

Motion: THAT the report of the Executive Committee be adopted. . . .
Carried.

REPORT OF THE SECRETARY ON VARIOUS ASPECTS OF THE ESTABLISHMENT OF A DENTAL TREATMENT SERVICE FOR CERTAIN WELFARE RECIPIENTS

INTRODUCTION

On Monday, January 28th, 1957, it was announced in the Speech from the Throne in the Ontario Legislature that the Department of Public Welfare would provide dental care for approximately 30,000 children who qualify under mothers' allowances and direct relief. Representations by the profession had been made to the Department for some time prior to this date. The proposed plan stipulated that the funds would be provided by the Department of Public Welfare and the Royal College of Dental Surgeons of Ontario would administer the scheme.

A precedent for such a programme was established in Ontario over twenty years ago when the Medical Welfare Plan was inaugurated. Initially the medical profession received only a token payment for the services it performed. Over the years, by negotiations with the Government, the financial basis of the contract has improved and the Plan is now in a position to provide a more reasonable payment for those services which come within its scope. Prior to the inception of this Plan, the medical profession provided necessary medical care to welfare recipients, usually without payment, much the same as the dental profession provides now. The purpose of the Plan is to ease this economic burden providing a partial payment for these services. This plan is administered by the Ontario Medical Association.

ALBERTA PLAN

A somewhat similar arrangement has been functioning in Alberta since June 1947. This Plan operates on a monthly per capita grant from the provincial Government and administration is under the authority of the Board of Directors of the Alberta Dental Association. It is a part of a general treatment service, medical, surgical, dental and limited optometrical, instituted by the Department of Health for the benefit of all provincial old age and blind pensioners, their spouses and dependent children, and recipients of widows' and mothers' allowances and dependent children.

In 1953 the grant from the provincial government, which up to that time was 25 cents per eligible person per month plus 1¼ cents per individual per month for administration, was increased to 33 1/3 cents per eligible person per month.

Treatment is given in private offices only and payment is made under a Schedule of Fees which is adjusted periodically to conform to the grant from Government, and which, though considerably below the fees in effect generally in the province in private practice, is accepted by the profession as fair remuneration. There is free choice of dentist by the recipient and the right to accept a patient or not is retained by the dentist.

An outline of the development and operation of this Plan may be perused in the 1956 Transactions of the Canadian Dental Association, pages 154-162.

Administration of the Alberta Plan

During February 19th and 20th of this year we visited the offices of the Alberta Dental Association to study the administration of the Alberta Pensioners' Dental Service.

The plan is administered by a young man, the Office-Manager, assisted by one female employee. The Secretary of the Association has general oversight and signs all cheques and is, therefore, bonded in the amount of \$15,000.00. A member of the Alberta Board reports to the Board on the Plan.

The Government Department supplies each eligible recipient with an Entitlement Card which is numbered and the names of the spouses and dependents are listed. A similar record card is supplied the Association office. The lists are revised monthly and the necessary changes are made in the files. There are from 500 to 600 changes per month with an average overall monthly increase of about 200. At the present time there are more than 35,000 persons on the rolls, twice the number of 1947.

The patient has free choice of dentist and after applying to the dentist for treatment and showing the Entitlement Card, the case is charted on a form provided by the Association. This chart is then forwarded to the Association office for authorization, where at that time entitlement is checked and fees itemized. This chart is then returned to the dentist and, on conclusion of the treatment, the patient signs a statement on one side of the chart that he has received the services indicated, the dentist another statement that he has performed those services. The dentist then returns the chart to the office for payment.

Emergency conditions however cannot receive prior authorization and there is sufficient leeway in the regulations to provide for this eventuality. There are about 500 charts processed monthly on an average.

Office Procedures

The office procedures involved are kept as uncomplicated as possible.

The treatment chart or authorization form when received from the dentist is checked to see that the following information appears:—

- (a) Full name as stated on Entitlement Card
- (b) Age
- (c) Address
- (d) Parent or Guardian's name
- (e) Entitlement Card No.
- (f) Dentist's name and address
- (g) Date of examination
- (h) Charting of treatment required
- (i) Listing of indicated treatment.

If the above is in order the fees are apportioned to each service and a total obtained and a number is given to the card.

Before returning this card to the dentist another record card is completed. This card which remains on file in the Association office is a continuing record of the service rendered to each patient. It contains the name, address, age, parent or guardian's name and the date of the original examination by a dentist.

After the chart is authorized, the information is transferred to this patient's History Chart — the date, the number given to the Treatment Chart, the dentist's name and the authorized fee.

The Treatment Chart is then returned to the dentist.

As the dentist provides treatment he records these services in the place provided and on completion of the case has the chart signed by the patient or parent and signs it himself and returns the chart to

WELFARE SERVICES

the Association for payment.

When the treatment record is received, the services are recorded on Patient's History Chart on file in the office and the total fees should correspond with the amount previously authorized which appears on the form. This authorization is then completed and the card may be returned to the non-active file.

In order for the dentist to receive payment a ledger must be opened, and a Ledger Sheet is prepared for each dentist. As a case is completed the following information is placed on the ledger sheet:— Date when chart processed as complete, the number of the Treatment Chart and the Total Fee is placed in the credit column. Of course one dentist may have several completed cases in one month and a continuing balance is kept. Early in the following month a cheque is issued to the dentist, the number of the cheque is recorded in the appropriate column and the amount is entered in the debit column and the balance returns to 0. These cheques are signed by the Secretary of the Association.

The Treatment Cards are kept in alphabetical order for the entire month and from these the statistical data are maintained and the nominal roll completed.

Statistical Data

The statistical data include: Date completed, Treatment, Form Number, Amount of Fees, Age, Welfare Classification (mothers' allowance, old age pensioner, etc.), and then the various types of treatment services are recorded. Thus at the end of each month it is possible to tabulate the number of recipients served in each category and a breakdown of costs and the various types of service received are possible.

Nominal Roll

At the end of each month a report is made to the Government and this is called a Nominal Roll. The following information is provided:

- (1) Date case completed
- (2) Name of recipient
- (3) Number of Treatment Chart
- (4) Entitlement Card Number
- (5) Dentist's name
- (6) Total Fees assessed.

Financial Report

A firm of Chartered Accountants was retained to set up the Books for the Plan and this same firm makes an annual audit of the Books, and a copy is provided the Government.

The Revenue and Expenditure Statement for 1956 is included in order that some idea may be gleaned of the financial operation of the plan.

ALBERTA DENTAL ASSOCIATION PENSIONERS' TREATMENT FUND

Revenue and Expenditure Statement

Year Ended Dec. 31, 1956

REVENUE

Monies rec'd under agreement with the Province of Alberta represented by the Department of Health and Public Welfare	146,492.30
Less net payments to dentists for services provided during period	133,968.11

WELFARE SERVICES

Excess contract receipts over cost of Treatments	12,524.19
Bond Interest Revenue	162.50
Total	12,686.69

EXPENDITURE

General and Administrative Expenses	
Administrative Salaries	2,000.00
Office Salaries	6,782.50
Print., Stat., Post and Office	680.15
Fid. Bond Prem. (\$15,000.00 Bond)	75.00
Accounting and Auditing	200.00
Rent	745.00
Utilities	126.37
Unemployment Insurance	35.10
Employees' Pension Plan	254.71
Prov. for Dep. Furniture and Fixtures	263.13
	11,161.96
Net surplus for year	\$1,524.73

Two Bank accounts are kept — Pensioners' Trust Account from which all treatment fees are paid, and Pensioners' General Account for administration. The monthly cheque from the Government is deposited to the Trust Account and transfers to the General Account are effected when required.

Services in Categories

A breakdown of the services in the various categories is presented for 1955 and 1956.

Statistical Summary for the Fiscal Year Ending December 31, 1955

Classification	Number Eligible	% Taking Advantage	No. of Cases per grp.	Disburse- ments per grp.	Case Average per grp.
Old Age Pensioners	19,325	9.16%	1,771	\$41,197.00	\$23.26
Old Age Pensioners Dependents and Spouses	2,327	8.04%	187	\$ 4,360.50	\$23.32
Blind	383	30.81%	118	\$ 2,596.50	\$22.00
Blind Dependents and Spouses	240	17.50%	42	\$ 781.00	\$18.60

Mothers' Allowance Dependents	4,193	40.62%	1,703	\$33,415.84	\$19.62
Old Age—65-69 yrs.	5,317	23.30%	1,239	\$31,693.74	\$25.58
Old Age—65-69 yrs. Dependents and Spouses	1,286	19.05%	245	\$ 5,521.50	\$22.54
Widows	737	17.37%	128	\$ 3,809.00	\$29.76
Widows' Dependents	4	75.00%	3	\$ 34.00	\$11.33
TOTALS	35,547	17.22%	6,120	\$140,136.58	\$22.90 (Aver.)

Statistical summary for the Fiscal Year ending Dec. 31, 1956.

Classification	Number Eligible	% Taking Advantage	No. of Cases per grp.	Disburse- ments per grp.	Case Average per grp.
Old Age Pensioners	19,878	8.01%	1,593	\$ 35,344.62	\$22.19
Old Age Pensioners Dependents and Spouses	2,387	7.71%	184	4,423.50	24.04
Blind	393	28.75%	113	2,692.00	23.82

WELFARE SERVICES

Blind Dependents and Spouses	229	16.59%	38	838.00	22.05
Mothers' Allowance	1,791	37.47%	671	14,307.50	21.32
Mothers' Allowance Dependents	4,351	40.68%	1,770	35,272.00	19.93
Old Age—65-69 yrs.	5,374	23.33%	1,254	30,448.49	24.28
Old Age—65-69 yrs. Dependents and Spouses	1,392	23.99%	334	7,347.50	22.00
Widows	797	17.69%	141	3,226.50	22.88
Widows Dependents	4	100.00%	4	113.00	28.25
	36,596	16.67%	6,102	\$134,013.11	\$21.96

Of specific interest to Ontario are the figures relating to Mothers' Allowance.

It will be noted that in 1955 there were 4,193 eligible for whom a sum of \$16,772.00 was received. However fees for this group totalling \$33,415.84 were paid. The average cost therefore per eligible person was \$7.97/yr. or 66½ cents per month. These figures do not include administrative costs.

1,703 cases were completed representing 40.62% of the total. The average cost per case completed was \$19.62.

In 1956 there was a slight increase. There were 4,351 eligible for whom a sum of \$17,643.96 was received. Fees totalling \$35,272.00 were paid. The average cost per eligible person was \$8.11 per year or 67½ cents per month. Again administrative costs are not included.

1,770 cases were completed representing 40.68% of the total for a very slight increase over 1955. The average cost per case completed was \$19.93.

Mothers' Allowance Breakdown

The chart on the opposite page shows the breakdown of Mothers' Allowance group for each fiscal period from June 1st, 1947 to December 31st, 1956. This is the only group in Alberta which corresponds with the Ontario proposal. (See chart, page 33.)

It is obvious, therefore, that the lack of demand in some of the other categories makes it possible to continue to provide service to the Mothers' Allowance group.

ALBERTA EXPERIENCE RELATED TO ONTARIO

What then could this mean in Ontario? In the early months of the plan it would be reasonable to assume that demands would be slight, but experience indicates emphatically that an adequate reserve fund commensurate with the scope of operations must be established because of the great variation in accounts payable from month to month.

In Ontario 30,000 children are eligible for the proposed service. On estimates based on Alberta experience the average cost per completed case would be \$20.00 with 40% of the total number receiving care, or 12,000. The total estimated fees would then be \$240,000.00. Add to this an estimated administration cost of 6½% or \$15,600.00 and the overall demands would be \$255,600.00. In order to provide this sum a per capita monthly grant of 71 cents would be required.

While this 40% figure may seem high, there may be a reasonable and perhaps alternative explanation. There are no figures available giving the exact number of **individual** children cared for. In other words many of these completed cases may be made up of children who have had two completed charts returned at perhaps 6 months' interval.

MOTHERS' ALLOWANCE

Fiscal Period	Number Eligible	No. of com- pleted cases	% Taking Advantage	Receipts Per Period	Disbursements for Treatment	Aver. Cost Per Case
Ten months to Mar. 31, 1948	3,291	674	20.48%	\$ 8,638.88	\$10,075.00	\$14.95
One year to Mar. 31, 1949	3,274	867	26.48%	10,313.10	12,532.00	14.46
One year to Mar. 31, 1950	3,343	833	24.92%	10,530.45	13,245.00	15.90
One year to Mar. 31, 1951	3,429	833	25.75%	10,801.35	14,944.00	16.92
One year to Mar. 31, 1952	3,454	1,150	33.29%	10,880.10	18,646.00	16.21
Nine months to Dec. 31, 1952	3,529	888	25.16%	8,337.26	16,326.00	18.39
One year to Dec. 31, 1953	3,652	1,418	38.83%	13,831.95	29,232.00	20.62
One year to Dec. 31, 1954	3,880	1,528	39.38%	15,520.00	29,123.00	19.06
One year to Dec. 31, 1955	4,193	1,703	40.62%	16,772.00	33,415.84	19.62
One year to Dec. 31, 1956	4,351	1,770	40.68%	17,404.00	35,272.00	19.93

The original per capita grant of 26 $\frac{1}{4}$ cents per month was increased to 33 1/3 cents effective Apr. 1, 1953.

The fee schedule was increased approximately 33 1/3% effective Oct. 1, 1952 and was reduced slightly June 1, 1953.

The denture fee was increased by \$5.00 per denture effective Oct. 1, 1954.

WELFARE SERVICES

It is difficult to estimate this number but it may be reasonable to believe that only 3 individual children out of 10 sought service and the other 1 shown in the percentages may have come from within the 30% group receiving care over two series of appointments. This then indicates that while the demand may only be 30% the desire on the part of a small proportion may well increase the number served until it appears that 40% received dental care.

From the experience of the Alberta Plan and from the Welfare Plan administered by the Ontario Medical Association it is apparent that from an administrative standpoint the Mothers' Allowance group presents certain difficulties. Alberta does not have a service for those receiving welfare under an Unemployment Relief Act. This group in Ontario again through the experience of the Ontario Medical Association, is by far the most difficult to administer. The great number of changes within the Mothers' Allowance group and the Unemployment Relief Recipients require considerable alterations to the records and considerable correspondence to check entitlement.

COSTS

How then can the costs of this service be reduced? Only two methods seem to be available:—

(1) Reduce the fees allowed for services.

(2) Provide only absolute essential or emergency care.

In Ontario, at the present time, the only negotiated fee schedule in existence is the schedule of the Workmen's Compensation Board. With few exceptions this schedule has been generally accepted. While it is not possible to consider treatment other than necessary restorations, extractions, prophylaxes, and radiographs, it would be unrealistic to establish a lower schedule. However, if finances are a factor it may be possible only to provide extractions and relief from pain. A reduction of service to this degree would be most unfortunate and could not reflect favourably either on the department or the profession.

It therefore seems essential that the Department of Public Welfare should be apprised to these facts and that a monthly grant commensurate with the operations be obtained.

Recommendation:

It is recommended that a per capita monthly grant of Seventy-one cents per eligible child be sought in order to finance this programme.

ADMINISTRATION

While it is true that the Alberta programme is operating most effectively within the organization of the Alberta Dental Association, there is some doubt in respect to possible future developments whether or not dental boards or associations should administer such plans directly. It would seem more appropriate to develop an agency which could establish the necessary administrative machinery to conduct any approved plan that may come into existence. Dentistry has hardly opened the door to pre-payment plans and in view of the complete change of purchasing habits by the public in general, there is no doubt that the profession must provide means for budgetary payments.

Unions, too, are interested in health plans and again a common agency could take such schemes, if desirable, into its administrative organization. At the recent meeting of the Health Insurance Studies Committee a statement was approved in respect to Group Dental Health Services Plans, and this statement will be presented for ratification by the C.D.A. Board of Governors in June. This presentation was undoubtedly the most important outcome of this meeting and un-

animous approval of its contents was obtained. Therefore, although this statement has not as yet received official concurrence from the Board of Governors, it is presented here because of its direct relationship to our problem. This writer wishes to record his complete agreement with this statement. (*Note: Statement later adopted as C.D.A. Policy.*)

GROUP DENTAL SERVICES PLANS

During recent years a considerable number of lay groups and organizations have made approaches to dental organizations requesting information respecting the securing of dental services on a group basis. Three main reasons lie behind these requests.

1. Due to economic changes which have occurred during recent years people in general are in an improved position to purchase dental care.
2. A definite socio-economic trend exists wherein people desire to provide for health services through regular contribution.
3. Medical and hospital services are available on a group purchase basis and as a result demand exists for dental services on a similar basis.

The Situation

Dental treatment services have been purchased on an individual basis. The group purchase of dental services requires the introduction of new methods. For this purpose negotiation of an agreement between those providing the services and the recipients of the service is a necessity. Such contract represents a definite agreement between the buyers and sellers of dental services.

The buyer must know what he wants to buy and can afford to purchase. The seller must know what he has to offer, at what price and how to administer the services satisfactorily for both parties of the agreement.

Experience has shown that the buyers can be adjusted through education to accept those services best suited to their needs and which the profession is in a position to supply on a satisfactory basis. It is imperative that the profession does not contract for rendering services which are impossible to provide. The type of service may vary greatly to meet the best needs of the group concerned.

Of necessity the second party (representatives of dentistry) to such agreement must first be in possession of definite factual information before entering into negotiations directed toward the signing of a contract of any kind. Certain fundamental and pertinent points arise:

1. Cost

The establishment of cost of service is essential. A fee schedule satisfactory to the members of the profession on the provincial level should be established. This fee schedule should not be considered of a permanent nature but subject to adjustment from time to time. Care should be exercised in being certain that the established schedule is fair to both parties concerned. The availability of a fee schedule at all times is imperative in order to meet demands that may be presented.

2. Administration

(a) The administration should be under the control of the dental profession on a province-wide basis. Experience has shown that the existing plans under control of the profession have developed and been the most successful. The operation of plans on lower than provincial level results in increased costs of administration and lack of uniformity within a province. Provincial administration gives greater financial stability and minimizes the effects of economic changes in a single municipality. Volume is an important consideration and as the number in the plan increases the per capita cost of administration is reduced.

WELFARE SERVICES

(b) A non-profit incorporated board or commission (e.g. Dental Services Board) should be established for administration purposes. This board should be separate from other organized dental bodies. The work of the board should be confined to the administration of the plan itself. Questions related to the rendering of service should be dealt with by the appropriate committee of the provincial dental body.

(c) The estimated costs of administration must be included in any contract.

3. Procedure

The establishment of an acceptable fee schedule and administrative board should not be left in abeyance. While under the stress of pressure from some group or organization is by no means the best time for such action. The fee schedule should be established through careful survey by the appropriate provincial body. The means of establishing a non-profit incorporated board may vary somewhat from province to province. Other boards for similar purposes have been established in the provinces. Through inquiry with such established bodies and from legal sources the frame-work for such a board can be set up in readiness for action and **this** at least should be done.

4. Education

(a) In all plans education forms a most important feature. The dentist must not only be educated to understand the operation details of the plan but it is essential that he know the whole purpose behind the plan. Initially this has been a difficult matter in the establishment of many plans. Whereas in the beginning members of the health profession have opposed in great numbers it has been found that they support properly organized plans after they have been in operation a short time. A real need exists for education of the participating dentist before bringing any plan into operation.

(b) The recipient of the services in the plan must be made fully aware of all details related to the plan. Furthermore, it has been shown that continuing educative effort is necessary for successful operation of such plans.

Conclusion

1. Necessity exists for the development of factual data related to group purchase of dental services.
2. The dental profession should protect itself in being ready to deal with such requests when presented.
3. Such action places the profession in a position to not only meet present demands but should provide proof of capability in administration for future health plans.

March 25, 26, 1957, Meeting CDA Health Insurance Studies Committee.

Recommendation:

It is recommended that a Dental Services Board be established under the aegis of the Board of the Royal College of Dental Surgeons of Ontario to administer the proposed Dental Welfare Plan. This Board to be composed of 2 representatives of the Board of the R.C.D.S. — 1 from the O.D.A. and 2 laymen. The Secretary of the Board to act as Secretary of the Dental Services Board.

PERSONNEL

On the basis of the experience of the Alberta Plan it seems reasonable to believe that once the necessary records have been prepared and established in the files two persons should be able to administer the

routine duties associated with the programme.

Recommendation:

That the services of two full time employees be secured — one male to function as the office supervisor for the plan and one female for stenographic and filing assistance.

Suggested starting salaries:—

Office Supervisor — \$350.00 per month

Stenographer — \$200.00 per month

EQUIPMENT

The general requirements for equipment would include desks, chairs, filing cabinets, index files, typewriter, office stationery and supplies, adding machine (electric), storage cupboards, and sundry items. Estimated cost \$1,500.00 to \$2,000.00.

Recommendation:

That the R.C.D.S. Board advance the necessary funds to equip the office, later to be reimbursed from the monthly grant received from the Department of Welfare.

PHYSICAL ACCOMMODATION

At least 350 sq. feet of space divided between two offices are required. Room does not exist at C.D.A. Headquarters for such accommodation. From an administrative standpoint it is highly desirable that the operations of the Board and of the Welfare plan should be conducted under one roof. It will therefore be required of the Board to decide not only on accommodation for the Plan but accommodation for the Secretariat of the Board as well. There is no doubt at all that further expansion of C.D.A. administrative personnel is imminent and it would appear that the days of tenancy of the R.C.D.S. Board at C.D.A. Headquarters, unless further building expansion takes place, are numbered.

Recommendation:

It appears highly desirable for the Board to give sincere consideration to the advisability of obtaining property of its own. However, in view of the fact there is a degree of urgency it is probably necessary to obtain temporary office accommodation within reasonable proximity of 234 St. George St. The estimated cost of such accommodation is \$4.00 per sq. ft. per year.

RESPONSIBILITY FOR PLAN

Recommendation:

It is recommended that the Secretary of the Royal College of Dental Surgeons of Ontario Board be responsible to the Dental Services Board for the direct administration of the plan. The Dental Services Board in turn would report through it designated R.C.D.S. Board member to the R.C.D.S. Board twice yearly at the Spring and Fall meetings.

It is further recommended that a portion of the Secretary's salary be charged as an expense on the Plan.

PAYMENT FOR SERVICE

Recommendation:

It is recommended that payment be on a fee for service basis and in this instance payment be made on the basis of a schedule of fees, but with sufficient flexibility to allow for the exceptional or unusual circumstance.

WELFARE SERVICES

CONCLUSIONS

1. Our investigations have convinced us of the need for and feasibility of a Dental Welfare Plan in Ontario.
2. In our opinion the plan would operate best under a Dental Services Board responsible to the Board of the R.C.D.S.
3. The monthly per capita grant from the Department should be 71 cents per eligible recipient
4. One male and one female employee should be engaged to carry out the routine duties associated with the Plan.
5. The R.C.D.S. Board should purchase the necessary office furniture and supplies and be reimbursed from the monthly Department grant.
6. Consideration should be given to the advisability of obtaining accommodation for the operations both of the Board and the Plan under one roof, in a building preferably owned by the Board. In the interval provisional space approximating 350 sq. ft. should be rented.
7. The Secretary of the Board should be responsible to the Dental Services Board for the direct administration of the Plan and the D.S.B. in turn would report to the R.C.D.S. Board twice yearly at the Spring and Fall meetings. A portion of the Secretary's salary should be a charge on the Plan.
8. Payment for service should be on the basis of an R.C.D.S. approved fee schedule but with sufficient flexibility to allow for the exceptional or unusual circumstance.
9. Legal advice should be sought in negotiating a suitable contract with the Minister of Welfare. This contract should be for one year only.
10. An intensive programme designed to make all members fully cognizant of the purpose and operation of the Plan should be effected prior to initiation.

WESLEY J. DUNN, D.D.S.,
Registrar-Secretary.

ACTION

Motion: WHEREAS it is the unanimous opinion of the R.C.D.S. Board that additional space is immediately necessary to carry on the work of the Board, and whereas the Board is also strongly of the opinion that it should purchase a property in the name of the Board, it is recommended that a committee be appointed to investigate available properties, secure facts and report to the board as soon as possible. . . . Carried.

Committee re Property — Drs. Langmaid, Lowery, Leckie, Godfrey.

Motion: THAT if the necessity arises, the Secretary and President be given the authority to rent temporary space required to carry out the administration of the Dental Treatment Plan for welfare recipients. . . . Carried.

The President authorized the original committee of Drs. Godfrey and Lowery to continue negotiations with the Department of Welfare when requested by the Secretary.

The Secretary was instructed to notify the Canadian Dental Association respecting projected plans of the Board as they pertain to property and full-time secretary.

Motion: THAT the report of the Secretary on the proposed Welfare Plan be adopted. . . . Carried.

REPORT ON BOARD EXAMINATIONS

FALL MEETING

Applications for Certification as Specialist

THAT Dr. Robert Boyko, having met all the requirements, be granted his certification in Orthodontics. . . . Carried.

THAT Dr. Donald G. Woodside, having met the requirements of the Board, be granted his certification in Orthodontics. . . . Carried.

Application for Registration as Dental Hygienist

THAT Miss Katherine MacDonald, having met the requirements of the Board, be registered as a Dental Hygienist. . . . Carried.

ANNUAL MEETING

Six candidates presented themselves at the Spring Examinations of this Board and all were successful.

Applications for Registration

1. Anfossie, Frederick Reginald, D.D.S.
2. Armstrong, Ronald Keith, D.D.S.
3. Drew, Derwood Allan, McGill/57
4. Laurin, John Claude, D.D.S.
5. Patenaude, Hubert Jean, McGill/57
6. Shewchuk, William, McGill/57

It is thereby recommended that the above candidates be granted their L.D.S. Certificates when all remaining regulations of the Board have been met. . . . Carried.

Applications for Certification as Specialists

The following, having met the requirements of the Board for certification in their respective specialties, are recommended for certification as specialists:

1. Drummond, James Ross, D.D.S. — Application for certification as a specialist in Orthodontics.
2. Halbert, Ralph, D.D.S., M.S. (Ill.) — Application for certification as a specialist in Orthodontics.
3. Hult, Donald Paul, D.D.S. (Iowa), M.Sc.D. (Tor.) — Application for certification as a specialist in Orthodontics.
4. Rapp, Robert, D.D.S., M.S. (Mich.) — Application for certification as a specialist in Paedodontics.

. . . Carried.

Application for Registration as a Dental Hygienist

THAT the mail vote re the registration of Mrs. G. L. Boynton as a dental hygienist be confirmed. . . . Carried.

FACULTY EXAMINATIONS

REPORT ON FACULTY EXAMINATIONS

The Dean presented the report on Faculty Examinations. There are 75 graduating, 3 held for supplementals, and 6 had honours.

Motions: THAT the following, having fulfilled the requirements of this

Board be granted their Licentiate Certificates:

John Stuart Ainslie	Sam Muchnik
Barry Berman	Richard Francis Muirhead
Thomas Edward Bibby	Robert Ellsworth Duncan Munn
John Arthur Bimm	Deane Ivan Murdy
Ralph Christopher Burgess	Mrs. Marguerite Elizabeth Neelands
Howard Roger Cornwall	Manning Norman
Robert Santo D'Aloisio	Douglas James O'Brien
William Walter Dowhoszya	William Henry Joseph O'Driscoll
Norman Fraser Duff	Gaston Jacques Paquette
Harvey Allan Elliott	Harold Edwin Pepper
William George Richard Evans	Russell Edwin Reilly
Allen Feldman	Jerry Reingold
Berril Harold Garshowitz	Aldo Anthony Riva
Chester John Gdanski	Mark Roberts
Jerome Harvey Giblon	Stanley Rosen
Eli Francis Girolametto	Gerald Luke St. George
Stanley Earl Goldman	Onni Raymond John Savijarvi
Barry Charles Hanser	Michael Schacht
Larry Lawrence Hausman	Gordon Place Scott
Steven Eugene Hegedus	Jack Shiffman
Charles Gilbert Hunter	Harold Walter Smale
Stanley Isenberg	Sigmund Sydney Socransky
Zoltan Alexander Janvary	Donald Earl Somerville
Aaron Moses Lampert	Donald Alfred Edwin Stewart
John Joseph Latosiewicz	Gordon Allison Stocker
Ernest Lewis	Trevor Kenneth Storey
James Howard Loucks	James Brian Sweeney
Kenneth William McCauley	Angus John Tait
Donald Clare McInnes	Douglas Barry Thurston
Hugh Fortier MacKay	Fred Tortorella
Francis Harold Joseph Mader	William Bayer Witchel
Anthony Manis	Robert Arthur Worling
Robert Jennings Marshall	Robert Yasny
Mrs. Magda Marten	Bohdan Zaputovich
Victor Miskovsky	Leesha Gregory Zed
John Pierpont Morgan	Mrs Elena Zubrys
James Reuben Morrison	

... Carried.

THAT the following: Paul Edmund McKenna, Gordon Peter Pidkowich and Alexander John Puskas be granted their L.D.S. Certificate when they have fulfilled all the requirements of the Board. ... Carried.

Dental Hygienists

THAT the following be granted registration as dental hygienists when they have completed the requirements of this Board:

Reva Berkan
Frances Gertrude Campbell
Marguerite Gail Leggett
Suzanne Louise Mason
Barbara Dawn Maywood
Carolyn June Oscar
Gayle Marjorie Simpson

... Carried.

REPORT OF THE DEAN FACULTY OF DENTISTRY, UNIVERSITY OF TORONTO

Mr. President and Members of the Board of Directors:

You kindly consented to hearing a verbal report from me in the fall, and now I make a full submission covering the 1956-57 session.

Registration

	Men	Women	Total
Preprofessional Year	69	3	72
First Dental Year	74	4	78
Second Dental Year	70	5	75
Third Dental Year	71	3	74
Fourth Dental Year	75	3	78
	359	18	377
Occasional	5	1	6
Dental Hygiene			
First Year		14	
Second Year		8	22
Bachelor of Science			
in Dentistry	4		4
Postgraduate & Diploma courses	4		4
			413
In addition 9 students are registered in the School of Graduate Studies proceed- ing to the degree of Master of Science in Dentistry			9
			422

Projected Future Enrolment

During the present session concern for future enrolment has been expressed in many quarters in the University. With increasing numbers of students becoming eligible for university education in the years immediately ahead, additional divisions of the University are placing limitations on the intake of students. In the fall of 1957, in addition to the Faculties of Medicine and Dentistry, the Faculty of Applied Science and Engineering, and the School of Architecture will limit enrolment.

The Faculty of Dentistry has projected its future enrolment as follows:—

PROJECTED FUTURE ENROLMENT—FACULTY OF DENTISTRY

Year of Course	1957 /58	1958 /59	1959 /60	1960 /61	1961 /62	1962 /63	1963 /64	1964 /65	1965 /66	1966 /67	1967 /68	1968 /69
Preprofessional	100	125	125	125	125	125	125	125	125	125	125	125
First Dental	80	100	125	125	125	125	125	125	125	125	125	125
Second Dental	80	80	100	125	125	125	125	125	125	125	125	125
Third Dental	80	80	80	100	125	125	125	125	125	125	125	125
Fourth Dental	80	80	80	80	100	125	125	125	125	125	125	125
Dental Hygiene First Year	15	15	20	25	30	35	40	45	50	50	50	50
Dental Hygiene Second Year	14	15	15	20	25	30	35	40	45	50	50	50
TOTAL	449	495	545	600	655	690	700	710	720	725	725	725

These figures have been established on the assumption that the new dental building will be ready for occupancy in September 1959.

Preprofessional Education

I noted recently that I was optimistic one year ago about the prospects for the establishment of a science option programme in the Faculty of Arts which might relieve us of the responsibility of registering students in the Faculty of Dentistry during the Preprofessional Year. Today we are just as far away from a solution to this problem. A first year with the three sciences, Physics, Chemistry and Zoology has been proposed, but the Zoology would not provide sufficient background for our students to proceed to the biological sciences, without great short-comings. No change is imminent on this basis.

Curriculum

During the past session a few changes have been implemented in the curriculum. Arising out of a study made, covering the whole University, on the subject of "Teaching Loads" carried by staff, and endured by students, it was revealed that in the Faculty of Dentistry student time unassigned in laboratory, clinics, or lectures amounted to:

First Dental year, approximately 25% free time;

Second Dental Year, approximately 6% free time;

Third Dental Year, approximately 11% free time; and

Fourth Dental Year, approximately 0% free time.

The figure for the final year must be qualified. The load of clinical practice is deceptive. Some students work very long hours; some students are very keen and stimulated by clinical practice; some are slow and spend much time in the clinic, but do not accomplish very much.

However, the heavy load shown in the Second Dental Year confirmed student complaints and increasing 'conditions' in that year and it was felt that a better balance was called for between the First and Second Years. It was also considered wise to bring the closely related subjects of Organic Chemistry and Biochemistry more closely together. Thus, in the curriculum for 1956-57 Organic Chemistry was concentrated into the first term of the First Year, and Biochemistry into the Second term of the First Year. The results of this adjustment will not be known for another year. From the standpoint of mathematics alone it should balance the free time of the First and Second Years.

In the Third Year the course in Accounting has been discontinued, and in the Fourth Year the series of lectures on Practice Management has been placed in the care of one lecturer rather than several.

For session 1957-58 the course in General Pathology will be transferred to the Department of Pathology in the Faculty of Medicine, and the course in Oral Pathology will be given in the Dental Building, and increased slightly in scope. A similar move for Bacteriology is contemplated for the future.

The revised course in Preventive Dentistry, comprising approximately 75 hours of lectures, spread over the four years has become almost a model course. Great interest has been shown by other schools in this well-integrated and coordinated series of lectures on this all-important subject.

Perhaps the boldest and most significant experiment with the curriculum during the past year has been introduction in a limited way of the first and second year students into the Clinic. Each class had about six hours of clinical practice limited to Prophylaxes and the use of periodontal packs. They used each other as patients. Their reactions were convincing, and such comments were made as, "This experience interested me more in dentistry"; and, "Too short, sorry to see it end", or, "It gave application to some of the things we have learned in biological and preclinical courses". Surely these statements indicate the powerful factor of better motivation of the student in the early years of the course. To Dr. C. H. M. Williams much credit is due in this development.

Television as a Teaching Medium

During the session a significant series of experiments using closed circuit television for teaching, both pre-clinical and clinical procedures in dentistry, was made possible through the generosity of several of the major manufacturers of television equipment, who placed at our disposal not only the equipment, but staff to operate it, without cost to the University.

Through these sessions much valuable and timely experience has been gained. We are convinced this medium has a place and may save much time to staff in reducing the number of group clinics required to cover a class. However the use of T.V. will require caution, much practice on the part of teachers, and it will probably introduce some new techniques in teaching. The classes of students on which this medium was tried during the session, reacted most favourably. However, this reaction may have been related to the novelty of it.

Hospital Relations

One very disturbing situation, which could affect the teaching of both undergraduate and graduate students is the uncertain position of the dentists and the dental school in the teaching hospitals. After due consideration of this matter, the Faculty Council agreed that the Faculty of Dentistry is concerned with three aspects of this subject;

- (1) appointment of dental staff in a hospital which will be free to practise under the terms of the Dentistry Act of Ontario.
- (2) ready admission of patients who need dental treatment.
- (3) provision for dental students to receive training in a hospital.

The first two points have been embodied in the following statement which in our opinion should be provided for in the general regulations under the Public Hospitals Act:

"The Hospital authorities may appoint a dental staff consisting of dentists duly licensed to practise under the provisions of the Dentistry Act of Ontario. The appointees shall, within the scope of their qualifications as dental practitioners, be entitled to the same rights, and shall be subject to the same obligations regarding their relationship to the patient, hospital records and procedures as are prescribed in the Hospital Act and/or Regulations with respect to a member of the medical staff."

Provision of instruction for dental students can be taken care of by amending section 10 of the Public Hospitals Act (Revised Statutes of Ontario, 1950—Chapter 307—as amended by 1952,—Chapter 85), by adding the words: "and dental" after the "medical" in line 5 of this section. This section would then read:

Subject to the provisions of any existing agreement relating thereto, every hospital, other than a hospital for the chronically ill, receiving provincial aid under this Act shall provide such reasonable facilities for giving instruction to medical and dental students of any university as may be required by the regulations.

It is hoped that this matter will be clarified at the earliest possible moment.

Postgraduate Education

Further study of the over all postgraduate field resulted in a major change being made in the requirements for the degree of Bachelor of Science in Dentistry (B.Sc.D.). Heretofore the degree has been awarded for a limited amount of course work and an essay in the major subject. The programme will now be governed by the following regulations which will become effective in September, 1957.

- (1) The course leading to the degree shall require a minimum of one academic year (900 hours) of study in some basic science or clinical department of the University of Toronto.

- (2) A minimum of 200 hours of the required time shall be spent in assigned courses in subjects related to the major field of interest. Not less than three recognized courses shall be taken for the degree.
- (3) Before being granted the degree the candidate shall successfully pass examinations in each of the subjects included in his programme.
- (4) Candidates may be permitted to spend, in lieu of full time for one academic year, an equivalent time extended over a longer period. If a candidate has not completed his programme within five calendar years after his acceptance for the Bachelor of Science in Dentistry degree, his candidature will lapse until such time as he applies for re-registration.

The three year course in Oral Surgery, and the two year courses in Periodontics and Orthodontics continue to receive many applications. The course in Dental Public Health is being reviewed by a joint committee of the School of Hygiene and the Faculty. Two applications have been accepted for 1957-58.

Extramural Lectures

The statistical summary of the 1956-57 series of Extramural Lectures is given in the report of the Registrar-Secretary of the Board and no need exists for reiteration here.

No requests for lectures were received from 12 County Dental Societies.

Since the Dental Seminars in Children's Dentistry are being discontinued by the D.P.H. Committee in this coming session, it might be in order to press for a trial of this type of teaching in other subjects. The only disadvantage as I see it is the limitation in numbers that can be accommodated when clinical instruction is given. Our experience has shown that a maximum of ten dentists to each instructor is the limit. Of course, one could increase the number of instructors but the finances would have to be considered.

Course in Dental Nursing

Commencing with session 1956-57 the admission requirement to this course was raised to nine papers of Grade XIII. In September 1956 no applications were received supported by the new minimum requirements. Therefore, we have not had a class during the present session.

As the result of discussion of this matter with representatives of this Board recently, we explored the possibility of establishing a course for the training of dental nurses at the Ryerson Institute. Such a course would be a cooperative project with the Faculty of Dentistry providing the accommodation and training in practical dental nursing.

The authorities at Ryerson Institute were favourable to the idea and the Minister of Education gave approval to the establishment of this course, but for financial reasons, it could not be considered for the 1957-58 session.

In the meantime the University continues to offer this course for 1957-58. A few enquiries have been received respecting the course and an application or two are on hand, but not yet fully documented. It remains to be seen as to what happens by September 1st.

New Dental Building

Since I reported a year ago there has been intense activity in respect to the preparation of plans for the new dental building. In the late spring and early summer of 1956 members of the Faculty Building Committee visited 17 dental schools in the U.S. and Canada. Extensive reports on each school were prepared and have been of great value in planning the new building. The building committee has met frequently since July, 1956. I can assure you that the members have all assumed,

DEAN

very cheerfully, a heavy load superimposed on their regular duties. As of May 15th, 1957, the detailed floor plans were "frozen". The architects require 3-4 months to complete working drawings, and tenders will be called immediately. Present indications are that the first sod (if they can find any on the site) will be turned in the fall of 1957. It is anticipated that the building will be ready for occupation in September 1959.

A few details may be of interest. The floor area of approximately 170,000 square feet is over three times that of the present building. The building provides for classes of 124 dental students; up to 50 in each dental hygiene class and a class of 25 dental nurses; a large group of postgraduate and graduate students will bring the total student capacity to about 700. There are four lecture rooms accommodating respectively 375, 125, 125 and 50. A closed circuit T.V. studio will be located between the two 125 student lecture rooms, and supplementary camera stations will be distributed at strategic points throughout the building. Maximum flexibility is aimed at in the provisions being made for the use of T.V.

There will be 306 clinical "stations" in the building which includes two general clinics of 124, and 62 places respectively; a combined paedodontic and orthodontic clinic of 31 places and a prosthodontic clinic of 20 places. Ample clinical provision has been made for surgery, diagnosis, radiology and graduate instruction. The library will have seating capacity for 120 students.

A forty car garage is included under the north wing of the building.

Research

The Division of Dental Research has had a very active year. In the fall we lost Dr. J. B. Macdonald, Chairman of the Division, but Dr. G. Nikiforuk stepped into the vacancy and has given excellent leadership in the research field. Several members of the staff presented papers at the meeting of the International Association for Dental Research. I can assure you these were well received.

Following a suggestion which arose at the last meeting of this Board an appeal for financial assistance for dental research was made directly to the Minister of Health of the Provincial Government. This submission was accompanied by a brief and a projection of our needs over the next five years. An excellent letter supporting our presentation was also forwarded at the same time by the Registrar-Secretary of this Board. Upon receipt of this submission the Minister requested 20 additional copies which were presumably distributed to the Cabinet Members. Subsequently, we were advised by the Minister that no provision was made in the present Provincial budget for such purposes. We believe the way is still open for us to again submit our request for consideration in the next fiscal year.

Recently a joint meeting was held of representatives of the R.C.D.S. Board and the Research Advisory Committee of the Faculty to study further the previous request of the Faculty that the Board provide a per capita grant in support of research. The following motion was adopted:

"That it is the opinion of this Joint Committee that a per capita grant from the Royal College of Dental Surgeons of Ontario is not the most desirable method to raise funds for the support of dental research, but rather would request that effort be directed to perpetuate the continuation of contributions directly from the individual members of the profession and that a committee representing all aspects of the profession be established to organize, for this purpose, a continuing campaign."

If the above resolution is supported by the Board, the Research Committee should be invited to make further recommendations in respect to the development of such a campaign.

Awards

New awards this session have included:

- (1) The London Dental Society Ladies' Auxiliary Bursary of the value of \$200.00.
- (2) The Dental Hygiene General Proficiency Scholarship of the value of \$100.00.

The latter is the first award in the course in Dental Hygiene.

On October 3rd, 1956, the first Faculty Awards Night was held, at which an opportunity was given for the donors of awards to meet the recipients. The programme for the occasion listed 51 awards distributed among 31 students. This occasion was successful to the degree that it may well become an annual affair. The second Awards Night is scheduled for Wednesday, October 9, 1957.

Staff Notes

We regret to report since the last annual meeting of this Board the death of Professor Emeritus H. K. Box. The sudden passing of Dr. J. G. Perkin removed from the active staff a loyal and effective teacher. Suitable resolutions were prepared and adopted by the Faculty Council in relation to these men. We have already referred to Dr. J. B. Macdonald's appointment at the Forsyth Dental Infirmary and Harvard University and on June 30th next, Mrs. Brunelle (Miss A. Hebert) will relinquish her duties as Supervisor of the course in Dental Hygiene. Mr. P. W. Millard succeeded Mr. C. C. Rous as Secretary of the Faculty.

In preparation for increasingly large classes in the new dental building commencing with session 1957-58, the staff will be augmented. Three new full time appointments have been granted, details of which cannot be reported at this time. This is the first step in a long range programme.

Acknowledgements

We say thank you once again to many individuals and organizations for moral and financial support in various activities at the Faculty. These include:

- (1) The Dental Alumni Association for their Annual Bursaries (two each of \$200.00), and their many projects on behalf of the students.
- (2) To an anonymous donor for the establishment of the \$100.00 General Proficiency Scholarship in Dental Hygiene.
- (3) The London Dental Society Ladies' Auxiliary for the establishment of a \$200.00 Bursary.
- (4) Provision of a \$2000.00 legacy in the will of the late Dr. John A. Bothwell for the establishment of an award in Prosthodontics.
- (5) A donation of a \$50.00 from the Toronto Round Table Society to augment the John A. Bothwell Scholarship.
- (6) The R.C.D.S. Board members for their continuing support and cooperation.

The members of the Faculty are cognizant of the cordial relationship that exists between this Board and the Faculty. They are intent upon preserving the harmony that has been established between the two organizations.

Respectfully submitted,

ROY G. ELLIS,
Dean.

ACTION

Motion: THAT the report of the Dean be adopted with congratulations to the writer for an excellent report. . . . Carried.

REPORTS OF EXAMINERS AND PETITIONS COMMITTEE

Mr. Chairman and Members of the Board of Directors:

FALL MEETING

In view of the accreditation of all Canadian dental schools and most of those in the United States, and the regulations of the Board which stipulate that an applicant must be a graduate of a school approved by the Board, and that such approval is predicated upon accreditation, it is suggested that a need may no longer exist for written examinations by applicants for licence.

This committee is anxious that all candidates eligible to try the examinations of the National Dental Examining Board of Canada be encouraged to do so, and feels that a complete discussion of the examinations of the National Board as they may relate to Ontario is indicated.

As general regulations governing board examinations the committee offers the following tentative general regulations:

All applicants for licence will be governed by the following rules:

1. Applicants must furnish their own patients, instruments, and all materials. A chair and dental engine will be provided.
2. The examination will consist of two parts — clinical and oral.
3. A candidate will be required to obtain an average of 60% on the oral and clinical examinations.
4. A candidate who fails in any part of the clinical examination will be deemed to have failed the entire clinical examination.
5. A candidate who fails in the clinical examination may be permitted once, without further payment of fee, to repeat the entire clinical examination within a period of two years following the date of examination in which he has failed.
6. A candidate who fails in the oral examination or fails to obtain 60% on both aspects of the examination, may apply for re-examination provided application is made within a two year period after the date of the examination in which the applicant has failed, and without further fee.
7. A candidate who fails in two regular examinations, either clinical or oral, will not be permitted to take the examinations until a period of three years shall have elapsed from the date of his last examination.
8. The Board will give out no information whatsoever such as names, addresses or any other information in regard to applicants for examination before the grades have been passed on by the Board and said applicants have had due time to receive the formal notice from the Board as to the results of their examination.
9. The Board will not issue temporary licences or permits to practise dentistry.

R. P. LOWERY

R. O. WINN

R. J. GODFREY, Chairman.

ACTION

Motion: THAT the Report of Examiners and Petitions Committee be received and adopted. . . . Carried.

ANNUAL MEETING

Mr. President and Members of the Board of Directors:

Your committee gave deliberative attention to the Brief (Appendix A) submitted at the Fall meeting of the Board requesting the establishment of a specialty in Dental Public Health. It is hereby recommended that this request be granted and that the specialty of Dental Public Health be established.

Should the Board concur in the recommendation of this committee it will be necessary to approve a new application form for Specialists' Certification and a new set of regulations. This committee has, therefore, taken the liberty of preparing suggested documents but must reiterate that the responsibility for creating the specialty rests with the Board and that these forms are submitted only to expedite procedures should the Board concur with this report.

The proposed regulations are included as Appendix B — the proposed Application Form as Appendix C.

Respectfully submitted,

R. P. LOWERY,
R. O. WINN,
R. J. GODFREY, Chairman.

APPENDIX A

BRIEF OF DENTAL HEALTH OFFICERS' SUBSECTION,
ONTARIO PUBLIC HEALTH ASSOCIATION

Mr. President and Members of the Board of Directors:

We beg to submit as representatives of the Dental Health Officers' Subsection, Ontario Public Health Association for the consideration of the Board the following matter concerning the practice of Dental Public Health.

For some time past, successful candidates in the diploma courses in orthodontics, paedodontics, periodontics and dental oral surgery who comply with appropriate requirements and regulations of the Board have been granted recognition by way of certification as specialists in their respective fields.

At present diploma holders or others similarly qualified in dental public health do not receive comparable recognition for their post-graduate training.

In recent years, the attention of qualified dentists who have made public health their career has been increasingly directed to the desirability of establishing similar specialty status in the field of Dental Public Health for the following reasons:

1. Specialty Certification in Public Health by the Royal College of Physicians and Surgeons of Canada has been available for some time to physicians with public health qualifications, engaged as medical health officers, directors of tuberculosis prevention, directors of communicable disease control, directors of school health services, etc.
2. In at least one instance, a salary differential exists in an official health agency between a directorate of dental health and other

EXAMINERS AND PETITIONS

medical directorates at division level, because the medical incumbents hold specialty certification in addition to their public health degree or diploma.

3. Specialty Certification in Dental Public Health has existed in the United States for several years.
4. It is believed that such certification would materially improve the position of qualified public health dentists in public health administrative units and would enhance the status of dentistry vis-à-vis other professional disciplines in the field of community health.

Respectfully submitted,

R. M. GRAINGER
F. H. COMPTON.

APPENDIX B

RULES AND REGULATIONS FOR THE CERTIFICATION OF SPECIALISTS

- I. A member of the College who prior to June 1st, 1944, has confined his practice to a specialty and has been recognized by the Board of the Royal College of Dental Surgeons as so doing, upon satisfying the Board as to qualifications, good character and ethical conduct, and upon the payment of a registration fee of \$25.00, shall upon application be granted a certificate qualifying him to practise as a specialist.
- II. New candidates for certification as a specialist must show evidence of each of the following:
 1. Membership in the Royal College of Dental Surgeons of Ontario.
 2. Completion of one of the following:
 - (a) Three years in the practice of dentistry.
 - (b) Three years of service in an approved dental clinic on a part-time basis of not less than 20 hours a week.
 - (c) Two years of full-time service in an approved dental clinic.
 - (d) Forty-eight consecutive weeks' indentureship with a regularly qualified specialist approved by the Board.
 - (e) Two school years as demonstrator or clinician in a dental school recognized by the Board.
 - (f) Other experience considered by the Board to be of equal value.
 3. Completion of a post-graduate course in the specialty designated, in any dental school or institution **approved by the Board** consisting of a minimum of thirty-two consecutive months of instruction in the specialty of Oral Surgery and a minimum of two consecutive periods of eight months each in the specialties of Orthodontics, Paedodontics and Periodontics, or the equivalent of such courses. In Dental Public Health, completion of a post-graduate course consisting of a minimum of eight consecutive months of instruction in a dental school or institution approved by the Board, and in addition two years subsequent service in an approved health agency.
 4. Good character and satisfactory behaviour in the previous practice of dentistry.

EXAMINERS AND PETITIONS

- III. Applicants may be required to pass written and/or clinical examinations upon the subjects apertaining to the special branch of dentistry designated as may be determined by the Board, and for such examination the fee is \$50.00.
- IV. All applications to practise any specialty shall be made upon a special form as provided by the Board.
- V. The following special branches of dental practice are recognized by the Board:
- Orthodontics
 - Periodontics
 - Oral Surgery
 - Paedodontics
 - Dental Public Health
- The certificate holder in the said specialties shall be known only as an Orthodontist, Periodontist, Paedodontist, Oral Surgeon, Public Health Dentist, as the case may be.
- VI. Upon satisfactory completion of all requirements and upon payment by the applicant of a registration fee of \$25.00, the Board may issue a specialist's certificate to the applicant to practice the branch of dentistry designated.
- VII. The said certification shall be renewed each year at the time when the annual fee of the College is due and every recipient of the annual certificate of such certification, shall pay the College One Dollar (\$1.00) in order to defray the cost of issuing the same.
- VIII. The Board may require periodic proof of the qualifications of a specialist.
- IX. The giving or receiving of commissions or splitting of fees shall be deemed to be unprofessional conduct.
- X. The annual register shall contain a separate list of the names of the recognized specialists, indicating under which specialty each is recognized.

APPENDIX C

ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO APPLICATION FOR SPECIALISTS' CERTIFICATE

- (1) Full Name
- (2) Street Address City
- (3) Date of Birth Place of Birth
- (4) Specialty in which certification is desired
- (5) If granted, where do you expect to practise this specialty?
- (6) Undergraduate Dental Education:
- | University | Degree or Diploma | Year |
|------------|-------------------|-------|
| | | |
| | | |
| | | |
- (7) Any degrees other than dental?
- (8) How many years have you devoted to the general practice of dentistry?

(9) Postgraduate Training:
University

(Public Health Applicant will answer Question #20 instead of #10 and #11).

- 52 —

EXAMINERS AND PETITIONS

Having carefully read the attached rules and regulations, I agree to abide by the same and hereby make application for certification to hold myself out as a specialist in the Province of Ontario, believing the statements herein contained to be true.

The registration fee of twenty-five dollars (\$25.00) accompanies this application.

ACTION

Motion: THAT the Report of the Committee of Examiners and Petitions with respect to the application for the establishment of a specialty in Dental Public Health be adopted. . . . Carried.

FINANCE

REPORT OF THE FINANCE COMMITTEE

Mr. President and Members of the Board of Directors:

A study was made of the present bond holdings of the College in order to determine whether or not it would be in the interest of the College for the Board to effect changes.

There appeared to be no direct advantage in selling \$20,000.00 Canada 3% Bonds due June 1, 1957/60, as they yield, at the current bid of 95.90 (March 31/57), about 4.38% and are highly marketable.

An analysis of the remaining holdings follows:

Amount	Security	Rate	Maturity
\$10,000	Canada	3%	Sept. 1/61/66
10,000	Canada	3¼%	Oct. 1/79
10,000	Ontario	2¾%	July 15/70
8,000	Ontario	2¾%	July 15/71
7,000	Ontario	2¾%	July 15/72
5,000	Ontario	2¾%	Apr. 1/64/67
	Hydro		

\$50,000.00				
Current		Book		
Price*	Yield	Price*	Yield	Loss
91.50	4.09%	105.00	2.40%	1,350.00
90.00	3.92	97 ⅞	3.38	787.50
81.30	4.65	101 ¼	2.64	1,995.00
80.30	4.65	101 ¼	2.64	1,679.00
79.30	4.65	101 ¼	2.65	1,536.50
85.50	4.44	101 ¼	2.60	1,102.50
				\$8,447.50

* Plus accrued interest

The annual income from these Bonds is \$1,450.00.

It was suggested that \$42,000.00 Ontario Hydro Bonds 5% with maturity April 1/74/77 could be purchased. The current price was 100% and the yield 4.94%.

The annual income would thus be \$2,100.00 for an increase in annual income of \$650.00. It would thus require a period of some 13 years to recoup book losses.

The reserve fund of the College is not primarily employed to produce income but must be established and maintained at a level to meet exigencies if these needs arise. In these days of intense governmental activity in the health field, and with the projected development of the functions of this Board, it would not appear to be in the interests of the College to incur losses for a period well beyond the length of time for which one could reasonably prognosticate needs. It is therefore recommended that no changes be made in present holdings but that direction be given by the Board to augment the Reserve Fund by the purchase of desirable Bonds.

Respectfully submitted,

R. P. LOWERY
C. M. PURCELL
M. V. J. KEENAN, Chairman.

ACTION

Motion: THAT the Report of the Finance Committee be received and deferred for consideration at some later date. . . . Carried.

REPORT OF THE GOVERNMENT
AND LEGISLATION COMMITTEE

Mr. President and Members of the Board of Directors:

The Board at its last meeting requested Dr. Don W. Gullett to discuss the arrangements which presently exist between the Michigan State Board and the Board of the R.C.D.S. with respect to registration. Dr. Gullett's report is attached as Appendix "A".

The report is complete and self-explanatory and this committee recommends that By Law No. 10, Section 1, Subsection (a), be amended to delete that portion which contains the one year residency clause.

M. C. G. BEBEE

J. M. CAMPBELL

M. V. J. KEENAN, Chairman.

APPENDIX "A"

MEMORANDUM TO
ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO

At the request of the Michigan State Board I attended their meeting on January 17th last in Detroit. No one could have been received with more courtesy. The discussion concerned the relationship between the Michigan Board and Canadian Boards, particularly the R.C.D.S. Board, respecting registration.

Background

For many years and up to the mid-forties the R.C.D.S. Board had a regulation that applicants from outside Ontario must spend a minimum of one year in the Faculty of Dentistry, University of Toronto before applying for registration. The Michigan Board had no such regulation for Ontario applicants. Finally, the R.C.D.S. discarded compulsory attendance at the Toronto school but retained a clause stating that one years' residence was necessary previous to application. The same year that Ontario discarded compulsory attendance at Toronto the Michigan Board adopted a regulation making one years' attendance compulsory at a U.S. approved school a requirement for Ontario applicants.

Discussion

All members of the Michigan Board freely stated that their action had been somewhat retaliatory and they had always felt rather unhappy about the ruling. They were in complete agreement that a statement of intention respecting citizenship should exist and they do the same as the Ontario Board. However, they could not understand the existence of the one year residence rule.

Before making this visit I discussed with your president what answer should be made on this point. As a result I stated exactly what

GOVERNMENT AND LEGISLATION

has been done by the Ontario Board in waiving the by-law on individual applicants. Such action simply could not be understood by the Michigan Board. This attitude can be understood partly because of the difference between professional legislation in United States and Canada which I explained at some length. However, I could not avoid agreeing that a printed regulation should be applied equally to all applicants, otherwise it should not exist. From the discussion I gathered that this point had been recently discussed by other state boards in U.S. through correspondence with the Michigan Board. No doubt exists in my mind that the Michigan Board desires to discard the present retaliatory measure against Ontario applicants. However, they point out that if they do, and a single Michigan applicant applies for registration in Ontario and is sent the Ontario regulations they will be subjected to severe criticism. This position can be understood. Following further discussion by the Michigan Board a letter is to be sent.

Opinion

Out of the discussion I express the following points:

1. The Michigan Board is anxious to establish the best possible relationship with the Ontario Board.
2. The Ontario residence rule is the only obstacle left and unless some action is taken it would appear that other U.S. state boards may adopt retaliatory measures against Ontario applicants.
3. To support the Ontario residence rule is exceedingly difficult in view of the approval of schools. To explain the right of the Ontario Board to waive the rule is not an acceptable answer.
4. The relationship with U.S. boards has improved greatly during recent years. It is apparent that the residence rule of Ontario may easily cause undesirable tendencies.
5. The present rule places the Board Secretary in a most awkward position on many occasions.
6. If I may speak from personal experience I can recall only one applicant from a U.S. school who established one years' residence before applying and consequently the Board did not waive the rule. This individual came to Canada leaving a wife and family in order to avoid supporting them.
7. It would appear much better to depend upon faith in establishing good relationship with other licensing Boards rather than setting up obstacles which in reality are not applied but cannot be explained away on that basis.

DON W. GULLETT, D.D.S.

ACTION

Motion: THAT the report of the Government and Legislation Committee be received and adopted. . . . Carried.

REPORT OF THE CLINICS AND
EXTENSION LECTURES COMMITTEE

Mr. President and Members of the Board of Directors:

Your committee on Extramural and Extension Lectures met with Dean Ellis, Dr. G. Mitton, and Dr. Paynter to discuss policy re administration of Extramural and Extension activities and beg to report as follows:

- (1) That all dental societies, that have been receiving Extramural and Extension Lecture Services be listed, and that newly formed dental organizations seeking this service be required to make application to the Royal College of Dental Surgeons' Board at the annual meeting, this being in order to budget for any extra services.
- (2) In view of the observations of clinicians, that when afternoon and evening sessions are presented the afternoon attendance is usually small, this committee recommends that the presentation be one clinic and that it be optional as to whether the meeting be held afternoon or evening and the decision be made by the Dean in case of Extramural Lecture or the Secretary if Extension Clinic.
- (3) The committee approves the recommendation of the Faculty of Dentistry that the Northern Ontario Route be divided into two groupings of North East and North West, and that one trip be made in the fall and the other in the spring.
- (4) We recommend that re time spent on trips by clinicians, as to one or two days duration, be determined by the Secretary of the Board.
- (5) Discussion re Extramural and Extension Lectures versus Seminars. Your committee is of the opinion that the lectures serve a much greater proportion of the profession but approve of the Seminar Programmes.
- (6) We approved the recommendation of the Dean that societies do not ask for clinicians' services during the month of February and March, as this is the time of the year that their services are most needed at the Faculty, in the clinics.
- (7) In the establishment of an Extramural Service and Extension Lecture Service, by the Board of the Royal College of Dental Surgeons of Ontario, the object has been to give assistance to the establishment of a reasonably adequate dental programme to those societies with insufficient membership to support such a programme and not especially for the purpose of supporting organizations able to carry out their own programme.

We commend the Faculty of Dentistry on the splendid service being rendered in this field and assure them of the appreciation of the profession as a whole.

J. M. CAMPBELL
A. H. LECKIE
R. O. WINN
C. M. PURCELL

ACTION

Motion: THAT the report of the Committee on Clinics and Extension Lectures be adopted. . . . Carried.

DISCIPLINE

REPORT OF THE DISCIPLINE COMMITTEE

Mr. President and Members of the Board of Directors:

The Discipline Committee held a Court of Inquiry on Monday afternoon, November 26th, 1956, to ascertain the facts in connection with allegations that Dr. L. L. Crowley, a member of the Royal College of Dental Surgeons of Ontario, was guilty of infamous, disgraceful, or improper conduct in a professional respect, in that he did in or about the months of May and June 1956, employ persons not legally qualified and duly authorized under the Dentistry Act, to wit — Mrs. Anicita Matulionis and Mr. Kurt Schultz — or either of them, to prescribe dental treatment or perform dental operations, or alternatively did permit such persons, or either of them, during the months of May and June, 1956, on or about his premises to prescribe dental treatment and to perform dental operations contrary to the provisions of Section 2(b) of By-Law No. 13 duly enacted by the Board of Directors of the Royal College of Dental Surgeons of Ontario.

After a fair and impartial hearing Dr. L. L. Crowley was found guilty of improper conduct in a professional respect.

The following resolution is therefore submitted for the consideration of the Board:

"Whereas Dr. L. L. Crowley, has been found guilty of improper conduct in a professional respect, therefore be it resolved

That his certificate of license be suspended for an indefinite period commencing January 1, 1957, and

That no action for the lifting of this suspension be entertained for at least a period of six months from the date of the commencement of the suspension, and further

That the costs of and incidental to the inquiry be paid by the said Dr. L. L. Crowley."

M. C. G. BEBEE
W. J. LANGMAID
M. V. J. KEENAN
R. O. WINN
R. P. LOWERY, Chairman

ACTION

Motion: THAT the report and resolution submitted by the Discipline Committee re Dr. L. L. Crowley be adopted. . . . Carried.

ANNUAL MEETING

A resolution was mailed to the members on April 10th 1957, and received unanimous concurrence as required by By-Law and was subsequently confirmed at Annual Meeting.

"That the original date of June 30th, 1957 set for the expiration of the penalty period in respect to Dr. L. L. Crowley be now withdrawn and that Dr. Crowley's license be restored upon the date of receipt of unanimous concurrence with this resolution."

REPORT OF THE JOINT COMMITTEE OF THE BOARD AND THE RESEARCH ADVISORY COMMITTEE

Mr. President and Members of the Board of Directors:

A meeting of the Joint Committee was held in the Board Room at 234 St. George Street on Tuesday April 16th, 1957.

This Joint Committee was appointed following a letter received from Dr. J. B. Macdonald in September 1956 requesting consideration of the Board in making a portion of the licence fee available on an annual basis for dental research.

The following resolution was adopted:

"That it is the opinion of this Joint Committee that a per capita grant from the Royal College of Dental Surgeons of Ontario is not the most desirable method to raise funds for the support of dental research, but rather would request that effort be directed to perpetuate the continuation of contribution directly from the individual members of the profession, and that a committee representing all aspects of the profession be established to organize, for this purpose, a continuing campaign."

The points put forth were as follows:

1. Cash receipts to the fund as of January 1957 — \$180,000.00 — total expenditures to January 1957 — \$80,000.00. There should be \$114,000.00 available as of June 1, 1957 — a sum sufficient for approximately three years.
2. That approximately 50% of the profession participated in the fund.
3. The Minister of Health has advised that no amount is available for this purpose in the current Provincial Government budget.
4. That there is now a sizeable group of graduates of the last five years who have been nurtured under this programme but have not been given the opportunity of making a contribution.

It was the opinion of the Joint Committee that the programme was extremely important and should not be allowed to disintegrate. Some of the methods suggested for putting the resolution into effect were:

1. That a committee representing the Board, the O.D.A. and the Research Advisory Committee of the Faculty be established.
2. That the profession should be fully apprised of the present status of the research fund and the accomplishments of the Division.
3. That the extramural programme could be utilized for the presentation of well-prepared addresses on this subject.

If the above resolution is supported by the Board, the Research Advisory Committee should be invited to make further recommendations in respect of the development of such a campaign.

Respectfully submitted,

A. H. LECKIE.

ACTION

Motion: THAT the report of the Joint Committee of the Board and Research Advisory Committee be adopted and that assurance be given to the Research Advisory Committee that the Board is vitally interested in the advancement of the dental research programme. . . . Carried.

REPORT OF THE REPRESENTATIVES TO THE CANADIAN
DENTAL ASSOCIATION

Fall Meeting.

Mr. President and Members of the Board of Directors:

The Annual Meeting of the Canadian Dental Association acting in conjunction with the Alberta Dental Association was held the latter part of May at the Banff Springs Hotel, Alberta.

The choice of this ideal location along with the extremely efficient organizational effort of all concerned including the management of the hotel was greatly appreciated by those who attended, a total of some 400, representing every province.

The invocation by the Rev. John Lowrey, illustrious son of our own member, carried a deeply impressive opening message. We are grateful for his attendance at this session.

The address of the President, Dr. R. R. McIntyre of Calgary entitled Professional Relations is worthy of careful study by our own public relations committee for guidance in their work, and indeed by every member of our profession who sincerely wishes to give of his best in the service of mankind.

Dr. McIntyre presided at all sessions. His report on the year's activities, his capable chairing of the general meeting, his judicious use of the gavel and in fact his leadership throughout his term of office leaves no doubt as to the importance of the office of president as it relates to the welfare and accomplishments of the Canadian Dental Association. We are grateful that men of such character and ideals will sacrifice so much in their travels from coast to coast, indeed throughout the whole year for the good of the profession.

Dr. K. M. Johnson of Winnipeg was elected President of the Canadian Dental Association for the coming year.

Dr. John W. Clay of Calgary had honorary membership conferred on him by the President, Dr. McIntyre.

Dr. Harry Lyons, President-elect, American Dental Association officially represented that Association.

Dr. A. G. Racey, Montreal was elected President-elect.

Twenty-two reports were presented to the Board of Governors and brief summary of some of these follows.

The Health Insurance Studies Committee presented a statement of policy relative to any health insurance plan that includes the provision of dental services which may be introduced. This has already been published in the Canadian Dental Association Journal, September issue and will also appear in the printed proceedings which will be distributed to all Canadian Dental Association members and consequently omitted here. However a careful study of each of the 23 paragraphs is recommended to this Board so that we may be fully aware and equally conversant with the implications contained therein.

The Survey team of the Council on Dental Education which has been active for the past few years recommended accrediting all five Canadian dental schools and this was approved. The Council on Dental Education of the American Dental Association voted unanimously to give full recognition to these five Canadian schools, and this is the first time that schools of another country have been placed on the

list of accredited schools issued by the American Dental Association Council.

The position of dentists in hospitals was discussed at great length and a strong resolution urging the amendment of this situation was adopted and direction given to forward same to all Ministers of Health.

Due to enlarged activities of the Executive, the number was increased from five to seven.

Consideration was given to the exceedingly important subject of recruiting more and the better candidates for the profession and it was recommended that the Council on Dental Education and the Public Relations Committee prepare additional information to assist in the recruitment of candidates. The progress reported in the securing of additional teaching facilities is gratifying but the committee laid stress on the fact that there must be no slackening in our efforts to encourage the establishment of additional dental schools.

Due to the increased grant from most of the corporate members, the financial position of the Canadian Dental Association is much brighter than it has been for many years and the presentation of a surplus budget was a sincere pleasure to all and particularly — due to his untiring and unselfish efforts over the past years — to the Finance Chairman, Dr. S. J. Phillips.

A new Canadian Dental Association Section was established — Dentistry for Children and direction was given that a study be made in regard to specialization and that a policy be formulated in an effort to secure uniformity in this field.

Fluoridation of communal water supplies was again approved and the following resolution was adopted —

"Whereas tooth decay by adversely affecting the vast majority of people in Canada, is recognized as one of the most widespread public health problems of our age, and

Whereas the fluoridation procedure has received assiduous study under the widest variety of controlled conditions during a period of over thirty years and

Whereas such studies reveal that fluoride in the recommended amount of 1 part of fluoride to each 1,000,000 parts of water is safe from any ill-effect and is dramatically effective in reducing tooth decay by approximately two-thirds and

Whereas scientific evidence completely substantiates the fact that the benefits which accrue to children extend into adult life therefore be it

Resolved that the Canadian Dental Association do hereby strongly reiterate its recommendation to the Canadian people that communities which have a public water supply, adjust the fluoride content of the water by means of the fluoridation procedure, and for this purpose seek competent dental, medical, and engineering advice."

A resolution requesting the addition of a dental representative to the staff of the Federal Administrator of Civil Defence was adopted.

While no tangible advancement was shown from the effort being put forth to secure deduction of pension payments from taxable income a further effort was instituted and the issue is still very much a live one.

Due to the fact that a high ethical standard is essential to maintaining the professional status of a dentist, local dental societies will be urged to include consideration of the subject of ethics in their yearly programme.

Dental Public Health — the following statement was presented and adopted —

(1) To encourage further dental research.

- (2) To encourage and assist in prevention by:
 - (a) Intense and continual health education throughout the community with particular emphasis on the importance of those preventive measures which can be performed only by the individual himself, or as a member of his family group.
 - (b) The use of those preventive measures which can be provided through community organization such as fluoridation.
 - (c) The use of those preventive services which can be rendered by the dental profession and its auxiliaries, such as topical fluorides.
- (3) To encourage the early diagnosis and systematic treatment of those conditions which cannot be prevented in the light of present scientific knowledge.
- (4) To encourage the establishment of adequate facilities for the training of dentists and dental auxiliary personnel and to seek their more effective utilization in health programmes.

Accompanying this report was a recommendation that each province promote a dental health week.

And finally a word about our secretary Dr. Gullett and his staff. Their talent, knowledge, co-operation and devotion to duty contributed inestimably in assessing the success of this annual meeting and herewith we extend our sincere thanks.

We congratulate Dr. Gullett on his acceptance of the office of full time secretary of the Canadian Dental Association and trust that the relief of the responsibilities of the Royal College of Dental Surgeons may add more leisure hours and happy years to his life.

We hereby extend to him our best wishes for good health, good fellowship and an ample amount of this world's goods and may he remain assured of the thanks of his friends and confreres for a task well done.

The honour and privilege of representing the Board of the Royal College of Dental Surgeons at this annual meeting is gratefully acknowledged.

All of which is respectfully submitted.

REPORT OF THE REPRESENTATIVE TO THE HEALTH INSURANCE STUDIES COMMITTEE

Mr. President and Members of the Board of Directors:

I wish to say again that it was a pleasure for me to sit in on the Session of the Health Insurance Studies Committee of the C.D.A. I have no vote, but I am permitted to take part in the discussions, and everyone is most kind.

The name of the Committee "Health Insurance" came in for some criticism as it is possible that it does not convey the proper meaning, or to put it another way it conveyed a meaning which we would not like. However, it was pointed out by the C.D.A. Secretary that the words "Health Insurance" are in common use by the government and to name the committee differently could cause confusion. To me the name makes sense as they actually do study health insurance schemes and trends and, evaluating them, form directive policy, and having a knowledge of the past as it pertains to the field of Health Insurance and a keen sense of the desires of the people and the trend of the times they are able to encourage action.

Progress is, of necessity, slow but nonetheless steady. Since the imminent commencement of Hospital Care by the government, the committee showed genuine concern that no workable prepayment plan in Dentistry has been proven. True, several plans are in existence in the U.S. but their progress, after study, had not been such as to give the committee too much satisfaction. It was pointed out, however, (by the Group Health Association Inc. of the District of Columbia) that statistics gathered over the last six years indicate that once the initial accumulation of dental disease and neglect has been eliminated, the maintenance rate in large groups remains constant and is, therefore, susceptible to the application of the prepayment insurance principle. This is a problem over which we, the dentists, have been concerned, and to have this knowledge is, to say the least, reassuring.

Dr. Grainger pointed out the importance of an amendable schedule of Acceptable Dental Treatment Service. He pointed out that what is now accepted as proper treatment care with commensurate fees might not be proper in the future, as the improved undergraduate teaching and post graduate courses show the way to new knowledge and newer methods of treatment. He stressed that education to the public and research in dentistry must be kept in the fore and to keep these branches from being neglected the men doing the work must be compensated more liberally than is now the case.

At the meeting in 1956, the committee drafted a statement of policy which was adopted at the C.D.A. meeting at Banff. This was their most important step. At the meeting in 1957, it was recommended that a non profit incorporated board or commission (e.g. Dental Services Board) should be established for administrative purposes, for all plans having to do with dental services on a group basis. This is the most important proposal to the C.D.A. For thorough knowledge of this recommendation I refer you to its inclusion in the report of the Secretary on the Welfare Plan.

INSPECTOR

For many years the R.C.D.S. Board has been concerned with the situation in Ontario, by which necessary dental treatment to Welfare Recipients was well nigh non-existent. It is a pleasure to report that this is in the process of being changed. Our Secretary has prepared a complete report for your consideration.

The post payment plan, presently operating in the Province of Saskatchewan is proving a complete success. It might well be that this Board could cause such a system to work in Ontario. It is possible that this also would come under the direction and guidance of the recommended Dental Services Board.

The Health Insurance Studies Committee is also the committee of the C.D.A. which studies the economic conditions of the profession. So much knowledge was secured from the last survey that it is definite that another will be taken up shortly. From the latest statistics secured from the federal government re income of dentists as compared with other professions it is noted that we are going down the scale. This was not suprising as office expenses have been increasing and in the main the fees have remained fairly constant. This, together with the fact that the average age of our personnel is increasing, hence less able to work long and hard, the average income has deteriorated in comparison with other professions.

Respectfully submitted,

M. V. J. KEENAN.

REPORT OF THE INSPECTOR

Mr. President and Members of the Board of Directors:

The following prosecutions are reported:—

1. **Anicita Matulionis** — practising dentistry in the office of Dr. L. L. Crowley, without a licence. This being her second offence, she was fined \$200.00 and costs.
2. **Kurt Schultz** — practising dentistry in the office of Dr. L. L. Crowley, without a licence. This being his second offence, he was fined \$200.00 and costs.
3. **Michael Wurtz** — practising dentistry illegally. This being his second offence he was fined \$200.00 and costs.

Respectfully submitted,

.....
Inspector.

ACTION

Motion: THAT the report of the Inspector be received and adopted.
... Carried.

REPORT OF THE REPRESENTATIVES TO THE NATIONAL DENTAL EXAMINING BOARD OF CANADA

Mr. Chairman and Members of the Board of Directors:

1. The meeting of the Committee of examiners and the annual meeting of the Board took place in Ottawa on June 28th and June 29th, 1956, at which your representative was present.

2. Two new members of the Board were present, namely Dr. J. R. Ingledew of British Columbia who replaced Dr. Wm. Miller, and Dr. J. B. Rumberg of Manitoba who replaced Dr. H. J. Merkeley.

3. The number of candidates presenting for the Board examinations in June, 1956 was 67, a decrease of 26 from the previous year. This decrease in number is due to several factors. It was reported that the graduating class at the University of Montreal was small this year and at McGill University there were a great many graduating students from the United States.

4. It was felt that more students and graduates from the dental schools in Canada would be encouraged to take the N.D.E.B. examinations if the advantages of the certificate were brought to their attention by the deans, faculty members and others.

5. To assist in giving publicity to the N.D.E.B. certificate and the advantage to its holders it was proposed that a brochure be prepared explaining the purposes and aims of the N.D.E.B. for distribution to the students in the Faculties of Dentistry in an effort to acquaint them with advantages of the possession of the N.D.E.B. certificate.

6. The results of the June, 1956 examination are as follows:

Total number of candidates	67
Passed in all subjects, average 65% or more	52
Eligible to take supplemental examinations	10
Failed candidates	5

In Appendix A to this report are the comparative figures for the examinations held in June, 1955 and June, 1956. 166 certificates have been issued to successful candidates from the establishment of the Board to December 2, 1955.

7. The Secretary was requested to prepare statistics relating to the examination results since the inception of the Board for presentation to the Board at the next annual meeting. These figures should give a comprehensive picture of the results of examinations of students from the various dental schools in Canada.

8. The matter of requiring full Canadian citizenship by applicants was brought before the meeting. It was pointed out that a considerable number of applicants, who are not Canadian citizens, make enquiries about the N.D.E.B. examinations and their eligibility for certification by the Board. It was felt that citizenship clause of the by-laws should be reviewed and a proposed change in Section 20 (a) which now reads "be a Canadian Citizen" be amended to read "be a Canadian citizen or has resided in Canada for a period of at least one year immediately previous to the date of the written examinations and to provide the Board with a declaration of his intention to become a Canadian citizen". The Secretary was instructed to forward this proposed change to Pro-

N.D.E.B.

vincial Registrars for presentation to their respective Licensure Boards and to obtain from the Provincial Registrars their requirements re citizenship.

9. The position of Candidates who have applied to write the N.D.E.B. examinations, have paid the fee and then fail in their final faculty examinations was discussed and it was decided to notify those candidates who for the above reason failed to qualify, that the registration fee and application will be returned to them or retained by the registrar-secretary until such time as they do qualify, as they request.

10. In a discussion of the present status of the DDC and DCC certificates it was agreed that these certificates cannot be revoked by the N.D.E.B. and that disciplinary action, where necessary, can be taken by the Provincial Boards.

11. It was decided that candidates who fail to obtain the necessary credits in all written examinations should not be required to retake the oral examination.

12. As the primary purpose of the special Fall examinations is for those who wish to take supplemental examinations, it was agreed that commencing January 1, 1957, candidates desiring to take the N.D.E.B. examinations for the first time at the special Fall examinations, must petition the Board not later than June 15th, must give satisfactory reasons and pay an additional fee.

13. Clarification of by-law 20 (d) with respect to the date of approval of dental schools by the Council on Dental Education of the C.D.A. was effected. The original time of such approval is effective as of March, 1948.

14. The financial condition of the Board is satisfactory but with the reduction in numbers of candidates this year the surplus was not up to expectations. It requires approximately 75 candidates per year to operate the Board at the present scale of fees and expenses.

15. In the report of the Council on Dental Education to the C.D.A. Board of Governors in June of this year, the following paragraph is of interest. "The representatives from the Council to the National Dental Examining Board reported that at the 1955 series of examinations there was evidence of improvement in the papers written over those written in 1954. It was suggested that the relatively high failure rate in 1954 may have been a deterrent to those candidates who had borderline passes in their respective faculty examinations in 1955. However, evidence was provided by the representatives from the dental schools that frequently Faculty borderline candidates failed in the N.D.E.B. examinations, thus giving evidence of the high standards required to pass these national examinations."

16. The officers of the Board were re-elected for the ensuing year and the registrar-secretary and the examiners were re-appointed.

Respectfully submitted,

R. J. GODFREY.

WORKMEN'S COMPENSATION BOARD

REPORT OF THE REPRESENTATIVES TO THE WORKMEN'S COMPENSATION BOARD

Mr. President and Members of the Board of Directors:

The revised Form 8B and Schedule of Fees, approved by the Board of the Royal College of Dental Surgeons of Ontario, was accepted with only a slight upward revision in one suggested fee by the Workmen's Compensation Board. This action is in keeping with the rapport existing between the R.C.D.S. Board and the Workmen's Compensation Board. Once again, tribute must be paid to our Consultant, Dr. Tom Marshall, whose expert mediation on difficult and contentious claims, has helped engender this fine relationship.

The new Schedule of Fees became effective, October 1st, 1956.

J. M. CAMPBELL.
M. V. J. KEENAN.

ACTION

The Secretary was directed to inform the Secretaries of Local Societies that the Workmen's Compensation Board schedule is a negotiated one between the Compensation Board and the Royal College of Dental Surgeons and the name of the Workmen's Compensation Board is not to be employed as a basis of any publicity for a fee schedule.

Motion: THAT the report of the Representatives to the Workmen's Compensation Board be received and adopted. . . . Carried.

REPORT OF CONSULTANT TO THE WORKMEN'S COMPENSATION BOARD OF ONTARIO

Mr. President and Members of the Board of Directors:

Once again your consultant to the Workmen's Compensation Board of Ontario submits his annual report. Over the years various problems arising between the beneficiaries, the Board, as the insuring agency under the Compensation Act and our dental colleagues, have been discussed in these presentations. There seems little point in repeating them although difficulty in appraising many cases still occurs and the Board's appraisers are often confused by some dental reports.

During the period covered, your consultant has assisted with sixty-

five claims, giving written opinion. In as many more, telephone opinions and advice have been given to appraisers. For most of the year the Board has had one appraiser for dental cases but more recently the policy has been changed and now there are five dealing with dental claims.

As you gentlemen are aware the big accomplishment of the year was the revising of the dental form and the tariff for dental services. As far as I am aware, and the Medical Aid Officer agrees, dentists generally seem quite satisfied with the new Compensation Board fee allowances. However, as you would suspect, there are still the odd exceptions, but these are very few. The Board takes the stand that fees shown on the form will be allowed but no increases unless justified by increased difficulty in services, extra services, or greater responsibility than ordinary, and this is only done on advice of your consultant. The Chief Medical Aid Officer advises that more x-rays are accompanying reports and that dentists' reports in the main are better since the new form has been issued.

In regard to Jaw fracture cases, it is too soon to make any statement whether there is any improvement in co-operation between the surgeon and the dentist in handling treatment. I know of one hospital in Toronto which seems to be getting started nicely. It should be pointed out that an error has occurred in printing the new dental form — item 21. It was agreed by the Board's Committee that Jaw fractures treated by a dentist alone, where he took complete responsibility, the fee should be \$75.00 plus appliances, if any were used. This arrangement still stands but is not shown on the schedule.

I think perhaps professional relations with the Board were never better. I feel quite sure our Registrar-Secretary, Dr. Dunn, will bear this out in conversations we have had with the Medical Aid Committee and the Chairman of the Board, Mr. Sparrow, himself. I am advised by the Chairman of Medical Aid that the profession are very co-operative with only a very rare exception.

It would seem that your Board's stated policy of asking for fair fees and expecting good dental service is appreciated by both the Workmen's Compensation Board and its beneficiaries.

In closing, I would like to acknowledge the co-operation I receive from my practising colleagues in difficult cases and to say thank you to Dr. Dunn for his assistance at all times; finally, I thank you gentlemen for entrusting this duty to my care during the past twelve months.

Respectfully submitted,

T. R. MARSHALL, D.D.S.

ACTION

Motions: THAT Dr. T. R. Marshall be re-appointed as consultant of the R.C.D.S. Board to the Workmen's Compensation Board of Ontario. . . . Carried.

THAT the report of the Consultant to the Workmen's Compensation Board of Ontario be received and adopted. . . . Carried.

AMERICAN ASSOCIATION OF DENTAL EXAMINERS

REPORT OF THE REPRESENTATIVE TO THE AMERICAN ASSOCIATION OF DENTAL EXAMINERS

Mr. President and Members of the Board of Directors:

The Seventy-third annual meeting of the American Association of Dental Examiners was held September 28th and 29th, 1956 at Atlantic City.

1. The meeting was under the direction of the President, Dr. F. J. Martin of Medford, Wisconsin. The first session dealt with the minutes of the last meeting and President's address. In his address he reviewed the purposes of the Association and pointed out that the American Association of Dental Examiners was the earliest group concerned with maintenance of standards of practice. He suggested a study of the present needs and future problems of the Association and stressed co-operation with other dental organizations and agencies to avoid duplication of efforts. The desirability for more uniform dental laws between the various states was stressed and suggested that the Association should concern themselves with and be represented in matters of national legislation.

2. He felt that there were other areas besides education and examinations, and that the Association had a responsibility to the public. It was indicated in one of the reports that "there is need for constant co-operation and complete understanding between dental schools and State Boards of dental examiners". We are in a much happier situation in this Province in this regard than that which pertains in many of the States.

3. The need for State Boards of dental examiners to re-evaluate their examinations as to subject content, clinical requirements and examination procedures, and the importance of keeping them in line with current subject matter and techniques taught in the dental schools was considered to be of importance. You will recall that our Board from time to time has authorized the revision of examination procedures to constantly keep them up-to-date. On the other hand, it was observed that the Boards of Dental Examiners should be on the alert to see that graduates are fully qualified to practise in order to keep the standards at a high level.

4. The fact that in many States, members of State Boards are appointed because of political connections was commented on. We are in a happy position in this regard. It was proposed that a list of qualifications for membership on State Dental Examination Boards be drawn up.

5. The Regional workshops on seminars for Board members were well received and brought out facts on what is currently taught in dental schools, information on methods of evaluating candidates' abilities to practise and the development of co-operation between dental school faculties and Examining Boards. Funds for these seminars are very limited and financial assistance is to be sought to carry them on if possible as their value is recognized.

6. In the report of Foreign Colleges Committee, it is the intention to evaluate one foreign college each year. This year the dental school in Israel was examined. A drive for funds is being organized for the purpose of building a school in Israel, although the school is now a reality and is functioning. The curriculum is based on a six year course

following the general plan of education on this Continent. An attempt is being made to revise the dental laws there so as to control the practice of dentistry and bring it to a higher professional level.

7. It was reported that an appropriation of \$6,000,000 was made for the establishment of National Institute of Dental Research. More than \$3,000,000 of this fund is intended for dental research proper and the rest is to be used for completion of the building.

8. All dentists in the United States are now covered by the old age and survivors insurance programme, the rates being computed on net income of the dentist.

9. The situation with regard to internes in hospitals being permitted to practise is somewhat confused. The interne is either issued a limited permit to practise or is required to have a state licence. Our arrangement in this connection seems to work very well. In some states, e.g. Florida, a dentist may operate in a non-profit clinic without licence requirements.

10. Illegal practice continues to be a topic for discussion and the problem is growing to such proportions in the U.S.A. and indeed in some areas of Canada, that the A.D.A. has made it one of its major considerations. Several states have secured permanent injunctions against illegal practitioners. How effective this measure is I cannot say. A resolution was introduced that the problem of illegal practice should be treated as a national problem, that the American Dental Association employ trained investigators who would be available to State Boards and the A.D.A. Headquarters act as a clearing house for information as to convictions. This resolution was referred to the legislation committee for further study.

11. An interesting piece of legislation is reported to be presented to the Oregon State Legislature. In substance it is a requirement that all practitioners must take a post-graduate course every five years at an accredited school. It is not known if this has passed the State Legislature.

12. A panel discussion on the subject "The Future Course of the American Association of Dental Examiners" was ably conducted by Dr. Blauch. The five papers, discussion and conclusions will be found in the proceedings. In addition, two papers on "The Formulation of Licensure Examinations for Dental Hygienists" were read and these are also published in the proceedings, both of these I recommend for your perusal.

13. A report on the National Board of Dental Examiners indicated that thirty states, two dependencies and three federal services now accept the National Board of Dental Examiners Certificates for registration. Another report presented dealt with Dental Trade and Laboratory relations. Also the representation on Council on Dental Education, A.D.A., which noted that the C.D.A. and A.D.A. includes the Canadian schools. There were no changes in the by-laws which affect this Board.

14. The financial position of the Association is satisfactory although not too affluent.

15. Dr. Walter A. Wilson, Dean of Fairley-Dickenson, New Jersey School, was elected president and Dr. Arthur W. Kellner of Hollywood, Florida, was elected president-elect.

Dr. Dunn attended the breakfast meeting of Board Secretaries and availed himself of the opportunity to become acquainted with many of these officers.

I wish to acknowledge my appreciation to this Board in making it possible for your examiner-in-chief to attend this meeting where old friends are contacted and new friends are made, and common interests may be discussed.

A.A.D.E.

Our Board appears to be held in high regard by members of other State Boards.

Respectfully submitted,

RICHARD J. GODFREY.

ACTION

Motions: THAT Dr. Godfrey be the representative from this Board to the American Association of Dental Examiners. . . . Carried.

THAT the Report of the Representative to the American Association of Dental Examiners be adopted. . . . Carried.

REPORT ON OVERSEAS GRADUATES

Mr. President and Members of the Board of Directors:

At a meeting of the Council of the Faculty of Dentistry held in January, the Council received and adopted a recommendation from the Admissions Committee respecting the admission of foreign graduates to the undergraduate course leading to the degree of Doctor of Dental Surgery as follows:

THAT this Committee having reviewed its policy concerning the admission of European graduates in the light of circumstances prevailing at present, continue to process such applications as in the past.

FURTHERMORE, in view of rapidly increasing inquiries from European countries, a corresponding increase in its obligation to Canadian applicants, and the knowledge that this school cannot admit European students in larger numbers than it has in the past, it is recommended:

THAT this matter be brought to the attention of the Board of the Royal College of Dental Surgeons in view of its concern with this problem.

In the period January 3-10, 1957, twenty-seven interviews with, or inquiries and applications from overseas graduates were processed in the Dean's office. The majority of these people indicated that they were emigrating to Canada, and many had already arrived.

The group included five from Hungary (four of whom were already in Canada); five from England; two each from Scotland, Germany, Australia, Greece, Egypt, South America, and one from South Africa, Turkey, India, Ireland and Lithuania.

We continue to receive many inquiries.

About the same time the Committee had before it for the 1957-58 session, twenty-eight completely documented applications, mainly from Commonwealth countries. The serious problem presented by the apparent recent upsurge in overseas interest initiated the review by the Committee and the presentation of the recommendation quoted above, to Council.

During the past year we have also been reviewing the Faculty procedure in admitting and training European dental graduates. Five years ago we reported briefly on this subject. For your information I am attaching as appendix A the basic form we use in answering inquiries from European graduates. Other documents are sent as well.

In brief, all European graduates, but not graduates of the British Commonwealth universities, are required to first write the qualifying examinations given only in July each year, and secondly to gain admission to the Second Dental Year, and then proceed through the regular course to the degree of Doctor of Dental Surgery. Provision is made however for those who demonstrate superior ability in the Second Dental Year to be considered for promotion from the Second Dental to the Fourth Dental Year.

In the recent study of this procedure the records of all European graduates who had written the qualifying examinations since they were first given in July 1951, were reviewed. The following table is of interest:

OVERSEAS GRADUATES

Year	European Graduates — Qualifying Examinations					Total	Completed in Two Years
	Wrote Qual. Exam.	Admitted	Graduated	Withdrew	Registered Session 1956-57		
1951	6	6	3	3	—	6	1
1952	13	9	6	1	2	9	2
1953	12	6	4	2	—	6	—
1954	7	3	3	—	—	3	3
1955	12	6	—	—	6	6	—
1956	9	4	—	—	4	4	—
	59	34	16	6	12	34	6

From this table it should be noted:

- (1) that several of the candidates wrote the qualifying examinations more than once;
- (2) the 59 who have written the qualifying examinations represent 48 different candidates;
- (3) only 6 of the 34 admitted have demonstrated superior ability and have been promoted from Second to Fourth Dental Year;
- (4) among the six cited in (3) there is no common pattern as to European school or country of graduation.

It is assumed that we must continue to provide this programme for European graduates who are trying to rehabilitate themselves in their profession in Canada. We have heard some criticism from both within the Faculty and within the profession because of the numbers admitted to the Faculty during the past six years. We have also had criticism levelled at the Faculty for demanding a minimum of two years of training or more from persons whom the laymen regard as qualified dentists. The record of the past six years however seems to justify the programme established for these European graduates.

Serious consideration should be given however to permit graduates from the universities of the British Commonwealth who wish to reside in Canada, to present themselves for the examinations of this Board without further education. Should they fail to qualify for the licence, an educational programme may then be established to meet their needs. This would relieve some of the pressure relating to admission of overseas graduates, presently being experienced by the Faculty.

We present this matter relating to overseas graduates to this Board for your consideration.

Respectfully submitted,

ROY G. ELLIS,
Dean.

APPENDIX 'A'

MEMORANDUM RESPECTING ADMISSION OF GRADUATES FROM EUROPEAN DENTAL SCHOOLS TO THE FACULTY OF DENTISTRY, UNIVERSITY OF TORONTO

1. The sole authority for the issuance of a license to practise dentistry in the province of Ontario is by statute (The Dentistry Act) vested in the Royal College of Dental Surgeons of Ontario. The present address of the College is 234 St. George Street, Toronto 5, and application should be made there for any information regarding the licence.

OVERSEAS GRADUATES

2. The function of the Faculty of Dentistry of the University of Toronto is to prepare students for admission to the degree of Doctor of Dental Surgery.
3. At the outset, it should be stressed that the pattern of dental education in Europe differs materially from that on this continent.
4. With this difference in mind, committees of the Council of the Faculty of Dentistry and the Council itself have devoted many hours during the past ten years to a study of the requirements necessary to prepare the dentist graduated from a European university for graduation from this Faculty.
5. Recently the number of graduates of European universities seeking admission with advanced standing to the Faculty has been eight to ten times the number of places which could be made available in the regular undergraduate classes. The limited facilities of this Faculty have necessitated a restriction on the number of candidates (both regular Canadian and all others) being admitted in any one year.
6. The candidates for admission to advanced standing present a wide variety of academic credentials from universities all over Europe. In an endeavour to assist the Committee on Admissions in the selection of candidates from the many applicants for the few available places, a Qualifying Examination is held. This Qualifying Examination must be written by all graduates of European dental schools who wish to apply for admission. It comprises four written papers on subjects basic to courses in dentistry. A synopsis of the field covered by the examination in each of these courses is sent to the prospective candidates well in advance of the time of the examination.
7. Candidates from among those taking the Qualifying Examination are selected for admission to the Second Dental Year on the basis of
 - (a) academic credentials and other details submitted relating to their curriculum vitae,
 - (b) the results obtained in the Qualifying Examination.
8. Provision is made for promotion of those exceptional graduates of European dental schools who, in competition with the regular Canadian undergraduate, demonstrate superior knowledge and skill. Upon successful completion of the Second Dental Year, these special students may be promoted directly to the Fourth Dental Year — thus requiring only two instead of three years to obtain the degree.
9. Our experience leads us to the conclusion that the present practice is equitable. It provides as rapid a programme of re-orientation as the average graduate of a European dental school can assimilate and yet it provides for the candidate with more than average ability.
10. We believe that the educational programme which has been developed in the Faculty of Dentistry, University of Toronto, for the dental graduates from European universities is founded upon a realistic appreciation of this complex problem.

ROY G. ELLIS,
Dean, Faculty of Dentistry.

ACTION

Motion: THAT the report on the Overseas Graduates who hold a University dental degree, such report relating to Licensure, be referred to the Committee on Examiners and Petitions for study and report at the next meeting of the Board. . . . Carried.

REPORT OF THE LIBRARIAN

Mr. President and Members of the Board of Directors:

I am happy to report that the Harry R. Abbott Memorial Library and the Library of the Faculty of Dentistry, University of Toronto, have functioned effectively during the current year.

There were 122 acquisitions of new books and 2 new journal subscriptions were added during this period. Four periodical subscriptions have been cancelled because of disuse. The backlog of books on order has been materially decreased, but the situation cannot, as yet, be considered entirely satisfactory. The time lag between the requisitioning and the receipt of books is still too long in many instances except for the items that were specifically marked rush. The Library Committee is making every effort to improve the situation.

Donations from many members of the profession are herewith gratefully acknowledged. Space does not permit that the donations be individually acknowledged here, but personal acknowledgment has already been made. We are particularly grateful to Mr. D. Caruso of Toronto who has generously donated to our Museum a fine antique phlebotomy set, complete with bleeding bowl, which had been in his family for many years. Such thoughtfulness and interest on the part of a layman is particularly appreciated.

All remaining periodical subscriptions which had previously been purchased from the Harry R. Abbott fund have now been transferred to the University appropriation with the exception of *Torontonensis*. Because of the extensive use that this volume receives from members of the profession, the Library Committee considers it a just expenditure from the fund. The *Globe and Mail* subscription, I am pleased to report, is now charged to a Faculty fund.

It is the custom of the American College of Dentists to place a memorial volume in the libraries of their deceased Fellows. Two such volumes have been received by our Library in memory of Dr. H. K. Box and Dr. Gestie Perkin. Each bears the memorial bookplate of the College, and, in addition, the volume in memory of Dr. Box has been personally autographed by Dr. Menken, the author, who was his friend for many years.

The expenditure of the Abbott fund has been restricted largely to rebuilding the older books in the Abbott collection. Thirty volumes of the *American Journal of Dental Science* have been rebound. The entire fifty-three volumes of this pioneer publication are now uniformly bound, with the exception of one volume, in which we are short one issue. Further rebuilding of the books is contemplated during the coming year.

I am pleased to report that the oil paintings that were in need of restoration have been cleaned and restored in a highly satisfactory manner for a reasonable expenditure.

The Library has received books and journals from fifty-three Libraries in the United States as well as others from Columbia, the Canal Zone, England, Argentina, South India and Canada. In return we are offering 1,744 periodicals on the Medical Library Association exchange and 154 books.

The Library appropriation from the University of Toronto was increased \$300, bringing the Faculty allotment from this source to \$1,900. The interest of the University is herewith gratefully acknowledged. The appropriation now seems to be sufficient to meet the current Library demands.

The Library plans for the new building have been a major source of activity for the Library Committee and tentative plans have been completed. Seating accommodation for 120 students has been provided, which more than doubles the present capacity. Instead of tables, semi-carrels of a unique design are being suggested. Fourteen individual carrels have been requested for graduate students and a Staff Reading Room is being provided. In the present plans we have been allotted 7,500 square feet of floor space which includes 858 square feet for a Museum. It is proposed that the memorial window to Dr. J. B. Willmott should be placed and suitably illuminated in the museum area. Consideration is also being given as to how the busts of Drs. Willmott, Johnson and Wood may be displayed with dignity and good taste.

Circulation figures for the last three years are herewith appended (Appendix A). 100 books and journals were mailed to out-of-town borrowers and there were 13 inter-library loans. There has been a decrease in circulation of 873 from last year. The second factor tending to this decrease is the change in thesis requirements at the Faculty. Undergraduates now write but one essay during their course in place of four which they previously wrote. This has decreased their reading and borrowings. The character of the out-of-town circulation is gradually changing due to the facilities of the Library of the Canadian Dental Association.

The interest and co-operation of all those responsible for Library function is herewith gratefully acknowledged. The Library Committee has functioned faithfully and appreciation is expressed to Miss Phyllis Smith for her unceasing efforts during the year and her part in planning our future Library. Attention should be given to the fact that a doubling of facilities inevitably implies a double staff load. Attention must be given to developing the necessary personnel. In a specialized library, continuity of staff is vital to adequate function, as the background of dental literature cannot be acquired overnight. Organization to incorporate this basic factor into our programme is a present requirement.

The financial statement of the Harry R. Abbott fund is herewith appended (Appendix B) and this report is respectfully submitted with the recommendation that the customary grant be continued for the ensuing year.

Respectfully submitted,

J. H. JOHNSON,

Librarian.

THAT the Report of the Librarian be adopted. . . . Carried.

REPORT OF DENTAL PUBLIC HEALTH COMMITTEE, O.D.A.

Mr. President and Members of the Board of Directors:

For the third and last time it is my privilege as chairman of the Dental Public Health Committee to present to you a report of its activities for the year 1956-57.

We are grateful to you for making it possible for us to employ a Field Secretary. Dr. Mitton has been indispensable to us in carrying out our many varied projects.

This year under the joint-chairmanship of Drs. Boyes and Swales a Dental Health Day was held in Ontario, in co-operation with the Health League of Canada during National Health Week. The Chairmen and their committee developed a packet of material containing Editorials, News Releases, Radio Scripts, Spot Announcements & Television Scripts. The Canadian Dental Association made available to us 3-20 second spot announcements for T.V. The material was widely used in Ontario and many of the provinces requested this packet. The newspaper coverage was extensive and clippings were received from all parts of the Province as well as from all parts of Canada. Sixteen of the local societies took an active part in the day — addressing local groups, submitting newspaper articles and appearing on radio and T.V. The T.V. spots were used by 13 local T.V. stations in Ontario. We hope to have an active participation of all local societies in next year's Dental Health Day.

The Seminar Programme under the Chairmanship of Dr. Rife held five seminars in Sarnia, St. Catharines, Pembroke, Timmins and Fort Frances. Since inception of the Seminar programme five years ago 25 seminars have been held with an average attendance of 17. During that period we have received from Governmental Agencies the sum of \$7,680.00 to take care of the cost of providing clinicians.

The Materials Committee under Dr. Marjory Jackson, Chairman, with Drs. Peterkin and Davey have kept our supply of materials at an adequate level. The films, film strips and 2/2 slide series were in constant use. Credit must be given to the chairman for the manner in which she maintained and distributed the slide series.

Dr. Butler in charge of promotion of Your Child And Mine has been successful in the sale of same to the extent of \$600.00.

Convention planning under Dr. Pownall went on all year, and the results were most gratifying. We took our usual part in directing a Breakfast on Monday morning, a Luncheon on Tuesday and a two-hour clinic session. We presented a table of materials, had a personal participation project in the exhibit hall and had our films and slide series shown.

Our Red Cross representative Dr. MacGregor was instrumental in obtaining a grant of \$20,000.00 for the orthodontic treatment of children in rural areas where the mouth and facial deformity is a psychological factor and is beyond the means of the parent. The Red Cross (Ontario and Junior Branches) has contributed to the cause of Dentistry the sum of \$373,313.00, during the last ten years (1946-1956).

Our committee has been fortunate in having such men as Drs. R. G. Ellis, F. Kohli, F. Compton, W. J. Dunn, S. A. MacGregor, A. Histrop,

D.P.H.

D. J. E. Mitchell and R. Fisk as associate members. We are deeply grateful for their active participation on the sub committees and for their counsel and advice.

We appreciate the time and effort taken by the clinicians in the presentation of the seminars for without their whole-hearted co-operation this programme would not have been possible.

May I bespeak your continued interest and support of this committee and hope that my successor will be received in the same gracious and understanding manner by this Board as I have been received.

Respectfully submitted,

EDGAR A. WHITE,
Chairman.

APPENDIX A

REPORT OF FIELD SECRETARY TO D.P.H.C.

Mr. President and Members of the Board of Directors:

During this year, our committee have gained some valuable experience in working with the component societies of the Ontario Dental Association. The staging of a Dental Health Day during National Health Week as well as this year's Seminar programme has given evidence of the importance of a programme which involves local Dental Society activity. An evaluation questionnaire was used to get the reaction of local societies following Dental Health Day during National Health Week. About a fifty per cent response has been received to date and many constructive ideas have been suggested. Fourteen of the sixteen societies reporting so far agreed that there was an advantage in holding this special day during National Health Week. A similar number stated they preferred a day rather than an extended period of a week, as planned in some other provinces. All reported having fine support from the local press and radio stations. Spot announcements and press release material, which were prepared by the Dental Health Day committee, were widely used. Dentists in many places took an active part by speaking before lay groups or by being interviewed on radio and television or by the press.

The Ontario Retail Pharmacists' Association was very co-operative and placed an announcement of Dental Health Day in their "Bulletin" which goes out to the twenty-four hundred Ontario pharmacists. Local pharmacists were reported in the questionnaire to have given time on their radio programmes for spot announcements as well as space in their newspaper advertising.

Service Clubs made announcements of Dental Health Day in their club magazine and many co-operated with the local Dental Societies and had special speakers on Dental Health.

The newer medium of television was found to be very effective. The Dental Health Day committee contacted all thirteen private television stations in Ontario and through the assistance of the Canadian Dental Association, provided three short T.V. spot announcements on film to each of the stations. These spots emphasized tooth brushing, diet and the value of caring for the first teeth. The greatest co-operation was received from all stations and all excepting two stations used them for telecasting during the week. The two not having received the films early enough, pointed out their willingness to co-operate and the need to receive the films much earlier.

It is interesting to note that in the five areas with television facilities and where Dental Health officers are employed, T.V. station time was generously provided on Dental Health Day for personal interviews or for panels of dentists to discuss phases of dental health. These periods were varied from five to fifteen minutes' duration. One station gave fourteen spot announcements on television during this short period.

The Canadian Broadcasting Corporation was very generous in giving time on network programmes. During National Health Week, dentists were interviewed on Trans-Canada or Network programmes such as "Audio", "Assignment", "Play It Safe", and "Sports College".

To buy the commercial time given by the Canadian Broadcasting Corporation and private Ontario television and radio stations, the cost would have been many thousands of dollars. The Dental Public Health committee are deeply grateful for the contribution made by these public spirited people in the cause of better dental health.

Dental Seminars

The fifth year operation of Seminars has completed the original plan set out in 1952 to present short courses in Children's Dentistry in communities in Ontario, outside metropolitan areas. The coverage planned at that time has been completed with the five held this year. These were held in Fort Frances, Timmins, Pembroke, St. Catharines and Sarnia. The instructors included Drs. D. J. E. Mitchell, S. A. MacGregor, R. O. Fisk, K. W. Davey, M. R. Culbert, J. E. Speck, C. D. Beierl and J. T. Crouch.

With the five Seminars held this year, twenty-five Dental Seminars have been held in Ontario. Nine of these were held in Northern Ontario, six in Central Ontario, four in Eastern Ontario, three in South Western Ontario and three in the Niagara Peninsula. There has been an average attendance of 17. The distribution of these Dental Seminars is shown on the map of Ontario accompanying this report.

The financing of this programme of Seminars for the improvement of dental care of children, has been made possible through the co-operation of the Faculty of Dentistry and the provision of a provincially administered Federal Health grant. During the four years' operation under grant, this has amounted to \$7,680.00. This was used for the provision of teaching personnel only. Other expenses such as travel, hotel and related expenses of the instructors, were covered mainly by the fees of those registered on the Seminars and by our committee's grant from the Ontario Dental Association.

Other Contributing Agencies

While speaking of agencies outside dentistry who have contributed financially to the improvement of dental health in Ontario, I would like to pay tribute to the Ontario Red Cross and Ontario Junior Red Cross and to Dr. S. A. MacGregor who represents our Dental Public Health committee and the profession of Dentistry on Red Cross. Commissioner L. R. Stringer states that from 1946 to 1956 their contribution has amounted to \$373,313.00.

The Atkinson Charitable Foundation has very generously contributed to Orthodontic research in the rehabilitation of Cleft Palate children. This is part of a Medical Research programme at the Toronto Hospital for Sick Children and constitutes a large part of the grant but it was not possible to secure the exact amount.

Toronto Workshop Conference

When it is possible to bring together forty-seven delegates representing sponsoring agencies in Education, Health and Social Services to study a dental health problem in a community, that in itself is an important accomplishment. With the counsel of three prominent

authorities, reflecting advanced thinking in regard to community dental health and educational psychology, the recommendations of such a conference to establish trends of thinking and action important to the well-being of that community. The establishment of a Council on Dental Health to take action on some thirty recommendations, was proposed.

The pattern of such a conference seems to be applicable to any community interested in studying its own problems in dental health. The evaluation of the needs, the amount and type of care available and a community effort to try and meet the need and improve dental health, seems a good approach and should result from such a conference. The local dental society again must lead in such a project. Guidance which this committee can give, can assist the local society in any such activity.

Other Activities of the Field Secretary included:—

1. Places visited in the interest of Dental Public Health.

Sarnia — Attended Seminar Dinner Meeting.

Woodstock — Met with dentists of area

Fergus — Attended meeting of the sub-section of the Dental Health Officers' Section of the Ontario Public Health Association.

Fergus & Kitchener — Checked script for T.V. presentation. Panel member on a telecast in Kitchener.

Eastern Ontario — Itinerary on organization of Rideau District Society; Perth, Smiths Falls, Carleton Place, Almonte. Called on dentists in each area and met with Smiths Falls group for luncheon to discuss their suggested dental society.

Pembroke — In planning for a Dental Seminar in Pembroke, met with the dentists of the district.

Renfrew — Seminar planning

Arnprior — Seminar planning.

Kitchener — Attended a meeting of the Intercounty Dental Society to explain the detail of Seminar planning.

Atlantic City — Attended Annual Meeting of the American Public Health Association.

2. Meetings Attended in Interest of Dental Public Health

Conference on Crippling in children.

Provincial Department of Public Health Conference in Area 2.

Toronto Workshop Conference

Conference on Civil Defence (Ontario)

Ontario Public Health Association — Annual Meeting.

Health League of Canada — Annual Meeting.

Toronto Welfare Council — 2 meetings.

Regional Meeting of the Dental Public Health Officers—2 meetings.

Academy of Dentistry — 3 stated meetings and winter clinic.

Executive and Committee Meetings:

Dental Public Health Committee — 6 meetings.

Dental Health Day — Sub-committee — 5 meetings.

Ontario Public Health Association — 3 meetings of the Executive.

Ontario Educational Association — Health Section Executive.

Health League of Canada — National Health Week Executive.

Committee on Dental Needs and Resources of Toronto Welfare Council — 2 meetings.

General Seminar Committee of Ontario Dental Association — 1 meeting.

Executive of Canadian Public Health Association.

Executive of the Dental Public Health section of the Canadian Public Health Association.

Interviews and Speaking Engagements

Many inquiries by way of interviews seem routine. Graduates from out-of-town come in respecting advice on materials, programmes, speaking engagements and the practice opportunities for graduates in Dentistry in their area.

Representatives of other Associated health services seek information, e.g. the Director of Public Health and Nursing and her assistant came to discuss the role of the Dental Hygienist in a public health programme.

Short interviews were arranged with the following on Dental Health matters:

Canadian Broadcasting officials on Dental Health Day.

Television programme directors and producers.

Radio producer of network programme: "Assignment".

Associated Screen News on T.V. spot announcements on film.

Ontario Retail Pharmacists' Association on Dental Health Day.

Publicity director, Health League of Canada.

Commissioner of Ontario Red Cross on a National Health Week interview of the staff of the Dental Coach over C.J.B.C. radio "Assignment".

Speaking engagements were as follows:

Vaughan Road Collegiate Home and School Association.

Downsview Collegiate Institute Careers Day.

Toronto Welfare Council — Reported on Toronto Workshop Conference.

Public Health Conference Area #2 — Dental Section.

Future Trends

During the past five years, our committee have sought an approach through the dentist to more adequate and better dental care of the children. This has been carried out by offering practical instruction to the dentists in this field by the use of Dental Seminars in their own community. This has been appreciated by many of those who have registered and this type of instruction in any subject is very effective.

It is our opinion that an approach to the parents of these children through the co-operation of the local dental societies is the next step necessary. An appreciation of Dental Health services and a better understanding of what parents can do themselves to prevent much of the present evidence of neglect among children, is necessary. This is an educational programme which challenges the profession and can only be accomplished by a co-operative effort on the part of all component societies with the central committee. The willingness of most Ontario societies to work at this locally with whatever help our Committee can give them, has been evident in the recent effort of staging a Dental Health Day in Ontario. More and more educational material must be produced for this purpose in all media of communications and made available for wider use. Provincial executive bodies of Home and School and Parent Teachers' Associations have shown their interest already in recommending to their component local societies, activities in this field of dental health education. Doors are opening to us. Creative planning, time and money are necessary to fulfil our obligation to the public.

Respectfully submitted,

GLENN T. MITTON,
Field Secretary.

ACTION

Motion: THAT the report of the Dental Public Health Committee be adopted. . . . Carried.

BY-LAWS

AMENDMENT TO BY-LAWS

BY-LAW NO. 87

(Enacted at the Fall Meeting)

Being a By-Law to Amend By-Law No. 13.

Be it enacted a By-Law of the Royal College of Dental Surgeons of Ontario as follows:

That Section 5 of By-Law No. 13 be amended by deleting the word "Board" in lines 15, 17 and 20 and inserting in place thereof the words "Discipline Committee".

WESLEY J. DUNN,
Registrar-Secretary.

Explanation:

This By-law now confers the right upon the Discipline Committee rather than the Board of making formal demand on a member for correction of conduct, condition, practice and/or procedure.

BY-LAW NO. 88

(Enacted at the Annual Meeting).

Being a By-Law to Amend By-Laws No. 10 Section 1 subsection (a) and No. 12 Section 2.

Be it enacted a By-Law of the Royal College of Dental Surgeons of Ontario as follows:

That Section 1, subsection (a) of By-Law No. 10 be amended by deleting the portion "to have resided continuously in Canada for a period of at least one year immediately previous to applying for membership in the College and". Section 1 subsection (a) of By-Law No. 10 would therefore read as follows:

"(a) To be Canadian citizens or to satisfy the Board of their intention to become Canadian citizens."

That Section 2 of By-Law No. 12 be amended by deleting the word "Five" in line four and substituting in place thereof the word "Ten".

WESLEY J. DUNN,
Registrar-Secretary.

Explanation:

The first portion of this By-Law eliminates the one year residency clause which previously had been a condition for applying for membership in the College.

The second portion now raises the penalty for late payment of fees from Five Dollars to Ten Dollars.

ADDITIONAL ITEMS

Amendment to Technicians' By Laws

A letter was received from the Acting Secretary of the Governing Board of Dental Technicians proposing the following amendment to the By-Laws of the Governing Board of Dental Technicians.

Draft Amendment to Regulation

- (1) Where a registered dental technician who is operating a dental laboratory business as a sole proprietor dies, or through mental or physical infirmity, becomes incapable of continuing the conduct of such business, his personal representative or the Committee of his estate, as the case may be, may continue the operation of the said business for a period not exceeding six calendar months from the date of his death or from the date of an Order made with respect to him under the provisions of The Mental Incompetency Act.
- (2) Any operation of a dental laboratory business by a person other than a registered dental technician under the authority of Clause (1) of this regulation shall at all times be subject to control by the Governing Board of Dental Technicians in the same way as if the said laboratory business were being operated by a registered dental technician, and in addition to any other powers which it may possess under The Dental Technicians Act or under these Regulations, of the operation of such laboratory business by such person if, after conducting a hearing with respect to such laboratory business the Board finds that the said laboratory is being operated in a manner prohibited by The Dental Technicians Act or these Regulations or is being used for any other illegal purpose.
- (3) Notice of any hearing to be conducted by the Board pursuant to the provisions of Clause (2) of this Regulation shall be given by the Board to the personal representative of any such deceased laboratory proprietor or the Committee duly appointed of any such laboratory proprietor declared to be incompetent or incapable by mailing the same in a post prepaid registered envelope addressed to such personal representative or Committee at the business address of such laboratory not less than five days before the date of the hearing and such notice shall contain the date of the hearing, the time of the hearing, the place of the hearing and a statement of the facts complained of.

Motion: THAT the Board approve of the amendment to the By-Laws as proposed by the Governing Board of Dental Technicians of Ontario. . . . Carried.

Appointment with Minister of Health (Fall Meeting)

The Minister of Health of Ontario, the Honourable Mackinnon Phillips met the Board by appointment. The Minister directed his remarks firstly to Research and stated that the Department of Health was negotiating with the Treasury Board for a sum of money to be directed to the University for Research purposes and alluded to the principle that funds should be ear-marked for certain purposes. Secondly, he stated that permissive legislation for presentation to the Cabinet respecting Fluoridation was already drafted and that he expected no difficulty. Thirdly the hospital situation was reviewed in

MISCELLANEOUS

respect to acquiring permissive legislation for the practice of dentistry in the hospitals. The position of the profession was reviewed and the terms of the profession's Brief were re-emphasized.

Bold-Faced Telephone Listings

A letter was received from the Ottawa Dental Society re By-Law 13 Section 1(C) (2) in respect to bold-faced listings in the telephone directories. The Society is seeking revocation of this section to permit bold faced listings in telephone directories. The Board decided to make no change in this By-Law.

Civil Defence

Motion: THAT the Secretary proceed to implement the recommendation of the Chairman of the Hospital Dental Services Committee on Civil Defence, re formation of local and master rosters of dental personnel, particularly those possessing special training which would be of assistance in case of disasters. . . . Carried.

Dental Anaesthesiology

Request was made for the Board to establish a specialty of Dental Anaesthesiology.

Motion: THAT the letter from Dr. requesting the establishment of a specialty in Dental Anaesthesiology be held for further study. . . . Carried.

After deliberation it was decided not to establish a specialty in Dental Anaesthesiology.

Dental Research (Fall Meeting)

A discussion was held respecting financial support for the Division of Dental Research.

Motion: THAT a committee of this Board appointed by the president be instructed to meet with the Research Advisory Committee with a view to bringing in a recommendation at the next meeting of this Board. . . . Carried.

The Committee to interview Research Advisory Committee was named by the President as follows: Lowery, Leckie, President and Secretary.

Income Tax Deductions Re Post Graduate Courses

The Board had previously forwarded a resolution to the Board of Governors meeting of the Canadian Dental Association requesting that further action be taken in respect to attempting to obtain relief from tax on moneys expended for approved post graduate courses.

A communication was received from the C.D.A. Secretary to the effect that the resolution of the R.C.D.S. re income tax deductions for post graduate courses was considered favourably by the C.D.A. Board and appropriate action was being contemplated.

Names to be Published

Motion: THAT the name of a member of the College who has been found guilty of infamous, disgraceful or improper conduct in a professional respect be published in the Proceedings of this Board. . . . Carried.

National Dental Examining Board of Canada

1. The National Dental Examining Board informed the Board that it proposed making a change in its By-Laws in order to make it possible

MISCELLANEOUS

for a non-citizen, by declaring his intention to become a Canadian citizen, to try the examinations.

Motion: THAT this Board concurs with proposed changes in Section 20(a) of the By-Laws of the National Dental Examining Board of Canada. . . . Carried.

Reciprocity with Michigan (Fall Meeting)

Motion: THAT Dr. Gullett be authorized to attempt a clarification with the Michigan State Board Officials of the status of the reciprocal arrangement re examinations. . . . Carried. (See Government and Legislation Committee Report).

Unsanitary Office

Motion: THAT having received numerous complaints about the unsanitary and unprofessional condition of the office of Dr., that the Secretary be instructed to make formal demand on Dr. for rectification. . . . Carried.

This member subsequently retired from practice.

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:—

1. May not display any sign containing anything other than his name, degrees and profession and in which any letters larger than four inches are used.

2. May not display more than two signs in addition to one at or on his entrance door.

(a) Not more than one of these may be a suspended sign.

(b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.

3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only unilluminated letters or figures not larger than two inches):

(a) Add to his entrance sign, his office hours.

(b) Add to any sign the words "Open Evenings" and (when an entrance is difficult to find) the words "Entrance on"

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:—

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice. The announcement shall not contain any reference to qualifications, procedure or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be the nature of a display.

2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedures or equipment:

(a) Use private professional cards.

(b) Issue accounts and receipts.

(c) Issue appointment cards.

(d) Mail to his patients recall notices.

(e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice, provided he is a certified specialist.

SOLICITED ADVERTISING

For the protection of the Profession from solicited advertising, this Board prohibits any Member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

RE LISTING OF DENTIST IN TELEPHONE DIRECTORIES FOR PROVINCE OF ONTARIO

- (1) No display advertising of any kind.
- (2) No black face listings in either white or yellow pages.
- (3) No specialists listed under separate group headings.
- (4) Mention of office hours is of no particular value, and is usually used only to increase space, therefore, to be excluded.
- (5) Mention of particular facilities or equipment, such as X-ray, gas extractions etc., not acceptable in either section.
- (6) Residence listing on yellow pages, as well as on white pages, is acceptable.
- (7) Designation as specialists may be used in both yellow and white pages, provided the dentist is a specialist certified in and restricted to the designated branch of dentistry.

REPORT OF THE REGISTRAR-SECRETARY

It has been a privilege to serve this Board and the College as Registrar-Secretary during the year which has past. Several matters are herein reported for your attention:

1. Property

On April 30, 1958, the Royal College of Dental Surgeons of Ontario became owner of a property known as 230 St. George Street, Toronto. The months of efforts by the Committee in locating a desirable property, obtaining the necessary zoning amendments, and arranging the finances, have now been made worthwhile.

The cost of the property immediately adjacent to the headquarters of the Canadian Dental Association was \$70,000.00. The Committee has estimated the total cost, including purchase price, alterations and furnishings, to be \$110,000.00.

The architectural firm of John B. Parkin Associates has been retained and already sketch plans have been approved by the Committee. The Secretary was authorized to instruct the architect to prepare working drawings. The architect estimates that the working drawings will be completed by May 30th and allowing sufficient time for tenders the contractor should be able to start near the end of June. Occupancy, by the Board, should be possible in October.

The Bond reserves of the Board have been hypothecated to the bank but it has not been necessary, as yet, to borrow on these reserves. The Board was fortunate in obtaining the concession of borrowing to the full extent of its holdings—\$70,000.00. The resolution approved by a unanimous mail vote of the Board relative to the hypothecation of the Bond Reserves and authorization of specific officers of the Board to negotiate the loan, should be confirmed at this meeting.

Two or three instances of local dental societies expressing an interest in donating some furnishings of utilitarian or decorative function have been brought to my attention. It is heartening to hear of local societies desiring to participate, in a tangible way, in the furnishing of the R.C.D.S. Headquarters.

As the Committee responsible for the oversight of the alterations and the refurnishing desires to create a property in keeping with the professional status of dentistry, it would seem appropriate for consideration to be given to a suitable opening ceremony.

2. Welfare

An extensive report on a proposed welfare plan for dental services in Ontario was presented to this Board at the last Annual Meeting. Negotiations have proceeded with the Department of Public Welfare resulting in an agreement being effected between the Board and the Department of Welfare. (Appendix A). On April 22nd, 1958, the President and Secretary met with the Hon. Louis P. Cecile, Minister of Public Welfare and the contract was signed.

In view of the indefiniteness of the availability of office space in which to administer the plan it was mutually agreed that the commencement date should be January 1, 1959.

The plan, at the outset, will include only those children sixteen years of age and under who qualify under the Mothers' Allowance and

REGISTRAR-SECRETARY

Dependants' Act. We should keep in view, however, the need for an augmentation of the plan and it will be important to establish sound administrative procedures in order to establish an adequate foundation upon which may be erected a more comprehensive service.

In my view the consummation of this agreement is one of the most significant events in the development of dentistry in Ontario.

It will now be necessary to establish a Dental Services Board in accordance with the report adopted at the last annual meeting.

3. Post Payment Plan

A detailed report of a proposed post-payment plan appears elsewhere in these Proceedings and no need exists for further elaboration here. Since the special meeting of the Board in February both Alberta and British Columbia have taken a keen interest in the plan and it is highly probable that these two provinces will join forces in a plan in the not too distant future.

Whenever this post-payment proposal has been broached throughout our province there has been enthusiastic support for its introduction.

One further matter in respect to the plan should be seriously considered. Last year this Board adopted as its policy an approved policy of the Canadian Dental Association in respect to Group Dental Services Plans. This statement called for the establishment of a non-profit incorporated board to administer any plan which might be developed.

Approval of the Post-payment Plan will, therefore, with the Welfare Plan, create two plans which require administration. An Ontario Dental Services Board, operating under the aegis of the Royal College of Dental Surgeons should be able to administer both plans plus any other which may be developed.

4. Group Liability Plan

A Group Liability Insurance Plan which has no known equal has been developed for the dentists of Ontario. Benefits Counsel (Canada) Limited was retained by the Board to investigate the needs of the profession and seek, within the insurance market, the broadest cover possible at a reasonable premium.

The master policy has been received and will be retained by the Board. Certificates will be issued to participating dentists.

Essentially the policy provides the following:

1. Professional (malpractice) liability.
2. Premises liability.
3. \$25,000.00 limit of liability for one case to a maximum of \$150,000.00 in one year.
4. Non-cancellable for the individual dentist.
5. Covers dentist and all his employees.
6. No age limit.
7. Annual premium of \$24.00.

Also the underwriter will be prepared to issue a letter of intent to establish an arrangement with the Dentists' Legal Protective Association whereby both groups may share in decisions respecting the settlement of claims.

In order to activate this plan it will be necessary to obtain 750 applications. While close to 1500 dentists stated on the questionnaire that they would be interested in such group participation we must, nevertheless, realize there tends to exist, irrespective of the values of the plan, an apathy, in fact almost a resistance, when it becomes necessary to support this overture with a premium. In view of a recent settlement of \$16,500.00 in a malpractice action in this province it should, surely, be no longer necessary to convince our members of the essentiality of this coverage.

5. Hospital Relationship

One year has now passed since the hospital relationship of the dental profession to the public general hospitals of Ontario was discussed in minute detail by the Board. Policy statements were adopted and heightened efforts were initiated in order to obtain legislation to permit the practice of dentistry in the public general hospitals of this province. Although this legislation does not yet exist significant progress has been made.

Appendix B of this report represents the submission of the Board to the Ontario Hospital Services Commission, the body which, under the Public Hospitals Act, 1957, has the responsibility of administering the said Act. This submission was prepared by a committee representing the Board, Faculty, and Ontario Society of Oral Surgeons.

An appointment was sought for a delegation to present this Brief before the Hospital Commission. One of the commissioners, however, felt that in view of the approval accorded by the Ontario Hospital Association, and the lack of objection by the Ontario Medical Association, and the essential reasonableness of the submission there should be no necessity of appearing in person before the Commission.

Accordingly, early in April, the Ontario Hospital Services Commission approved the submission as outlined in Appendix B. At the writing of this report we are still awaiting the development of a submission by the Commission to be ratified by the Minister of Health.

The President and the Secretary met, in the unavoidable absence of the Minister, the Executive Assistant by appointment and stressed the urgency of this matter. We received the assurance of the Executive Assistant that when the submission of the Ontario Hospital Services Commission was received it could be processed without delay in the Minister's office.

Obviously, the minor amendment to the Public Hospitals Act cannot be achieved until the next session of the Legislature. The amendments and/or additions to the General Regulations and the Model By-laws may be effected, however, by the Commission. Every possible effort will be made to expedite this procedure.

6. Etobicoke Zoning

As reported earlier to the Board, the Township of Etobicoke almost three years ago amended its zoning By-law in several aspects. One amendment vitally concerned our profession. The By-law made it no longer possible for dentists to practise in any dwelling in any residential area. This matter did not come to the attention of the Board until September 1957. Extensive efforts involving appearances before and submissions to the Planning Board of Etobicoke, the Etobicoke Council and the Ontario Municipal Board were made. It is a pleasure to report that the Planning Board agreed to develop an amending By-law which was subsequently approved by Council and on April 11, 1958 was ratified by the Ontario Municipal Board.

It is now possible for a dentist to locate his practice in a one family detached dwelling in any residential zone in the Township. The only restriction, if it is a restriction, is the regulation that there must be only one operating room.

This amendment will not affect the dentists who were conducting residential practices prior to the time the Zoning By-law was approved. Such practices, if they do not precisely adhere to the present regulations, are considered legal non-conforming uses.

7. School Accident Insurance Programs

We became apprised during the year of difficulties some dentists were experiencing in dealing with traumatic injuries to teeth of children wherein the children qualified under a school accident insurance policy.

REGISTRAR-SECRETARY

To say the least, these policies are entirely inadequate and most unrealistic in respect to this coverage of injuries to the teeth.

The limit of liability is generally \$100.00 for such accidents and service must be completed within 52 weeks. These stipulations, obviously, are unsatisfactory in view of the rather wide variety of contingencies which exist in respect to traumatic injuries to teeth. As for example the porcelain jacket placed at 16 or 17 years is certainly a direct result of the extensive fracture which occurred perhaps 7 or 8 years earlier.

A submission has been offered to the firm which underwrites the majority of these plans and we have been informed that our contentions will be considered at a meeting of the firm in June. While we have not at all been overcome with the reception of our observations to date, there is always some hope that more realistic regulations may be developed.

When accepting these injuries for treatment the dentist should be sure that all arrangements and understandings exist between him and the patient's parent. The financial arrangements as far as the dentist is concerned should be made as if the school insurance contract did not exist at all. Any claim the parent is able to make upon the insurance company is the responsibility of the parent. The dentist should not be forced to circumscribe his treatment by the entirely inadequate provisions of these school accident contracts.

8. Emergency Service

It is not known, with one exception, whether or not emergency service exists in any municipality in Ontario. Recently the Academy of Dentistry, Toronto, inaugurated a service for patients who were unable to contact their own dentists when emergent situations developed.

The yellow pages of the Toronto Telephone Directory indicate the availability of such a service and a telephone number is provided. The Academy maintains a roster of available dentists who are contacted by the telephone operator. A roster of oral surgeons has also been developed and on request of the general practitioner dentist, after he has examined the patient, the oral surgeon who is available at the time will attend the patient.

This is a splendid service and demonstrates a responsible concern on the part of the profession for the needs of the public.

St. Catharines has sought information from the Secretary in respect to the establishment of an emergency service. It is hoped that this city and others will be able to develop plans leading to the inauguration of an emergency service.

9. Mediation

Frequently the Secretary's office is called upon to act as an agent of mediation between patients and dentists. Complaints generally do not involve discipline, a statutory responsibility of the Board, rather they relate, in the main, to the broad area of public relations. Often there is a lack of communication from the dentist to the patient resulting in misunderstanding and confusion.

As, can be imagined, the vast majority of complaints recorded in the Secretary's office emanate from the Toronto area simply because of the facility of making contact. Calls are referred from the Better Business Bureau, the Canadian Dental Association, the Ontario Dental Association, and the Academy of Dentistry, all of whom possess telephones and are easily communicated with by disturbed patients. The opportunities are not present in other areas of the province but the problems, however, must still exist.

The medical profession has been cognizant for some time of the

need for Mediation Committees and they are utilized with significant success both here and in the United States. The dental profession in Calgary and Edmonton, Alberta, also employ Mediation Committees with most favourable results.

If the Board of the Royal College of Dental Surgeons of Ontario were to approve the principle of the establishment of Mediation Committees within the local dental societies throughout the province, impetus would thereby be given to a program which could serve, most admirably, to enhance the relationship which exists between the profession and the public.

10. Status of Hygienists Functioning in Specialists' Field

It is required by the Dentistry Act of Ontario and the By-laws of this Board that a hygienist perform her services under the direct control and oversight of a member of the College. Further clarification, however, is required when hygienists are working in a specialized field. Under the circumstances supervision should be available from a dentist who is trained and recognized in that field.

This is, perhaps, most pertinent in the specialty of dental public health. A dental hygienist working in the public health field should have direction from a dentist possessing formal post-graduate public health training or its equivalent if the supervision is to be valid or effective in a practical sense.

11. Course in Dental Nursing

The Course in Dental Nursing has now been deleted from the Calendar of the Faculty. Several methods of providing instruction have been investigated but the only one which has received approbation is the method which was in existence prior to 1936.

The course would be under the aegis of the Board who would issue the diploma or certificate upon successful completion of the course of study. This proposal would mean in effect that the Faculty would continue to supply the facilities and personnel, but the Board would be responsible for administration — collection of fees and the payment of the grant to the University. A joint committee of the Board and the Faculty would be required to develop the curriculum.

The Committee appointed by the Board and the Executive Committee of the Faculty have agreed on this proposal. No decision, however, may be made by the University authorities until the new President takes office on July 1, 1958. No course, therefore, under these arrangements, is possible until, at least, the fall of 1959.

12. Publication of Considerations Pertinent to Board Affairs

From time to time matters arise which should be transmitted to the members for their interest or enlightenment. The development of various plans, report of negotiations with governmental departments, and the release of information relative to convictions recorded against individuals charged with illegal practice are topics which perhaps, could experience wider dissemination.

A possible source in which this copy might appear is the Journal of the Ontario Dental Association. Upon a determinative discussion with the Editor of the provincial Journal it seems apparent that the journal would welcome such material as a definite service to the profession if the Board felt there was merit to the provision of such information.

13. Board Elections

It will again be necessary this fall to conduct the biennial election for positions on the Board of Directors. For this purpose it is required that scrutineers be appointed in accordance with By-law No. 14, sec. 13.

REGISTRAR-SECRETARY

14. Ratio of Dentists to Population

The following ratios of dentists to population in this province are reported:

1931 — 1 to 1906
1938 — 1 to 1926
1952 — 1 to 2118
1955 — 1 to 2262
1957 — 1 to 2353
1958 — 1 to 2394

This year indicates another falling ratio. The first class to graduate from the new Faculty offers the only hope of inhibiting this trend. With the number of dentists due to retire in the next few years and with the marked population increase of the province it is highly improbable that the new classes will do more than maintain the ratio.

It is regrettable that the lack of suitable applicants to the pre-professional year last September reduced the present pre-professional year below the number which could have been accommodated had there been sufficient applications. Recruitment of suitable candidates still remains a most essential consideration.

15. Changes in Register

As of April 30th the number on the Active List of the Register was as follows:

Annual Fee Paid	2289*	
Less deceased since paying fee	7	2282
Honorary Licenses issued	108	
Less deceased since issuance	12	96
		2378

* Including 16 who paid \$25.00. fee.

The following changes in the list have occurred during the year:

Additions

Graduates of University of Toronto	67	
N.D.E.B. Certificates	10	
Board Examinations	7	
Resumed license	16	100

Deletions

Deceased (Hon. 21 - Act. 24 - Inact. 1)	46	
Retirements	14	
Did not renew '58 license	7	
Temporarily inactive	11	
Left Ontario	16	94

Increase over previous year	6
-----------------------------	---

As of April 30, 1957:	
Number on Active Register	2372
Add additions for 1957-'58	100
	2472
Less deletions	94
Number on Active Register	2378

16. Dental Hygienists

On April 30th, the number of hygienists on the Dental Hygienists' Register was as follows:

Registered to date	29
Residing & Practising in Ontario	20

17. Licentiates Deceased — Honorary Members — Extramural and Extension Lectures

Appended to this report will be found a list of the licentiates who passed away during the year (Appendix C).

A list of Honorary Members is presented including the proposed names of those to be added this year (Appendix D).

The report of the Extramural and Extension Lecture service is presented in (Appendix E).

It seems desirable to employ the occasions when the Lectures are held for Public Relations purposes. Undoubtedly there is merit in informing people in local geographic areas that their dentists are interested in continuing education and possess organizations and facilities to provide such continuing education. Accordingly it would seem appropriate to provide the local dental society with a picture and a short biographical sketch of the clinician and his topic in order that this information could be employed in conjunction with any news report to be given to the press in the area.

ACTION

Approved THAT the mail vote as follows be confirmed:
Motions: " (1) THE ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO do borrow from the Royal Bank of Canada the sum of Seventy thousand dollars (\$70,000.00.);

(2) The President and Registrar-Secretary-Treasurer be and they are hereby authorized to negotiate the said loan of Seventy thousand dollars (\$70,000.00.) from the Royal Bank of Canada, and to execute and deliver in the name and on behalf of the College promissory notes totalling Seventy thousand dollars (\$70,000.00) payable on demand, with interest payable monthly at the rate of 5% per annum on that portion secured with Government of Canada Bonds and 5¼% per annum on the balance of the said Seventy thousand dollars (\$70,000.00), and to affix thereto the corporate seal of the College.

(3) Notes so executed and delivered shall be effective and binding upon the College in accordance with their terms;

(4) The President and Registrar-Secretary-Treasurer be and they are hereby authorized to deliver and transfer to the Royal Bank of Canada, or its nominee, and hypothecate as collateral security for the indebtedness represented by the said notes, the following securities which are the property of the College:

REGISTRAR-SECRETARY

\$20,000	Government of Canada 3% bonds	due June 1, 1957/60
\$10,000	Government of Canada 3¼% bonds	due October 1, 1979
\$10,000	Government of Canada 3% bonds	due September 1, 1966
\$ 8,000	Province of Ontario 2¾% bonds	due July 15, 1967/71
\$ 7,000	Province of Ontario 2¾% bonds	due July 15, 1967/72
\$10,000	Province of Ontario 2¾% bonds	due July 15, 1970
\$ 5,000	Hydro Electric Power Commission of Ontario 2¾% bonds	due April 1, 1964/67

and to execute in the name and on behalf of the College all transfers and collateral deposit agreements in connection therewith which may be required by the Royal Bank of Canada, and to affix thereto the corporate seal of the College;

(5) To do all things and to execute all other documents which may be required to complete the said loan and the effecting of the security above referred to.

WHEREAS the Board reaffirms its confidence in the Property Committee, and desires that they carry on, and

WHEREAS from time to time decisions will have to be made re design,

THEREFORE BE IT RESOLVED that they be empowered to make these decisions on behalf of the Board.

THAT two members of the profession be appointed to the Property Committee to assist in planning and carrying the building to completion, and that the Chairman of the Property Committee be authorized to make the appointments.

THAT the Secretary be authorized to employ someone to maintain the grounds of the Headquarters property on a temporary basis.

The responsibility of arranging for the opening ceremony of the building rests with the Property Committee.

(2) THAT an interim Dental Services Board consist of three members of the College to act in co-operation with the Secretary of the Board and further
THAT this interim Board act specifically as it relates to the Ontario Dental Welfare Plan.

(4) THAT the Board approves the action of the committee of Dr. R. Hugill, Dr. E. Rollaston and Dr. W. J. Dunn, in developing the Comprehensive Group Liability Plan and instructs them to proceed to implement the same.

(9) THAT the Board views with appreciation efforts in respect to the development of Mediation Committees, by any local dental society in the province.

(10) THAT wherever possible a Hygienist employed in Dental Public Health be under the supervision of a Public Health Dentist.

REGISTRAR-SECRETARY

(11) THAT the Board is in agreement with the principle of establishing a course in dental nursing at the Faculty under the aegis of the Board provided that the various arrangements under which the course might be established are compatible with the views of both Faculty and Board.

(12) THAT the Secretary be authorized to provide editors of appropriate journals with news items of interest to the dental profession relative to Board affairs.

(13) THAT Dr. R. S. Woollatt and Mr. C. C. Rous be appointed scrutineers for the biennial election in accordance with By-law No. 14, Section 13.

(17) THAT Honorary Registration be granted to the following who have been in practice in Ontario continuously for fifty years:

Drs. J. E. Amos, W. J. Armstrong, W. A. Armstrong, F. Barron, F. A. Blatchford, J. M. Cation, W. A. Cowan, R. W. Emerson, G. E. French, T. H. Graham, F. S. Loucks, S. R. Moore, A. H. Pratt, E. W. Sisson, E. C. Veitch, R. R. Walker, R. S. Woollatt.

THAT publicity should be given when the Extension and Extramural lectures are presented to the various local societies.

THAT the report of the Registrar-Secretary be adopted.

APPENDIX 'A'

MEMORANDUM OF AGREEMENT made in duplicate this 22nd day of April, 1958.

BETWEEN:

HER MAJESTY THE QUEEN IN RIGHT OF
ONTARIO represented by the Minister of Public
Welfare, (hereinafter called the "Minister")
OF THE FIRST PART

- and -
ROYAL COLLEGE OF DENTAL SURGEONS OF
ONTARIO, (hereinafter called the "College")
OF THE SECOND PART

WITNESSETH that the parties agree as follows:

1. In this agreement,
 - (a) "Beneficiary" means a dependent child or dependent foster-child, within the meaning of the Mothers' and Dependent Children's Allowances Act, 1957, who is under sixteen years of age; and
 - (b) "dental services" means preventive examinations, extractions, fillings, necessary radiographs and prophylaxes, but does not include prosthodontic and orthodontic services.
2. The Minister shall furnish the College with the names and addresses of all persons who are beneficiaries and each month with the names and addresses of persons who have become beneficiaries and of all persons who have ceased to be beneficiaries, and with the changes of address of beneficiaries.

REGISTRAR-SECRETARY

- 3. The College shall make dental services available to every person who is a beneficiary to whom a dental identification card is issued under The Mothers' and Dependent Children's Allowances Act, 1957, so long as such person continues to be a beneficiary and the dental services shall be made available through qualified dental surgeons upon presentation of such dental identification card.
- 4. The Minister shall cause to be paid to the College each month seventy cents (70¢) for each person who is a beneficiary during such month according to the current corrected list of beneficiaries, as furnished by the Minister pursuant to Paragraph 2.
- 5. (a) A committee shall be formed which shall meet from time to time for the purpose of reviewing the services provided under this agreement.
(b) The said committee shall consist of the administrative officers of the College and at least two representatives of the Government of Ontario appointed by the Minister.
- 6. Accounts for dental services rendered, as provided in paragraph 3, shall be forwarded promptly to the College by the dental surgeon applying such services, and no other account shall be rendered nor shall payment be collected from any other source for such services.
- 7. All accounts received by the College pursuant to this agreement shall be examined by the College, and no such account shall be paid by the College except for dental services rendered to beneficiaries in accordance with the provisions of this agreement and in an amount certified by the College to be reasonable for such services, and accounts so certified shall be paid to the dental surgeon entitled thereto, out of the payments received by the College, pursuant to Paragraph 4.
- 8. The College shall reimburse itself out of the payments received by it pursuant to Paragraph 4, such amounts for administrative expenses as shall be approved by the Minister.
- 9. If in the opinion of the Minister dental services are not being provided in accordance with this agreement, the payments provided in Paragraph 4 may be withheld until the College satisfies the Minister of compliance with this agreement.
- 10. The College shall account to the Minister from time to time, upon written request, for the expenditure of the money received by it under Paragraph 4, and the books of account with respect thereto shall at all reasonable times be opened to inspection by the Minister or by an official or officials of the Province of Ontario as authorized by the Minister.
- 11. This agreement shall have effect as of the 1st of January, 1959, or as of such earlier date as the College may nominate in a notice in writing to the Minister, and shall be subject to termination at any time by either party giving to the other sixty days' notice in writing of its intention to terminate.

IN WITNESS WHEREOF this agreement has been executed by the Minister of Public Welfare, and by the Royal College of Dental Surgeons of Ontario.

SIGNED, SEALED AND DELIVERED	) PROVINCE OF ONTARIO
	) (Sgd.) LOUIS B. CECILE
	) Minister of Public Welfare
	)
in the presence of:	) ROYAL COLLEGE OF
JAS. P. BAND (Sgd.)	) DENTAL SURGEONS
	) OF ONTARIO
	) (Sgd.) M. C. G. BEBEE,
	) (President)
(SEAL)	) (Sgd.) W. J. Dunn (Secretary)

SUGGESTED PERMISSIVE LEGISLATION RE HOSPITAL DENTAL SERVICES

In order to bring legislation and regulations into conformity with existing practice and to ensure proper continuity and control of dental services in hospitals, it is proposed that the following amendments be made:

1. (a) That Section 17 of the Public Hospitals Act, 1957, be amended by adding the words "and dental" after the word "medical" in line 3 of the said section so that the section as amended will read as follows:

"Subject to any existing agreement relating thereto, every hospital receiving provincial aid shall provide such facilities for medical *and dental* students as the regulations require."

- (b) That Section 35.1.K. be amended by adding the words "and dental" after the word "medical" in line 2 of the said section so that the sub-section will read as follows:

"(K) prescribing the facilities that hospitals shall provide for medical *and dental* students."

2. That Ontario Regulation 216/52 be amended by adding thereto regulations 75-79 as follows:

"75. The Board of a hospital may appoint a dental staff consisting of a dentist or dentists duly licensed under the provisions of the Dentistry Act.

76. A member of the dental staff of a hospital may admit a patient to the out-patient department of such hospital whenever in the opinion of such member requisite dental treatment may be more effectively and safely rendered in hospital.

77. A member of the dental staff may have a patient admitted to or discharged from an in-patient service in conjunction with a physician and the patient so admitted shall be assigned to the dentist and the physician or to the dentist and the active staff of the appropriate department according to the patient's treatment requirements.

78. A member of the medical staff of a hospital who is attending a patient in such hospital may request a member of the dental staff of such hospital to render in such hospital to the patient such dental services as the member of the dental staff, in consultation with the attending member of the medical staff, deems necessary or advisable and as such member of the dental staff is qualified to render.

79. (a) A member of the dental staff

(a) who has caused a patient to be admitted to hospital under regulations 76 or 77, or

(b) Who is requested to render dental services in hospitals pursuant to regulation 78, shall be entitled, within the scope of his professional qualifications and subject to these regulations, to render dental services to the patient in the hospital.

(2) A member of the dental staff so rendering dental services

REGISTRAR-SECRETARY

- (a) shall be entitled to the same rights within the hospital.
- (b) shall be subject to the same obligations with regard to his relationship to the patient, and
- (c) shall be subject to the same obligations with respect to hospital records and procedure, as are prescribed in the Public Hospitals Act and/or the Regulations for a member of the Medical Staff."

3. That Model By Laws for Ontario Public General Hospitals be amended as follows:

Part VII - Section 50: Delete and substitute in place thereof the following:

"50. Only a person qualified to practise medicine or dentistry and registered under the provisions of the Medical Act or the Dentistry Act shall be eligible to be a member of the medical staff of the hospital."

Section 101 (e). That this section be renumbered 101(f) and the subsequent subsections be accordingly renumbered. Section 101 (e) as amended would read as follows:

"101 (e) - Where the Credentials Committee is required to consider applications for Dental Staff appointments it may seek the advice of the Local Dental Society."

Part IX - Dental Service.

Section 113: Delete and substitute in place thereof the following:

"Section 113. The responsibility for supervision of the professional care given by the dental staff shall be borne jointly by the head of the dental service and the chief of the medical department concerned."

Section 114 (3) - Delete "Chief of Department of Surgery" in line 4 and substitute in place thereof "Chief of the medical department concerned" so that the section as amended will read as follows:

"114 (3) The head of the dental service shall supervise the professional care given by all members of the dental staff and shall, in conjunction with the chief of the medical department concerned, be responsible to the Board, for the quality of care given patients by members of the dental staff."

Section 115 (1) - Delete and substitute in place thereof the following:

"115 (1) - Each patient admitted for oral surgery shall be admitted on a surgical ward and shall be the co-responsibility of the head of the dental service and the chief of surgery or of a surgeon specified by the chief."

Section 116: Delete and substitute in place thereof the following:

"116. Before dental surgery is performed on a patient in the hospital, a complete medical examination shall be performed and a case history shall be completed on the patient by a member of the medical staff, with the same thoroughness as if the patient had been admitted to undergo a general surgical operation, and a complete oral examination shall be performed and a case history completed by a member of the dental staff."

Section 118: (1) and (2): Delete and substitute in place thereof the following:

"118 (1) The head of the dental service may attend meetings of the medical advisory committee."

Section 118 (3) and (4), renumber (2) and (3).

REPORT OF THE TREASURER

Perusal of the Auditor's Report which follows indicates an improved financial position. It would appear, however, that this situation will be short-lived in view of the greatly increased expenditures which will be necessary in the next several years.

The Bond Reserves have remained constant but the Bonds have now been hypothecated to the Royal Bank of Canada as collateral for the loan which will be necessary as progress is made with the new R.C.D.S. building.

The net income over budget was approximately \$4,000.00 and the total expenditures were approximately \$5,000.00 below budget giving a surplus approximately \$9,000.00 greater than estimated in the budget.

The Special Meeting of the Board in February, 1958, increased Board Meeting expenses considerably over last year. The added effort expended in enforcing the Act also increased that item considerably.

It would seem that a Property Fund should now be opened and an individual budget prepared. Obviously it will be difficult, not having prior experience, to predict the actual expenditure. For this year it is suggested that the item 'Contingencies' be included in the General Budget to cover the necessary costs stipulated in greater detail in the Property Fund Budget.

During the year a branch of the Royal Bank of Canada opened in the vicinity of our present location. Accordingly the various accounts of the Board were transferred from the Spadina and College Branch to the Branch at Bloor and Bedford. The Board therefore, should ratify this change at this meeting.

In accordance with the regulations, first fee notices were mailed to the last address of all names appearing on the list of members on December 2nd and 3rd last. 411 second notices were mailed on January 16th to those who had not paid the fee on that date. Drafts were issued on 126 members on February 7th who had not paid the fee.

The fees of the following remained unpaid on April 1st and were entered into Division Court for collection:

1. Dr. H. J. Caulfield, Ayr
2. Dr. J. G. Dean, Toronto
3. Dr. W. C. Kelly, Windsor
4. Dr. P. I. Marten, Toronto
5. Dr. T. C. Peterson, Hamilton.

Notification has been received from the Court that Dr. T. C. Peterson and Dr. P. I. Marten have paid with costs. Execution of judgment is in progress for the others.

The appointment of Auditors for the ensuing year is necessary.

WESLEY J. DUNN
Treasurer.

ACTION

Approved Motions: THAT the Board does hereby ratify the transference of the Savings and Current Accounts of the Royal College of Dental Surgeons of Ontario from the Royal Bank of Canada, Spadina and College Branch to the Royal Bank of Canada, Bloor and Bedford Branch.

THAT a current account be opened for the Property Fund with a limit of \$10,000.00 and that a further fidelity bond in the amount of \$10,000.00 be obtained in respect of the treasurer.

THAT Thorne, Mulholland, Howson and McPherson be appointed auditors for the ensuing year.

THAT the report of the Treasurer be received and adopted.

ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO

BALANCE SHEET

AUDITORS' REPORT

We have examined the books and accounts of the Royal College of Dental Surgeons of Ontario for the year ended April 30, 1958. All our requirements as auditors have been complied with and we report that the above balance sheet is in accordance with the books and, in our opinion, presents fairly the financial position of the College as at April 30, 1958.

REPORT OF THE DISCIPLINE COMMITTEE

Fall Meeting

The Discipline Committee begs to report that twenty-five written complaints of various types have been received regarding members of the profession since the last meeting of the Board. There have, of course, been many more transmitted by telephone to the Secretary's office.

Several cases of illegal practice have also been investigated by our Inspector.

Our Secretary and his staff have handled the complaints extremely well, showing good judgment and using a firm hand when necessary.

All complaints have been dealt with and more or less satisfactory solutions reached in all cases.

We feel for the most part that the dentists of Ontario are attempting to provide ethical services to the public.

R. P. Lowery,
R. O. Winn,
W. J. Langmaid,
I. W. Hamilton,
A. H. Leckie, *Chairman.*

The Chairman of the Discipline Committee presented the facts in respect to a third year dental student against whom the Board possessed sufficient evidence to proceed in an action for illegal practice. Following discussion it was decided not to prosecute this student but that he be brought before the Board for disciplinary action.

ACTION

Approved THAT the matter of relationship and responsibility of the member of the college re illegal practice be referred to the
Motions: Discipline Committee for discussion and possible action.

THAT the report of the Discipline Committee be adopted.

REPORT OF THE GOVERNMENT AND LEGISLATION COMMITTEE

Fall Meeting

The Government and Legislation Committee was directed at the previous meeting of the Board to study Section 23 (7) of the Dentistry Act which section enunciates the penalties for convictions under the Act.

The committee gave sincere attention to this section and while it would undoubtedly be desirable to obtain an increase in these penalties time is certainly not opportune to approach the legislature with only this one section under consideration.

The committee, therefore, recommends that the terms of this section be kept under advisement and when such time arrives that further sections of this Act require amendment then further consideration be given to the stipulations of Section 23 (7).

M. V. J. Keenan,
D. C. Stiles,
W. J. Langmaid, *Chairman.*

ACTION

Approved THAT the Report of the Government and Legislation Committee be received and adopted.

REPORT OF EXAMINERS AND PETITIONS COMMITTEE

Fall Meeting

Two candidates presented themselves at the Fall Examinations of this Board.

A. Applications for Registration.

1. Guilbert, Emile, D.D.S.
2. Hart, Harold W., D.M.D.

It is hereby recommended that

- (a) Dr. Harold W. Hart be granted his L.D.S. registration when all remaining regulations of the Board have been met.
- (b) Dr. Emile Guilbert's registration be withheld until such time as Dr. Guilbert presents evidence that he has attended a refresher course in general dentistry of a minimum of four weeks duration at an approved dental school.

B. Applications for Certification as Specialists.

The following, having met the requirements of the Board for certification in their respective specialties, are recommended for certification as specialists:

Orthodontics

1. Landsberg, Ronald Lyon, D.D.S., M.Sc.D.
2. McGowan, James Edward Carson, D.D.S., M.Sc.D.
3. Yasny, Malcolm, D.D.S., M.Sc.D.

Oral Surgery

1. Booker, Richard Ernest, D.D.S, Dip. Oral Surg.

Dental Public Health

1. Coburn, Cecil Irwin, D.D.S., D.D.P.H.
2. Connor, Ralph Aubrey, D.D.S., D.D.P.H.
3. Feasby, Robert Edward, D.D.S., D.D.P.H.
4. Grainger, Robert Moore, D.D.S., M.Sc.D., D.D.P.H.
5. Kohli, Frank Albert, D.D.S., D.D.P.H.
6. Lawrence, John William Munro, D.D.S., D.D.P.H.
7. Marsh, Thomas Leslie, D.D.S., D.D.P.H.
8. McDonagh, William Anthony, D.D.S., D.D.P.H.
9. McLaren, Hugh Richard, D.D.S., D.D.P.H.
10. Windrim, Harold Lincoln, D.D.S., D.D.P.H.

C. Application for Registration as a Dental Hygienist.

1. Kanellakos, Maria C.

It is recommended that as Maria C. Kanellakos is not a graduate of an approved course in dental hygiene her application for registration as a dental hygienist be not granted.

The Examiners and Petitions Committee was assigned the task, at the last meeting of the Board, of studying the advisability or otherwise of accepting for licensure examination British Commonwealth University graduates possessing the Bachelor of Dental Surgery degree. Accordingly the committee met on October 9th, 1957, and after being apprised of the preprofessional educational requirements for such courses of study and following study of the curricula of the courses of study presents the following resolution for favourable consideration of the Board:

"That graduates of British Commonwealth Universities who possess the Bachelor of Dental Surgery degree be permitted to proceed directly to licensure examination in the Royal Col-

EXAMINERS AND PETITIONS

lege of Dental Surgeons of Ontario, providing such applicants have complied with all other Board requirements."

Should the Board concur with the above resolution the resultant policy would be in accord with the policy of the Canadian Dental Association and would parallel the actions of the British Columbia and Alberta Boards.

R. P. Lowery,
R. O. Winn,
R. J. Godfrey, *Chairman*.

ACTION

Approved THAT Dr. Harold W. Hart be granted his L.D.S. registration
Motions: certificate when all remaining regulations of the Board have been met.

THAT when Dr. Emile Guilbert meets all the requirements of this Board, which includes a four week refresher course in general dentistry, that he be passed and then he be granted his L.D.S. certificate.

THAT the following applicant be granted his Specialist Certificate in Oral Surgery:
Booker, Richard Ernest, D.D.S., Dip. Oral Surgery.

THAT the following:
Landsberg, Ronald Lyon, D.D.S., M.Sc.D.
McGowan, James Edward Carson, D.D.S., M.Sc.D.
Yasny, Malcolm, D.D.S., M.Sc.D.
be granted certification in the Specialty of Orthodontics.

THAT the following:

1. Coburn, Cecil Irwin, D.D.S., D.D.P.H.
 2. Connor, Ralph Aubrey, D.D.S., D.D.P.H.
 3. Feasby, Robert Edward, D.D.S., D.D.P.H.
 4. Grainger, Robert Moore, D.D.S., M.Sc.D., D.D.P.H.
 5. Kohli, Frank Albert, D.D.S., D.D.P.H.
 6. Lawrence, John William Munro, D.D.S., D.D.P.H.
 7. Marsh, Thomas Leslie, D.D.S., D.D.P.H.
 8. McDonagh, William Anthony, D.D.S., D.D.P.H.
 9. McLaren, Hugh Richard, D.D.S., D.D.P.H.
 10. Windrim, Harold Lincoln, D.D.S., D.D.P.H.
- be granted certification in the Specialty of Dental Public Health.

THAT the Report of the Examiners & Petitions Committee be received and adopted.

February Meeting

The Chairman of the Examiners and Petitions Committee reported on various documents prepared by the Committee for B.D.S. inquiries. A letter prepared by the Secretary in respect to B.D.S. inquiries was read and received approval.

The Regulations governing board examinations and the statement of instructions to examiners were presented, and the Board was asked by the Chairman to study the documents at their leisure and make any pertinent observations to the next meeting of the Board.

EXAMINERS AND PETITIONS

Annual Meeting

Eight candidates presented themselves at the Spring Examinations of this Board.

A. Application for Registration

1. Beamish, Charles, Brouse, McGill/58
2. Bertrand, Eugene, Garnet, McGill/58
3. Biewald, Harold F., D.D.S. McGill/55
4. Clokie, Colin Alexander Lang McGill/58
5. Freudman, Nathan Norbert, L.D.S., B.D.S., U of Durham/57, Dalhousie/58
6. Laskowski, John Edward, McGill/58
7. Naikauskas, Dana, Hamburg/48, Dalhousie/58
8. Skowronek, John, B.D.S., U of Sydney/55, Dalhousie/58

It is thereby recommended that the above candidates be granted their L.D.S. Certificates when all remaining regulations of the Board have been met.

B. Applications for Certification as Specialists

The following, having met requirements of the Board for certification in their respective specialties, are recommended for certification as specialists:

1. Derrick, Michael Murray, Certification in Orthodontics
2. Whyte, John Allan, Certification in Periodontics
3. Brown, Alan S., Certification in Oral Surgery
4. Sutherland, Alexander, Bruce, Certification in Dental Public Health.

It is recommended that for Dr. Harold F. Biewald, who has made application for certification in Oral Surgery, he be granted Specialist Certification in Oral Surgery when evidence has been provided to enable the Board to equate his standing with the requirements of the Board.

The Committee wishes to extend sincere appreciation to the Dean of the Faculty of Dentistry for the privilege of conducting the Examinations at the Faculty.

R. P. Lowery,
R. O. Winn,
R. J. Godfrey, *Chairman.*

ACTION

Approved THAT the Report of the Examiners and Petitions Committee
Motions: be received and in the case of Dr. Harold F. Biewald that the Chairman of the Committee and the Secretary be authorized to act on his application for certification and further

THAT the report be adopted.

FACULTY EXAMINATIONS

REPORT ON FACULTY EXAMINATIONS

75 of the 76 candidates of the Fourth Year have completed satisfactorily the course of study.

7 obtained first class honours. The one condition is a failure to meet the clinical requirements.

Second Year

74 wrote - 7 honours - 56 clear standing - 11 conditions

First Year

78 wrote - 7 honours - 51 clear standing - 20 conditions

Pre-professional Year

84 wrote - 2 honours - 61 clear standing - 10 failed outright, 11 conditions.

Dental Hygiene

Second Year

14 wrote - 3 honours - 10 clear standing - 1 condition

First Year

10 wrote - 6 clear standing - 4 conditions

Diploma Candidates —

John Whyte (Periodontics); Alan Brown (Dental Oral Surgery).

Both received excellent marks.

ACTION

Approved THAT the Licentiate in Dental Surgery be granted to the fol-
Motions: lowing who have met the regulations of the Board:

Zigrida Livija Altraks (Mrs.); John Alexander Anthony; William Richard Bedford; Joseph Ignatius John Bielawski; Ralph Vernon Blatt; Ernest Gordon Brown; Arthur Carmen Bruni; Muharem Remy Buljubasic; Stanley Cash; Michael Digby Brennen Cassels; William Stephen Cochran; Louis Cogan; David Reid Currie; William Lloyd Curtis; Anne Carlyle Dale (Mrs.); Jack Gilbert Dale; John Cecil Duncan; Brian Eckler; Joseph Fortinsky; Irwin Fuss; David Godfrey Gardner; Gerald Jerry Gray; Samuel William Grossman; Gerald Halbert; Robert Morgan Hamilton; Herbert Handler; Arnold Heisler; Wilfred Bruce Hudgins; John Keith Hunter; Bruno Jormalietis; Ronald Maier Kellen; Herwig Ernst Kramer; Marc Adrian Joseph LaChapelle; Irene Leinasars (Mrs.); Theodore William LeSage; Grant Gordon Macdonald; Donald Alexander MacLennan; William James McLuhan; Allan Angus McNab; Ellwood Stanley Mitchell; Sidney Morin; Reginald Hamilton Mullally; William Allan Murphy; Yashinobu Nabeta; Daniel Arnold Nelson; Donald James O'Connor; Franklin Pulver; Ronald John Purdue; Peter John Riordan; Henry Ross; Hans Joachim Schwabe; William Stephen Schwetz; George Theodore Sciuk; George Kenyon Scott; Paul Raymond Shunock; Stewart Leslie Sigesmund; John Douglas Simpson; Franklin Paul Ronald Smith; William Cameron Smith; Victor Carmen Stanziani; Albert Dominic Taliano; Arthur Tarsis; John Peter Tenute; Calvin David Torneck; Alfred James Vaughan; Graeme George Wagner; Ralph Kenneth Joseph Weiler; Fred Jack Wine; Norman Kenyon Wood; John Waytuck; Jocelyn Zuck.

THAT the following, when they have met all the regulations of the Board be granted registration in Dental Hygiene:

Alice Ellen Andrews; Margaret Emma Elizabeth Andris; Ann Mary Bolton; Donna Joan Cathre; Carol Grace Chant; Elizabeth Jane Douglas; Marie Pauline Lucille Frenette; Betty Lou Gerhart; Carolyn Ruth Good; Phyllis Joan Kelly; Louise Elaine Paulson; Patricia Marion Pilor; Geraldine Laurie Smart.

REPORT OF THE DEAN

FACULTY OF DENTISTRY, UNIVERSITY OF TORONTO

The registration figures for the academic year 1957-58 are presented below for your information. The total 428 compares with 422 in the previous session.

Registration

	Men	Women	Total
Pre-professional Year	82	3	85
First Dental Year	76	3	79
Second Dental Year	70	5	75
Third Dental Year	68	6	74
Fourth Dental Year	73	3	76
	<u>369</u>	<u>20</u>	<u>389</u>
Occasional Dental Hygiene First Year	4	—	4
Dental Hygiene Second Year		<u>14</u>	24
Bachelor Science in Dentistry	1		1
Post-graduate & Diploma Courses	10		<u>10</u>
			<u>428</u>

A limitation on admissions for session 1958-59 has been set at approximately 100 pre-professional year students, and 90 in the First Dental Year. Some concern was felt in September 1957 regarding the number and quality of applications for dentistry. Once again I urge this Board to take cognizance of the need for a more active recruitment programme.

The ratio of dentists to the population in Canada continues to deteriorate. Some facts and figures on this subject were prepared last October at the request of the President's Office, part of which report is reproduced below.

Capacity of the Five Canadian Schools

The official Students' Register maintained by the Canadian Dental Association indicates that during the past 10 years the accommodation of the five Canadian dental schools has provided for graduating classes of the following maximum sizes:

Dalhousie University	12	
McGill University	38	
University of Montreal	60	
University of Toronto	65	-(This figure controlled by clinical facilities).
University of Alberta	30	
Total	<u>205</u>	

Although this table suggests that in theory the University of Toronto could be expected to produce a larger number of students than any other university, in fact the University of Toronto has done much more than the theory would seem to require.

Years	Average annual output of graduates from 5 schools	Average annual output of graduates from University of Toronto
1952-56 (inclusive)	181 (24 short of maximum)	77 (12 over maximum)
1947-51	206 (1 over maximum)	99 (34 over maximum)

It should perhaps be pointed out that the large numbers taken in the immediate post-war period were taken under the pressure of ex-service students. An emergency was met by methods proper to an emergency.

Distribution of Dental Students 1946-56 (inclusive)

Home Province of the student	Number registered at the University of Toronto	Number registered at all five Canadian Schools	Percentage registered at Toronto
Ontario	3,235	3,427	95
Manitoba	146	253	57
British Columbia	139	422	33
Saskatchewan	164	582	28
Prince Edward Island	14	93	15
Alberta	30	709	4.2
New Brunswick	16	242	6.6
Newfoundland	4	95	4
Nova Scotia	8	324	2.5
Quebec	10	2,254	.4
Total	3,766	8,401	44.8

The urgent need for dentists in the Province of Ontario has resulted in a decrease in the numbers of non-Ontario residents admitted to the University of Toronto. In the academic session 1956-57, 10% of the students at Toronto came from provinces other than Ontario.

Distribution of Dentists by Provinces, and by the University of graduation, as of August, 1955 (the date of the most recent statistics).

Province	Dentists registered in province who are graduates of Toronto	All dentists registered in the province	Percentage of Toronto graduates
Ontario	2,354	2,412	98%
Manitoba	159	274	58%
British Columbia	173	604	29%
Saskatchewan	101	219	46%
Prince Edward Island	4	35	11%
New Brunswick	14	138	10%
Alberta	95	389	22%
Newfoundland	4	28	14%
Nova Scotia	15	215	7%
Quebec	5	1,237	.4%
Total —	2,924	5,551	52.7%

Shortage of Dentists in Canada

In 1938 the ratio of dentists to population in Canada was 1:2,672
On January 1, 1957 the ratio was1:2,934

During the second world war and the immediate post-war period, there was fluctuation in the ratio, year by year. The following tabulation of the ratio by years will indicate that since 1953 the situation has steadily deteriorated.

Year	Ratio of dentists to population
1953	1: 2,686
1954	1: 2,790
1955	1: 2,838
1956	1: 2,881
1957	1: 2,934

The rate at which dentists are now being graduated gives no cause for optimism. The following comparative figures are significant:

Nation	Ratio of dentists to population, 1957	Number of new dentists graduated in 1957 per million of population
United States	1: 1,671	19
Sweden	1: 1,700	38
Canada	1: 2,934	11

Pre-professional Education

In recent reports to this Board I have made reference to the possibility that the Faculty of Arts might establish a General Science Course which could replace the present Pre-professional Year. At the March meeting of the University Senate, the General Course in Science proposed by the Faculty of Arts was approved, and will be offered the first time in that Faculty in session 1958-59. The general aim and purpose of this course is stated as follows:

"This course may serve several purposes: the preparation of secondary school teachers in science and mathematics, *pre-professional training*, to provide graduates for industry and for government institutions, and to improve the understanding of science by the general public."

Admission to the course will be:

"Ontario Grade XIII Certificate or an equivalent certificate covering the following subjects, with an average of at least 60% in the nine papers: English, Mathematics (3 papers), a language other than English, Science (two of Botany, Chemistry, Physics, Zoology)." These admission requirements differ from the present Ontario Grade XIII requirements for Dentistry in that three mathematics papers instead of two are required, and in the sciences instead of Physics and Chemistry being compulsory, provision for options is established. The content of the first year appears to be a satisfactory substitute for our Pre-professional Year except for Zoology. There appear to be two alternatives to take care of the Zoology deficiency should we decide to accept the first year of the General Course in Science in lieu of our Pre-professional Year. The first is to require the first and second years of this General Course in Science, and the second to add to the First Dental Year sufficient Zoology to make up the deficiency. We do not believe that to add a second pre-professional year beyond Ontario Grade XIII is feasible, and therefore we could be faced with the necessity of re-arranging our First Dental Year so as to include additional Zoology. This matter will be studied carefully during the next twelve months and if we decide to

accept the First Year of the new General Course in Science, it would become effective and replace the present Pre-professional Year in September 1960.

Curriculum Changes

Few changes have been made in the undergraduate curriculum during the session just ended. All instruction given in Local and General Anaesthesia has been concentrated in one Third Dental Year course, and the examination of the Third Dental Year previously combining Surgery and Anaesthesia, has been limited to Anaesthesiology. In this connection, on the basis of a report of a Conference Session on the subject of Anaesthesiology, the Council on Dental Education of the Canadian Dental Association accepted the recommendation of the conference that "Anaesthesia is basic to most dental procedures and therefore should be a separate division within the dental faculties and should be taught as an individual course."

One year ago under the heading "Curriculum Changes" it was reported that the teaching of General Pathology would be given in the Department of Pathology, Banting Institute, and that the course in Oral Pathology given by our own staff would be expanded. The first year under this arrangement has proved very satisfactory. On the other hand, the adjustment made in session 1956-57 which brought Biochemistry into the First Dental Year, close to its prerequisite Organic Chemistry, was not a success. During session 1956-57 the same Biochemistry course in every detail was given simultaneously to the First and Second Years. The Second Dental Year seemed to have little difficulty with the course, whereas the First Dental Year students seemed immature and unable to cope with the subject. Therefore, it was decided in the fall of this session to revert to the old pattern and place Biochemistry back in the Second Dental Year. A concerted effort is being made to eliminate lost time during the Fourth Dental Year. The objective is to arrange a schedule for the students in the Fourth Dental Year whereby the major part of their time is available for clinical practice. After a lecture during the first hour of the day, they should be free to proceed to the Clinic. To facilitate this plan, the Fourth Dental Year class will register 2½ weeks in advance of the other years. They will report for lectures on the morning of September 8th. During the period September 8 - 30th, three lectures will be held each morning and the afternoons will be spent in the clinic.

Examinations

It seems that every professional educational institution is faced from time to time, with a mounting list of examinations. New courses are introduced and whether they comprise only a few lectures, or an extensive series, the department concerned is usually desirous of setting a final examination paper. Two problems are involved in this growth process, the first being the mounting list of examinations, and the second that the short course receives the same weighting as the extensive course.

During the present session the Executive Committee of the Faculty Council has spent many hours revising the list of examinations conducted in each year. No changes were made in the Pre-professional or the First Dental Years. In the Second Dental Year final written papers were reduced from five to four. It was further decided not to require a separate pre-clinical technic mark in each of the four pre-clinical subjects, namely, Operative Dentistry, Orthodontics, Prosthodontics, and Periodontics, but to evaluate the students in these departments and then

establish one pre-clinical technic mark with a weight of 300 as compared with the 400 marks allotted to the written papers. The final pre-clinical technic mark will be established by a committee representing the four departments concerned.

In the Third Dental Year the number of written papers was reduced from seven to five by carrying over to the final year the instruction given in the short lecture courses in the areas of Orthodontics, Periodontics, and Prosthodontics. Anaesthesia replaced the former combination of Dental Oral Surgery and Anaesthesia.

The most drastic change was made in the Fourth Dental Year. Formerly the Fourth Dental Year students wrote a total of nine final written papers, some of which involved combined papers, for example, Orthodontics-Paedodontics, in which each department requested the right to fail a student and require a supplemental examination on one-half of the paper. The number was reduced from nine to four comprehensive papers. Paper No. 1 included: Radiology and Dental Oral Surgery; paper No. 2 included: Prosthodontics, Dental Praxis and Medicine; paper No. 3 included: Periodontics, Operative Dentistry and Endodontics; paper No. 4 included: Orthodontics, Paedodontics, Preventive Dentistry and Dental Public Health. In the final year the written papers carry a total weight of 400 marks, and clinical practice a total weight of 600 marks distributed equally among the following areas: Dental Surgery (including Anaesthesia), Orthodontics, Periodontics, Paedodontics, (including Preventive Dentistry), Prosthodontics, Operative Dentistry (including Radiology). The ultimate aim in regard to the Fourth Dental Year papers is to set up four comprehensive papers without reference to the subjects to be covered. However, in this scheme there are almost insurmountable difficulties in relation to the marking of the papers.

No extensive revision of the examinations in either the First or Second Year of the course in Dental Hygiene was found possible or necessary.

Course in Dental Nursing

For the second successive year no fully documented applications were received for this course. The joint committee of representatives of the Faculty and the Board of the Royal College of Dental Surgeons held several meetings and agreement was reached on the general principle that we should revise the course and set it up under the aegis of the Royal College of Dental Surgeons, with the Faculty participating actively in the instruction. With this in mind the following points form a basis for the programme recommended.

- (a) Students should be registered by the Board of the Royal College of Dental Surgeons at the beginning of the course, but for the sake of convenience this could be done by the Registrar of the Board in the dental building, or by a member of our staff on his behalf.
- (b) the admission requirements, in all probability Ontario Grade XII, would be established by the Board of the Royal College of Dental Surgeons after consultation with the Faculty of Dentistry.
- (c) the tuition fees would be established by and paid to the Board of the Royal College of Dental Surgeons.
- (d) The courses and their content would be established by the Faculty and the Board of the Royal College of Dental Surgeons jointly. A decision on this point would determine the length of the course.

- (e) the Board would pay the University out of the students' fees collected, an amount sufficient to cover necessary staff to provide instruction.
- (f) examinations would be conducted by the staff of the Faculty and the results turned over to the Board for final action.
- (g) The Board of the Royal College of Dental Surgeons would issue a certificate or whatever form of recognition is decided upon by the Board.

Following the meeting at which these principles were established, a preliminary discussion was held with the Acting President of the University of Toronto, Dean M. St. A. Woodside, in regard to the principle involved whereby the University would provide facilities for this course, but would relinquish control of the admission of students, courses of instruction, and the recognition provided upon successful completion of the course. The Acting President requested that a decision on the acceptability of this arrangement be left until the new President is able to give the matter consideration after his arrival about July 1, 1958.

Course in Dental Hygiene

This year's graduating class comprising 14 students, is the largest since the inception of the course in Dental Hygiene in 1951. We were somewhat disappointed that only 10 qualified applicants applied for admission to the First Year of the course at the beginning of this session.

In reviewing the geographical origin of the students who have been admitted in the seven years since the establishment of the course, it is revealed that the students have come from five of the ten Canadian provinces. Fifty-two percent of those registered in the First Year of the course originated in Ontario, and the balance, forty-eight percent, were from provinces other than Ontario. It is worthy of note that the bursary programme offered by the Province of Saskatchewan has been an important factor in the large number of applicants who have applied from that province. The registration figures for the first year of the course in Dental Hygiene during the period 1951-58 are shown on the table below:

Session	Total	Ont.	Sask.	Alta.	N.S.	P.E.I.
1951-1952	6	4	2	—	—	—
1952-1953	7	3	3	1	—	—
1953-1954	9	4	4	—	1	—
1954-1955	9	6	2	—	1	—
1955-1956	11	5	3	—	2	1
1956-1957	14	7	4	—	3	—
1957-1958	11	6	4	—	1	—
	67	35			32	
	(=52%)					
	(=48%)					

Dental Hygiene (advanced standing)

A number of inquiries have been received during the past few years regarding recognition of the dental hygiene certificate issued by the Ministry of Health of Great Britain. Recently, Miss B. E. Quinn, the Supervisor of our Course in Dental Hygiene, compared the content of the course as given in Toronto with that given by the Eastman Dental Hospital in London, England. Without going into detail, the total lecture, laboratory and clinical practice hours are as follows:

Toronto:	Lectures	701 hours
	Laboratories	406 hours
	Clinical practice	480 hours

Eastman Dental Hospital:	Lectures	151 hours
	Laboratories	386 hours
	Clinical practice	728 hours

Certain specific comments are made in regard to these two courses:

- (1) Food Chemistry, English, Psychology, Sociology, and Radiology are not included in the Eastman course of study as separate subjects. It would therefore appear that graduates from the Eastman Clinic are not trained to take x-rays. The subjects of English, Psychology, Sociology and Chemistry taken at Toronto are accepted as credits toward the B.A. Degree.
- (2) The following course outlines appear similar, but they are given more extensive coverage at the University of Toronto: General and Dental Histology, Bacteriology, Pathology, Physiology and Office Assistance and Administration.
- (3) It would appear that the area of greatest diversity is in the teaching of measures of prevention of dental diseases. The University of Toronto stresses methods by which prevention may be taught through dental health education.
- (4) The Dental Hygiene course given in Great Britain appears to concentrate on, and place more emphasis on practical experience.

With the above information in mind the Admissions Committee of the Faculty will be requested to consider as a matter of policy that holders of the British Certificate in Dental Hygiene be admitted to the second year of the course leading to the Diploma in Dental Hygiene, providing that the preliminary educational qualifications are comparable to those required from Canadian applicants for admission to the First Year of the Course in Dental Hygiene. Similarly, consideration was given, because of inquiries, to the admission of women graduates of European dental schools, to the Second Year of the Course in Dental Hygiene at the University of Toronto. One of the criteria to be used in the admission of a limited number of such graduates to advanced standing in the dental hygiene course, will be a suitable qualifying examination.

European and Commonwealth Applicants

There are indications that British Commonwealth students who hold the B.D.S. degree may still apply in reasonable numbers for admission to the final year of the course leading to the degree of Doctor of Dental Surgery. The volume of inquiries from European graduates who wish to practise dentistry in this province seems to have fallen slightly but there are still a sufficient number of these to warrant continuing the July qualifying examinations.

During the period 1953-1957 the Admissions Committee of the Faculty has considered applications from sixty-one* graduates from European dental schools, and sixty nine* from graduates of British Commonwealth schools. The following figures provide a breakdown of the applications, and the number accepted during the past five sessions.

Session		European	Commonwealth
1953-1954	applied	21	7
	accepted	6	5
1954-1955	applied	11	8
	accepted	3	5
1955-1956	applied	10	17
	accepted	6	4
1956-1957	applied	9	11
	accepted	4	3
1957-1958	applied	10	26
	accepted	4	5
Totals:	applied	61	69
	accepted	23	22

Graduates from May 1953 - May 1957: European 14
Commonwealth 16

(* These figures are for completely documented applications, and do not include the inquiries received).

Dental Public Health Course

A committee comprising members of the staff of the Faculty of Dentistry and the School of Hygiene has studied and revised some of the courses given in the programme leading to the Diploma in Dental Public Health.

The major changes include: a 100-hour course in Sanitation has been reduced to 50 hours; Public Health Administration has been reduced from 70 hours to 45; Public Health Chemistry has been removed as a separate course; reorganization has been effected in the courses known as Bacteriology, Immunology and Serology; Environmental Hygiene; Public Health Nutrition. The overall revisions result in a considerable saving of time in areas which seem to be very remote insofar as the Public Health Dentist is concerned. At the same time the course brings the dentist and the physician together in many areas of public health education.

Hospital Relations

During the past few months discussions have been proceeding with the Chief of Surgery at the Toronto General Hospital with a view to improving the relationships between the Department of Surgery and the Dental Service at the Hospital. The Chief of the Dental Services is appointed by a joint recommendation of the Hospital and the University, and he receives a nominal honorarium from the University. The dental service, and the medical and surgical services in the hospital provide some instruction to both the undergraduate and graduate students registered in the Faculty of Dentistry. Insofar as the post-graduate training programme is concerned, the limitations being imposed upon the field of dental oral surgery in the hospital, present a serious threat to the provision of sufficient clinical training for these advanced students. If these limitations continue, we cannot justify the continuance of the post-graduate training course leading to the Diploma in Dental Oral Surgery. Several meetings have been held in an attempt to clarify this matter.

This whole question points up the urgent need for clarification of the position of the dentist in the hospital, and the need for recognition of the principle that a member of the dental profession should be permitted to practise in the hospital in accordance with the Dental Act of the Province concerned, subject to hospital regulations which pertain to both medicine and dentistry. There is also a need to clarify the policy in respect to dentists being able to provide services in the hospitals through prepayment plans. It is grossly unfair for organizations such as Blue Cross to permit surgeons to hospitalize patients and extract teeth under this plan, and yet at the same time refuse the same privilege to the dentist.

While these matters may appear to be outside the jurisdiction and concern of the educational institution, nevertheless they have indirect effects upon the training programme in dental oral surgery.

New Dental Building

Early in March 1958 the University of Toronto accepted bids on the construction of the new dental building. By mid-March the contract had been awarded to the Foundation Company of Canada, and on March 28th the excavation for the building was commenced. The contractors have undertaken to complete the building by August 1959, but it is doubtful whether the equipment will all be installed prior to the end of 1959.

Academic Staff

With the knowledge that enlarged facilities for dental education at the University of Toronto are assured, plans for the expansion of the teaching staff are under way. One year ago at this time the teaching staff comprised an equivalent of approximately 30 full time people. This number was made up of 11 full-time, 5 half-time, and the balance, part-time appointments. Thus approximately 40% of the teaching load was carried by the full and half-time teachers, and 60% by part-time personnel. On several occasions during the past ten years I have indicated to the President of the University of Toronto that this ratio should be reversed in order to provide better continuity of teaching, but at the same time to maintain the very important contacts between the students and the instructors who are in private practice. On July 1st last, additional funds were made available which permitted us to increase two half time staff members to full time, and a new full time appointment. Requests for additional staff for session 1958-59 will provide for three more full time staff members. This will bring the full time academic appointments to 17. During the past eighteen months there has been increasing interest in staff appointments, which in view of the need, is encouraging. It is our intention to acquaint the new President of the University of Toronto, immediately upon his arrival in July, with the needs which will arise for both academic and non-academic staff as soon as we enter the new building.

The operation of the 124 chair general clinic in the new building is being studied. The system used in the present clinic where an instructor may be called to any area of the clinic involves much walking and excessive traffic on the clinic floor. The establishment of the "block" system whereby a staff member is assigned a group of 10-12 chairs seems desirable. Under this system the instructor remains with the students assigned to his block of chairs, and he must be capable of giving guidance in the general practice aspects of dentistry undertaken in the general clinic. This involves, particularly, procedures in operative dentistry, crown and bridge, endodontics, periodontics and ceramics. This type of clinic operation is already under trial in a few dental schools. Varying degrees of success are reported. It is evident, however, that success is dependent upon each instructor who is assigned to these "blocks" being thoroughly familiar with procedures in the various aspects of dentistry, which must be considered as routine areas undertaken by the general practitioner. To maintain efficiency in these areas it is proposed to hold 'inservice' training sessions for the staff, at which sessions the specialty staff in these particular areas will conduct short post-graduate courses for the "block" instructors.

The first of these one or two-day 'inservice' training programmes is planned for some time in September 1958, on the subject of anaesthesiology. The present specialty instructors, for example in periodontics, and so on, will become available in the background for advice to the "block" demonstrators and possibly to take over direction of the treatment of a case which might usually be considered for reference to the specialist. In this way the students will be taught to recognize the need for consultation. The specialty demonstrator will also be available for consultation in the expanded diagnosis department.

Research

The Division of Dental Research continues to attract interest and respect from other research centres. At least two of the senior members of the research staff have been made attractive offers of appointments by institutions in the United States during the past twelve months. Two

of the younger members of the group brought honor to themselves and the Faculty at the recent meeting of the International Association for Dental Research when as runners up for the Edward H. Hatton Award for the best presentation by a novice, they were given 'honourable mention'. Through the work of Dr. A. M. Hunt with radio-active isotopes, a closer tie with the Research Institute at the Hospital for Sick Children is being established. Contributions to the scientific literature have been numerous during the past year.

Extramural Lectures

The figures which appear below representing attendance at lectures and meetings held during the session are comparable with those of previous sessions.

Number of Societies participating	24
One meeting during session	10
Two meetings during session	14
Number of meetings during session:	
Extramural lectures	32
Extension lectures	6
Number of meetings - two lectures	12
- one lecture	26
- morning session	1
- afternoon sessions	14
- evening sessions	35
Attendance - morning session	46
- afternoon sessions	249
- evening session	1,007
Total attendance for all sessions	1,302
Extramural Staff used	20
attended one meeting	10
attended two meetings	8
attended three meetings	2

Staff Notes

It is with profound regret that we record the passing during the early part of the session of Dr. M. N. Rockman, Assistant Professor in charge of Dental Radiology. Dr. Rockman's loyal service and devotion to duty will serve to keep his memory fresh for years to come.

In recognition of his contribution to the field of dental research, Dr. G. Nikiforuk was made an honorary member of the staff of the Research Institute in the Hospital for Sick Children.

At its recent meeting the Great Lakes Society of Oral Surgeons elected Dr. J. H. Johnson to the office of President. A similar office is held by Dr. W. J. Dunn in the American Association of Dental Editors.

Dr. H. A. Hunter was a successful candidate in the recent examinations of the American Academy of Oral Pathology and has been made a Fellow of the Academy.

Dr. Egil Harvold of Oslo, Norway, has been appointed Head of the Department of Orthodontics. Dr. Harvold was associated with the Cleft Palate Clinic at the Hospital for Sick Children during the period 1951-53, and since then he has obtained his Ph.D. in Anatomy at the University of Oslo. He is expected to assume his duties at the Faculty some time in the fall of 1958.

DEAN

New Scholarships and Awards

During the present session, statutes covering the following new awards have been approved by the Senate of the University.

1. The John A. Bothwell Prosthodontics Scholarship in the value of approximately \$100.00. This scholarship will be awarded to the student who has completed the Third and Fourth Years in the Faculty of Dentistry at the University of Toronto, and who has shown the greatest proficiency, academic and clinical, in the subject of Prosthodontics in the Fourth Dental Year.
2. The Colgate-Palmolive Scholarship of the value of \$500.00. In order to compete for this scholarship, a Third Year student must have obtained an average of at least 70% in the final examinations of each of the First and Second Dental Years in this Faculty and in his Third Year write the winning essay on a topic to be announced annually by the Faculty. The first award will be made in session 1958-59.

In conclusion I wish to acknowledge the moral and financial support which the students and the staff have received during the year, from many sources. To the Dental Alumni Association, several individual members of the profession, and particularly this Board, we extend sincere thanks and our gratitude.

ROY G. ELLIS,
Dean.

ACTION

Approved THAT the proposed program re the Dental Nursing course
Motions: be ratified.

THAT in the case of Dr. Egil Harvold By-law No. 10, Sec. 1, subsection (h) be waived and he be allowed to take the Board examinations.

THAT the comprehensive report of Dean Ellis be received, and adopted.

REPORT OF THE REPRESENTATIVES TO THE CANADIAN DENTAL ASSOCIATION

Fall Meeting

Ontario was represented at the C.D.A. Annual Meeting of the Board of Governors, in Winnipeg, held June 19th to 22nd, by Doctors Keenan, Winn, Strachan and Langmaid. Fortunately, the records printed in "The Transactions", show that each member attended every session. Dr. W. McIntosh, due to short notice, was unable to attend.

The Manitoba Dental Association, and particularly the Winnipeg dentists did a remarkable job of organization to make the meeting very successful in every way. Doctor Kenneth Johnson of Winnipeg presided and handled his duties exceptionally well. Every session and committee meeting seemed to be of such great importance that it is impossible to choose special items for a short report and therefore as a review of the meeting, we present the record of the 1957 "Transactions of the Canadian Dental Association" for your study.

However, may we draw your attention to a few special paragraphs.

- (1) Page 2, paragraph 7
- (2) Page 2, paragraph 9
- (3) Page 46, paragraph 3
- (4) Page 64, paragraph 3

The Convention, which followed the meeting of the Board of Governors, was very successful and well attended. About forty Winnipeg dentists and their wives entertained the visiting dentists and their wives on Monday evening in their homes. This was a novelty and greatly enjoyed by the visiting members.

Dr. A. Gerald Racey of Montreal was elected President of the C.D.A. and the 1958 meeting will be held in Montreal in October.

Your committee gratefully acknowledges the honour of representing the Board of the Royal College of Dental Surgeons at this meeting.

M. V. J. Keenan
C. L. Strachan
W. G. McIntosh
R. O. Winn
W. J. Langmaid

ACTION

The Board extended congratulations to Dr. Langmaid upon his elevation to the Executive of the C.D.A.

Approved THAT this Board congratulate our Secretary on his elevation
Motions: to the office of President of the American Association of
Dental Editors.

THAT the Report of the C.D.A. Representatives be received and adopted.

REPORT OF THE REPRESENTATIVE TO THE AMERICAN ASSOCIATION OF DENTAL EXAMINERS

The 74th Annual Meeting of the A.A.D.E. was held on November 1 - 2, 1957, at Miami Beach, Florida, with the President, Dr. Walter A. Wilson, presiding.

The theme of his address was a review of the past accomplishments of the association in which he referred to the challenge of important changes and developments in the fields of dental education and licensure and the provision of greater protection for the public and the regulation of the profession. There is evidence that some states are lax in the enforcement of their laws and State Boards do not receive full cooperation from their law enforcement agencies.

The interference of state departments with the autonomy of State Boards gives cause for alarm as many state government officials neither recognize the problems of dentistry nor are they helpful unless they see some political advantage to be gained.

A good deal of criticism has been leveled at State Board Examiners as to the conduct and methods of examinations for state licensure. This criticism comes from Dental School Deans and in particular, from the Southern Conference of Dental Deans.

Obsolete types of examinations that are unfair and impractical should be improved so that all candidates for licensure may be treated fairly as professional men. Although dental education has reached a high standard, which is proper, nevertheless, practical ability to give good dental health treatment is a requisite for a graduate dentist.

Boards are concerned with the quality of the graduates from dental schools but there is no short cut to dental education either from the economic or the academic standpoints. Some means should be found to assist those who are well qualified for the dental schools but who cannot meet the financial burden. Demands by the profession for higher standards in dental education and the importance of the biological training and correlation with clinical practice and research result in a very expensive form of education. The provision of financial aid to keep pace with the higher standards, facilities and costs calls for increased funds in the form of bursaries, etc., from the Universities and other sources.

The continuing necessity for better professional and public relations are important if we are to fulfill our greatest usefulness. Our accomplishments and contributions as a profession and what State Boards are doing in elevating dental practice and preventing illegal practices are not widely publicized.

Reports were presented by various committee chairmen and included information on the standardization of dental laws and reciprocity between state licensure boards; the responsibilities and training of board members; seminars on dental licensure examinations; boards of dental specialties and development of closer relationships between the dental profession, state societies and state boards.

It was reported that consideration is now being given to the establishment of new dental schools in Colorado, Oklahoma, South Carolina,

Florida and in New England. There are now thirty-four courses for dental hygiene instruction.

The Council on Dental Education of the American Dental Association are proposing a new programme of two years in a vocational school, Junior college or dental school and a period of practical training in a dental laboratory for dental technicians. The council is also submitting a plan for the certification of dental technicians.

In addition to the thirty states, two dependencies and the three Federal services, five more states are taking action soon to accept the certificates of the National Board of Dental Examiners. It is considered that the National Board of Dental Examiners adequately tests the applicants' knowledge in the theory and science of dentistry but all State Boards give a clinical or practical examination in addition. The Council on Dental Education of the American Dental Association has now recognized the five Canadian Schools which permits graduates from Canadian Dental Schools to participate in the National Board Dental Examinations.

The Council on Dental Education of the American Dental Association is of the opinion that the major criterion for determining whether an area of practice should be recognized as a dental specialty is the extent to which dental schools offer advanced courses in these areas of study. At the present time, the American Dental Association recognizes dental specialties in seven areas: dental public health, oral pathology, oral surgery, orthodontics, paedodontics, periodontics and prosthodontics.

It was recommended that a study of the Constitution and By-laws of the American Association of Dental Examiners be made.

A motion was approved that suitable arrangements be made to celebrate the 75th anniversary of the Association at the meeting in Dallas, Texas.

Dr. H. Lyons, the President of the A.D.A. addressed the meeting at one of its sessions bringing the greetings of the A.D.A. and spoke at length on the problem of Dental Licensure.

Dr. A. W. Kellner of Hollywood, Florida was installed as President and Dr. R. F. Gilmour of Grand Junction, Colorado, as President-Elect for the coming year. Your representative was appointed to the committee on Foreign Colleges.

The privilege of representing our Board at the annual meetings of this association is gratefully acknowledged.

R. J. Godfrey,
A.A.D.E. Representative.

ACTION

Approved THAT our representative to the American Association of
Motions: Dental Examiners be authorized to attend the annual meeting of the A.A.D.E. in Dallas, Texas, in November, 1958.

THAT the report of the representative to the American Association of Dental Examiners be received and adopted.

REPORT OF THE REPRESENTATIVE TO THE NATIONAL DENTAL EXAMINING BOARD OF CANADA

Fall Meeting

1. The meeting of the National Dental Examining Board was held in Ottawa on June 28th and 29th, 1957.
2. Dr. G. A. Cormier of Moncton replaced Dr. J. F. Edgecombe of St. Johns as the New Brunswick member of the Board.
3. It was decided that the Chairman of the Committee of Examiners continue in office for one year for the purpose of receiving and reviewing examination papers for the examinations to be conducted during that period. This action resulted from the fact that similar questions appeared on papers in different subjects and to avoid unnecessary duplication of questions, this procedure was suggested. Also, a review of the papers would eliminate any ambiguity in examination questions.
4. The interpretation of contract practice according to the answers given on the paper on Ethics, etc., seemed to indicate that there was a difference in teaching of the phase of the subject in dental schools. The secretary was requested to bring this subject to the attention of the Council on Dental Education of the Canadian Dental Association for clarification.
5. The review of the necessity of enabling certificates from provincial registrars particularly with regard to those candidates who have just graduated was suggested. The thought in this connection was that probably recent graduates could submit a certificate from the registrar of the University from which they graduated and that dentists who had been in practice could submit a certificate from their provincial registrar. This subject was referred to the executive committee for a report.
6. It was reported that the National Board of Dental Examiners in the United States had removed the citizenship requirement for acceptance for the Board examinations and that the U.S. National Board was prepared to conduct examinations in Canada. The Secretary was requested to explore the possibility of a reciprocal arrangement for examinations of the United States National Board of Dental Examiners and the National Dental Examining Board of Canada.
7. No change was made in the regulation that holders of a B.D.S. degree be accepted for the N.D.E.B. examination.
8. A change in the By-laws was made which deleted the Canadian citizenship requirement for the N.D.E.B. examinations. It was pointed out that licensing is the prerogative of the provincial boards, that the function of the N.D.E.B. is that of an examining board and that the provincial boards may require Canadian citizenship for licence if they desire. All the provincial boards are favourable to this change except Quebec, and in this province no direct objection was raised.
9. The examiners will continue to be members of the Board but associate examiners not members of the Board, would be appointed as heretofore.

10. Dr. H. R. MacLean was elected President;
 Dr. Hugh Eaton was elected Vice-President;
 Drs. Hancock, Racey and Ellis were elected to the Executive Committee.
 Dr. H. N. Beach was reappointed as Registrar-Secretary-Treasurer.
11. A summary of the 1957 examination results and a comparison with 1956 appear in Appendix A of this report.

R. J. Godfrey,
*Representative to the
 N.D.E.B. of Canada.*

APPENDIX 'A'

BREAK-DOWN OF CANDIDATES ACCORDING TO CENTRES, FACULTIES AND PROVINCES

June, 1956							
Halifax	Montreal	Toronto	Saskatoon	Winnipeg	Edmonton	Vancouver	Total

	67	73		67	73

Total number of candidates	73
Passed in all subjects	64
Eligible to write supplementals	4
Failed candidates	5

Certificates have been issued to 300 candidates since the inception of the N.D.E.B.

Motions: THAT our representative to the National Dental Examining Board convey to the N.D.E.B. that the R.C.D.S. Board would view with favour amending the regulation wherein a D.D.S. holder from an approved school is required to have spent the entire four dental years in an approved school and further

Approved THAT consideration be given to conjoint examinations between the N.D.E.B. and Faculties of Approved Schools.

THAT the Report of the Representative to the National Dental Examining Board of Canada be received and adopted.

REPORT OF THE CONSULTANT TO THE WORKMEN'S COMPENSATION BOARD

In presenting this annual report your consultant to the Board will try to bring important phases of the work to your attention. Included will be some decisions your Board should know about and give counsel for further action.

During the year some eighty written reports have been made on cases referred by the Board. In some cases the Board's beneficiary was referred for clinical examination as well as a review of the claim file. As in previous years, too, a number of telephone consultations regarding settlement problems have been held with Board claims adjusters. In all cases I feel fair settlements have been determined within the By-laws of the Workmen's Compensation Act of this province, and the tariff schedule submitted by your Board and accepted by the Workmen's Compensation Board.

If I were asked to indicate where the profession at large might assist more prompt settlements, I would comment as follows:

1. Read carefully the questions and instructions on the Board report form and comply in detail.
2. Make a thorough examination and determine the dental services necessary as a result of a given accidental injury. Dentists are actually requested to take x-rays of injured areas without authority yet many still do not. This is an important record. The Board appraisers are not likely to pass a claim where the report of conditions supporting the dentist's recommendations are not clear. In many cases the examining dentist lists all the dental services a beneficiary needs with the thought in mind, "we will ask for everything, they can only refuse"; others send in reports that are so brief they lack any real information.

From time to time in telephone discussions with dentists, they are annoyed by the Board's tardiness in authorizing a claim. In many instances this is caused by a report which fails to support adequately the treatment programme that has been recommended — thus causing a full investigation.

3. Restorative procedures should not be undertaken before the Board gives approval. All too frequently a dentist will carry a service to the last stages of completion then send in a report to the Board. In some cases, too, he requests a higher fee than the Board's tariff allows. The Board may or may not accept responsibility for the treatment recommended although completed and under the circumstances they are most unlikely to allow more than the stated tariff. Any increase in fees must be negotiated prior to undertaking the service.

The dentist is expected to give emergency service for accidental injury, make his report to the Board, mark it "Urgent" if desirable, then wait for authorization of restorative treatment.

In regard to complaints made to me by dentists, I would comment as follows:

1. There is a feeling that "Registered Specialists" are inadequately provided for in the tariff schedule. The only specialist really involved is the Oral Surgeon. The Board has taken the attitude that if increased skill and responsibility is desirable in a service, a greater fee allowance may be considered — not otherwise. The jaw fracture fee allowance seems satisfactory as far as I know — no

complaints. Removal of root tips, alveolar fragments, impacted teeth and teeth for a patient suffering fractured jaw — these are the cases sometimes referred to the oral surgeon. What is a fair fee? Some general practitioners will undertake these services but do they do it as well as they should be done? A problem does arise here: It has been suggested when an accident is presented to a general practitioner, does he feel he must take care of it? Cases have come to my attention where treatment supplied by the general practitioner indicated he did not have sufficient training to undertake it. This also happens sometimes where medical practitioners attempt to care for jaw fractures. I think it should be realized that if confronted with a problem case beyond our capabilities, emergency treatment should be rendered and the case referred to someone accustomed to dealing with such problems. It may entail sending the patient to a larger treatment centre.

In discussing surgery, the question of fees for general anaesthesia comes up. The tariff calls for \$5.00. In the published Ontario Medical Association tariff schedule, general anaesthesia is covered as follows:

(a) - single tooth simple extraction	
- multiple extractions for children	5.00
(b) - multiple extractions up to thirty minutes	10.00
(c) - prolonged anaesthesia up to one hour	15.00
(d) - each half hour thereafter	5.00

Above does not include cost of materials but is the fee for professional services other than the operating surgeon.

2. Further, there are some complaints that certain fees in the tariff schedule should be revised upward. It is now two years since this has been reviewed. In this period both the Ontario Dental Association and the Department of Veterans Affairs have brought out new schedules. Should your Board review the schedule again?

I feel it is desirable to have a fair fee schedule to compensate for good dentistry. In the field of crown and bridge restorations as they are performed today, I feel the tariff might be considered as to its adequacy. Fees for other services are also directed to your attention for review.

It is pretty difficult to report to your Board the various aspects and duties in your consultant's work. There are certain principles coming up from time to time but nearly every case I see, has something different.

During the year there has been —

1. One case of misrepresentation which I have tried to mediate.
2. One case where I was called to discuss the merits of certain services in relations to others.
3. One case where a dentist collected the Board's fee and a further fee from the claimant. I believe the dentist has returned the fee paid by the claimant.
4. Several cases of determining the Board's responsibility in a minor accident in relation to an extensive dental treatment programme.
5. Sometimes to give opinion at variance with the examining dentist's suggested treatment, e.g., Bridge using two smaller than usual laterals as abutments to replace two central incisors in a man with a heavy bite. Opinion is given in such a way that if the Board authorizes the treatment, it is against the best judgment of their

W.C.B.

consultant and the claimant, and his dentist must take full responsibility for satisfactory service.

The above are a few examples of your consultant's problems. I could give many more and elaborate at length, but the above are of the more important nature. All in all most cases are mediated very cordially and I feel the relationship between the Board and our profession is excellent. Mr. McCartney and his staff on the Medical Aid Division of the Board are always very fair in considering any problems.

In closing I would like to acknowledge Dr. Dunn's assistance on many occasions and to thank you gentlemen for entrusting this responsibility to me now for quite a number of years.

T. R. Marshall,
Consultant.

ACTION

Approved THAT the report of the Consultant to the Workmen's Compensation Board be received and adopted and further

Motions: THAT the R.C.D.S. Board wishes once again to express its appreciation for the services of the consultant on behalf of the dentists of Ontario.

REPORT ON PROFESSIONAL LIABILITY INSURANCE

Fall Meeting

At the Annual Meeting of the Board in May 1957, the Secretary was directed to conduct a survey on the general subject of professional liability insurance. The results of this questionnaire are given in summation as follows:

Number of questionnaires sent	2400	(approx.)
Number of replies	1561	
Number not applicable (pub. health, teaching, etc.)	40	
Number of pertinent replies	1521	
Number possessing professional liability insurance	825	or 55%
Number with no professional liability insurance	696	or 45%
Number who employ a nurse with		
(a) no policy	468	
(c) nurse not covered in policy	409	
(b) nurse covered in policy	273	
Number of dentists who do not employ a nurse	371	
Limits of Liability	\$ 5,000	— 171
	10,000	— 131
	15,000	— 208
	20,000	— 208
	20,000	— 84
	25,000	— 111
	30,000	— 10
	40,000	— 11
	45,000	— 1
	50,000	— 43
	75,000	— 2
	100,000	— 26
	150,000	— 1
	200,000	— 1

Number interested in possible group participation 1406 or 93%

Number not interested in possible group participation 115 or 7%

It would appear from the above that a large segment of our profession does not possess liability insurance and is therefore assuming a risk which, in view of present day conditions, does not seem desirable. Also it is obvious that a very large portion of our membership appears to be interested in a group approach to liability coverage. From the figures presented it would seem that many not presently covered would be desirous of participating on a group basis if the plan were found feasible and advantageous. On the basis of this mandate, therefore, it would appear that further effort should be made to attempt to develop a group approach to professional liability insurance.

Wesley J. Dunn,
Secretary.

LIABILITY INSURANCE

ACTION

Approved THAT steps be taken immediately to institute a group liability
Motions: insurance program.

THAT the Board employ the Benefits Counsel (Canada) Ltd. and request this organization to report its findings to the Board on malpractice insurance.

THAT a committee of three be appointed to meet with the Insurance consultant re professional liability coverage, the committee to consist of our Secretary and two members of the profession.

REPORT OF THE COMMITTEE ON PROPERTY

Fall Meeting

At the Annual Meeting of the Board in May, 1957, the following resolution was unanimously approved:

"Whereas it is the unanimous opinion of the R.C.D.S. Board that additional space is immediately necessary to carry on the work of the Board, and whereas the Board is also strongly of the opinion that it should purchase a property in the name of the Board, it is recommended that a committee be appointed to investigate available properties, secure facts, and report to the Board as soon as possible."

The president later in the meeting appointed the undersigned committee.

The Secretary was granted authority to obtain the services of a Realtor and institute an investigation of suitable properties. Many properties were visited with only two suitable locations resulting.

Accordingly the Property Committee met and were sufficiently impressed, and after receiving the concurrence of the Board, to obtain an option on the property immediately to the south of our present location, known as 230 St. George St. This original option was to expire on December 31st, 1957, and the cost was \$100.00 to be applied to the purchase price if the option is taken up. The agreed price of the property is \$70,000.00 and the transaction necessitates a cash settlement up to the amount of the existing mortgage which is approximately \$2,500.00. Possession is to take place April 30th, 1958.

230 St. George Street is located at present in a zone R4 and in order to locate the administrative offices of a non-profit organization such as the R.C.D.S. an R4A zone is required. Accordingly application was made to the Property Committee to obtain the necessary By-Law amendment. The Secretary and Solicitor of the Board supported this application at the two hearings of the committee.

A poll of the district was ordered at the first hearing and when the result was overwhelmingly in favour of the application for re-zoning the Committee unanimously supported our request at its second meeting.

The recommendation of the committee was accordingly transmitted to Board of Control where it met with no difficulty and later City Council unanimously accepted the recommendation of the Property Committee.

Before, however, the Board should consummate this transaction, it will be necessary for the city to have this amendment ratified by the Ontario Municipal Board. Application will be made by the city and in due course it is hoped that final approval will be received. The O.M.B. is presently well behind in dealing with such applications and it may be some time before the hearing takes place.

PROPERTY

Accordingly we sought an extension to the present option and for \$100.00 were able to obtain a two months' extension to the original date of December 31st. We agreed that if it were necessary for these arrangements to proceed into 1958 the present owner should be granted an extension of time before we would take possession equal to the amount of time consumed in 1958 while awaiting the Ontario Municipal Board's ratification. In other words should the hearing not take place until February, the possession date would be set on until June. It is confidently expected that the hearing will be prior to the February 28th deadline.

The committee is pleased to report this significant progress.

R. J. Godfrey,

A. H. Leckie

R. P. Lowery

W. J. Langmaid, *Chairman.*

ACTION

Approved THAT funds be made available to enable the Board to obtain
Motions: expert advice, re the condition of the building situated at
230 St. George Street.

THAT the personnel of the Committee on Property remain the same and that their powers be extended to complete the purchase of the property known as 230 St. George St. and further that they be empowered to engage the services of an architect, and secure as much information as they can to facilitate early occupancy by the Board and that they report to the Board at the annual meeting.

THAT the Report of the Committee on Property be adopted.

February Meeting

At the Fall Meeting of the Board, a resolution was adopted stipulating that the personnel of this committee remain the same and that the powers of the committee be extended to complete the purchase of 230 St. George St. This duty has been discharged. On January 31st, 1958, the Board received a signed acknowledgment from the present owner that the Board was exercising its option to purchase 230 St. George St.

Prior to July, 1957, an extensive investigation was made to discover a property suitable for use by the Board. After due consideration it was agreed to purchase 230 St. George St. Accordingly, early in July an option was obtained for a sum of One Hundred Dollars (\$100.00) with the option to expire December 31st, 1957. This \$100.00 would apply to the purchase price in the event the option were exercised.

As the zoning regulations were not then compatible with the use to which the property was to be placed it was necessary to seek an amendment to the Zoning By-law. This procedure entailed an application by the Board which was supported by two appearances of the Solicitor and the Secretary before the Property Committee of the City of Toronto. After a favourable pool of the neighbourhood this committee recommended to Board of Control and City Council that a By-law be enacted to amend the existing zoning regulations to create St. George St. from Lowther to Bernard an R4A area rather than the previously existing R4. This recommendation received assent from both groups.

By this time it was obvious that the necessary Ontario Municipal Board hearing could not take place until at least early in 1958. An extension to the option was therefore necessary and this was obtained for a further period of two months for \$100.00, which amount, as before, is applicable against the purchase price.

On January 16th the Solicitor and Secretary appeared before the Ontario Municipal Board to support, if necessary, the application by the City of Toronto for the amending zoning by-law. As only one man appeared in opposition and upon explanation by the City Solicitor he withdrew his objection, the Board representatives were not required to present arguments. The By-law received approval and therefore no further legal encumbrance prohibited the Board from purchasing this property to employ it as the administrative office of the Board.

The Property Committee met on January 23rd and after further sincere and conscientious deliberation instructed the Secretary to proceed and exercise the option. The Solicitor was instructed to search the title and if found free of encumbrance to draft the necessary papers to receive acknowledgment of the exercising of the option. On January 31st this acknowledgment was duly signed by the owner and received by the Secretary and a cheque for 10% of the purchase price was issued in trust to J. D. Terryberry Ltd. Realtors. The date fixed for closing of the purchase of the property is April 30th, 1958, or such earlier date as may be arranged and that vacant possession must be delivered up not later than May 31st, 1958.

PROPERTY

The Committee at its meeting on January 23rd also gave consideration to the total probable cost as well as methods of financing:

Total estimated cost of building, alterations, and furnishings — \$110,000.00.

Source of Funds:

1. From current revenue	\$28,000.00
2. Mortgage	40,000.00
3. Reserves	35,000.00
4. Bank Loan	7,000.00
	\$110,000.00

As only the Board has power to direct the liquidation of reserves the following information in respect to Bond Holdings is submitted for the Boards' consideration:

		Bids*	Yield
\$20,000 Government of Canada.....	3% June 1, 1957/60	98.45	3.56%
10,000 Government of Canada.....	3¼% Oct. 1, 1979	91 ¾	3.81%
10,000 Government of Canada.....	3% Sept. 1, 1966	95 ⅞	3.56%
8,000 Province of Ontario.....	2¾% July 15, 1967/71	87.55	3.95%
7,000 Province of Ontario.....	2¾% July 15, 1967/72	96.90	3.95%
10,000 Province of Ontario.....	2¾% July 15, 1970	88 ¼	3.95%
5,000 Ontario Hydro.....	2¾% April 1, 1964/67	90.00	4.07%

* plus accrued interest

The Secretary made extensive investigations respecting the availability of mortgage funds and it now seems reasonably certain that the Board will be enabled to obtain a \$40,000.00 mortgage at 6½% from the Canada Life Assurance Co.

The present first mortgage of approximately \$1,500.00 held by Dominion Life of Waterloo can be discharged, the Committee is assured by the Realtor, for a very small bonus payment.

The Secretary was directed to retain the firm of John B. Parkin Associates as architects and already this organization has spent considerable time in preparing first drawings preparatory to further discussions with the Committee.

The Property Committee is pleased to report this progress.

A. H. Leckie
R. P. Lowery
R. J. Godfrey
W. J. Langmaid, *Chairman*

ACTION

Approved Motions: THAT the Secretary be empowered to make available from our reserves of bonds such funds as may be found necessary to complete the financing of the purchase of 230 St. George Street.

THAT the Report of the Committee on Property be received and adopted.

REPORT OF THE INSPECTOR

I have the honour to report for your information the following investigations and prosecutions for the past year:

1. BRISBOIS, HECTOR J. - 319 Lisgar Street, Ottawa (Registered Technician).

He was charged with repairing a denture and on March 21st pleaded guilty before Magistrate J. Sauve in No. 1 Court, Ottawa, and was fined \$100.00.

2. COCHRANE, LEONARD - 1179 Giles Blvd., Windsor (Registered Technician).

He was charged with supplying a denture and on February 19th pleaded guilty before Magistrate Hanrahan in No. 2 Court, Windsor and was fined \$50.00 and \$17.50 costs.

3. GAULIN, HERBERT - 104 John Street, Napanee (Registered Technician).

He was charged with repairing a denture and on April 29th pleaded guilty before Magistrate R. C. Jackson in the Court in Napanee and was fined \$50.00.

4. HOCKEY, DENIS - 1472 Tourangeau St., Windsor.

He was charged with repairing a denture and supplying a denture and on March 5th pleaded guilty before Magistrate Hanrahan in No. 2 Court, Windsor and was fined \$50.00 on each charge making a total of \$100.00.

5. KELLY, LEONARD RUSSELL - 258 Mercer St., Windsor.

He was charged with supplying a denture and on April 24th he pleaded guilty before Magistrate MacMillan in No. 1 Court, Windsor, and was fined \$25.00 or 15 days.

6. MARTIN MAXWELL - Medical Arts Bldg., Toronto (Registered Technician).

He was charged with four offences under the Dentistry Act-two of taking impressions and two of making dentures. On April 17th he pleaded guilty before Magistrate Taylor in E Court, Toronto, and sentence was suspended on two charges and he was fined \$100.00 on each of the other two charges plus \$10.00 costs.

7. TIEDE, WARREN - 984 Drouillard Road, Windsor.

He was charged with taking an impression preparatory to making a denture and on March 11th he pleaded not guilty before Magistrate Hanrahan in No. 2 Court, Windsor. The accused was found guilty and was fined \$50.00 plus \$70.00 costs.

8. WEBSTER, THOMAS - 590 University Avenue, Windsor (Registered Technician).

He was charged with supplying a denture and having a denture without a prescription and on February 19th he pleaded guilty before Magistrate Hanrahan in No. 2 Court, Windsor, and was fined \$50.00 on each charge plus \$17.50 costs.

Several other matters were investigated during the year.

Gavin A. Monahan, *Inspector*.

ACTION

Motion: THAT the report of Inspector Monahan be adopted.
Approved

REPORT OF THE LIBRARIAN

The Harry R. Abbott Memorial Library and the Dental Library of the University of Toronto have functioned actively during the past year. Their activities are so closely inter-related that it is difficult to report upon one or the other individually except in the manner of finances.

There were 117 acquisitions of new books and one new journal subscription (*Helvetica Odontologica Acta*) during the year. There are 48 orders outstanding in comparison with 57 outstanding orders at the same date a year ago.

The circulation figures from May 1st, 1957, to April 30th, 1958, with comparative figures for the three preceding years are herewith appended (Appendix A). The circulation figures show a slight increase over the previous year and do not include circulation of books within the reading room, which comprises 1,800 additional loans. There were 14 inter-library loans and 102 loans were made to out-of-town and graduate borrowers. In general, circulation figures were comparable to the previous year with a small over-all increase.

We gratefully acknowledge donations of books and journals from many sources: Dean R. G. Ellis; Mrs. M. N. Rockman; Mr. C. C. Rous; the Ontario Dental Association; Miss Marion Patterson, Academy of Medicine Library; Dr. Marion Joy; Oral Health; Dr. R. J. Godfrey; Dr. H. Halderson; Dr. W. K. Shultis; Dr. G. C. Hare; Dr. H. A. Hunter; Dr. L. J. Saunders and Dr. J. H. Johnson.

The appropriation to the Dental Library from the University of Toronto remained at \$1,900.00. We have currently overspent this fund to the extent of \$105.00 and current orders outstanding amount to approximately \$400.00. We are grateful to the University for permitting us to draw upon the general Library fund and to date there has been no limitation placed upon our requisitions. The financial report of the Harry R. Abbott Fund is also herewith appended (Appendix B).

During the year expenditures from the Abbott Fund were again restricted to the rebuilding of older books in the Abbott collection that were in need of repair. Many of the older editions fall within this category and it is proposed to continue the policy of using the Abbott Fund for renovating all the items in the collection in need of repair. We have been fortunate in securing a reputable firm of book binders who do excellent work at reasonable prices.

During the year we received exchange material from 43 libraries in the United States, Canada, Jamaica, England, Columbia, the Canal Zone and from the British Dental Association. Our own exchange lists for the year offered 144 books and 1,612 periodicals. Our exchange has been made available to the Canadian Dental Association and to Dr. J. W. Neilson, Dean of the Faculty of Dentistry at the University of Manitoba. During the year your Librarian received a large number of bound journals and other volumes as a personal gift from the Library of Oral Health. These books came largely from the personal library of the late Wallace Seccombe and included twenty of the early volumes of the *Dominion Dental Journal* and twenty-five volumes of the *Dental Cosmos* which are now very difficult to obtain. The Librarian from the formative Dental Library in Winnipeg is visiting our library for two days next month and it is my intention to donate these volumes to the embryo Winnipeg Library, provided they are short of the particular items. Any journals which members of the Dental Profession

may care to donate to the Winnipeg library to complete its files would serve a very valuable purpose and I am sure would be most gratefully accepted. Your Library Committee propose to give every assistance from our duplicate material. During the year we were able to supply duplicate journals to the University of Detroit, enabling it to complete one journal file for four individual years.

At this late date it is a difficult task for a Librarian to establish a complete collection including the earlier items of dental literature, as the bones have already been picked relatively clean by earlier librarians.

We gratefully acknowledge two donations of \$25.00 each received during the current year from the Crown and Bridge Study Club of the Academy of Dentistry at Toronto. These amounts have been placed in our Library Contingent Fund. Such support is particularly welcome at this time when we will shortly be moving into our greatly extended quarters in the new dental building, where there will be many uses for this money.

During the year we also acquired from England a first edition of Koecker's "Essay on the Diseases of the Jaw," dated 1828. This valuable addition to our historical collection was made possible by the special appropriation from the Royal College of Dental Surgeons and is herewith gratefully acknowledged.

Construction of the new dental building is progressing rapidly, but detailed plans of the Library and Museum have not yet been furnished to the Committee, but are expected daily. In the meantime, we may reasonably expect that the ultimate construction will be in accordance with the preliminary sketches submitted at the time of my report last year.

Your Library Committee, with the support of Dean Ellis, has taken active steps to provide additional trained library personnel for the efficient functioning of the Library after its expansion. We are grateful to the Board for increasing its portion of the salary of a Librarian and every effort is being made to secure a competent Librarian with medical library experience. Negotiations are currently under way with a very suitable prospect and it is hoped that the negotiations may be successful. It has also been possible to obtain a salary adjustment for the Assistant Librarian, bringing her remuneration more into line with the quality of the services rendered.

Notices have been placed in all Canadian dental publications in the hope of obtaining two replacement copies of *Torontonensis* that had been vandalized but to date have been without results. These volumes are now kept under lock to prevent the possibility of similar damage in the future.

I am happy to be able to report that arrangements have now been made for adequate cleaning of the Library books and shelves at regular periods by competent and interested student help. The location of the Dental Building makes it particularly susceptible to the accumulation of greasy soot and grime which is a serious menace to a valuable collection of books. In addition, the necessary cleaning operations cannot be delegated to careless or inexperienced helpers. We are particularly grateful that this cleaning problem seems finally to have been solved.

The interest and co-operation of all those responsible for the successful functioning of the Library is again gratefully acknowledged. The members of the Library Committee have been most faithful and

LIBRARIAN

taken time out of their busy schedules to attend the meetings of the Library Committee regularly.

This report is respectfully submitted with the recommendation that the customary grants be continued for the ensuing year.

J. H. Johnson, *Librarian.*

REPORT ON A POST-PAYMENT PLAN FOR DENTAL SERVICES IN ONTARIO

Annual Meeting

FOREWORD

The following brief was prepared to assist you in the establishment of a post-payment plan for dental services and is designed to conform to the recommendations of the Health Insurance Studies Committee of the Canadian Dental Association.

Because this is not a prelude to a selling campaign we have abstained from the use of rhetoric; the glowing testimonials and have tried to present it in as cold and factual a manner as possible.

However, do not let this lack of fervour mislead you — this plan, if accepted by the profession, can become a most important and vital Health Measure.

You are, in effect, reversing the trend toward Government intervention and subsidization, towards unionization and socialized medicine.

You are saying to the public -

"We, the members of the dental profession, recognize your needs.

We are aware of the ever growing demand for better and all-inclusive dental care.

Our recommendations and fight for fluoridation was a preventive measure.

Now we are prepared to go even further and offer you a plan whereby you, as individuals, may obtain the best in dental service in a manner that is entirely compatible with modern financing and your other commitments."

You can be in advance of public demand. It is well to maintain that lead.

This is not a finance plan — you are paid when the patient pays. As there is no financing or operating charge to pay to any outside group, it is possible to give you better service for less.

Also, as it is not a finance plan, the control of the plan and of the patient-dentist relationship, is maintained by you and not dictated by others.

Part I — THE OBJECTIVE

THIS IS A PUBLIC HEALTH MEASURE designed to assist family groups and persons who, due to other commitments, are unable to pay cash for the dental service they require.

AS A SECONDARY CONSIDERATION it was designed to assist the dentist, because in doing so we are also helping the public to attain better dental service at less cost.

POST-PAYMENT PLAN

No one but the sheerest hypocrite would advocate a policy of universal dental care with no protection for the dentist.

These two points should be kept in their proper perspective at all times. There is nothing derogatory about the fact that it will assist the profession.

The plan will have two immediate effects:

- (1) It will activate your dental health programmes in that you now hold out both hands to the public and tell the public what they need and how they can acquire it.
- (2) It will reduce the cost of dental care by:
 - (a) Allowing preventive dentistry to be practised without either the dentist or the patient being restricted by the patient's inability to pay cash.
 - (b) By giving security to the dentist it will divert any tendency towards increasing fees to offset losses.
 - (c) By operating a non-profit plan within the profession it does away with the need to "borrow" and the payment of exorbitant interest rates for the use of capital.

In addition it strengthens the dentist's control of his own profession.

To sum up, our goal is to make dental care available to every honest citizen of Canada so that preventive dentistry of the highest order can be practised regardless of the patient's immediate ability to pay cash for the services rendered.

Part II — THE METHOD

1. Formation of a non-profit limited company with all shares owned by the Royal College of Dental Surgeons of Ontario and all directors appointed by them.

2. Establishment of a business or central office to act for the dentist and give assistance to him in all matters pertaining to business and accounting, but more especially to provide a standard method of budget payments for the public and to effect collection of all accounts in the most efficient manner possible.

3. Establishment of a public relations programme in relation to the post-payment plan and its inclusion with other health programmes.

4. Establishment of the post-payment plan for dental services.

Part III — FORMATION OF THE COMPANY

Memorandum of Association

1. The name of the company is "Ontario Dental Services Limited".
2. The registered office of the company shall be situated in the City of Toronto, Province of Ontario.
3. The objects for which the company is established are:
 - (a) To promote the cause of dental health in the Province of Ontario by offering the public a standardized, low-cost method of paying for dental service on a post-operative basis.

POST-PAYMENT PLAN

- (b) To promote the cause of dental health by the dissemination of health literature and information.
 - (c) To establish, maintain, and conduct an agency for the collection of dental accounts and generally, to act as agent for members of the dental profession.
 - (d) To provide facilities for auditing, bookkeeping and accounting services to members of the profession.
4. The liability of the members is limited.
 5. The authorized capital of the company is Fifty Dollars (\$50.00), divided into fifty (50) shares with a nominal or par value of One Dollar (\$1.00) each.
 6. No shares shall be owned by or transferred to any person except a registered dental practitioner and then only after approval by Directors.
 7. The number of shareholders of the company is limited to Fifty (50).
 8. The company will not offer its shares or debentures to the public and may only be held by members of the dental profession.

ARTICLES OF ASSOCIATION

Membership

1. Shareholders shall be restricted to members in good standing of the Royal College of Dental Surgeons of Ontario.
2. Those persons who are signatories to these Articles of Association and the Memorandum of Association shall be the shareholders of the company together with such other persons as the Directors may from time to time approve and to whom the Directors shall allot shares.
3. Immediately upon any shareholder becoming a Director he shall execute a transfer of the share held by him in the following form or in any usual or common form which the Directors shall approve.

"I, A. B. of....., in consideration of the sum of \$1.00 paid to me by C.D. of....., hereinafter called the "transferee", do hereby transfer to the said transferee the share held by me in the undertaking called "Ontario Dental Services Limited" to hold unto the said transferee subject to the several conditions on which I hold the same, and I, the said transferee do hereby agree to take the said share subject to the conditions aforesaid.

AS WITNESS our hands, this day of 19.....

POST-PAYMENT PLAN

Directors

4. The numbers of shareholders shall not exceed _____, all of whom shall be directors of the company.
5. The Board of Directors shall consist of _____ members of the Royal College of Dental Surgeons of Ontario.
6. A majority of the Directors shall constitute a quorum.
7. A Director shall cease to hold office as a Director if:
 - (a) His membership in his professional association terminates.
 - (b) If the Royal College of Dental Surgeons of Ontario requests his removal as Director and a majority of the Directors concur therein.
 - (c) If he becomes bankrupt.
 - (d) If he becomes of unsound mind.
 - (e) If he establishes residence outside the Province of Ontario.
8. Vacancies on the Board of Directors, however caused, may be filled by the remaining Directors by a majority vote.
9. The officers of the company shall be appointed by the Board of Directors from among its members and shall consist of the president, a vice-president, and a secretary-treasurer.
10. The Directors shall manage the business of the company and may pay all expenses in organizing and registering the company and may exercise all such powers of the company as are not by the act or by any statutory modification thereof for the time being in force, or by these articles required to be exercised by the company in general meeting, and may appoint such officers and may hire such employees and pay such salaries and remuneration as it may from time to time see fit.
11. The Directors shall cause minutes to be made in books provided for the purpose of all resolutions and proceedings at all meetings of the company and directors.
12. Meetings of the Directors shall be held at least twice in each calendar year and shall be called by the president or by any two directors.
13. Five days notice of Directors meetings shall be required unless all directors are present or unless those not present have signed appropriate waivers, provided however, that no notice shall be required for the meeting of Directors held immediately after the annual meeting of the shareholders.
14. The annual meeting of the company shall be held at such time and place in Ontario as may be determined by the Directors and, while the rights of voting and holding office shall be restricted to shareholders, such meetings shall be open to any member of the Royal College of Dental Surgeons of Ontario or to members of such other dental associations as the Directors may from time to time decide.
15. Notice of annual or special meetings of the shareholders shall be mailed to each shareholder at least fourteen days prior to the date of such meeting provided however, that any shareholder may by written waiver waive such notice.

Meetings

16. At every annual meeting, in addition to any other business that may be transacted the report of the Board of Directors and the report of any committees that may be established and a balance sheet as to the immediately preceding year, with a general statement of income and expenditure for the period with a report of the auditors shall be presented. Auditors for the ensuing year and members of the Board of Directors shall be elected, provided however, that in the event no annual meeting is called then the members of the Board of Directors and the auditors shall continue in office until such time as a general meeting of the shareholders shall be held.
17. At all meetings of shareholders and of directors every question shall be decided by a majority vote unless otherwise decided by the meeting and every motion and resolution shall be decided by a show of hands unless otherwise decided by the meeting. In case of an equality of votes at any general meeting the resolution shall be deemed to be resolved in the negative.

Officers of the Company

18. The President shall be elected by the Board of Directors from among the directors at the first meeting of the Board after each election of such Board, provided that in the event of failure to hold such an election then the incumbent shall hold office until his successor is elected. He shall preside at all meetings of the Board and of the shareholders and during his absence or inability to act his duties and powers shall be exercised by the vice-president. The president shall be charged with the general supervision of the affairs and operation of the company, shall possess and exercise such powers and fulfill such duties as the Board from time to time by resolution determine.
19. The secretary shall keep the general company records including all minutes, list of members and shareholders and other records and need not be a shareholder or director.
20. The treasurer shall keep full and accurate accounts of all receipts and disbursements of the company and proper books of account, shall deposit all funds in the name and to the credit of the association at such bank or banks as may from time to time be designated by the Board of Directors. He shall disburse the funds of the company under the direction of the Board, taking proper vouchers therefore and shall render to the Board at the regular meetings thereof or whenever required of him an account of all his transactions as treasurer and the financial position of the company. An incumbent in the office of treasurer need not be either a shareholder or a director of the company.

Committees

21. There shall be an executive committee which shall consist of such members of the Board as the Board itself may determine. It may meet together for the transaction of business upon the call of its own chairman who shall be selected by its members. The executive committee shall carry out such commitments as may be made to it by the company or by the Board of Directors. It may make suggestions and recommendations to the Board and shall carry out routine and emergent business.

POST-PAYMENT PLAN

22. The Board of Directors may appoint such other committees and assign to such committees duties as it may see fit.

Audit

23. The Board of Directors shall provide for auditing the books of the company annually.
24. The fiscal year of the company shall be the calendar year.
25. The seal of the company shall be in the custody of the secretary and shall not be affixed to any documents or instrument unless authorized by the Board of Directors or unless pursuant to and under such conditions as the Board of Directors may provide and then only by and in the presence of such officers as the Board of Directors may authorize.

Amendments

26. These regulations may be amended in accordance with the provisions of the Companies Act.
27. The annual meeting of the shareholders shall be held in accordance with the provisions of the Companies Act.

IN WITNESS WHEREOF the subscribers to the Memorandum of Association have hereunto subscribed their names the
day of 1958.

Part IV — ORGANIZATION

Directors — It is suggested that shares be pro-rated so that every society is represented in proportion to the number of dentists.

President — It is suggested that the president, for the first term, be located near to the head office in order to facilitate the activities of the company.

Vice-President —

Secretary-Treasurer — as is suggested in Section 19 and 20 under "Officers of the Company" the secretary or treasurer need not be members of the profession.

Until the company attains such stature as shall make the appointments of a General Manager as well as Secretary and Treasurer advisable, these positions could be operated as one, and only one "paid" position established.

In his dual capacity the Secretary-Treasurer will be responsible for the organization of the plan and the office.

This position will be a very responsible one and the success of the plan could be entirely dependent on this man in its early stages.

Committees -

PUBLIC RELATIONS COMMITTEE — to plan the approach to be made to the public and the manner in which the plan is to be tied in with other health programmes.

In this regard it is suggested that special attention be given to children's dentistry and the need of the large, middle income, family groups. It is in this category that much needed dental care is neglected or delayed owing to their inability to pay cash.

POST-PAYMENT PLAN

DENTIST EDUCATION COMMITTEE — One member from each district would be an advantage on this committee.

Our public is so well educated in the use of budget plans that our biggest campaign will be in explaining our purpose, our methods, and the plan itself, to the profession.

One dentist in each district who understands the plan completely and is willing to discuss it with his fellow dentists can assure success.

PROCEDURE COMMITTEE — to investigate and make recommendations with regard to the establishment of the Central Office, the forms in use, fees to be charged and the general administrative policy.

Central Office -

Its functions should be thoroughly understood. It is purely and simply a work unit and should be designed with that thought in mind.

It should not be available to the public. This can be accomplished by using a post office box number rather than a street address on all stationery.

The reason for this is that we are offering the public three methods of payment — the dental office, the banks, and the mail. They have every facility and the only reason for knowing the location would be to register complaints. This we intend to avoid.

All complaints must be taken up with the dentist performing the service. If they write to us we merely forward it and act on his instruction.

So we plan a functional office prepared to accomplish the following:

1. Register each note received.
2. Advise each patient of the terms and method of repayment.
3. Accept all payments and credit them to the proper doctor's account.
4. Prepare monthly statements for each doctor and remit all monies received monthly.
5. Give the best collection service possible.

With this in mind a great deal of thought must be given to the adaptability of mechanical accounting machines. While the original outlay may be larger the saving in man-hours and the increase in efficiency will more than counterbalance the cost of installation.

Part V — YOUR POST-PAYMENT PLAN

Your plan is designed to operate in the following manner:

All forms necessary to put the plan in operation are supplied by the central office. These include pamphlets explaining the plan to the patient, agreement forms for the patient to sign, wall plaques, and other stationery.

POST-PAYMENT PLAN

The type of forms to be used and the literature would be decided on by the Procedure Committee appointed by your Directors.

When the forms are supplied full instructions should accompany them, and each dentist and receptionist should be given the opportunity to discuss their use with the Secretary or his representative.

In operation the plan is very simple.

By strategic placing of wall plaques and the availability of literature the patient is prepared in advance. The insinuation is that credit arrangements should be made before treatment commences.

If the treatment is to be prolonged and the dentist gives an estimate it is very easy to lead up to the "how do you intend to pay" question.

At the first hint of delayed payment mention can be made that the plan is available for just such emergencies. This is the important stage—present the plan with pride. This is a personal service you are offering the patient and you are proud of the fact that you and other members of your profession, at their own expense, have inaugurated such an advance.

From there on the steps follow in logical order — the receptionist can handle all details leaving you free to concentrate on dentistry.

In most cases you will find that the patient himself will make the original enquiry to the receptionist.

The receptionist will give the patient the forms to complete, arrange terms which are suitable to you, have the patient sign, and mail the form to Central Office.

You can forget that account. You have no collection problem, no writing, no phoning of delinquents, and no arguments with patients regarding their accounts.

I would suggest that you treat the plan and its application to your patient in the same manner as other businesses do as a normal requisite to obtaining credit. The public will accept it on that basis.

The Central Office will immediately register the note, send the patient a booklet setting out terms they agreed on, advising them of the different methods in which they may pay their account. A proof copy of this is sent to you for your records.

If the patient becomes delinquent the Central Office advises him of this fact and, by a series of increasingly firm letters, reminds him of his obligation and insists on payment.

We will find that there are cases where, after even the most concentrated effort, the patient will still refuse to pay. In that event we notify you and suggest that certain steps should be taken. Legal action is never instigated without your permission.

The plan is so flexible that it can be used in a variety of ways. Remember — it is your plan put there for your use and you are not responsible to any outsider or control. The staff of the Central Office are hired by you to carry out your instructions.

So far no mention has been made of the service charge to the patient or of the cost to the doctor. This has been deliberate because all such charges should be thoroughly reviewed by your study committee before being set.

POST-PAYMENT PLAN

In the pilot plan which has been in operation for three years the following charges were in effect:

To the doctor a yearly membership of \$25.00.

To the patient a basic charge of \$1.00 plus a monthly service charge of 30 cents.

A charge to the patient is a necessity. If the service were offered with no charge it would encourage the extension of credit which it not our aim. The charge acts as a deterrent against unwarranted use and an incentive to pay cash.

It has been our experience that many patients who try to "stall" when it is a matter of owing a dentist personally, pay cash when they are presented with the plan. It is this type that deliberately work on the theory that, if they can charge, they can force the dentist into a position where he will accept less than his normal fee to be free from the worry of collecting.

With a plan that is large enough to embrace the whole profession, and where non-payment could effect their credit rating in other fields, they are inclined to pay promptly and in full.

The presence of the plan in your office will save you more than the cost of membership by inducing borderline cases to pay cash.

I would suggest that serious consideration be given to amending the patient's charge slightly to wipe out some of the minor inequalities that exist — a patient paying a \$100.00 pays the same service charge as one owing \$30.00. A monthly charge of $\frac{1}{2}\%$ per month would be extremely low and yet serve a better purpose.

In regard to the membership charge to the doctor a joining fee of \$35.00 plus a 1% charge on collections might be fairer as it would be predicated on volume. Thus for every \$25.00 collected 25 cents would be deducted. No further yearly charge would be made to the doctor.

With the volume possible in the Province of Ontario we may very soon be faced with the problem of profits in a non-profit company. In such event we need avenues available whereby we can reduce the profit.

One such avenue would be a reduction of the charge to the dentist or an extension of a public health programme for the profession.

The charge to the patients can not be abolished without encouraging time payments.

The success of the whole operation is entirely dependent on its acceptance by the profession and the volume of business processed.

Part VI — THE FUTURE

The future of the plan is entirely dependent on its acceptance by the profession. If it is accepted wholeheartedly and in the spirit of a health programme the possibilities are unlimited.

In its original concept it is planned to operate one office in Toronto to service the province. When the volume of accounts is large enough to warrant the expenditure, sub-offices could be opened at other points.

Control would be maintained by the Central Office but the handling of patients' accounts and the collection problems involved might be

POST-PAYMENT PLAN

more efficient on a local basis where a personal approach through the medium of the telephone, etc., could be used to advantage.

It could also be extended at very low cost to include other provinces. The public relations and control of the plan would be under provincial jurisdiction but the overall business administration would be on a combined basis with all provinces represented on the Board of Directors.

Each province would have its own office or offices supervised by its association or licensing body and the function of the Central Office would be to make periodic audits, assure themselves that sound accounting and collection practices were being carried out, and to assist and report to the provincial organization on all matters pertaining to its operation within the confines of their province.

The greater the size and scope of the plan the greater its efficiency becomes. A cross-Canada plan would have tremendous possibilities and advantages to offer its members.

Patients moving from one locality or province to another could use the plan and its facilities anywhere and collections could be effected in the same manner.

One of the great aids to collection is the size of organization in the minds of the public. Under a personal dentist-patient relationship the patient knows that, should he neglect to pay his account to you, he can still go to the dentist next door and obtain the same service because there is no clearing house for information.

Once on the plan he is faced with the knowledge that any delinquency can effect not only his credit with the dental profession, but with every other business because his credit rating can suffer consequence.

On a Canada-wide basis two Central Offices could be established — one Eastern and one Western. They and the offices in each province would be linked on a co-operative basis, independent in action but interdependent in exchange of services.

An actual reduction of cost would be effected by the standardization of methods and equipment and, most of all the combining of the administrative personnel.

Part VII — COST

ONTARIO DENTAL SERVICES Estimated Revenue and Expenditures (to 31 Dec., '58)

Based on an estimated first year membership of 1,100 dentists.

Revenue

Membership at \$35.00 per member.....	38,500.00
Plan earning to 31 Dec., '58	3,000.00
Total Revenue —	\$41,500.00

Expenditures

Capital costs - legal fees	200.00	
furnishings	2,580.00	
accounting equipment ...	8,000.00	
pre-operative salaries	1,900.00	
pre-operative travel		
expense	2,000.00	14,680.00
Stationery, supplied to doctors and reserve		11,000.00
Operating costs - October to December		4,150.00
Total Expenditures —		\$29,830.00

POST-PAYMENT PLAN

SURPLUS OF REVENUE OVER

EXPENDITURES \$11,670.00

The above surplus to be placed in a contingency reserve fund.

From this breakdown it will be seen that each member's contribution will be allocated roughly as follows:

To retire capital costs	15.00
To stationery supplied his office	10.00
To initial operating costs	1.00
To establish a contingency reserve	9.00
	\$35.00

Repayment from the contingency reserve to the members contributing would be considered after experience had proven that the plan was on a sound financial basis and that the reserve were no longer necessary.

Net profits would also be placed in this contingency reserve for allocation at the discretion of the Directors.

Estimates are, at best, only estimates and subject to various unforeseen contingencies. To offset this and place the organization on a sound business basis a reserve has been built up.

A plan of this type should start on a strong financial footing. There will be a recession period which can be expected in July and August next year when the combination of the holiday season and a tapering off of the original enthusiasm will be felt.

This will be overcome by the members return to practice and by the fact that we will already have a sizable number of accounts on hand and the monies we are remitting monthly to the dentist, possibly in his absence and certainly with no effort on his part, will reaffirm the benefits to be derived from the use of the plan.

The cost of operation is in direct proportion to the volume of business. With 1,100 members 2 accounts per member per month would be sufficient to operate. That is a very conservative goal and should be passed after the third month of operation.

The benefits insofar as public relations and actual saving to each and every member are tremendous. To take three specific items — postage, stationery, and time, you have no billing of delinquent accounts and therefore the saving in the first two alone are more than sufficient to pay the membership fee.

How much time do you and your receptionist spend each month on reviewing and billing of accounts? Every hour is an hour of operating time lost and you, as a trained practitioner, cannot afford this loss.

Travel expenses shown under capital costs are a pre-operative cost to give the Secretary the opportunity of visiting each society in order to explain the plan and inform the profession. I would suggest a goal of three days in each city, one day for a society meeting, one for a meeting with the dental receptionists, and one day for individual contacts.

It is hoped that most of our printing can be done at C.D.A. headquarters thereby providing a source of revenue for them and a saving to us.

No mention has been made of any advertising programme. Actually the dentists themselves are our advertisers. We are not in competition and once the public is made aware of the plan nothing further is required except an enthusiastic membership.

Because this is an advancement in health services, Government

POST-PAYMENT PLAN

sources of information, magazine articles, news releases to press, radio, and T.V., can all be used in informing the public.

All such advertising would come under the direct control of the Royal College of Dental Surgeons of Ontario in conjunction with their overall health programme and in consultation with the plan Directors.

W. E. Jackson.

ACTION

Approved THAT the informational report on a post-payment plan for dental services in Ontario be received and

Motion:

THAT the Board heartily endorses the institution of such a plan developed as it is in concert with the approved principles on Post-payment plans of the Canadian Dental Association and

THAT a Post-payment plan be inaugurated in Ontario at the earliest practicable date and

THAT Mr. W. E. Jackson be invited to accept the position of administrator of such a plan and

THAT an interim Board of Directors be appointed to deliberate with the Administrator in respect to the various arrangements coincident with the establishment of such a plan and

THAT the necessary funds which must be available while the plan is pre-operative be advanced from the general fund of the Royal College of Dental Surgeons of Ontario with repayment to be obtained from the Plan at the earliest possible date and

THAT Mr. Jackson be requested to attend a meeting with a committee of this Board chaired by Dr. Leckie to consummate the accepted Post-payment Plan for the Province of Ontario, Mr. Jackson's expenses to be the responsibility of the Board and

THAT Dr. Stiles be appointed Chairman of an Interim Dental Services Board of Ontario with the authority to add to said interim Board.

REPORT OF THE DENTAL PUBLIC HEALTH COMMITTEE, ONTARIO DENTAL ASSOCIATION

Once again it is my privilege to present a report of the Dental Public Health Committee of The Ontario Dental Association for the term 1957-1958.

In the beginning, may I thank the Board of the Royal College of Dental Surgeons, the Members of the Dental Public Health Committee and all other Associations and individuals for the help and co-operation which have made our activities possible.

Our Field Secretary, Dr. Glenn Mitton, has been untiring in his efforts to help forward the cause of Dental Public Health throughout the Province. He has assisted several communities to organize meetings and activities which these communities have since reported to have been of real value. (See appendix A).

It is noteworthy that all requests for speakers and materials that arose during the year were fulfilled. Thus, speakers and materials were made available to a goodly number of Home and School Associations, Service Clubs, Church Groups, etc.

The Red Cross has continued to co-operate with our Committee and we have been informed by Dr. S. A. MacGregor, Chairman of the Dental Committee, that three new coaches, fully equipped, are ready for the field.

The number of requests for aid from the \$20,000.00 grant made by Red Cross for the orthodontic treatment of special cases, has been disappointing. It is hoped that the Board members will publicize the existence and purpose of this fund as much as possible.

Recently, Mrs. O. C. Herrington of the Junior Red Cross and Dr. David Mitchell, Orthodontist, visited Ottawa and made a survey of several Ottawa and Ottawa Valley schools. Dr. Mitchell found 114 children ranging from 6½ to 15 years of age who required orthodontic treatment. Out of the 114, only 4 children had sufficient teeth remaining to allow the placing of appliances.

This points out a great need for Dental Public Health activity in this area. It is hoped that an active Dental Public Health Committee may be stimulated to function within the Eastern Ontario Dental Association. Our Field Secretary is now working toward this end.

The town of Mattawa, population of about 4,000, requires a dentist, but past experience showed that the people of this area must be enlightened regarding their individual responsibilities if a dentist is to be able to make a living in this town. Our Committee feels that a programme of education of the laity is indicated in this locality before another dentist is encouraged to settle in Mattawa.

Dr. Mitton has visited Mattawa with a view to arranging the initial steps of this programme.

Dental Health Day was again staged during National Health Week under the Chairmanship of Dr. Marjorie Jackson. The day had good speaker, radio, news and television coverage throughout Ontario.

DENTAL PUBLIC HEALTH

The help received from the Health League of Canada with regard to publicity, etc., makes National Health Week a logical time for the holding of this important event.

The Dental Public Health Committee and The Ontario Dental Association have both been represented on the Fluoridation Committee of the Health League of Canada, and although the efforts of the Committee have not been outstandingly or tangibly successful to-date, nevertheless, much valuable information has been collected and good experience gained.

The Dinner for the Graduating Class in Dentistry, sponsored by the Dental Public Health Committee, was considered to be a successful venture. The students in general were pleased with it and welcomed the opportunity of meeting the Board Members present on that occasion.

Our Committee feels that the Dinner merits repeating and arrangements are now under way to hold a similar Dinner in Hart House, February 5th, 1959.

For this purpose, we sincerely solicit financial assistance from the Board.

We have a grave responsibility in the matter of better distribution of dentists throughout Ontario. The students of the graduating class are our greatest hope in this respect.

Mark G. Boyes, *Chairman.*

APPENDIX 'A'

REPORT OF THE FIELD SECRETARY OF THE DENTAL PUBLIC HEALTH COMMITTEE

This past year the members of the Ontario Public Health Association elected me as their President and the responsibilities associated with this office have meant a considerable amount of time attending conferences, acting on deputations, attending committee and Board of Directors' meetings. My active term of office will be completed at the close of the Annual Meeting, September 29 - October 1, 1958. Over the last ten years, I have tried to represent Dentistry in the provincial and national associations of public health workers and it has been of some professional satisfaction to see public health dentists being accepted as staff colleagues in organized public health agencies as well as taking their place among the executive officers of the association. I know of no better way to be accepted among our medical colleagues than to work with them in the common cause of public health. I am grateful for your consideration in making it possible for me to contribute something toward good professional relations.

Terms of reference for Dental Public Health Committee activity this year include:

- (a) An approach through community lay organization to bring dental health education to the community. Working closely with the local society, special events were organized through Home and School and Parent-Teacher Associations.
- (b) Where the services of dentists were badly needed and particularly from the standpoint of dentistry for children, attempts were to

DENTAL PUBLIC HEALTH

be made to evaluate the local situation and then try to interest recent graduates to locate within such areas.

- (c) To prepare and produce television and radio material needed for Dental Health Day activity.
- (d) To secure material and prepare scripts for pamphlets needed badly on the value of primary teeth and the preventive aspects of orthodontics.
- (e) To develop display material for convention purposes and also to develop a folding type of display for the use of speakers attending Home and School meetings.

Two areas in the province were chosen where indication from dentists locally showed the need for dental health educational activity. The Rideau District Dental Society sponsored the first large rally of Home and School and Parent-Teacher Associations in Smith's Falls and again at Almonte. The Guelph and District area was organized with assistance from the local public health dentist. In each case a trip was made for the planning of the organization of this activity. Conferences were held with the local dentists and with executive officers of Home and School, Parent-Teacher groups and Board of Education officials. Television and radio publicity was arranged through the local committee.

A second trip to each area was made at the time of the Dental Health Rally. Service Club appearance was arranged at this time and in Smith's Falls, a Medico-Dental Dinner Meeting was organized on the evening prior to the rally with the local dental society arranging the speaker. This was the first such meeting ever held in the area and was arranged to improve local professional relationships. A final year student was also shown around the area at this time and we interviewed business people, physicians and dentists in the smaller towns. He attended the Lion's Club dinner meeting in Smith's Falls and met the local business men. He also attended the Dental Health Rally at night. He was shown convincing evidence of the opportunities for practice in this area.

A trip to Mattawa was made to discuss the local situation pertaining to the need of dental services. A meeting was held with representatives of local organizations in this community of 4,000 people. The purpose of the trip was to assess local attitudes and to try to find out why a dentist who was influenced to set up practice there, was not supported enough for him to remain. Before another dentist could be expected to locate there, it was pointed out that the community would have to organize a programme of dental health education and offer some form of assurance of support for a dentist to locate there. Returning by way of Ottawa, plans were discussed at a luncheon meeting for the establishment of an active Eastern Ontario Dental Public Health Committee to continue with an educational programme already begun in the two areas mentioned above, as well as in other Ottawa Valley areas included under the Eastern Ontario Dental Society.

Planning for Dental Health Day required much time spent in getting together material for television and radio use. It is clear that great opportunity for the use of these two media lies in being able to provide acceptable material. Beside the use of last year's film spots, two new slides with appropriate announcers scripts, were produced and provided all Ontario television stations. Similar spot announcement radio scripts were produced and provided to the fifty-five Ontario radio stations. When this effort falls within National Health Week, these are widely used as a public service to the community.

DENTAL PUBLIC HEALTH

The commercial value of time given us by one television station alone was \$650.00.

Three scripts were developed for pamphlet material. One is now printed and two more are ready for the printer. New display material was developed for convention use and for use of speakers at Home and School meetings.

The final Dental Seminar was organized and held in St. Catharines. The instructors were Dr. C. D. Beierl and Dr. D. N. J. Macdonald. There was the maximum attendance of twenty and it met with the enthusiastic approval of the local dentists, and also the public health dentist in the county.

Condensed Summary of Activities follows:

Trips out of town:

To Guelph and Kitchener — two trips each. Organizing and holding District Home and School Rally.

To Smith's Falls, Carleton Place and Almonte — Organizing for two Home and School Rallies. (Almonte and Smith's Falls).

To Smith's Falls, Almonte and Arnprior. At time of Medico-Dental Meeting, Smith's Falls Home and School Rally and Student tour of the area.

To St. Catharines — attending Dental Seminar dinner meeting.

To Hamilton — attending Area Conference.

To Cleveland — attending American Public Health Association.

To Mattawa and Ottawa as indicated in the report.

To Arnprior — attending a week's course at the Canadian Civil Defence College.

To Niagara Falls — attending Canadian Society of Dentistry For Children.

Meetings Executive or Committee:

Dental Public Health Committee — five meetings.

Dental Health Officers — Bi-monthly meetings.

Materials Committee — six meetings.

Ontario Public Health Association —

Programme Committee — five meetings.

Board of Directors — four meetings.

Health League of Canada —

Editorial Board — One.

Fluoridation Committee — Three.

Ontario Dental Public Health Council — One.

Ontario Civil Defence Health Services Advisory Committee — One.

Meetings Attended in Interest of Dental Public Health

Annual Meeting of Health League.
Rideau & District Dental Society Meeting.
Area Conference on Public Health.
R.C.I. lecture on "Genetic Hazards of Radiation."
Academy of Dentistry — Winter Clinic
— Stated Meetings (Two)
First Conference on Problems of Ageing — Presented paper on the dental aspects.
Annual Meeting — Ontario Public Health Association.
Annual Meeting — American Public Health Association.
Annual Meeting — Canadian Society of Dentistry for Children.

Dental Public Health Representation at Following Receptions or Dinner Meetings:

Reception by Ontario Public Health Nurses Association, honouring Dr. Edna Moore on her retirement.
Dental Seminar Dinner Meeting — St. Catharines.
Area Conference Dinner Meeting — Hamilton.
Dinner Meeting of Guelph district dentists.
Medico-Dental Dinner Meeting — Smith's Falls.
Academy Opening Dinner Meeting.
Open House — School of Hygiene.
Smith's Falls Lions Club dinner meeting.
Dental Public Health Committee Complimentary Dinner to Graduating Class in Dentistry.

Other Activities:

There are numerous interviews, conferences, telephone calls and correspondence associated with the daily work of the field secretary. Many students and practitioners call for advice and assistance on different problems where we can be of assistance.

Looking ahead:

The principle of working with the local dental societies and stimulating local interest in the dental health education of the public could prove to be the difference between success or failure in launching future plans for health insurance or for a proposed post-payment plan for dental services, operated by the profession. Public Health experience has indicated that the inability to pay cash for dental services is not the greatest deterrent to seeking dental services, especially for children. The first step in prevention, which is the goal of public health, is an enlightened public, who will understand the value of dental health and will appreciate and seek such dentist supervision. This requires a continuing, effectively organized programme of dental public health education. We have important work to do.

GLENN T. MITTON, D.D.S., D.D.P.H.,
Field Secretary, Dental Public Health Committee.

ACTION

Approved Motions: THAT \$150.00 be granted for the Dinner to the Graduating Students given by the Dental Public Health Committee for 1959.

THAT the Report of the Dental Public Health Committee of the O.D.A. be received and adopted.

ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO

BY-LAW No. 89

ENACTED NOVEMBER 27th, 1957

Being a By-Law to Amend By-Law No. 10, Section 1 (f) (g).

Be it enacted a By-Law of the Royal College of Dental Surgeons of Ontario as follows:

That subsection (f) of Section 1 of By-Law No. 10 be amended by deleting the portion "to pass written examinations in the subjects, as specified by the Board of Directors from time to time; and". Subsection (f), Section I of By-Law No. 10 would therefore read as follows:

"(f) If graduates in dentistry of an approved school — the Board will require the applicants to satisfy the examiners in Clinical Dentistry, by Oral and Practical examinations taken in the presence of the examiners."

That subsection (g) of Section 1 of By-Law No. 10 be deleted and substitute in place thereof the following:

"(g) If the applicant is a graduate of a dental school of a British Commonwealth University, holding the Bachelor of Dental Surgery degree to have passed such examinations as the Board may direct."

MISCELLANEOUS

Committee on Staff

Approved THAT Drs. Leckie, Lowery and Langmaid be appointed as a committee to study all facets of establishing a policy to be followed regarding matters pertaining to staff, such as salary scales, pension schemes, vacations, sickness and situations arising from sickness.

Default in Annual Fee

Approved THAT the name of Dr. J. G. S. Macintosh be struck from the register for non-payment of dues.

Dentistry as a Professional Career

The Canadian Dental Association has developed a brochure entitled "Dentistry as a Professional Career".

Approved THAT a copy of the brochure entitled "Dentistry as a Professional Career" be distributed to the vocational guidance counsellors of the high schools of Ontario, distribution to be made in mid-September, 1958.

Dr. Strachan Resigns as C.D.A. Governor

Approved THAT this Board accepts with regret the resignation of Dr. C. L. Strachan from the Board of Governors of the C.D.A.

Dr. Lloyd M. Grose Succeeds Dr. Strachan

Approved THAT Dr. Lloyd M. Grose be appointed to the Board of Governors of the C.D.A.

O.D.A. Centenary Fund

Approved THAT the grant to the Centenary Fund of the O.D.A. be left in abeyance but with the recommendation that when the Board is in a better financial position further consideration be given to the support of this Centenary Fund.

REGULATIONS

SIGNS

A member of the Royal College of Dental Surgeons, in connection with his profession:—

1. May not display any sign containing anything other than his name, degrees and profession and in which any letters larger than four inches are used.

2. May not display more than two signs in addition to one at or on his entrance door.

(a) Not more than one of these may be a suspended sign.

(b) Not more than one of these may be an illuminated sign and if illuminated must not be intermittent, daylight, "Neon" or "Neon type" and no colours shall appear in such signs other than white or black.

3. May not display any sign on premises other than those in which his practice is actually carried on.

Notwithstanding the above regulations he may (using only un-illuminated letters or figures not larger than two inches):

(a) Add to his entrance sign, his office hours.

(b) Add to any sign the words "Open Evenings" and (when an entrance is difficult to find) the words "Entrance on . . ."

PROFESSIONAL CARDS AND ANNOUNCEMENTS

A member of the Royal College of Dental Surgeons, in connection with his practice:—

1. May not permit to appear in any newspaper or other publication, printed or written for distribution or display anything other than his professional card (which may contain at most his name, title or degrees, profession, address, telephone number and office hours) or an announcement of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice. The announcement shall not contain any reference to qualifications, procedure or equipment. The space used, for either card or announcement, must not exceed one column (13 ems) in width by two inches in length and must not be the nature of a display.

2. He may, however, observing the dignity and ethics of the profession, without reference to qualifications, procedure or equipment:

(a) Use private professional cards.

(b) Issue accounts and receipts.

(c) Issue appointment cards.

(d) Mail to his patients recall notices.

(e) Mail to his patients and acquaintances announcements of his commencement of practice, change of office location, absence from or return to practice or the restriction of his practice, provided he is a certified specialist.

SOLICITED ADVERTISING

For the protection of the Profession from solicited advertising, this Board prohibits any Member of the Royal College of Dental Surgeons from inserting his professional card in hand-bills, programmes, year books or other printed matter of like character.

TAKING OVER A PRACTICE

When any member of the Royal College of Dental Surgeons takes over the practice or office of another member of the College, either by purchase or otherwise, the member so acquiring the said practice or office shall not after one year from the date of such acquisition use any sign or printed matter which suggests to the public that the retiring member was in any way associated or connected with the said practice or office.

RE LISTING OF DENTIST IN TELEPHONE DIRECTORIES FOR PROVINCE OF ONTARIO

- (1) No display advertising of any kind.
- (2) No black face listings in the yellow pages.
- (3) No specialists' lists under separate group headings.
- (4) Mention of office hours is of no particular value, and is usually used only to increase space, therefore, to be excluded.
- (5) Mention of particular facilities or equipment, such as X-ray, gas extractions, etc., not acceptable in either section.
- (6) Residence listing on yellow pages, as well as on white pages, is acceptable.
- (7) Designation as specialists may be used in both yellow and white pages, provided the dentist is a specialist certified in and restricted to the designated branch of dentistry.
